I have accepted the fact that it is already dead and frozen to the ground.

I've been driving back and forth so everything on the home front is good.

Going to be weird never seeing collins rd again :(

There are 56 trucks that will need to go back. So most likely will need to be a couple trips for people. I don't know many drivers Penske will be sending up, Steve will know more in the morning.

The trucks are being unloaded tonight and will be free to go starting tomorrow.

Subject: SBA in Flint

Renee, Bri, Joel.

Please host some discussion with this in mind as to required deadlines, etc. MDARD is asking in specific, should food establishments get positive testing, there may be inquiries about eligibility for SBA.

Good Afternoon Kent,

I have been in contact with Gary Davisson from the SBA Office of Disaster Assistance. Based on my discussion SBA is not actively engaged in this event. Additionally, the State is not eligible for an SBA declaration if they are still pursuing assistance from FEMA through a major declaration. If an appeal for a major declaration is disapproved they can pursue a stand-alone declaration from SBA.

Please let me know if you have any additional questions.

V/r,

Jason

Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

Subject: FW: Flint, Michigan AND DONATIONS

LEGAL ADVICE

Dear Fred,
I have the following advice regarding DONATIONS. Can you kindly make sure the State is aware of this so they are not wasting resources documenting donations that are not eligible to be used for cost-share.

The President authorized FEMA to assist with Direct Federal Assistance (DFA) only. This DFA is specifically limited to providing "water, water filters, water filter cartridges, water test kits, and other necessary related items " For short-hand, we are calling the items commodities.

The fair market value of the commodities, as in-kind donations, specifically: water, water filters, water filter cartridges, water test kits, and other necessary related items-- may be used to offset the State's cost share matching requirements in accordance with the provisions of 2 CFR 200.306 (cost sharing or matching).

Donations can be used in this capacity if they meet all of the following criteria:

(1) Are verifiable from the non-Federal entity's records;

(2) Are not included as contributions for any other Federal award;

(3) Are necessary and reasonable for accomplishment of project or program objectives;

(4) Are allowable under Subpart E-Cost Principles of this part;

(5) Are not paid by the Federal Government under another Federal award, except where the Federal statute authorizing a program specifically provides that Federal funds made available for such program can be applied to matching or cost sharing requirements of other Federal programs;

(6) Are provided for in the approved budget when required by the Federal awarding agency; and

(7) Conform to other provisions of this part, as applicable.

Per the PA Program and Policy Guide's section for "Donated Resources starting on page 35 (http://www.fema.gov/media-library-data/1450731692803-0f8b5acf29b7812b46d342b168f5be68/PA_Program_and_Policy_Guide_12-21_Update.pdf):

The applicant may apply the offset if all of the following conditions are met:

1) The donated resource(s) is from a third party (a private entity or individual that is not involved in the Federal award, i.e., not from the State government);
2) The applicant uses the resource in performance of eligible Emergency Work; and
3) The applicant or volunteer organization tracks the resource, including description, donor, etc.

The offset for donated commodities will be based on current commercial rates, which FEMA validates based on invoices from previous purchases or information available from vendors in the area (See page 36 of the PA Program and Policy Guide and 2 CFR 200.306(g)). *This will be the same for "other necessary related items" if assistance in this category is* supplied by FEMA.

Eligible offset donations must track the commodities FEMA is providing. Items that fall into the "other necessary related items" category will, at a minimum, need to be something that FEMA provides first, under the authority of this declaration. In other words, if FEMA is not already providing something under the category of this other language, there is no ability for donation cost-share offset.

What this category means will be decided on a case-by-case basis.

Subject: bullet points

Just things we talked about.

Using stores who normally stock the water and filtration devices.
Same stores would have "gift" card. Card is loaded periodically with specific commodity codes.
Would have to ensure store stays stocked.
Still work with home delivery services to provide to home bound.

We did talk about keeping the pods, and warehouse going while water was involved.
Water be supplied until the "all good" given, then no more purchases and disperse the inventories (water & filters) until gone.

Drawing attached.

Don't use the term bridge card and don't compare to bridge card.

Subject: warehouse pod logistics

Good afternoon,

As part of our long range planning and community based pod transitions, if any of you who are involved in the logistics end or have that info for PODs and warehouses, I need any logistical/planning assumptions/criteria that you've used in identifying or operating warehouses, distribution centers, PODs, hubs, and smaller distribution centers. You may not have all these. Or you may have many more I'm not thinking of. Any you have would be very helpful! For example:

Storage area size
How many pallet jacks
How many forklifts
What accessibility requirements for loading and/or customer access
Distance between loading points and customer access points
Parking spaces
Drive through capability, etc.

Whatever clarifying questions you need, please ask. And so that we can continue our planning efforts and respond to our deadlines, if there's any way you could provide this to me by noon tomorrow (Wednesday), that would be very much appreciated. If you don't have anything, please just let me know, or who might if it's someone not on this distribution list.

Thank you,

Subject: Flint-Kroger site

Jeanette,

Just spoke with the Landlord, he will make two (2) keys, in the meantime you can go to a place in the plaza named Wigland and speak with a person named Sunshine (not kidding), who has a key to the store and knows where the lights are located and or the electrical boxes to operate the building.

He also asked me to have you call Consumers Energy to change the account (there are 3 meters in the building). Please call Joy Wicklebach or Winklebach at 800-805-0490 and ask her to switch 2629 W. Pierson Road power to the State of Michigan.

Also ask them to activate the lighted sign out front if you want to have a sign put up announcing your location. That is separately metered also and costs $22.00 per month.

I think that's all, I let him know to keep three banks of shelving instead of one.

Maureen

Wendy,

Great job at getting the warehouse secured!! Whoo hoo!!`

Chad and I will check to see if there is an option for the Adventist to assist with staffing - I am not so sure they will do the entire component. I am thinking we may want to have another option. Is it possible to do what we are doing at the Clio Warehouse - with prison release time? Do we have the option of having another Bonnie? (she is amazing) I am thinking it may be able to be stood up quicker if it is staffed by people who are paid/provided release time.

Another question:

If this warehouse is going to serve as a distribution center, will there be an option to have National Guard members there to assist with the distribution of products and maintain safety?

Subject: WAREHOUSE APPROVED!!!

Jeanette! It's been approved by the Governor's office. Can you work first thing with the Maureen to secure the lease? We will want month-to-month, full access to the entire building, as well as the parking lot. Also, Ramsey mentioned we could have use of the forklifts and pallet jacks. Another thing, we will need 99% of the shelving removed. I think the coolers can stay, but probably not the freezers.

Thanks so much Jeanette! This is so exciting!!!

Chad, if you could please proceed with getting the Adventists to staff it?

Just an FYI for everyone else.

Hey Dave and Ginna,

Good morning! Any chance you can be available for a 1 pm meeting today to discuss the overall process and tracking of volunteers? I'm just trying to get everyone together so we can get the process down on paper so everyone requesting volunteers can be on the same page, and so the SEOC can have a big picture view every day of the volunteers in the field (no matter what they are doing!).

If this works, I will see you at the local EOC at 1 pm. Lt. Roach, Chris and Capt. Tafoya will also be there. I'll be running the meeting and hope we can nail it down in an hour or so, then I can head back and get it all on paper this afternoon /evening.

Thanks for your help in getting this all worked out!

Subject: Section 8 housing

1. **nayyirah shariff** @nayyirahshariff 3h3 hours ago

Slidell Senior Resident Apartments (2201 W. Carpenter Rd Flint MI 48505) is senior section 8 housing #FlintWaterCrisis

Even in the midst of this "relief" we have public and section 8 housing ignored once again #FlintWaterCrisis

Subject: Meeting Today

Hey Dave and Ginna,

Good morning! Any chance you can be available for a 1 pm meeting today to discuss the overall process and tracking of volunteers? I'm just trying to get everyone together so we can get the process down on paper so everyone requesting volunteers can be on the same page, and so the SEOC can have a big picture view every day of the volunteers in the field (no matter what they are doing!).

If this works, I will see you at the local EOC at 1 pm. Lt. Roach, Chris and Capt. Tafoya will also be there. I'll be running the meeting and hope we can nail it down in an hour or so, then I can head back and get it all on paper this afternoon /evening.

Thanks for your help in getting this all worked out!

Bri

Subject: Rapid Response Teams

Brianna,
Wendy and I talked yesterday and she would like me to serve as the point of contact for the Volunteer teams for the SEOC. Please call and we can talk about what you recommend this could look like from your perspective.

A few items to discuss:

1. VOAD teams -

- there are three teams who have been helping with the effort so far - ARC, Team Rubicon, and Islamic Relief. We can determine if there would be value in having others requested to come assist.
- Because there are multiple teams, I would like to discuss how we communicate with them and provide them with their information.
- Right now, you give the information directly to Red Cross, let's determine if this is what you think is the best way to proceed.
- *Team Rubicon got their information from Chris - I am trying to understand if you have* been receiving updates on their work and if there is a strategy.
- Islamic Relief went to the REd Cross - their was confusion and the EOC did not realize they were a VOAD. Red Cross asked for trucks for them to do deliveries and Wendy did not know of it and so she understandably denied the trucks. It caused a bit of confusion.
- In the future, I would like us to have a process to make sure that all VOADs go through both the EOC and SEOC - with us being a point of contact.

Rapid Response Teams

- Chris from the EOC has some ideas of the next steps.
- I would like to discuss these with you - as he feels that the vulnerable poplulation needs to be addressed.
- It is his understanding that there are 8,000 more that need to be supported. If this is *correct, his request is to have these individuals served next before the apartment* buildings.
- I think if we do identify that there are people who have not been served on that list, it would make sense to have them be the high priority.

Future Volunteer Teams and Deliveries

- I would like to discuss options for what volunteer teams can be doing.
- Right now water delivery may be the highest need - especially with the recent report about filtered watered being a concern.
- We will need to discuss how deliveries can be strategic and identify the population to serve.

Additional Volunteer opportunities

- *I am trying to understand what volunteers can do - the VRC currently has a list of things* - deliveries, data entry, water testing kits assembly.
- Is the data entry complete from the red cross earlier going out in the field?

Please call as soon as you can and so we can discuss options before the 1:00 planning call.

Subject: Fwd: update

This is the document that Ginna put together for me. Gives me everything I need. This is all I asked her to do. And I asked her because she is the ONLY one that stepped up to help. Sorry for all the confusion. She's not and never intended to give the teams routes. The only thing I care about is what resources are going to be needed. The rest I would imagine would be valuable to you who has to tell Capt who's out there.

This is so frustrating. If I want an inventory, I go to one person. If I want a list of donations, I go to one person. But for some reason asking to go to one person for volunteers is too much to ask. People get all upset about it. I never meant to cause problems, but this part of the response is beyond jacked up! Thanks Bri

Subject: FW: Teams/Volunteer Coordination

Importance: High

Hi Wendy,

Recovery has not been part of the rapid response team assignments but I did speak to Dave G. with ARC and he mentioned keeping 5 ERVS for Rapid Response and 5 for the door to door missions. We feel that they will be almost done with the remaining addresses (not visited/no filter) tomorrow and Monday – then the next phase for us would be the 5 remaining ERVs to visit all of the apartment complexes per Capt's request.

We should have the list compiled today, no later than tomorrow. Most of the apartments have been visited in some fashion but we need the parcels to be marked as multi tenant and confirm that a team went there.

Let me know if you need more information from us.

Thanks,

Carly (and Stacy)

Subject: Teams/Volunteer Coordination
Importance: High

Good morning (almost afternoon) everyone,

There has been some confusion with all the teams/volunteers out today. I just want to make sure going forward that we coordinate these a little better. Not to approve or deny, but just to ensure there is no overlap and everyone is on the same page.

I was just told that the ARC groups that are resupplying from the Home Depot have no standards on what they are distributing and to whom, Dave, can you clarify? For instance, is it one case per person or multiple? And where are they distributing? What's the strategy?

Also, I'm told that citizens are treating the Home Depot as a POD and just picking up their water from there. True? I was under the impression the volunteers were loading their trucks from there but not citizens. We went through 2 semi loads in an hour.

Again, it is my job to ensure there are enough supplies, if there isn't a plan in place then I have no way of anticipating needs and supplies.

For the local EOC teams/volunteers, what is the strategy for those? I'm told they aren't doing distribution but going in and installing filters in homes, is this correct? Are there any needs from them other than the 5 trucks that were requested this morning?

Again, I don't want to control your teams, the SEOC does not need to approve or deny them, but we are asked questions by command that we need to answer. I also need to ensure there are enough supplies. I know that we all get a lot of pressure from the Governor and others to put volunteers to work, but we need it to be coordinated.

For Carly and Jay, what is the plan for the Rapid Request teams next week? Do we have one? Will ARC be needed? What resources will you need? I.e., trucks, drivers?

May I get a list of all the volunteers/teams out there today and tomorrow and what they will need? You can use the below template if you wish. Please have this to me by 4 p.m. today.

Team (ARC/EOC)	Group	# of volunteers	Commodities Needed	Resources needed (Vehicle? Driver? Pallet Jack?)	Date needed

Thanks so much everyone.

Hey Phil-

A few other to consider sharing:

- There is a weekly community partners meeting. They meet Thursdays at 3pm (same as the NVOAD Call). If national organizations have local folks who would like to attend, they're free to do so. Moreover, this group is going to be organizing 6 sub-groups for long-term needs: (1) health, (2) mental health, (3) communication, (4) command and control, (5) education, and (6) distribution.

- Michigan VOAD is hosting weekly calls. All are welcome. The next call is scheduled for Tuesday at 2pm Eastern. (

Pre-decisional not for further distribution Brianna & Phil,

We really appreciate you being able to jump on this afternoon's National VOAD Bi-Weekly Operations Call. The full agenda is at the bottom of this email. I asked to have Flint report out first so that you can jump off the call if need be.

Some potential talking points below. Brianna, feel free to report out on anything you'd like from the state side – please do not feel like you need to stick to talking points below. These are just ideas. Just a reminder that some of the national partners on this call may not be familiar with anything going on, so starting high level about activities would be helpful.

Brianna –

- State EOC is fully activated with many state agencies represented

- Distributing water, water filters, replacement filter cartridges, water tests kits through door-to-door canvassing, POD distribution, etc

- The state has been partnering with many voluntary agencies to accomplish this mission

- Working closely with Red Cross Volunteer Reception Center to engage volunteers in this canvassing efforts

- Any additional details or statistics you may be able to provide. I usually stick to approved stats in State Press Releases. Attached is the state press release from today:

o Since Jan. 9, 2016, the following resources have been distributed to residents, both at the water resource sites and by water response teams:

o 196,456 cases of water

o 95,417 water filters

o 30,255 water testing kits

- *Some of the next steps include the launching of a recycling program today at an 11:30 media event (attached media advisory)*

- Working to transition distribution of commodities to local voluntary agencies; working closely with them to develop a sustainable plan and model for future distribution

Phil- attached are FEMA's internal daily talking points for questions you may get.

- Start with EM Dec overview

o On January 16, 2016, President Barack Obama declared an emergency for Genesee County in the State of Michigan, limited to Direct Federal Assistance, as a result of the emergency conditions resulting from contaminated water in the city of Flint, authorizing FEMA to support the state in its efforts to respond to the incident.

o Under this emergency declaration, FEMA is authorized to provide emergency protective measures, Category B, limited to Direct Federal Assistance, under the Public Assistance program limited to 75 percent of the total eligible costs. FEMA will, in coordination with the state, provide water, water filters, water filter cartridges, testing kits, and other necessary related items for a period of up to 90 days from the date of this declaration. We will also provide technical assistance to the state.

- Current number of commodities purchased by the state:

- As of COB January 27, 2016, the following commodities were requested by and provided to the state of Michigan in support of the response to the emergency conditions resulting from contaminated water in the city of Flint.

o 844,200 liters of water

o 102,520 water filter replacement cartridges

o 5,000-23 cup water dispenser & filtration systems (ZeroWater)

o 30,000 water filters

- HHS efforts

- On January 19, 2016, the U.S. Department of Health and Human Services (HHS) was designated as the lead federal agency responsible for coordinating federal government response and recovery efforts in Flint, Michigan.

- FEMA will support HHS as needed to identify and mobilize the capabilities of the rest of the federal partners – including the Small Business Administration, the Environmental Protection Agency (EPA), the Department of Housing and Urban Development (HUD) and the Department of Agriculture (USDA), and others—that are already working to help residents in Flint.

I hope this helps! If you have any questions please reach out. I will be on the road to Flint but will monitor my BB.

Thanks,

Katie

REMINDER: Bi-Weekly Call Tomorrow

Dear Members and Partners,
Our next bi-weekly operations call will be held tomorrow, January 28th at 3PM EST. Our goal is to provide a platform for communication and collaboration between members and partners. Please report out unmet needs you are experiencing in relation to Flint, Michigan, Winter Storm Jonas, Texas, Mississippi, Missouri and California. Updates of your current activities can be posted to VOADNet/Yammer.
In an effort to make this call as productive as possible and foster collaboration, please report out the following:
1. Brief overview of current operations
2. Resources available
3. Unmet needs
Purpose: To promote information sharing and operational coordination among VOAD Members and Partners. Please provide information regarding where you are responding, any unmet needs and/or available resources.
Audience: Members and Partners responding or interested in responding shared unmet needs and available resources for response and recovery to the following:

* Flint, Michigan
* Winter Storm Jonas

* Texas and Mississippi tornadoes
* Midwest Floods including Missouri and Illinois
* South Carolina
* Other

Briggs, Brianna (MSP)

From: Moran, Regina <Regina.Moran@fema.dhs.gov>
Sent: Friday, February 05, 2016 8:03 AM
To: Briggs, Brianna (MSP); Weber, Thomas (MSP); Gamble, Jason
Subject: RE: DRAFT Proposed Local Hire Program

Brianna,
I think this is a fantastic start! My biggest suggestion would be to spell out requirements for job success (training, certification in certain classes, in-person supervision, etc). Beyond that, we may want to spell out some of the things that may not be obvious to an outsider reviewer. Such as, what goes into warehouse management? What does that mean? Goods sorting, palletizing commodities, loading/unloading... things like that. I think it's just breaking down the duties at each of these locations, and the different types of jobs (supervisor, onload/offload support, etc.).

Just suggestions!

Predecisional; not for further distribution

Draft attached of the local hire program. I added the Recycling Operations, but I think we'll need to talk to the local EOC to see what this looks like, unless either of you have a better idea. Let me know if I'm way off base here. I tried to encompass all the needs we might have. I included trucks for handling of distribution to the church hubs from the warehouse.

I'm leaving for the night, but feel free to share comments. I'd like to get this to Maggie by 9ish tomorrow morning. I'll be in first thing tomorrow.

Thanks,
Brianna

Good afternoon! I'm following up on this item for Tom.

This request came from the White House's Office of Public Engagement, and they would like direction on what they can provide celebrities who reach out to them. If you find the answer below still the most appropriate, we can pass that information along.

They also wondered if we had "canned" tweets or social messaging we could provide them that could be used by celebrities to help us with messaging for this event. Do we have anything like this we could provide, or is this something we should entertain?

Feel free to call my cell if you have any questions.

Thanks for all your help!

Subject: RE: 5 Box Truck Request - Islamic Relief

On this end. The NCCC teams will be going with ARC in their ERV's the Islamic relief will be using 5 this Saturday. After the Islamic Relief is gone the trucks will not be used again by the Local EOC until next Thursday when the Southern Baptists show up.

Just our thoughts.

We are now paying (2/1) $225 a week plus .12 a mile for the trucks. We need to find out how much longer the trucks will be needed and if all are being used and by whom.

> To start...we have a new location for the Community Partners Meeting. We will be meeting tomorrow, February 4th, 3:00 p.m. at the Food Bank of Eastern Michigan's Hunger Solution Center on Howard

Ave. For GPS, use the address of 1938 Howard Ave. to find the entrance. Thank you to Bill and Kara for donating their space.

We expect to start this meeting promptly at 3:00 p.m., and expect a number of people to attend. The goal of the meeting is to quickly break into groups surrounding five areas...Water Resources, Education, Physical Health, Mental Health and Communication...and, create resource networks around each area based on of your skill sets, and work each of you are already doing for the Flint water issue.

Please distribute this to anyone you think should attend. The meeting is open to anyone working on this issue, large or small.

Attached, please find the minutes from last Thursday's meeting, and an updated list of those who have participated in this group, thus far.

Let me know if you have any questions. Otherwise, I look forward to seeing you tomorrow.

Hello everyone,

I apologize that I have not sent this e-mail out sooner. I am still working on a new location for our next meeting, and will let you know as soon as I have a place set. However, our next meeting is still scheduled for this Thursday, February 4th at 3:00 p.m.

As promised, I have attached a number of documents to this e-mail. They are...

1. Minutes from last Thursday's meeting
2. Volunteer Request Form for any organization that needs event based volunteers from the Community Volunteer Reception Center. (Also, please remember that groups interested in volunteering in the work that is being done around the water crisis should visit www.flintvolunteer.org)
3. Updated contact list for the Community Partners Meetings
4. Catholic Charities support group for those affected by the water crisis
5. Long term community recovery model (introduced at last week's meeting)

Finally, remember that tomorrow (Monday), there will be a rally at First Trinity Missionary Baptist Church (1226 Beach St., Flint, MI)...at 12:00 p.m. Everyone is invited.

Hope to see everyone on Thursday. Take care.

Subject: Adventists

I figured I would include more people in this conversation. At this point, Charlene, National Director for the Adventists, is engaging at the SEOC and FEMA level. And her questions relate to donations and warehouse management. I am handing this off to the group to help her engage, please. See the notes below.

Subject: RE: Flint water crisis
Importance: High

I spoke with Charlene just a bit ago (thank you Charlene!). She is going to reach out to the local Adventist leadership today, as well as reaching out to the FEMA VAL (Regina). I want to highlight some points to address from the conversation. Charlene, please feel free to correct any errors or misinterpretations!

- Obviously, the Adventists will need to be asked to assist, formally, and some sort of MOU will be needed or confirmed if it comes through an existing relationship (e.g.: FEMA)
- Their focus is truly donations management. They are not merely a warehouse staffing source, but that is part of the overall picture and scope for their organization to address. In order to assist, Charlene is asking for the specifics on the warehousing and who she can speak with that could answer some questions (I am not part of that level of detail). Brianna or Tom, who would she speak with for the details of the big picture (warehouses, donations, etc.)?

- Moreover, at what point would she and the Adventists engage as part of this support, should a formal ask is made?
- Charlene can be contacted at: 661-477-3202

I hope this helps!

Chad

Subject: Flint water crisis

Hi Charlene,

Jeannie was able to give me your email address to get a discussion going on warehousing support for the Flint water crisis. I'm the State VAL, and we're definitely open to support on the warehousing end of things! A few of the items that are on our list of questions would include:

- Potential commitment to warehouse management for an overflow space
- Length of potential commitment (Suggest, one year?)
- Requirements if committed: Only palletized parcels, or willingness to sort and palletize?
- Capacity of local volunteers and potential managers
- Plan/requirements for on-site training of a local team
- If only staffing option is to bring in a trained team from outside the area, what are the requirements (ie. volunteer housing)?
- Equipment needs/requirements

Again, thanks so much for your interest. I look forward to speaking with you very soon!

We do not have anything specific for celebrities. I would refer them to our existing resources:
Email FlintDonations@michigan.gov or calling 517-420-4162 for
Or
http://www.helpforflint.com/

Otherwise, we risk every "celebrity" thinking they will get special treatment.

From: Governor's Office <governorsoffice@govsubscriptions.michigan.gov>
Sent: Wednesday, February 03, 2016 6:11 PM
To: Briggs, Brianna (MSP)
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments

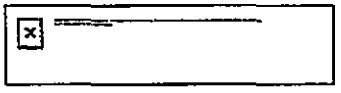
When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.



We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at www.mi.gov/flintwater. **Click here to watch the video.**

I'd suggest holding off on that information because (1) it might be too busy for a map we've only socialized once before, and (2) the main goal is getting more of those locations up there (food bank, catholic charities, etc.). Just a suggestion, for now.

Thanks Jeannie,

Not to throw too much of a wrench in. I forgot to add the Flint PD service centers. They are on the attached revised spreadsheet.

No addresses, no map – clear.
If there's any way I could have it by 11am tomorrow that would be great (for the 1pm meeting)
Socio-economic... since I'm not sure what's available...any thoughts or ideas? I don't want the map too busy, but we might take a look at poverty rates, but that may make the map too busy. Any other ideas that would allow it to maintain easy reading?

Thanks Tom,
We can do this. Just so we're clear:

- You don't want to overlay any socio-economic info? There was chatter about that last meeting.
- When do you need this by?
- Those without address (there's 7) won't be mapped

Thanks,
Jeannie

Hello All!

Tomorrow we will be adding Bridget Spencer and Mike Farmer from MDOC to our recovery staff. We are going to create the schedule for the next week or so tomorrow (and will get that to everyone and Logistics asap). For the rest of this week the schedule is below:

Thursday 2/4
Carly 8-8
Mike/Bridget 8-5 (ish)
Renee 2-8 (confirming)

Friday 2/5
Stacy 8-5
Mike 2-8
Bridget (confirming)

Saturday 2/6
Mike 8-8
Renee 12-8

Sunday *Subject to change ☺ 2/7
Carly 8-5
Bri 12-8

Thanks,

Carly

Subject: Update on HUD Mandatory Water Testing

Harvey,

Pursuant to emails with Mel Brown, I wanted to update you with regard to what we know about mandatory HUD water testing of HUD financed apartments in the City of Flint:

- Attached is correspondence that HUD sent to HUD financed apartment complex properties requiring property managers to install water filters.
- In addition to this letter, HUD staff informed MSHDA staff yesterday that water testing was mandatory for HUD properties. We're seeking written clarification on mandatory water testing from HUD and will share this information when received.
- MSHDA will be reaching out this week to MSHDA financed rental properties and following suit. MSP has provided us with locations of where testing material can be obtained and we'll be communicating with property managers as to where they can attain these materials and required testing. If you have any concerns or issues with us taking this direction, please let us know.
- NOTE: The HUD properties that Pastor Woods has contacted you about are properties administered through the Flint Housing Commission with HUD related resources. These are not MSHDA properties.

I have copied our Chief Housing Investment Officer, Michele Wildman as well as Daphne Wells from MSHDA who recently communicated with HUD about water testing. If you need any further information or have more questions, don't hesitate to contact me, Michele or Daphne.

Knowing that you were heading to a meeting with Pastor Woods, I wanted to get you the most recent information available. Updates will follow as more information is gathered.

Brian.

Subject: RE: warehouse pod logistics

Here's what we currently have for logistics of these items. If you have anything else to add, that would be great. I believe this looks like a pretty good list.

Warehouse

- Drivers
- Trucks 9- 20' or longer, 1 electric pallet jack, lift gate
- Trucks 16' Penske for Rapid Response Calls, lift gate
- 5 electric pallet jacks
- 6 manual pallet jacks
- 3 forklifts
- 1 laptop, 1 phone, 1 printer, office supplies
- Packing tape, shrink wrap, dispensers, cardboard pallet boxes to stabilize stacks of water
- 23 staff/100,000 sq. ft. warehouse
- *Drivers for vehicles over 26k lbs require CDL*
- Forklift operators must be certified.
- Pallet sizes 40x48
- Box cutters, side snips, etc to break down pallets and packing material
- Disposal arrangements

PODs

- Loading dock or level sidewalk with smooth transition to storage area for pallet jack operation
- Manual and/or electric pallet jack
- If storage areas are not indoors, an outdoor forklift or skyjack would be required.

Subject: warehouse pod logistics

Good afternoon,

As part of our long range planning and community based pod transitions, if any of you who are involved in the logistics end or have that info for PODs and warehouses, I need any logistical/planning assumptions/criteria that you've used in identifying or operating warehouses, distribution centers, PODs, hubs, and smaller distribution centers. You may not have all these. Or you may have many more I'm not thinking of. Any you have would be very helpful! For example:

Storage area size
How many pallet jacks
How many forklifts
What accessibility requirements for loading and/or customer access
Distance between loading points and customer access points
Parking spaces
Drive through capability, etc.

Whatever clarifying questions you need, please ask. And so that we can continue our planning efforts and respond to our deadlines, if there's any way you could provide this to me by noon tomorrow (Wednesday), that would be very much appreciated. If you don't have anything, please just let me know, or who might if it's someone not on this distribution list.

Thank you,

Lynn, I'm writing to introduce you to Jason Gamble, FEMA Operations Chief, and Brianna Briggs who is working on some long term plans with me for the Flint water crisis. They are looking at the possibilities/logistics of putting in place some hiring processes/plans for additional workforce that may be needed in Flint to help in the ongoing response and resourcing of commodities to the community. I wanted to make the introduction as I think you'd be the right person to get us in touch with the talent and unemployment side of MTED.

Thanks, and please let me know if you have any questions or needs.

Subject: RE: Flint water/jobs

Good morning, Brianna.
I reached out to Stephanie Comai this morning...I am just waiting for a call back from her on an appropriate contact. I will let you know as soon as we have a response.

Best,
Lynne

Importance: High

Lynne,

If possible, I'd like to meet on this today, either later this morning or early this afternoon. Is it possible to connect me with the right person at MTED this morning? I'll try to follow up with a phone call shortly. My cell phone number is [redacted]. Feel free to call if you need anything.

Thanks for your help on this.

Brianna

Subject: Flint water/jobs

Lynn, I'm writing to introduce you to Jason Gamble, FEMA Operations Chief, and Brianna Briggs who is working on some long term plans with me for the Flint water crisis. They are looking at the possibilities/logistics of putting in place some

hiring processes/plans for additional workforce that may be needed in Flint to help in the ongoing response and resourcing of commodities to the community. I wanted to make the introduction as I think you'd be the right person to get us in touch with the talent and unemployment side of MTED.

Thanks, and please let me know if you have any questions or needs.

Good morning, Tom....and thank you for the virtual introduction!

I have a call in to our TIA group and will secure an appropriate contact. What is your timeframe? (I am guessing they may tap the MichiganWorks! team to assist, but I want to check with Stephanie to confirm).

Best,
Lynne

Paulette,

Thanks so much for your engagement with this. All the help and advice is truly appreciated! I've also copied Brianna, who was on the call with me last night. I'll be out of the office much of tomorrow, and Brianna may be able to assist with any immediate concerns.

1. For faith organizations, if they have a local presence, the Thursday 3-5pm meetings would be ideal. This group has been growing, and so this week, the location will be moving to a larger venue. We think UofM-Flint, but that isn't verified yet. I can make sure you get the information as soon as we have it. A sample verbiage would be: "Community Partners Water Crisis Response in Flint meets each Thursday from 3pm to 5pm at the XXYYZZ, Address. This is a broad based coalition of community partners, faith based organizations, food banks, schools, health coalitions and advocacy groups. The focus is on coordination and communication among partners in response to the Flint water crisis. The group is rapidly expanding and focusing on long term recovery strategies."

2. I'm working on a contact for Community and Faith Based Initiatives. As far as some standard text for them and/or celebrities to use, those look good, with just a few minor edits:

3. I'm checking with the JIC on the best contact at the state for celebrities and should have an answer for you early tomorrow. Of course, providing them the information below too will be great, as I'm sure many of them are interested in going direct with the community.

If You Want to Help (either donations or volunteering):
- Michigan Governor's site: "How to Help" links people to: >http://www.helpforflint.com/<
- Donation guidelines PDF:
>http://www.michigan.gov/documents/flintwater/Guidelines_for_Water_Donations_Drives_511685_7.pdf<

- Flint Child Health & Development Fund of The Community Foundation of Greater Flint (donations for both immediate and long term needs of Flint children):
>https://www.cfgf.org/cfgf/GoodWork/FlintArea/WaterCrisis/tabid/855/Default.aspx<
- Genesee United Way (providing numerous services, coordination with volunteers and 2-1-1 services, and support to community partners): >http://www.unitedwaygenesee.org/civicrm/contribute/transact?reset=1&id=5<
- American Red Cross (assisting with water and filter distribution): >http://www.redcross.org/local/mi<
- Good360 (serving a variety of Flint area non-profits): >https://good360.org/flint-michigan/<
- Catholic Charities Flint (serving smaller organizations with smaller donations of water):
>http://www.catholiccharitiesflint.org/flint-water-crisis/<
- Food Bank of Eastern Michigan (providing food and water to numerous Flint area partners): >www.fbem.org<
- Volunteer in Flint: >http://www.flintvolunteer.com/volunteer-opportunities.html<
- Volunteer in MI: >http://www.redcross.org/local/mi/volunteer<
- More unusual ways to donate such as Plumbers & Pipefitters and the UAW, please contact the : not sure who they would contact, local EOC?
- There are many other organizations and faith based communities supporting Flint. If you have a favorite charity, you may check with them to see if they or a local partner are active in supporting Flint.

If you identify a problem in Flint:
- Individuals can relay specific unmet needs directly to local emergency management by dialing 211, more information here: >http://www.centralmichigan211.org/<
- Organizations can join the local Community Partners Water Crisis Response meeting in Flint every Thursday from 3-5pm to meet up with NGO's and representatives from the government. Location TBD??

Red Cross Site Links:
Post about Flint: >http://www.redcross.org/news/article/Red-Cross-Coordinates-Volunteer-Community-Response<

As the community partners develop some messaging strategies too, I'll be happy to pass along that information. They were just initiating that conversation last week.

Thanks again Paulette, and we'll follow up with the additional details as soon as we have them!

Thank you so much for your help Jeannie - I really appreciate it.

Tom, thank you for all of your efforts. I'm sure you are working around the clock right now, but if you have time for a brief (maybe 10 mins?) call, I wanted to see if there are a few things NGO's can be helpful with.

Stefani, cc'd here could set up a call time. Nights after 730/8pm can work if you are swamped during the day.

Hey P,

Sorry for the delay! I meant to send you this information earlier, but the days here go very quickly!

There is a Community Partners Water Crisis Response meeting in Flint every Thursday from 3-5pm. In the past, it's been held at the Red Cross facility, but the group is getting a bit too large for that location, so they plan to pick a new place for the meeting on 2/4. I will ensure that you are provided with the meeting location after it has been determined.

You used the terminology "Town Hall" which isn't what happens at this weekly meeting. They're run by a network of NGOs who are actively responding to the disaster, and typically focus on current activities and forward planning by the community partners and stakeholders. While there are usually government folks in the room, it's truly a meeting led and supported by community partners. I remember you mentioning that there are faith-based contacts who are interested in coordinating with existing efforts, and I think this meeting would be a great place to start that.

As I mentioned on the call, the role of the FEMA VALs (Phil and I) is very limited compared to other disasters. This is very much a commodities operation, and we're supporting our state counterparts. I sang the praises of our State VAL here, Tom Weber, and I meant it. He's very, very strong.

If you have any future questions about FEMA's involvement/role here in Michigan, our FCO is David Samaniego. He's very accessible and knowledgeable about the bigger picture. His contact information: david.samaniego@fema.dhs.gov

I'm glad to hear all is well over there, despite the poor snow response. They really need me back, eh? Seriously, those were my glory days shoveling out seniors! Also, I'm sure you are continuing to be a rock star! Don't be so hard on yourself!

All the best,
Jeannie

Jeannie -

Awesome to hear your voice on the phone, and thank you for the input. Very relieved people like you and Phil are working on Flint.
When you get a moment, will you send the weekly town hall info? A few people are interested in going.

I hope you are thriving in Chicago and with your man. So many huge life changes for you, but I'm certain you've taken it all in stride. You are very resilient and good at finding fun wherever you go.

Things here are good. I love work and being a mom although I am deeply exhausted by the end of every the week and feel like I'm not doing anything quite as well as I'd like. That's sort of the deal and its definitely worth it.

All my best,
P

Ps - after all this snow I'm certain DC is wishing the old emergency mgmt team was back!

Good afternoon Paulette,

Thanks very much for reaching out. Yes, a call would be great, and if 8:15 this evening would work, due to our meeting schedules here, that would be great!

Tom Weber, PEM
State Planning Unit Manager
Emergency Management and Homeland Security Division Michigan State Police

Thank you so much for your help Jeannie - I really appreciate it.

Tom, thank you for all of your efforts. I'm sure you are working around the clock right now, but if you have time for a brief (maybe 10 mins?) call, I wanted to see if there are a few things NGO's can be helpful with.

Stefani, cc'd here could set up a call time. Nights after 730/8pm can work if you are swamped during the day.

All my best,

Paulette L. Aniskoff

Hey P,

Sorry for the delay! I meant to send you this information earlier, but the days here go very quickly!

There is a Community Partners Water Crisis Response meeting in Flint every Thursday from 3-5pm. In the past, it's been held at the Red Cross facility, but the group is getting a bit too large for that location, so they plan to pick a new place for the meeting on 2/4. I will ensure that you are provided with the meeting location after it has been determined.

You used the terminology "Town Hall" which isn't what happens at this weekly meeting. They're run by a network of NGOs who are actively responding to the disaster, and typically focus on current activities and forward planning by the community partners and stakeholders. While there are usually government folks in the room, it's truly a meeting led and supported by community partners. I remember you mentioning that there are faith-based contacts who are interested in coordinating with existing efforts, and I think this meeting would be a great place to start that.

As I mentioned on the call, the role of the FEMA VALs (Phil and I) is very limited compared to other disasters. This is very much a commodities operation, and we're supporting our state counterparts. I sang the praises of our State VAL here, Tom Weber, and I meant it. He's very, very strong.

If you have any future questions about FEMA's involvement/role here in Michigan, our FCO is David Samaniego. He's very accessible and knowledgeable about the bigger picture. His contact information: david.samaniego@fema.dhs.gov

I'm glad to hear all is well over there, despite the poor snow response. They really need me back, eh? Seriously, those were my glory days shoveling out seniors! Also, I'm sure you are continuing to be a rock star! Don't be so hard on yourself!

All the best,
Jeannie

Subject: Hi again!

Jeannie -

Awesome to hear your voice on the phone, and thank you for the input. Very relieved people like you and Phil are working on Flint.
When you get a moment, will you send the weekly town hall info? A few people are interested in going.

I hope you are thriving in Chicago and with your man. So many huge life changes for you, but I'm certain you've taken it all in stride. You are very resilient and good at finding fun wherever you go.

Things here are good. I love work and being a mom although I am deeply exhausted by the end of every the week and feel like I'm not doing anything quite as well as I'd like. That's sort of the deal and its definitely worth it.

All my best,
P

Ps - after all this snow I'm certain DC is wishing the old emergency mgmt team was back!

We should facilitate the state voad calls and maybe get going with national donations/volunteer committee calls. I'm not having much time though. Do you think either of you might be able to host one a week? We could also get Chad to host one possibly. Or possibly Justin. Or a mix of all of the above.

Subject: FW: Tomorrow's meeting

Tomorrow I am meeting with GST Works, our boots on the ground in workforce development/talent enhancement. The message below gives an outline of what we will cover. We are moving forward with a grant proposal, but do not have specific amount yet. We are looking at your outline and hope to incorporate most if not all. I'm sure the question will be asked about your involvement.

I think that tomorrow's meeting will not be beneficial for any of you to attend. But, as we move forward (and I believe it will be fast paced), your presence and expertise will be needed.

Would you please forward to Jeannie Moran. I do not have her contact info.

Maggie Sayles, CBSP

WIOA Title I Specialist

Cc: Comai, Stephanie (TIA) <ComaiS1@michigan.gov>; Johnson, Krista (WDA) <JohnsonK2@michigan.gov>
Subject: Tomorrow's meeting

- The plan for tomorrow will include
    - review of NDWG, and how it fits into what is happening today in Flint.
        - TEGL 2-15, attached
        - Roles of WDA, GST Works
        - Role of others (MSP/FEMA)
    - Strategies to expend other WIOA funds for this purpose (Formula and NEG)
        - Youth work experience
        - Identifying DW, especially LTU
            - Barriers to identifying
        - how can WDA support GST
    - Outreach activities to highlight GST involvement

- Moving forward.

I have attached documents that will be helpful throughout the discussion. Please share with your staff. The morning should be interactive discussion that will produce strategies for immediate action. (and I am sure you will be seeing more of me in the near future)

Thank you! I look forward to working with you.

Subject: Tomorrow's meeting

- The plan for tomorrow will include
    - review of NDWG, and how it fits into what is happening today in Flint.
        - TEGL 2-15, attached
        - Roles of WDA, GST Works
        - Role of others (MSP/FEMA)
    - Strategies to expend other WIOA funds for this purpose (Formula and NEG)
        - Youth work experience
        - Identifying DW, especially LTU

- Barriers to identifying
  - how can WDA support GST
    - Outreach activities to highlight GST involvement
    - Moving forward.

I have attached documents that will be helpful throughout the discussion. Please share with your staff. The morning should be interactive discussion that will produce strategies for immediate action. (and I am sure you will be seeing more of me in the near future)

Thank you! I look forward to working with you.

Subject: FW: Tomorrow's meeting

Tomorrow I am meeting with GST Works, our boots on the ground in workforce development/talent enhancement. The message below gives an outline of what we will cover. We are moving forward with a grant proposal, but do not have specific amount yet. We are looking at your outline and hope to incorporate most if not all. I'm sure the question will be asked about your involvement.

I think that tomorrow's meeting will not be beneficial for any of you to attend. But, as we move forward (and I believe it will be fast paced), your presence and expertise will be needed.

Would you please forward to Jeannie Moran. I do not have her contact info.

Subject: Adventists Group

Tom,

I just received a call from Charlene with the Adventists. I appreciate her energy and drive, but she was talking about a lot of decisions she's going to make and I stressed to her the importance of staying in contact with you. We still do not even have a signed agreement in place and she is already talking about finding a new warehouse (donated, so that would be great), but she doesn't like Kroger as a warehouse, but likes it as a POD. She is talking about taking over both warehouses and contacting Chad for volunteers.... I'm just really concerned that she is moving at a million miles an hour (FINALLY) but is not coordinating with us at all. All the decisions she is talking about are OURS to make. I told her she needed to work with both you AND Tonya.

Tonya is replacing me for the next week and she will need to be in the loop. She has DOC staff and resources at both of these warehouses that she will need to notify and/or demobilize.

I spoke to Bonnie. I told her there was no agreement in place with them yet and therefore she is still in charge. She understands. But Charlene is asking for her forms and databases etc. I told Bonnie it was fine for her to share them with her.

Also, when talking about warehouse space, she would like us to condense to one, which I am totally game for, but it has to be right. We don't want to just move somewhere because it's free and big. It has to be conveniently located in the city, so that if the Food Bank sends a truck to us, they don't have to drive 30 miles/minutes to offload. It has to be convenient for the citizens, if we intend to make it a POD in the future. It has to be accessible to donors. She doesn't know the area and I don't want her to think a place in Grand Blanc or by the airport is a good location.

Thanks guys. I'm really excited for them to take over, I just want to make sure it's done right. Warehouses seem to be my gig lately. ☺

Thanks Jeannie!

Appreciate the update. We are currently working with Catholic Charities and have had a few conversations with American Red Cross.

Tom - I know that the Community Partners were going to start to break into different committees and just want to make sure any committee working on distribution is aware of Good360 as we work to provide the right needs at the right time. We have a number of partners interested in assisting with donated or deeply discounted goods and hope to work with the players on the ground to get them what they need. We are also very conscious of not sending in unneeded or unwanted goods, which is why we work to be the conduit between nonprofits and our corporate partners.

I'd be happy to jump on a call sometime if you have any questions.

Best regards,

Subject: Re: Community Partners Meeting Tomorrow

Hi Regina-

I believe Katie said you were taking over from her as FEMA VAL this week. I just wanted to reach out to say that Good360 would like to be connected and do whatever we can to assist in the ongoing efforts. We would also like to connect some local partners we are working with that have not connected yet with the 'Community Partners' group, if you can give me any information on the date, time and place. One of our partners, Mission of Hope has been working diligently in an area with mostly Section 8 housing and because of an appearance on the Rachel Maddow Show, he has received a bunch

of support of both water and cash. I think it would be great if he Pastor Bobby's team could join the group.

We have also connected with the 2-1-1 center and are currently looking at options for a few of their needs.

Thanks,

Lindsay Jones

> However, I did receive a list of new partners this evening from the Michigan Department of Civil Rights. I asked them to take a look at the list I sent you the other day and identify additional partners that they know of that I may have missed. I was informed that this list consists of agencies the MI Dept of Civil Rights has read about that have contributed to relief efforts, or who have considerable inroads to segments of the community. I have not scrubbed it to very that all are nonprofits, but wanted to send along to you. I will also be sharing this with the local partners to conduct outreach and bring these folks to the table. I'm not sure if anyone has reached out to them yet, so just an fyi that they won't necessarily be familiar with coordinated partner efforts when you do your outreach. We'll work on this over the next few days!

Importance: High

Draft attached of the local hire program. I added the Recycling Operations, but I think we'll need to talk to the local EOC to see what this looks like, unless either of you have a better idea. Let me know if I'm way off base here. I tried to encompass all the needs we might have. I included trucks for handling of distribution to the church hubs from the warehouse.

I'm leaving for the night, but feel free to share comments. I'd like to get this to Maggie by 9ish tomorrow morning. I'll be in first thing tomorrow.

Thanks,
Brianna

Subject: Action: Potential Jobs Program
Importance: High

All:

We're working on a potential jobs program with MTED and the US Department of Labor to hire and/or train dislocated workers (laid off, etc.) to support humanitarian operations going forward. Is there any interest from your agency to fill roles with dislocated workers for the ongoing activities your agency is responsible for? At a minimum, we are looking at staffing needs for up to a year (potentially longer, depending on the situation). To be clear, this program is not hiring people for/from other agencies to defer the cost; it is to provide temporary jobs to support humanitarian operations.

If so, could you please provide a quick list of what those needs might be? If there are equipment needs (vehicle, supplies, etc.) to perform the job, include those as well. No need to expand on job description at this point. These are just potential ideas; nothing is set in stone.

We have already put together a list of needs to encompass 2 warehouses, 5 POD hubs, rapid response delivery teams, basic local EOC staffing, and a list of miscellaneous jobs (including translators, plumber apprenticeships, social/medical case worker training, etc.).

Please submit your potential interest to me by **2 pm Sunday, February 7**. If you have any questions, don't hesitate to ask.

Thanks,
Brianna Briggs

Good afternoon! I'm following up on this item for Tom.

This request came from the White House's Office of Public Engagement, and they would like direction on what they can provide celebrities who reach out to them. If you find the answer below still the most appropriate, we can pass that information along.

They also wondered if we had "canned" tweets or social messaging we could provide them that could be used by celebrities to help us with messaging for this event. Do we have anything like this we could provide, or is this something we should entertain?

Feel free to call my cell if you have any questions.

Thanks for all your help!

Sent: Friday, January 08, 2016 5:18 PM
To: Hawks, Trevor (MSP)
Cc: Briggs, Brianna (MSP); MSP-SEOCOPSC
Subject: FW: Door Hanger Specs

Trevor,

See the below specs on what DTMB needs to print the door hanging cards. Brianna has the information you will need to put on them. She will be here at 8 a.m. as well. DTMB will need these by 7:30 a.m. Monday morning in order to have enough ready for us to pass out Monday afternoon.

Thanks Trevor,
Wendy

Subject: RE: Adventist flyer

I sent an email to Debra asking about it. I haven't heard back yet. Tom said she was told yesterday to go through the VRC and she said she would. Then I got a call from the United Way saying she was there asking for volunteers. I called her and told her to go to the VRC at ARC and gave her the contact info and the website on how to request volunteers.

Subject: FW: Adventist flyer

Chris DeVriendt called me and said that the Adventist's are handing out their own flyers (attached) soliciting volunteers to assist with the warehouse. This goes around the VRC system and has not been coordinated through the SEOC to my knowledge. Did any of you know about this or do you know of any issues with them doing this? Personally, I feel they should use the VRC system, but I do not totally understand how they work.

Thanks,
Wendy

Subject: Portfolio of FEMA Independent Study Trainings

Brianna and Tom,

Below is a list of trainings that are available to the public that might be good for a larger training portfolio for the local hires. Some of them included are more relevant to a Detroit Crew (Intro to IA and PA), but I figured you'd want more rather than less. One thing to note is that each student will need to register for a Student ID number... it's simple and free. I'm copying Kendal in case he has any more to add, besides IS 26 and IS 27.

1. IS-100.B Introduction to Incident Command System (ICS-100)
2. IS-700.A National Incident Management System (NIMS): An Introduction
3. IS-230.D Fundamentals of Emergency Management
4. IS 26 Guide to Points of Distribution
5. IS-27 Introduction to FEMA Logistics
6. IS-632.A Introduction to Debris Operations
7. IS-393.A Introduction to Hazard Mitigation
8. IS-403 Introduction to Individual Assistance
9. IS-643 Introduction to FEMA's Public Assistance Program
10. IS-241.B Decision Making and Problem Solving
11. IS-242.B Effective Communication
12. IS-552 The Public Works Role in Emergency Management
13. IS-558 Public Works and Disaster Recovery

Thanks,
Jeannie

Subject: RE: Flint Residents need water resources

Importance: High

Finished, please add this residence to the AFN list.

****

RRT Report:
Our team visited this address at 9:00this morning. They found an elderly couple residing there; the lady is using a walker and her husband does not drive. They have a filter but needed a replacement cartridge which was installed and bottled water was left with them.

211 Report
We looked into this situation a few different ways. The name is in our database as requesting water on 1/31 and 2/18, but nothing on 2/13. The staff that took the call on 2/18 didn't make note of not receiving water from a previous request.

Also, they reported not getting a call back, but the phone number isn't showing that they called our call system, could it be another number? Our call back system is automatic and we leave a message when we don't reach someone, however occasionally voicemail is full/not set up, etc. The system report says we did have 11 calls abandoned (out of 108 on the 13th). If the call came in and abandoned/hung up, it'd still show, but that number doesn't show on our call report.

I'm sorry, I don't have much to show about a call on the 13th. The request from yesterday was included on the list sent over this morning (also attached). They called at 8:44pm last night.
****

As highlighted by the 211 report, this is becoming problematic. I did not receive the request from the GOV until 2/19/2016. By the time the request was forwarded to me, the caller had (re)called 211 and gotten on the 211 list again. Each time a RRT is diverted to provide individual attention, it detracts exponentially from the daily mission and those 211 callers that have already been waiting up to 3 days for a delivery. This is not 'pizza delivery' and the perception of instant delivery needs to be countered on every level and at every opportunity.

Subject: TIME SENSITIVE- Community Partnership Info

Importance: High

Good Morning,
Just a quick reminder to please email me 3-5 bullet points that captures the good work your organization is doing in support of the Flint Water Crisis.
If possible, please email me this information today by 5:00 pm so that we can have this information ready to share at Thursday's Community Partnership Meeting.
Please feel free to include photos of service.

Thank you,
Dave

Subject: Re: VOAD calls

Dear All,

Yes, I spoke with Ken last week and explained that the community is organizing into specialized work groups making this an ideal time for MI-VOAD and NVOAD engagement.

Can I propose a 4:00 pm Tuesday or Wednesday MI-VOAD and NVOAD call? Tom, at this time I think you have the best optics into Flint Response/Recovery, would you mind leading the call? I can lend support as needed.

Additionally, I will be sending out the minutes from the last several Community Recovery meetings. Mary, would you mind disseminating them to the members?

Lastly, the Community Recovery Group meets every Thursday from 3 to 5pm at:
Food Bank of Eastern Michigan
1938 Howard Ave
Flint, MI
Please encourage MI-VOAD members to attend to discover how they may best support and enhance the community's recovery efforts.

Thanks!

Best regards,

Justin R. Bays

Subject: RE: VOAD calls

Ken,

We've been getting a steady volume of calls for national partners and a regular call facilitated by Michigan VOAD would be a good way to keep them connected to information without overwhelming those on the ground (state and NGO, alike).

Traditionally, in an event this size (and even smaller), a weekly or biweekly call is led by the State VOAD. I think it would be very helpful in this instance.

You're absolutely invited to use my conference call pin:

Just let me know when it's scheduled so I make sure not to give it out to any others! ☺

Take care,
Jeannie

Hi Ken, Hi Mary,

Good360 had tried to call in to the VOAD conference call last week and no one was on the line. Has the MIVOAD call changed day/time/call in number? We really should be having those on a weekly basis. I know Red Cross initiated a couple of them, but I know too they're pretty swamped with the VRC and Rapid Response calls. Please let me or Zach know if there's anything we can do to help.

Thanks!

Subject: RE: Question on Flint project

It cannot buy testing kits, water, filter, etc. but may be able to offset the costs of providing humanitarian activities (which is where all the equipment to support water warehousing, recycle, comes into play).

Tuesday by 10am.

And just as a reminder....this grant would be able to support humanitarian operations through temporary jobs that would be filled by Dislocated workers (those who have been laid off and some other eligibility). So it is not hiring people for/from other agencies (deferring the cost).
(Sometimes agencies get all excited that their costs will be covered)

Maggie,

We're working on your question and will be reaching out to the various state agencies involved. When would you want this information back to you? Just want to give them a deadline that works for you.

Thanks,
Brianna

To: Weber, Thomas (MSP); Briggs, Brianna (MSP); Gamble, Jason (jason.gamble@fema.dhs.gov)
Subject: Question on Flint project

Our call with USDOL went well this morning. We will be starting to write a proposal after we align a few more things on our end. WDA will meet with the local Michigan Works as they will become the grant recipient and so we need their input as to what can and cannot be accomplished.

A question was asked n the call about other agencies that may need the temporary worker, like EPA for testing and collecting. Do any of you have insight on that piece?

I am waiting for a connection (through USDOL) to California as they were awarded a large grant ($18M) that set up temporary workers to assist with the impact of the drought.

Maggie,

Good morning! Attached is a draft of the overall idea of what we're thinking. We are more than happy to develop the details further, but wanted to be able to give you an idea of what we're looking for right now.

Please don't hesitate to let me know if you have any questions or need anything else to move on this.

Thanks for all your help!

To all addressed,

The RRT plan development has been initiated via Ginna Holmes of the MCSC after a thorough discussion with myself last night (1/30/2016). Upon receipt of the draft, I will forward to everyone for review and comment. This particular version of the plan will be instituted NLT 0800 2/1/2016 due to operational requirements and as all things associated with this emergency, will be a living/breathing document subject to modification.

Respectfully,

Brianna,
Thank you for the update. I was not able to jump on the SEOC call tonight - I took a few hours away to go to the MSU game! It was a great time for the Spartan nation. ☺

If you can break away tomorrow, it would be fantastic. It would be great to get things settled with Chris and ARC. I do understand though if it will be a challenge for you.

Feel free to text me your timeline - . is my state cell.

Looking forward to working with you on this!

Ginna,

Good evening! I didn't get a chance to look at this. I'm hoping to see if we can meet tomorrow, but it might not be until Tuesday. Anyway, I'll take a look at this.

ARC will be focusing on the franchise customers per the State Director's request today. We have given them additional priorities to tackle next, but we can certainly work on vulnerable populations if needed. We will just need to cross reference lists and make sure we're not duplicating what has already been done!

Thanks for your help in understanding things today! We'll get this figured out soon enough! :)

Have a great night!

Brianna

Subject: draft of Volunteer report

I am sending you the draft version of the volunteer report. I listed the teams for this week - as Chris described them, but they can be changed - it is just a draft for how it could look.

The big question for tomorrow is what will Red Cross teams be doing - if there are needs for vulnerable population they could start on that list or do you want them to go to the apartments tomorrow. If you choose the apartments for tomorrow and if there are vulnerable populations you find are beyond the ones Team Rubicon have done, you can let Chris know Red Cross will start on them on Tuesday. That allows him to report that out to the County tomorrow. Team Rubicon can be split between the two options - rapid response and vulnerable populations. It also allows you to tell the captain that you have started on the apartments.

Another Idea - the weekends could be the apartments with Red Cross and Islamic Relief - they could then increase the number of volunteers they add to teams because the trucks could be parked in the parking lot and they could increase their volunteers who go in to provide the support. More people could be engaged in volunteering that way. (in fact tomorrow let's brainstorm some ideas like that - how we can get more done with volunteers by being strategic)

Your choice in what plan works best for tomorrow.

Hi Brianna, I think that's good for this meeting. After people get on the same page, I think Jim Simmons from Team Rubicon would be a great asset. He is easy to get along with and is very knowledgeable in organizing volunteers. He has been at several disasters in MI. Thanks, BJ

BJ,

Can you help me determine who should be part of this meeting? I'd like to try to set it up for tomorrow, if I can make it happen. I know it will be a little late notice, but I'd like to start the process. It will help to get this down for us in future disasters too. Here are my thoughts: Ginna, Chris, Capt. Tafoya?, Dave Gutierrez, me. Anyone else? You are more than welcome, or anyone else from our staff that has been involved.

It sounds like Chris and Dave met today. It sounds like they coordinated some operational pieces, so that will be good information to get in the plan so the coordination can continue in a way that makes sense!

Thanks for letting me bounce ideas off you tonight. It's been a whirlwind, but we'll get there! You're doing a great job!

Thanks,

Bri

Hi Brianna, in talking with EM Chris Devriendt he advised he had a conversation with Ginna yesterday ref her coming up with a volunteers/donation plan. As far as I know Ginna is working on one today- not sure if u want to reach out to her so she doesn't keep going on something unnecessarily. BJ

Subject: Use of EMHSTC Vehicles for Flint Response

Hi Carol,

I just want it noted that the four trucks/suburbans borrowed for the Flint Response were returned with a lot of junk (boxes, garbage, etc.) in the back of them. In fact we even found a box of 4 Brita filters that should be returned to Flint. If you know of any division staff going to Flint next week we could ensure the filters get in their hands for a return. Also our lift gate on the Ford is acting up now so Ron is going to work on that.

I think a take away from this is when things are borrowed for an event like this there needs to be an official check in and a check out process so there are no surprises like this. I am wondering if all of the donated Penskes that were borrowed had some kind of checkout from the event before they were returned. It just seems to be an area of improvement to keep in mind for future events. Thanks!

Hi Dianne

Sorry for the previous odd communication from me, I meant to send to another course instructor and accidently sent to you. However, I still need to discuss the subject course with you.

Paul Benyeda provided me your contact information.

We are very interested in hosting this class in Michigan in the next year or so. I realize the "G" version of the course was just release by EMI. Do you have other qualified instructors we could use? Would it be possible to arrange an "L" course delivery with EMI?

Maybe we can discuss after the holidays? Please let me know.

Jackie:

I received an appointment from Angela Dale this morning for a meeting on Flint Procurement for tomorrow afternoon at 3:00 pm. Sherri, Mr. Sible and Vickie are included in this meeting. I assume they want to discuss the concerns that you have as well. I think training is a great idea and I would also be happy to attend the training because there is always something valuable to pick up.

I was supposed to be out of the SEOC tomorrow as well, but that will depend on how Kevin is with filing our quarterly reports. But I will have to be gone for this meeting. Can we have you and Brianna in this meeting as well for discussion? Two birds with one stone??

Thanks,
Penny

Subject: SEOC Procurement Training

Good morning Brianna,

As we discussed last week, I am concerned about our SEOC processes regarding the current SEOC activation. I have discussed with Tony the need for a training session regarding procurement, processes, internal controls and documentation and he has agreed. I would like to meet with you and Vickie Olivarez this week for a planning meeting. Vickie is already conducting a training at the GOB on February 4th and I would like to aim for that day as a training session for the SEOC.

Are you full-time in the SEOC? Will you have availability for a meeting this week? Is your calendar up-to-date or would you like to provide some available times?

Penny – Would you like to attend or have additional personnel attend?

Thank you,

Jackie

Subject: Flint Local Hire - Start Next Wednesday?
Importance: High

Maggie,

Per our conversation, below is the description for what we expect of a Support Team Leader at the PODs. **We'd like to get 9 staffed in the current PODs by next Wednesday to shadow the National Guard.** If you are able to confirm this is possible, please let me know as I will need to update our command at the SEOC. When filling these jobs, we're looking to hire locally in the affected area of Flint and try to keep them located in the Flint Ward in which they live, if at all possible.

> Support Team Leader: supervises all support operations including: ensuring equipment used onsite has been inspected, maintained, and used in a safe manner, coordinating supply truck movement onsite, conducting resupply operations including downloading commodities and resupplying the loading line, maintaining accountability of all commodities received, on hand, and distributed from the site, maintaining all paperwork relating to resource accountability and providing daily resource reports

I'm going to review the full list of jobs and descriptions and will provide soon.

If you can provide the details for the Monday meeting, I will plan to attend. We just want to ensure we're meeting the mission for water distribution.

Let me know if you have any questions on this. My cell phone is the best way to reach me, 517-230-2949.

Thanks,

Subject: Friday Meeting?
Importance: High

Jeanette,

Are you in the SEOC tomorrow? If so, would it be possible to meet with Jay and I on a couple items we need help researching/estimating costs? We're working on developing the long-term recovery plan to shift the current fire station PODs to other locations in the city to be staffed by the local hire program.

Just to give you a heads up on what we're looking to you for help with:

- Direct Delivery Model for replacement cartridges
  - RFP Process (timeline) Could it be expedited?
  - Cost estimate
- Tracking mechanism to be used in PODs for filter/replacement cartridge distribution
  - Card to be provided to active water subscribers
  - Would be swiped at the POD (device would be needed) to track commodity distribution to homes
  - Cost estimate to develop or purchase this capability

Obviously these are just thoughts right now. We really need to sit down to talk through these options and move forward with estimating costs for both methods. We're hoping this is something you can assist with. If anyone else is appropriate to assist, let me know and we can get them at the table too.

Thanks,
Bri/Jay

Jeanette,

Are you in the SEOC tomorrow? If so, would it be possible to meet with Jay and I on a couple items we need help researching/estimating costs? We're working on developing the long-term recovery plan to shift the current fire station PODs to other locations in the city to be staffed by the local hire program.

Just to give you a heads up on what we're looking to you for help with:

- Direct Delivery Model for replacement cartridges
  - RFP Process (timeline) Could it be expedited?
  - Cost estimate
- Tracking mechanism to be used in PODs for filter/replacement cartridge distribution
  - Card to be provided to active water subscribers
  - Would be swiped at the POD (device would be needed) to track commodity distribution to homes
  - Cost estimate to develop or purchase this capability

Obviously these are just thoughts right now. We really need to sit down to talk through these options and move forward with estimating costs for both methods. We're hoping this is something you can assist with. If anyone else is appropriate to assist, let me know and we can get them at the table too.

Thanks,
Bri/Jay

Subject: RE: Volunteer Reception Center help needed in Flint

Thanks for the heads up. The locals should be working with each other. The SEOC would only need to be in the mix if it exceeded their capacity to handle the situation. CERT can only be called out at the local level; the SEOC/State cannot call out CERT.

Ms. Holmes,

Please see the below string of emails. The question is from my local EM,, should a request to volunteers be sent out from the SEOC,, or locals reaching out to each other?

Hey Lt. this has been bouncing around today from the Public Health Department, since this is a disaster declaration situation shouldn't this be requested by SEOC etc.?

Subject: Volunteer Reception Center help needed in Flint

Good morning:

I received an email from one of my local health department contacts in Lapeer County. She indicated that the Volunteer Reception Center was in need of volunteers to help with the center and wanted to let me know that if there were any groups in my six counties that were interested in helping, then to contact the following two people:

If you or your group of volunteers have any interest, please contact Rachel Wenzlick, Volunteer Coordinator of United Way of Genesee County at 810.762.5823 or rwenzlick@unitedwaygenesee.org.

Justin Bays is also working with organizing the VRC.

Recovery Operations
American Red Cross
Justin.Bays2@redcross.org

There is also a site: www.flintvolunteer.org

I thought of the local MRC and CERT groups and thought that I would pass this along, just in case. You may all be already connected with the situation and what they need, but I thought I would pass this along as an FYI.

Thank you.

Melissa DeRoche

Subject: RE: Community Partners Meeting - Thursday, February 18th, 3:00 p.m. (Food Bank of Eastern Michigan's *Hunger Solution Center - 1938 Howard Ave.)*

Hello everyone,

We have managed to compile the dates/times/locations of all the "next" meetings for each of the workgroups under the recovery model...and, the "points of contacts."

If you are not already "plugged in" to one of these groups, please reach out immediately to the POC's.

REMINDER...this Thursday will be our next Community Partners Meeting, 3:00 p.m., at the Food Bank of Eastern Michigan.

Let me know if you have any questions!

1.
2.
3. **COMMUNICATION**
4. **NEXT MEETING:** Wednesday, 02/17/16 from 10:00 until 11:30 a.m. at Family Service Agency of Mid - Michigan (1422 W Court Street, Flint)

Hi Maggie,

I'm curious, how far into a disaster declaration can these funds be requested? I continue to work with Detroit on recovery from the floods of 2014. There remain many unmet needs. We had a major disaster declaration for that one. I just wonder if it would still be possible to request funds for that disaster?

Subject: Flint grants

Hi Maggie,

We'd be happy to attend any meetings as needed in Flint. At this time, unless Captain assigns anyone else, it would be me, Brianna and Jason from FEMA.

Thanks, also, here were the questions Jeannie had posed if you're able to get a moment to find answers. Thanks again, *and it was a great meeting. We're excited!*

1. Is there a one-pager on the requirements to become an Employer of Record?
2. What are the duties of the Employer of Record? Could they ALSO be on-sight management?
3. Will the formula funds supplement the grant or do they contribute to the total asked for?
4. What kind of employee requirements can be imposed? Background check? Age? Physical ability?
5. What level of involvement does the employer of record have to the case workers?
6. Is there a list of past employer of records (ie. Missouri)

Thanks again,

Subject: Rapid Response Team Request

Good morning,

At the MDHHS phone bank this morning I received the following request from regarding her mom:

is over to see her mother because her mom is not feeling well today.

's mom is "basically home-bound" and received a water delivery from the rapid response team 2 weeks ago. She is need of additional water. Also, her water filter fell off and although her mom put the filter (Brita) back on the faucet, it is not properly sealed. Could the team also check on this? Third, r asked if there was a list her mom could be put on to receive periodic deliveries of water. I told her I did not know about the list, but I would pass along all information and requests.

's address:

Phone number to reach Faith:
Phone number to reach Debbie today:

Thanks,

Jim

Subject: FW: Tomorrow's meeting

Tomorrow I am meeting with GST Works, our boots on the ground in workforce development/talent enhancement. The message below gives an outline of what we will cover. We are moving forward with a grant proposal, but do

not have specific amount yet. We are looking at your outline and hope to incorporate most if not all. I'm sure the question will be asked about your involvement.

I think that tomorrow's meeting will not be beneficial for any of you to attend. But, as we move forward (and I believe it will be fast paced), your presence and expertise will be needed.

Would you please forward to Jeannie Moran. I do not have her contact info.

Cc: Comai, Stephanie (TIA) <ComaiS1@michigan.gov>; Johnson, Krista (WDA) <JohnsonK2@michigan.gov>
Subject: Tomorrow's meeting

- The plan for tomorrow will include
    - review of NDWG, and how it fits into what is happening today in Flint.
        - TEGL 2-15, attached
        - Roles of WDA, GST Works
        - Role of others (MSP/FEMA)
    - Strategies to expend other WIOA funds for this purpose (Formula and NEG)
        - Youth work experience

- Identifying DW, especially LTU
  - Barriers to identifying
- how can WDA support GST

- Outreach activities to highlight GST involvement

- Moving forward.

I have attached documents that will be helpful throughout the discussion. Please share with your staff. The morning should be interactive discussion that will produce strategies for immediate action. (and I am sure you will be seeing more of me in the near future)

Tom,

I just got back in from Flint. I think we should have another meeting so that I can share what has progressed and get questions from you. Our Talent Team has many questions too, but we are putting plans in place.

Are you (all of you) available Thursday after 1pm?

Subject: Re: Tomorrow's meeting

Maggie, can a gov agency be the employer of record? Or does it need to be non governmental agency?

Subject: FW: Tomorrow's meeting

Tomorrow I am meeting with GST Works, our boots on the ground in workforce development/talent enhancement. The message below gives an outline of what we will cover. We are moving forward with a grant proposal, but do

not have specific amount yet. We are looking at your outline and hope to incorporate most if not all. I'm sure the question will be asked about your involvement.

I think that tomorrow's meeting will not be beneficial for any of you to attend. But, as we move forward (and I believe it will be fast paced), your presence and expertise will be needed.

Would you please forward to Jeannie Moran. I do not have her contact info.

Cc: Comai, Stephanie (TIA) <ComaiS1@michigan.gov>; Johnson, Krista (WDA) <JohnsonK2@michigan.gov>
Subject: Tomorrow's meeting

- The plan for tomorrow will include
    - review of NDWG, and how it fits into what is happening today in Flint.
        - TEGL 2-15, attached
        - Roles of WDA, GST Works
        - Role of others (MSP/FEMA)
    - Strategies to expend other WIOA funds for this purpose (Formula and NEG)
        - Youth work experience
        - Identifying DW, especially LTU
            - Barriers to identifying
        - how can WDA support GST
    - Outreach activities to highlight GST involvement
    - Moving forward.

I have attached documents that will be helpful throughout the discussion. Please share with your staff. The morning should be interactive discussion that will produce strategies for immediate action. (and I am sure you will be seeing more of me in the near future)

Thank you! I look forward to working with you.

Subject: FW: Tomorrow's meeting

Tomorrow I am meeting with GST Works, our boots on the ground in workforce development/talent enhancement. The message below gives an outline of what we will cover. We are moving forward with a grant proposal, but do not have specific amount yet. We are looking at your outline and hope to incorporate most if not all. I'm sure the question will be asked about your involvement.

I think that tomorrow's meeting will not be beneficial for any of you to attend. But, as we move forward (and I believe it will be fast paced) , your presence and expertise will be needed.

Would you please forward to Jeannie Moran. I do not have her contact info.

Cc: Comai, Stephanie (TIA) <ComaiS1@michigan.gov>; Johnson, Krista (WDA) <JohnsonK2@michigan.gov>
Subject: Tomorrow's meeting

- The plan for tomorrow will include
    - review of NDWG, and how it fits into what is happening today in Flint.
        - TEGL 2-15, attached
        - Roles of WDA, GST Works
        - Role of others (MSP/FEMA)
    - Strategies to expend other WIOA funds for this purpose (Formula and NEG)
        - Youth work experience
        - Identifying DW, especially LTU
            - Barriers to identifying
        - how can WDA support GST
    - Outreach activities to highlight GST involvement
    - Moving forward.

I have attached documents that will be helpful throughout the discussion. Please share with your staff. The morning should be interactive discussion that will produce strategies for immediate action. (and I am sure you will be seeing more of me in the near future)

Thank you! I look forward to working with you.

As Flint is not an ideal world.....I'll know more tomorrow. I have to think that is a month out. (at least)

We may have opportunity to use other funds and create shorter work experience immediately. That is also on the agenda for tomorrow.

Snyder Looks To Flint Residents For Water Testing Help

Governor Rick Snyder announced Monday that his administration expects to hire 50 Flint residents to assist with water testing under a new partnership between the state and Flint human service groups.

Specifically, the state is partnering with Orchards Children's Services and Flint YMCA's Safe Place Program.

"The people of Flint deserve timely action on emergency efforts to help the city move toward recovery," Mr. Snyder said in a statement. "We realize our water testing teams need more manpower to get the job done. There is no one better suited to help the city bounce back than Flint residents themselves and we appreciate Orchards Children's Services and the YMCA for helping connect Flint talent with these important positions."

The move toward local control, namely for water testing purposes, was alluded to in the governor's Interagency Council meeting on Friday in which Department of Environmental Quality **Interim Director Keith Creagh** outlined his department's plan to get help in water testing (See **Gongwer Michigan Report, February 5, 2016**).

Mr. Snyder said the hiring is part of a larger and ongoing effort to ensure Flint residents benefit from opportunities created by relief efforts in response to the water crisis.

"Orchards Children's Services and the YMCA are committed to serving children and families in Flint as we have done long before this crisis and will do long after," Michael Williams, president of Orchards Children's Services, said in the statement distributed by the governor's office. "The solution to this situation should involve the people of Flint and that is why we are partnering with the state to strengthen our community for the future."

Importance: High

Good afternoon:

The need has been established to develop a long-term coordinated distribution strategy. In order to effectively coordinate the strategy, you are being requested to attend a meeting at the State Emergency Operations Center on **Tuesday, February 9 starting at 9 a.m.** This strategy requires your jurisdiction's input in order to ensure sustainability of long-term distribution.

Please confirm attendance for tomorrow as soon as possible. If for some reason tomorrow will not work, please let me know as soon as possible today, and plan to make yourself available to meet on Wednesday, February 10. Once everyone has confirmed, I will send an appointment confirming date, time and conference room at our office.

The address for the State Emergency Operations Center is:

7150 Harris Drive
Dimondale, MI 48821

If you have any questions, you can reach me on my cell phone at

Thank you,

Brianna Briggs
Departmental Analyst
Emergency Management
and Homeland Security Division

PLEASE NOTE: Effective **February 1, 2016**, the Emergency Management and Homeland Security Division is moving.

My new contact information will be:
Phone: 517-284-3992
Fax: 517-284-3857

Physical Address:

7150 Harris Drive
Dimondale, Michigan 48821

Mailing Address:
PO Box #30634
Lansing, Michigan 48909

Good afternoon:

The need has been established to develop a long-term coordinated distribution strategy. In order to effectively coordinate the strategy, you are being requested to attend a meeting at the State Emergency Operations Center on **Tuesday, February 9 starting at 9 a.m**. This strategy requires your jurisdiction's input in order to ensure sustainability of long-term distribution.

Please confirm attendance for tomorrow as soon as possible. If for some reason tomorrow will not work, please let me know as soon as possible today, and plan to make yourself available to meet on Wednesday, February 10. Once everyone has confirmed, I will send an appointment confirming date, time and conference room at our office.

The address for the State Emergency Operations Center is:

7150 Harris Drive

Dimondale, MI 48821

If you have any questions, you can reach me on my cell phone at 517-230-2949.

Subject: Flint Jobs Program

Importance: High

Good afternoon,

I apologize for the delayed response this afternoon.

The position we're looking to fill first will be the team leader (supervisor) of the Point of Distribution (POD) locations once the National Guard mission is complete. The information below is based on the current mission. Hours would be different once the transition occurs.

Wages: $15-18/hour
Hours: 10am – 4pm, week days
Job Description: Still working on this one
Background/Drug Screening: Yes to both for this position
Qualifications: High School Diploma or GED required, Associate's Degree preferred, Management Experience Required (could be paid or volunteer management experience)
Interview Assistance: We don't feel like there would be any added value to having National Guard on the interview panel at this point. The staff should just have some management experience, and would be someone who essentially shows leadership skills and potential. We're hoping by getting them out there now, we can have them work with the National Guard to develop some additional skills and knowledge on the job. Does that make sense?
Direct Supervisor: We'd have to nail down the employer of record for these staff. We have the meeting Monday, and that might help us get one step closer there. It will be helpful for me to get out there and get familiar with the process too, to be able to anticipate or provide what you need going forward ☺ For right now, the on-site supervisor would be the National Guard Officer in Charge at the specific POD they would be staffed at.

I hope this information is helpful and gets us moving in the right direction. I've got to work on my end to get someone in to assist with writing job descriptions and determining wages, as this is not something in my expertise ☺

I look forward to meeting you all on Monday! I'll be in throughout the weekend, so feel free to ask questions if you have them!

Thanks,
Brianna

Subject: RE: Team Lead - Job Description

I would consider changing "supervises all support operations including" to "supervises ground level support operations including", the other sounds very broad, like a much bigger job than it is. The only other thing is I would change "downloading commodities" to "offloading commodities". The former is to commonly used as computer terminology and could confuse some.

Tony,

We need to respond this FOIA request, aside from the ongoing FOIA activity. I have copied the planners who I believe worked on the emergency declaration. This is due to the FOIA unit by next Friday, February 19. I will schedule a meeting.

Do you believe this would exceed 250 pages? I believe it would exceed the 2 hours to pull, copy and redact the documentation, unless there is very limited correspondence.

Thanks,
Brianna

Subject: RE: Flint Local Hire - Start Next Wednesday?

Maggie,

For this first portion, if the difficulty is matching them to a specific Ward, this may wouldn't necessarily have to apply as they will be shadowing National Guard in the fire stations. I was just putting out the long-term staffing idea. We can discuss further on Monday, if you want.

Just a quick question – can you provide some info on the hours for local hires? It is my understanding they could work 35 hours per week, and would be required to complete 5 hours of "training" each week. I just want to verify, as this might result in the need to hire additional staff to ensure they stay within their hour limits.

Thanks,
Bri

Subject: Flint Local Hire - Start Next Wednesday?
Importance: High

Maggie,

Per our conversation, below is the description for what we expect of a Support Team Leader at the PODs. **We'd like to get 9 staffed in the current PODs by next Wednesday to shadow the National Guard.** If you are able to confirm this is possible, please let me know as I will need to update our command at the SEOC. When filling these jobs, we're looking to hire locally in the affected area of Flint and try to keep them located in the Flint Ward in which they live, if at all possible.

> Support Team Leader: supervises all support operations including: ensuring equipment used onsite has been inspected, maintained, and used in a safe manner, coordinating supply truck movement onsite, conducting resupply operations including downloading commodities and resupplying the loading line, maintaining accountability of all commodities received, on hand, and distributed from the site, maintaining all paperwork relating to resource accountability and providing daily resource reports

I'm going to review the full list of jobs and descriptions and will provide soon.

If you can provide the details for the Monday meeting, I will plan to attend. We just want to ensure we're meeting the mission for water distribution.

Let me know if you have any questions on this. My cell phone is the best way to reach me,

Thanks,

Brianna Briggs
Departmental Analyst
Emergency Management
and Homeland Security Division
Michigan State Police

Subject: RE: Meeting with Maggie Sayles and Director of SEEDS

Hi Mary,

Thanks for the meeting info. Brianna Briggs from our office is definitely going, so I copied her on the email to "introduce" you both. I don't think I'm going to be able to be at that meeting myself, but Brianna has been working closely with Maggie on this from the start.

Let me know if you need anything else, and I'll continue to see you at the Flint meetings!

Brian,
The list is now attached.
Please note that since my email below, one volunteer has backed out.
We now have 12 (Tues), 10 (Wed) , 11 (Thu), and 12 (Fri).

I know Mike Milks is working to get volunteers; however with the weather I am unsure we will get the level requested.

Subject: Potential Assistance Programs

State Emergency Management Coordinator:

As discussed in this morning's briefing, your agency has been identified to research potential assistance programs (private, state, federal, etc.) that may be available to address the short- and long-term recovery needs in response to the Flint water incident. Earl Zuelke, FEMA Long-Term Recovery, has made contact with some federal agencies to assist with this research. Feel free to touch base with him in the SEOC.

Attached is a copy of the Non-Stafford Act Recovery Guide. Appendix 2 (pg. 24-26) provides a list of some potential federal programs. This list is **not** all-encompassing; however, it will provide a starting point if any of these programs may apply to the response and recovery for this incident.

Provide the following information, *at a minimum*, on potential assistance programs for individuals and/or government support in response to this incident:

- Program Name
- Agency Responsible for program
- Point of Contact
- Type of Support (Individual or Government)
- Eligibility Guidelines
- Benefits Available
- Application Process

This information shall be submitted to Brianna Briggs, the Recovery Branch Chief, at briggsb3@michigan.gov by **COB Friday, January 15.**

Let Brianna (cell phone below) know if you have any questions on this request.

Thank you,

Brianna Briggs
Recovery Branch Director

MICHIGAN DEPARTMENT OF TALENT AND ECONOMIC DEVELOPMENT

TED Assistance Programs for Individuals and/or Government:

MEDC MSF

Community Development

a. **Program Name: Redevelopment Ready Communities**
b. Agency Responsible for program: MEDC
c. Point of Contact: Jennifer Rigterink
d. Type of Support (Individual or Government): Government
e. Eligibility Guidelines: Flint is in the program and is an eligible applicant.
f. Benefits Available: Technical Assistance dollars that could be used for training on planning/marketing/crisis management, etc.
g. Application Process: Request from community

a. **Program Name: Core Communities Fund**
b. Agency Responsible for program: MEDC
c. Point of Contact: Katharine Czarnecki
d. Type of Support (Individual or Government): Government
e. Eligibility Guidelines: Flint is an eligible applicant as a Core Community
f. Benefits Available: Up to $250,000 is available to be used for economic development activities, infrastructure is eligible.
g. Application Process: Form for community to complete, but should work directly with MEDC staff

---

Capital Access

a. **Program Name: Collateral Support Program**
b. Agency Responsible for program: MEDC
c. Point of Contact: Chris Cook
d. Type of Support: Individual
e. Eligibility Guidelines: A federally regulated bank or credit union willing to provide new debt to a qualified for profit operating company. Borrower must be primarily operating in one of the following industries: manufacturing, wholesale & trade, research & development, mining, film & digital media productions, HQ office operations, or businesses that are qualified high technology businesses. Support limited to the lesser of 49.9% of the loan amount or $5,000,000. Fees of 1-3% of MSF support amount at closing and annually thereafter.
f. Benefits Available: Provide access to capital to companies that would otherwise not be able to access that capital due to a lack of collateral.
g. Application Process: The lender provides its underwriting document, along with an application form and company background check form, to MEDC Capital Access for evaluation and due diligence.

a. **Program Name: Loan Participation Program**
b. Agency Responsible for program: MEDC
c. Point of Contact: Chris Cook
d. Type of Support: Individual
e. Eligibility Guidelines: A federally regulated bank or credit union or certified development financial institution willing to provide new debt to a qualified for profit operating company. Borrower must be primarily operating in one of the following industries: manufacturing, wholesale & trade, research & development, mining, film & digital

media productions, HQ office operations, or businesses that are qualified high technology businesses. Support limited to the lesser of 49.9% of the loan amount or $5,000,000. Fees of 1-3% of MSF support amount at closing and annually thereafter.

f. Benefits Available: Provide access to capital to companies that would otherwise not be able to access that capital due to a lack of cash flow in the near term.
g. Application Process: The lender provides its underwriting document, along with an application form and company background check form, to MEDC Capital Access for evaluation and due diligence.

a. **Program Name: Loan Guaranty Program**
b. Agency Responsible for program: MEDC
c. Point of Contact: Chris Cook
d. Type of Support: Individual
e. Eligibility Guidelines: A federally regulated bank or credit union or certified development financial institution willing to provide new debt to a qualified for profit operating company. Support limited to not more than of 80% of the loan amount. Fees of 1-3% of MSF support amount at closing and annually thereafter.
f. Benefits Available: Provide access to capital to companies that would otherwise not be able to access that capital due to increased risk as determined by the senior lender.
g. Application Process: The lender provides its underwriting document, along with an application form and company background check form, to MEDC Capital Access for evaluation and due diligence.

a. **Program Name: Private Activity Bond**
b. Agency Responsible for program: MEDC
c. Point of Contact: Chris Cook
d. Type of Support: Individual
e. Eligibility Guidelines: Borrower must be primarily involved in manufacturing, be a not-for-profit corporation, or be a solid or hazardous waste disposal facility. Maximum bond amount is $1 million free of any restrictions on capital expenditures or $10 million subject to the condition that the company's total capital expenditure in the locality over the three years before and three years after the date of the issuance does not exceed $20 million. There is no size limit for bonds issued to finance solid or hazardous waste disposal facilities. Fees apply based on the amount of the bond
f. Benefits Available: Provide firms with capital cost savings stemming from the difference between taxable and tax-exempt interest rates.
g. Application Process: Applicant prepares an application for the bond and submits it to MSF staff. MSF considers an inducement resolution at its public meeting recognizing the public purpose of the project. Applicant structures the financing and bond counsel begins to prepare documents. MSF considers adoption of authorizing resolution.

Business Development

a. **Program Name – Michigan Business Development Program**
b. Agency Responsible for program – MEDC
c. Point of Contact – Josh Hundt
d. *Type of Support (Individual or Government) – Government*
e. Eligibility Guidelines – job creation and private investment by expanding or relocating business
f. Benefits Available – cash grant
g. Application Process – submission of application to MEDC staff, Michigan Strategic Fund review and approval, execution of incentive agreement, milestones and disbursements, reporting and compliance.

Federal Grant Development

a. **United States Department of Agriculture – Rural Community Development Initiative Grants**
b. Agency Responsible for program – USDA
c. Point of Contact – Jennifer Tebedo

d. Type of Support (Individual or Government) – Government
e. Eligibility Guidelines – Rural areas outside the boundaries of a city of $50,000 or more and its immediately adjacent urbanized area to improve housing, community facilities, and community and economic development projects
f. Benefits Available – cash grant
g. Application Process – Applications are accepted on an annual basis through a Notice of Funding Availability (NOFA) in the Federal Register.

a. **United States Department of Agriculture – Rural Business Development Initiative Grants**
b. Agency Responsible for program – USDA
c. Point of Contact – Jennifer Tebedo
d. Type of Support (Individual or Government) – Government
e. Eligibility Guidelines – Rural areas outside the boundaries of a city of $50,000 or more and its immediately adjacent urbanized area to support community economic development.
f. Benefits Available – cash grant
g. Application Process – Applications are accepted through the USDA Rural Development's local or State Office once per year.

a. **United States Department of Commerce – Planning Program and Local Technical Assistance Program**
b. Agency Responsible for program – US EDA
c. Point of Contact – Jennifer Tebedo
d. Type of Support (Individual or Government) – Government
e. Eligibility Guidelines – assists eligible recipients in developing economic development plans and studies designed to build capacity and guide the economic prosperity and resiliency of an area or region. The Planning program helps support organizations, including District Organizations, Indian Tribes, and other eligible recipients, with Short Term and State Planning investments designed to guide the eventual creation and retention of high-quality jobs, particularly for the unemployed and underemployed in the Nation's most economically distressed regions.
f. Benefits Available – cash grant
g. Application Process – Applications are accepted on a continuous basis through the regional or State Office.

a. **United States Department of Commerce – Public Works and Economic Adjustment Assistance Programs**
b. Agency Responsible for program – US EDA
c. *Point of Contact – Jennifer Tebedo*
d. Type of Support (Individual or Government) – Government
e. Eligibility Guidelines – EDAP makes construction, non-construction, and revolving loan fund investments to support the implementation of regional economic development strategies designed to create jobs, leverage private capital, and encourage economic resilience.
f. Benefits Available – cash grant
g. Application Process – Applications are accepted on a continuous basis through the regional or State Office.

MSHDA

Program Names: Community Development Block Grant Program (CDBG) and HOME

Agency Responsible For Programs:

Non-Entitlement Areas – Statewide

CDBG: Michigan Strategic Fund/Collaborative Community Development
Contact Person: Katherine Czarnecki Phone Number: 517.241.4950

HOME: Michigan State Housing Development Authority
Contact Person: Michelle Wildman Phone Number: 517.373.4363

Entitled Areas receive a direct allocation from the U.S. Department of Housing and Urban Development (HUD). Flint falls under the category of an Entitled Area and in FY15, HUD directly awarded Flint $3,617,741 in CDBG and $666,059 in HOME.

Type of Support: *CDBG and HOME Federal Assistance*

CDBG Eligibility Guidelines:
There is a lot of flexibility overall within CDBG. Note: activities identified in the City of Flint's Consolidated Plan include: **"Community Development and Infrastructure** - The City has 540 miles of water distribution lines, 570 miles of sanitary lines, and 350 miles of storm rain water lines. Much of this infrastructure is over 100 years old and in need of reconstruction or replacement. Insufficient funds are the major obstacle to addressing this need. CDBG and municipal financing represent a fraction of what is needed to address the problem. Additional funds from state and federal sources are needed and are being sought. CDBG will help fill the gap of inadequate resources to maintain community facilities and increase services."

For additional details go to the attached hyperlink City of Flint Consolidated Plan Link.

Overall CDBG can be used for: Acquisition of Real Property; Disposition; Public Facilities and Improvements; Clearance; Public Services; Interim Assistance; Relocation; Loss of Rental Income; Privately-Owned Utilities; Rehabilitation; Construction of Housing; Code Enforcement; Special Economic Development Activities; Microenterprise Assistance; Special Activities by CBDOs; Homeownership Assistance; Planning and Capacity Building; Program Administration Costs and Miscellaneous Other Activities.

CDBG can be qualified based on Urgent Need: An activity designated to alleviate existing conditions and the grantee certifies that those conditions are a serious and immediate threat to the health or welfare of the community, they are of recent origin or recently became urgent, the grantee is unable to finance the activity on its own, and other sources of funds are not available.

CDBG can be qualified based L/M Income Area Benefit: Can be used for an activity the benefits of which are available to all the residents in a particular area that is primarily residential, and at least 51% of those residents (or fewer if the exception criteria apply) are L/M income persons. **See hyperlink page 37 for a list of eligible census tracts.

HOME Eligibility Guidelines:
The actual activities that have been identified in the Consolidated Plan (hyperlink Page 155) are homebuyer assistance and refinancing of existing debt on multi-family projects.

Overall HOME can be used for: home purchase or rehabilitation financing assistance to eligible homeowners and new homebuyers; build or rehabilitate housing for rent or ownership; or for other reasonable and necessary expenses related to the development of non-luxury housing, including site acquisition or improvement, demolition of dilapidated housing to make way for HOME-assisted development, and payment of relocation expenses. HOME funds can also sometimes be used for tenant-based rental assistance contracts.

HOME can be qualified based L/M Income Household Benefit: The incomes of households receiving HUD assistance must not exceed 80 percent of the area median. HOME income limits are published each year by HUD. For rental housing and rental assistance, at least 90 percent of benefiting families must have incomes that are no more than 60 percent of the HUD-adjusted median family income for the area. In rental projects with five or more assisted units, at least 20% of the units must be occupied by families with incomes that do not exceed 50% of the HUD-adjusted median.

Benefits Available/Application Process: Undetermined – contact with the City of Flint regarding current allocation balances for FY15 and prior years is recommended.

Program Name: Housing Choice Vouchers (HCV)

Agency Responsible: HUD, MSDHA

Point of Contact: Kelly Rose

Type of Support: Individual, Rental Assistance

Eligibility Guidelines: 80% of applicants must be below 30% AMI, 20% below 50% AMI. Applicants must pass criminal screening that they do not have any violent crime in the past 24 months or drug offenses in last 12 months.

Benefits Available: HCV program pays a portion of the participants rent and utilities. It does not have any home repair funding component.

Application Process: MSHDA has a Homeless preference—homeless service agencies across the state can enter homeless person's application on waiting list. Non-homeless individuals/families must apply when the County resident waiting list is open for applications. This happens periodically when waiting lists get low on applicants. When vouchers are available names are pulled off the waiting list and applicants are contacted to fill out an application so their eligibility can be determined. Once eligibility is determined, they are issued a voucher and search for a rental unit. The unit is then inspected for HUD's HQS standards (does not have a water quality component) and if the unit passes a contract with the landlord is done and the family moves into the unit.

Editorial Comments: This program is not able to directly help with the Flint water issue. We are formulating a plan in consultation with HUD as to notifying individuals of their ability to get free water filters, etc. as well as their options for moving if they would like to relocate. We are also considering inspecting all homes with children 6 and under for proper installation of water filters.

Program Name: Section 8 Project Based Rental Assistance (Subsidized and Public Housing)

Agency Responsible for Program: HUD, MSHDA

Point of Contact: Daphne Wells

Type of Support: Individual. It provides rental assistance to tenants who reside at a property that has a project based rental assistance Section 8 contract with HUD. MSHDA administers this subsidy as a HUD subcontractor and in some instances has provided financing to build/rehab some of these properties.

Eligibility guidelines: Housing is available to income eligible individuals at these specific properties. Eligible applicants must apply individually at each property in which they are interested in living at and each property has a tenant selection criteria that is adhered to for prospective applicants. Each individual property maintains its own waiting list for applicants wishing to reside there.

Benefits Available: This program wouldn't have any benefits available to the Flint Water issue in that the Section 8 housing is tied to a specific property and only offers rent assistance.

Application Process: Applicants can apply at each individual rental property.

Editorial Comments: The only thing that really fits this category (Subsidized and Public Housing) is the Section 8 program as it provides rental assistance to tenants. Nothing in the program can help as it relates to the water issue as the assistance is tied to the building itself. There isn't anything in the program that would help in this situation except using our contacts with agents and owners in Flint to provide them information as we have talked about.

Program Name: MSHDA Housing Development Fund

Agency Responsible for Program: MSHDA

Point of Contact: Brian Mills

Type of Support: Individual. It provides rental assistance to tenants who reside at a property that has a project based rental assistance Section 8 contract with HUD. MSHDA administers this subsidy as a HUD subcontractor and in some instances has provided financing to build/rehab some of these properties.

Eligibility guidelines: In order for a proposal to be eligible for MSHDA's Statewide Partnership Grant program, the proposed activities must fit within one of five categories (Demolition, Land Acquisition & Development, Neighborhood Service Centers, Capital Improvements, or Community Development).

Benefits Available: Grants are limited discretionary budget dollars generated from interest from MSHDA earning on loan proceeds. Grants under $250,000 do not require formal board approval.

Application Process: Application is attached

Editorial Comments: Pursuant to communications with Mel Brown a few months ago, we suggested a number of different potential ideas for grant use in Flint. Those are detailed below:

- Pay for the costs of water quality analysis of all MSHDA backed mortgages in Flint. Evidently FHA is now conditioning all appraisals in Flint on a water quality analysis – and depending on the results won't put the mortgage through without the addition of a water infiltration system of some kind. Cost estimates are around $3,000 per home which is apparently having a negative impact on an already difficult real estate market.
- Pay for the replacement of water lines owned by residents with MSHDA mortgages within the city that need to be replaced or lines to homes with MSHDA backed mortgages or incomes less than 50% AMI.
- Pay for a percentage of the reconnection fee to acquire water from Detroit up to an amount not to exceed the % of MSHDA financed homes or low income households in the city (50% AMI).
- Pay for the replacing the city's municipal water line infrastructure associated with water lines being replaced to homes in the city with MSHDA backed mortgages or those household at or below 50% AMI.
- Pay for a percentage of any new infrastructure costs associated with the build out of a new water supply system so long as the amount doesn't exceed the % of MSHDA financed homes or low-income households in the city (50% AMI).
- Purchase of water for low income households (50% AMI).
- Purchase of water filters for any low income households (50% AMI).

Program Name: Housing Counseling

Editorial Comment: We have one Counseling agency in Flint right now (Metro Community Development) and they are not involved with water/filter distribution nor are they a site for people to get these items. More information regarding program information can be obtained from Mary Townley at 517.373.6864

Program Name: Self-help Homeownership Opportunity Program (SHOP)

Editorial Comments: The SHOP program is not administered by MSHDA. Mary Townley has calls into HUD to find out who in the state offers this product. Above is a product eligibility information showing that it is administered through non-profits.

SHOP awards grant funds to eligible national and regional non-profit organizations and consortia to purchase home sites and develop or improve the infrastructure needed to set the stage for sweat equity and volunteer-based homeownership programs for low-income persons and families. SHOP funds must be used for eligible expenses to develop decent, safe and sanitary non-luxury housing for low-income persons and families who otherwise would not become homeowners. Homebuyers must be willing to contribute significant amounts of their own sweat equity toward the construction or rehabilitation of their homes.

SHOP is authorized by the Housing Opportunity Program Extension Act of 1996, Section 11, and is subject to other Federal crosscutting requirements. No separate program regulations exist. All program requirements are listed in the applicable SHOP Notice of Funding Availability (NOFA).

Eligible Applicants: National and regional nonprofit organizations or consortia with experience in using homebuyer and volunteer labor to build housing may apply for SHOP grants. Applicants must have completed at least 30 units of self-help homeownership housing within the last 24 months. Eligible homebuyers must apply to participate in the SHOP program through a current SHOP grantee or one of their affiliates.

Application: SHOP grant funds are made available through HUD's annual SHOP NOFA competition. The SHOP NOFA is published on HUD's e-grant portal. Once the NOFA is published, eligible applicants may apply through this e-grant portal.

Eligible Activities: SHOP grant funds can only be used for land acquisition, infrastructure improvements, and administrative costs. Total land acquisition and infrastructure improvement costs cannot exceed an average of $15,000 in SHOP assistance per unit. Administrative costs cannot exceed 20% of the SHOP grant amount. SHOP grantees must leverage other funds for the new construction or rehabilitation of their SHOP units.

Program Name: HOPE

Editorial Comments: At this time MSHDA is unaware of this program and do not administer functions related to it.

TIA/WDA

Program Name: Workforce Innovation and Opportunity Act (WIOA) Adult Program
Agency Responsible for Program: Workforce Development Agency (WDA)
Point of Contact: Krista Johnson, Manager, WIOA Title I Section
Type of Support (Individual or Government): Government
Eligibility Guidelines: Adults Age 18 and Older, Priority is given to recipients of public assistance, other low income individuals, and individuals who are basic skills deficient.
Benefits Available:
Basic Career Services: Basic career services are available to all adults and may include: program information and basic assessment, general information, individual job development, advanced job club, advanced screened referrals, group activities, and job search.
Individualized Career Services: Individualized career services are designed for adults who have been unable to obtain employment through core services and have been determined to be in need of more individualized services. Individualized career services may include: comprehensive and specialized assessments, individual employment planning, counseling, short-term pre-vocational skills, case management, literacy activities, out-of-area job search, relocation assistance, internships and work experience.
Training Services: Training services, if made available, may include occupational skills training, On-the-Job training, workplace training with related instruction, registered apprenticeship, incumbent worker training, pre-apprenticeship training, skill upgrading and retraining, entrepreneurial training, transitional jobs, and adult education and literacy training provided in combination with another training service.
Application Process:
Individuals should contact their local Michigan Works! Agency to apply by calling 1-800-285-9675 to locate the nearest Michigan Works! One-Stop Center. Or they may visit www.michiganworks.org.

Program Name: Workforce Innovation and Opportunity Act (WIOA) Dislocated Worker Program
Agency Responsible for Program: Workforce Development Agency (WDA)
Point of Contact: Krista Johnson, Manager, WIOA Title I Section
Type of Support (Individual or Government): Government
Eligibility Guidelines:
A dislocated worker is an individual who:
1. Has been terminated or laid off, or who has received a notice of termination or layoff; and
   Is eligible for or has exhausted entitlement to unemployment compensation; or
   Has been employed for a duration sufficient to demonstrate attachment to the workforce, but is not eligible for unemployment compensation; and
   Is unlikely to return to a previous industry or occupation.
2. Has been terminated or laid off, or has received a notice of termination or layoff, from employment as a result of any permanent closure of, or any substantial layoff at, a plant, facility, or enterprise; or
   Is employed at a facility at which the employer has made a general announcement that such facility will close within 180 days; or
   Is employed at a facility at which the employer has made a general announcement that such facility will close.
3. Was self-employed but is unemployed as a result of general economic conditions.
4. Is a displaced homemaker.
5. *Is the spouse of a member of the Armed Forces on active duty and who has experienced* a loss of employment as a direct result of relocation to accommodate a permanent change in duty station of such member; or
   Is the spouse of a member of the Armed Forces on active duty and whose family income is significantly reduced because of a deployment, a call or order to active duty pursuant to a provision of law, a permanent change of station, or the service connected death or disability of the member; and
   Is unemployed or underemployed and is experiencing difficulty in obtaining or upgrading employment.

Benefits Available:
Basic Career Services: Basic career services are available to all dislocated workers and may include: program information and basic assessment, general information, individual job development, advanced job club, advanced screened referrals, group activities, and job search.

Individualized Career Services: Individualized career services are designed for dislocated workers who have been unable to obtain employment through core services and have been determined to be in need of more individualized services. Individualized career services may include: comprehensive and specialized assessments, individual employment planning, counseling, short-term pre-vocational skills, case management, literacy activities, out-of-area job search, relocation assistance, internships and work experience.

Training Services: Training services, if made available, may include occupational skills training, On-the-Job training, workplace training with related instruction, registered apprenticeship, incumbent worker training, pre-apprenticeship training, skill upgrading and retraining, entrepreneurial training, transitional jobs, and adult education and literacy training provided in combination with another training service.

Application Process:

Individuals should contact their local Michigan Works! Agency to apply by calling 1-800-285-9675 to locate the nearest Michigan Works! One-Stop Center. Or they may visit www.michiganworks.org.

Disaster Relief Employment Specific NDWGs:

The Secretary of Labor is authorized to award NDWGs to provide assistance to the Governor of any state whose boundaries include a disaster area in order to provide disaster relief employment assistance in the disaster area.

"Emergency or disaster" means:

1. An emergency or a major disaster, as defined in paragraphs (1) and (2), respectively, of Section 102 of the Robert T. Stafford Disaster Relief Emergency Assistance Act; or

2. An emergency or disaster situation of national significance that could result in a potentially large loss of employment, as declared or otherwise recognized by the chief official of a Federal agency with authority for or jurisdiction over the Federal response to the emergency or disaster situation.

The term "disaster area" means an area that has suffered or in which has occurred an emergency or disaster.

If awarded, funds shall be used in coordination with the Administrator of the Federal Emergency Management Agency, as applicable, to provide disaster relief employment on projects that provide food, clothing, shelter, and other humanitarian assistance for emergency and disaster victims, and projects regarding demolition, cleaning, repair, renovation, and reconstruction of damaged and destroyed structures, facilities, and lands located within the disaster area and in offshore areas related to the emergency or disaster.

An individual may be eligible to be offered disaster relief employment if such individual is:

1. A dislocated worker;
2. A long-term unemployed individual;
3. Temporarily or permanently laid off as a consequence of the emergency or disaster; or
4. In the case of an individual who is self-employed, becomes unemployed or significantly underemployed as a result of the emergency or disaster.

No individual may be employed for more than 12 months for work related to recovery from a single emergency or disaster, unless an extension is granted by the Secretary of Labor. Extensions granted by the Secretary of Labor may not exceed an additional 12 months.

Program Name: **Workforce Innovation and Opportunity Act (WIOA) Youth Program**

Agency Responsible for Program: Workforce Development Agency (WDA)

Point of Contact: Krista Johnson, Manager, WIOA Title I Section

Type of Support (Individual or Government): Government

Eligibility Guidelines:

Out-of-School Youth (OSY) are individuals who are:

- Not attending any school (as defined by State law);
- Not younger than age 16 or older than age 24; and
- One or more of the following:
    - A school dropout;
    - A youth who is within the age of compulsory school attendance, but has not attended school for at least the most recent complete school year calendar quarter;
    - A recipient of a secondary school diploma or its recognized equivalent who is a low-income individual and is:
        - Basic skills deficient; or
        - An English language learner.
    - An individual who is subject to the juvenile or adult justice system;
    - A homeless, runaway, or current/prior foster youth;
    - An individual who is pregnant or parenting;
    - A youth who is an individual with a disability; or
    - A low-income individual who requires additional assistance to enter or complete an educational program or to secure or hold employment.

In-School Youth (ISY) are individuals who are:

- Attending school (as defined by State law);

- Not younger than age 14 or older than age 21 (unless an individual with a disability who is attending school under State law);
- A low-income individual; and
- One or more of the following:
    - Basic skills deficient;
    - An English language learner;
    - An offender;
    - A homeless, runaway, or current/prior foster youth;
    - Pregnant or parenting;
    - A youth who is an individual with a disability; or
    - An individual who requires additional assistance to complete an educational program or to secure or hold employment.

Benefits Available:

Available services include tutoring; study skills training; alternative secondary school offerings; dropout recovery services; paid and unpaid work experiences, including summer employment opportunities; occupational skills training; education offered concurrently with workforce preparation; leadership development opportunities; supportive services; adult mentoring; follow-up services; comprehensive guidance and counseling; financial literacy education; entrepreneurial skills training; provision of labor market and employment information; and activities that help youth prepare for, and transition to, post-secondary education and training.

Application Process:

Individuals should contact their local Michigan Works! Agency to apply by calling 1-800-285-9675 to locate the nearest Michigan Works! One-Stop Center. Or they may visit www.michiganworks.org.

Program Name: Community Ventures

Agency Responsible for Program: Workforce Development Agency (WDA)

Point of Contact: James Durian, Manager, Community Ventures

Type of Support (Individual or Government): Government

Eligibility Guidelines: Flint residents who are DHHS clients, PATH participants, ex-offenders, and persons with disabilities.

Benefits Available: Connection to employment and comprehensive 24 months of wraparound services after job placement.

Community Ventures (CV) can assist Flint residents negatively impacted by contaminated drinking water by providing employment and wraparound services to those effected. CV can also help recruit and retain companies in Flint by partnering with companies and bringing companies together in coordinated community development efforts to help Flint residents. We have done this through promoting social enterprise partnerships like New Life Enterprises, through the formation of an Employer Resource Network (ERN), in Flint, and by partnering with United Way and local financial institutions in providing hard ship loans and financial literacy to Flint residents. CV could expand upon these efforts with a special focus on helping those most negatively impacted by the water crisis.

Application Process: *Participants are referred from* Mott Community College, Genesee-Shiawassee MWA (MWA), Mid-Michigan Goodwill, New Life Enterprises or DHHS.

Program Name: Job's for America's Graduates

Agency Responsible for Program: Workforce Development Agency (WDA)

Point of Contact: Krista Johnson, Manager, WIOA Title I Section

Type of Support (Individual or Government): Government

Eligibility Guidelines: *Students from middle school to 21 years of age.*

The JAG Flint program targeted at-risk students at two Flint-area high schools (Flint Northwestern and Flint Southwestern) to help them earn a high school diploma and prepare for college/careers following high school.

Benefits Available:

JAG-Flint's mission focuses on the following:

- Deliver a unique set of services to at-risk and disadvantaged youth in high school;
- Provided follow-up services which will result in the graduate's pursuing a postsecondary education; and
- Ensured the participants entered the workforce in a quality job leading to a career.

The primary objectives of The JAG Model program are:

- Keep program participants in school through graduation.
- *Extend program services to participants for 12 months after graduation.*
- Assist graduates or completers in pursuit of a postsecondary education and/or an entry-level job that leads to a career.
- Deliver services to non-graduates and non-completers during the 12-month follow-up period to attain a GED certificate or a high school diploma.

Application Process: Individuals should contact their local Michigan Works! Agency to apply by calling 1-800-285-9675 to locate the nearest Michigan Works! One-Stop Center. Or they may visit www.michiganworks.org.

Program Name: Partnership Accountability Training Hope (PATH)
Agency Responsible for Program: *Workforce Development Agency (WDA)*
Point of Contact: Brian Marcotte, Manager, Welfare Reform Section
Type of Support (Individual or Government): Government
Eligibility Guidelines: Individuals receiving Family Independence Program cash assistance (TANF)
Benefits Available: PATH is the work participation program required for families receiving cash assistance through the Family Independence Program administered by the Michigan Department of Health and Human Services. The Primary goals of PATH are two-fold. First, PATH will identify barriers and help participants connect to the resources they need to obtain employment. Second, the program helps Michigan reach the federally mandated 50% work participation requirement. Work participation is defined by the total number of participants fully engaged in job preparedness training, job search activities, and employment as a percentage of the states work eligible individuals receiving cash assistance.
The program is designed to assist eligible individuals in obtaining employment by offering job search assistance and work skills enhancement. The program offers vocational/occupational training, high school completion or GED attainment and a full range of supportive services that may be required to meet the job search and retention needs of the participants.
Application Process: Individuals should contact their local Michigan Works! Agency to apply by calling 1-800-285-9675 to locate the nearest Michigan Works! One-Stop Center. Or they may visit www.michiganworks.org.

Program Name: Trade Adjustment Assistance (TAA) Program
Agency Responsible for Program: Workforce Development Agency (WDA)
Point of Contact: Tammy Flynn, Manager, TAA Section
Type of Support (Individual or Government): Government
Eligibility Guidelines: Individuals are eligible for the TAA program who have a qualifying separation from a company with a certified petition by the US Department of Labor (USDOL). A petition identifies a worker group at a specific firm or subdivision and covers all individuals in that group. Generally, if a worker is laid off, a petition must be submitted within one year of the layoff for that worker to be covered by the petition and the certification, if USDOL grants the petition. A group of workers may be eligible for TAA if their jobs are lost or threatened due to trade-related circumstances as determined by the USDOL investigation.
After the investigation, USDOL determines group eligibility to apply for TAA benefits and services. Workers in a certified group will be notified by their local Michigan Works! Agency, at which time they may apply for individual eligibility for benefits and services.
Benefits Available: Employment and case management services: Assessments, career guidance, pre-vocational services, labor market information, supportive services, information on financial aid, employment planning, and information on training.
Training: Up to 130 weeks of training including:
- Classroom training
- On-the-job training
- Customized training
- Registered Apprenticeships

Trade Readjustment Allowances (TRA): Up to 130 weeks of wage subsidies for workers enrolled in fulltime training within 26 weeks of their trade-related layoff or certification, whichever is later.
Re-employment Trade Adjustment Assistance: A wage subsidy for workers age 50 or over who are re-employed at annual wages of $50,000 or less.
Job Search Allowance: Reimbursement for job search costs outside the worker's local area.
Relocation Allowance: Reimbursement for relocation costs for a job outside the worker's local area.
Application Process: Individuals should contact their local Michigan Works! Agency to apply by calling 1-800-285-9675 to locate the nearest Michigan Works! One-Stop Center. Or they may visit www.michiganworks.org.

To learn more about how to file a petition, check on the status of a petition, or to obtain more information on benefits and services, please visit www.doleta.gov/tradeact or contact Tammy Flynn at flynnt@michigan.gov.

Program Name: GED To School
Agency Responsible for Program: Workforce Development Agency (WDA)
Point of Contact: Keenan Wade
Type of Support (Individual or Government): Government
Eligibility Guidelines: Must Pass Official Practice Test or Complete Adult Education GED Preparation Course.
Benefits Available: $150 per candidate to pay the cost of GED testing fees.
Application Process: Individuals should visit the GED To School website at http://michigan.gov/wda/0,5303,7-304-64362-298726--,00.html or call 517-373-1692 for additional information.

Program Name: Adult Education Program
Agency Responsible for Program: Workforce Development Agency (WDA)
Point of Contact: Cliff Akujobi, State Administrative Manager
Type of Support (Individual or Government): Government
Eligibility Guidelines: Adults Age 16 and Older
Benefits Available: Adult Education provides an opportunity for students to improve or achieve education levels equivalent to those of high school graduates each year. Instruction is tailored to meet the individual needs of adult students. Standardized tests identify existing skill levels, appropriate instruction, and academic gains due to instruction. Adult Education consists of five components:

- High School Completion: Instruction designed to fulfill the requirements for a high school diploma.
- GED Test Preparation: Instruction in language arts, math, social studies, science, and writing, to enable successful completion of a GED test.
- Adult Literacy: Instruction in reading, English, language arts, math, and civics for adults without a high school diploma. The most basic literacy courses teach adults to read.
- English as a Second Language: Instruction in reading, speaking, writing, and understanding the English language.
- Labor Employment Related/Employer Workforce Readiness: Instruction in job- or employment-related mathematics, reading, and communication skills. Instruction may be "applied," which means that the academic material is directly related to specific job requirements.

Application Process:
Individuals should contact the Office of Adult Education at 517-373-8800 or visit the Adult Education website at http://www.michigan.gov/wda/0,5303,7-304-64362---,00.html

Flint Water Response Team Plan for Sunday, 01.17.16_V2.0_FINAL

Key

WRT	Water Response Team
OIC	Officer In Charge
ARC	American Red Cross
GCSO	Genesee County Sheriff Office
HH	Household
LEOC	Local Emergency Operations Center

Key Leaders

WRT OIC	Lt. Pat Young	
ARC OIC	Robert Gaskill-Clemons	
Warehouse	Shawn Scott-Fitzgerald	

Plan

Agency	Team Types	Mission	Priority Distribution Areas
GCSO/MSP	10 Type III	3000 HH	Refer to 20160116_Team_Assignment_Areas_Update.jpg
ARC	10 Type V	1000 HH	Refer to 20160116_Team_Assignment_Areas_Update.jpg

Resource Status

Team Type & Quantity	**Type:** Type III **Quantity:** 10				
Resource	**Required**	**Confirmed**	**Notes**	**Date**	**Time**
Team Leader	10	[redacted]		1/16/16	2000
16ft box truck	10			1/16/16	1450
Truck Driver	10			1/16/16	1450
Team Member	60-90			1/16/16	1835
Team Transport Vehicle for 6-9 Team Members	10			1/16/16	1450
Team Transport Driver	10			1/16/16	1450
Patrol Car	10-20				
iPads	10-20			1/16/16	1450

Distribution Kit	3000	[redacted]		1/16/16	2010

Team Type & Quantity	Type: Type V Quantity: 10				
Resource	**Required**	**Confirmed**	**Notes**	**Date**	**Time**
Team Leader	10	[redacted]		1/16/16	1450
ARC ERV	10			1/16/16	1450
ARC ERV Driver	10			1/16/16	1450
Team Member	30-60			1/16/16	1450
Team Transport Vehicle for 2-4 Team Members	10			1/16/16	1450
Team Transport Vehicle for Driver	10			1/16/16	1450
Patrol Car	0			1/16/16	1450
iPads	10-20			1/16/16	2010
Distribution Kit	1000			1/16/16	2010

Execution:

Key Locations

Team	Assembly Area	Hours of Operation
GCSO/MSP	LEOC Genesee County Administration Building 1101 Beach St, Flint	0830-1600
ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Critical Task: Assemble, coordinate, and monitor WRTs

GCSO/MSP Process:

1. Assign team leaders, team members, and routes to teams
2. Team Member check in
3. Conduct pre-deployment briefing to include team mission assignments, concept of operations, deployment locations, replenishment process, reporting process, and safety briefings (refer to GCSO_MSP_Volunteer Assembly Information_V1.0_011716 for detailed information on volunteer processing at LEOC)
5. Provide training to new team members
6. Issue vest and badge to team members
7. Execute morning distribution assignment
8. Lunch served between 1230-1330
9. WRT OIC and Team Leaders midday brief
10. Execute afternoon distribution assignment

11. Conduct post-deployment debrief with team leaders and members
7. Collect vest and badge from team members

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
GCSO/MSP	100 Distribution Kits Remaining	Distribution Route: exact location determined by Team Leader	1. Contact warehouse to request replenishment truck 2. Coordinate replenishment location with warehouse 3. Exchange replenishment truck with empty truck
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix

Lunch

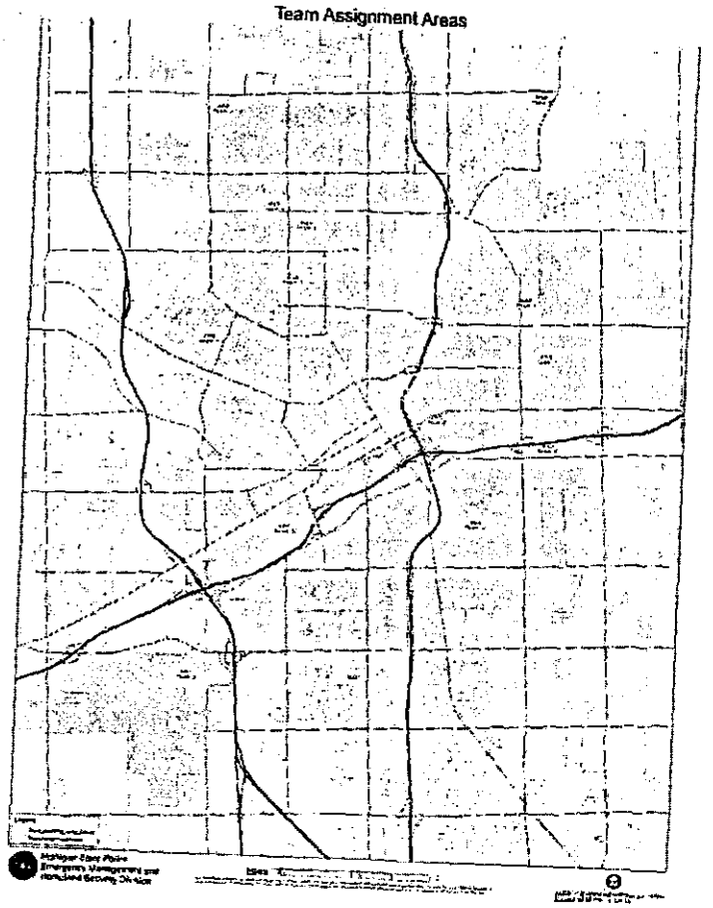
GCSO/MSP WRTs lunches will be provided by the ARC and coordinated by LEOC Logistics.

Reporting:

Tactics:

1. All WRTs will utilize ipads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if ipads fail. Refer to WRT Distribution Tracking Tool_V1.0_011716

Priority Distribution Areas



1/17/16 -Sunday

*As of 8:00pm 1/15/16

Good afternoon F/Lt. Kish,

The Planning Section in the SEOC will need the attached spread sheet completed in order to track the resources that are out in the field. Please see the below.

Thank you,
Spl/Lt. Mardella Horhn

From: MSP-EOC-MDSP

Subject: FW: Resource tracking sheet

Tom,

Please see the attached, the form needs to be completed daily and sent back to MSP-seocda2, and cc MSP-EOC-MDSP. You may have to bring in another person under your command to do some of the paperwork. A scribe would be a good idea for you so everything going on is tracked.

Thanks, Mike

Hi Tom

Attached is a spreadsheet that will assist us with being able to keep track of the resources that the team have. It would be extremely beneficial to have the provided every morning.

Please let me know if you have any questions.

Thanks
Sam

Volunteer Workforce Request Form

REQUIRED INFORMATION:

- Brief Job Description
- The requestor of the volunteers must understand they assume responsibility for the volunteer's safety and the volunteer's actions
- The requestor of the volunteers is responsible for managing and providing direction
- 48-hour advance notification required for request (Note: The VRC team will process high priority requests with less than a 48-hour notice, however, there is no guarantee, the longer the lead time the better)
- Reasonable expectations of the volunteer workforce

Today's Date:	
Requestor's Name:	
Requestor's Cell Phone:	
Requestor's Email:	
Requestor's Agency:	
Volunteer Job Description:	
Name and contact of the volunteer's supervisor for volunteer opportunity:	
Where volunteers report for volunteer opportunity: (Name of Facility, Address, City, Zip)	
Dates volunteers are needed:	
Times volunteers are needed: (Shifts are encouraged)	
Number of volunteers needed per date/time:	
Transportation of volunteers for activity:	
Does the volunteer need to provide their own lunch or will the requestor provide meals, snacks and beverages?	
Volunteer qualifications to complete volunteer opportunity:	
Additional notes:	
Submit request to:	VeeserC@michigan.gov

Subject: Today's Update

This is what I provided for today's Situation Report: Primary activities today: coordination with FDA Detroit District on their and MDARD's upcoming activities related to food, inquiry into a possible animal facility requiring follow up; draft of a document outlining federal resources that may be available to assist with broader recovery issues.

I talked with Lisa Joseph of FDA Detroit District, who said FDA is planning to conduct inspections at 5 watering points at Flint Bishop Airport starting on Tuesday, 1/19/15. They also plan to conduct a seafood HACCP inspection on Donlan Fisheries to determine the status of their water use (they were using municipal water in October and had not yet received a filter) to process seafood/make ice, and they will let us know. I confirmed that she had our updated Requirements documents and shared what our plans are for this coming week.

Confirmed that one of the locations in USA Herds with a Flint address appears to be in an area served by City water; though the premise is listed as inactive in our database, Animal Industry will visit the location to check status.

Started a Resource Document – State Emergency Operations Center wants a document containing applicable potential resources available for long term recovery; SEOC has requested this back by COB Tuesday (Peter, Nancy, and Maria – need you to review/edit/add to by 4pm Tuesday). I only included some USDA grants/loans info I could find. If there's more please add.

With the Governor's request for a federal Emergency Declaration approved, FEMA's Incident Mgmt Team will be coming in tonight / tomorrow and will be looking to coordinate with state agencies. Byron Beerbower has agreed to come in for Sunday morning, and afternoon if necessary; I will be available by phone and be back in the SEOC Monday.

FDD asked for a resource request for a meeting place for Wednesday for training on water sampling; it has not been submitted since we need more details (start time, how long we need the room for, etc.)

Provided an update to the SEOC on Indiana's HPAI outbreak.

Potential Assistance Programs –
Compiled by MDARD

Program Name: **USDA Rural Development Business & Industry Loan Guarantee**

Agency Responsible for program – USDA Rural Development

Point of Contact: James Turner, Michigan Director, USDA Rural Development

Type of Support (Individual or Government) – Businesses, Nonprofits, Government loan guarantees

Eligibility Guidelines – Lenders apply for loan guarantees for borrowers. Though most USDA Rural Development programs are limited to rural areas, this program has the authority to fund local food infrastructure in urban areas as long as the project supports farm and ranch income and expands healthy food access in underserved communities.

Benefits Available – Loan guarantees for business development, enlargement, purchase of facilities & *upgrades, purchase of equipment.*

Application Process – Rolling applications; contact lender or USDA Rural Development Michigan office for more information.

Link: http://www.rd.usda.gov/files/Local_Food_Fact_Sheet_20150401.pdf

Program Name: **USDA Agricultural Marketing Service Farmers Market Promotion Program**

Agency Responsible for program – USDA Agricultural Marketing Service

Point of Contact: FMPP Staff by email at USDAFMPPQuestions@ams.usda.gov or by phone 202-720-0933

Type of Support (Individual or Government) – Grants to Businesses, Nonprofits, Governments

Eligibility Guidelines – Entities that are eligible to apply include:

- •Agricultural businesses
- •Agricultural cooperatives
- •*Community Supported Agriculture (CSA) networks*
- •CSA associations
- •Economic development corporations
- •Local governments
- •Nonprofit corporations
- •Producer networks
- •Producer associations
- •Public benefit corporations
- •Regional farmers' market authorities

- Tribal governments

All applicants must be domestic entities owned, operated, and located within the 50 United States. State Departments of Agriculture are eligible if the State's regulatory statutes identify the specific State Department of Agriculture as a regional farmers' market authority (need to confirm Michigan status).

Benefits Available – The minimum FY 2015 award per grant was $15,000 and the maximum $100,000.

Application Process – 2015 grant cycle applications were due May 14, 2015; 2016 cycle not yet announced.

Link: http://www.ams.usda.gov/services/grants/fmpp

Program Name: **USDA Agricultural Marketing Service Local Food Promotion Program**

Agency Responsible for program – USDA Agricultural Marketing Service

Point of Contact: LFPP staff by e-mail at USDALFPPQuestions@ams.usda.gov or by phone at 202-720-2731.

Type of Support (Individual or Government) – Grants to Businesses, Nonprofits, Governments

Eligibility Guidelines – The Local Food Promotion Program (LFPP) offers grant funds with a 25% match to support the development and expansion of local and regional food business enterprises to increase domestic consumption of, and access to, locally and regionally produced agricultural products, and to develop new market opportunities for farm and ranch operations serving local markets. There are two types of project applications are accepted under LFPP—planning grants and implementation grants. Applicants can apply for either but will receive only one type of grant in the same grant cycle. Eligible entities may apply if they support local and regional food business enterprises that process, distribute, aggregate, or store locally or regionally produced food products. Such entities may include:

- Agricultural businesses and cooperatives
- Producer networks and associations
- Community supported agriculture networks and associations
- Other agricultural business entities (for-profit groups)
- Nonprofit and public benefit corporations
- Economic development corporations
- Regional farmers' market authorities
- Local and tribal governments

Benefits Available – The minimum FY 2015 award per grant was $15,000 and the maximum $100,000.

Application Process – 2015 grant cycle applications were due May 14, 2015; 2016 cycle not yet announced.

Link: http://www.ams.usda.gov/services/grants/lfpp

Program Name: **USDA Agricultural Marketing Service Federal State Marketing Improvement Program**

Agency Responsible for program – USDA Agricultural Marketing Service

Point of Contact: Federal-State Marketing Improvement Program
Transportation and Marketing Programs, Agricultural Marketing Service, USDA
1400 Independence Ave SW, Room 4549-S
Washington, DC 20250
Tel: 202-720-5024
Fax: 202-690-1144
E-mail: janise.zygmont@ams.usda.gov

Type of Support (Individual or Government) – Grants to state agencies & universities

Eligibility Guidelines – FSMIP provides matching grant funds to conduct applied research projects that explore new market opportunities for U.S. food and agricultural products and improve the efficiency and performance of the U.S. agricultural marketing system. These grants are awarded on a competitive basis to State departments of agriculture, forestry, natural resources, or energy, as well as other State agencies such as experiment stations, universities, and colleges. Projects can focus on a wide variety of agricultural research goals, including increased sales of value added meat products, aquaculture, fresh and processed products, local and regional food systems, forestry, bioenergy, and horticulture. Proposals that benefit one business or individual will not be considered. Proposals that address issues of importance at the State, multi-State, or national level are encouraged.

Benefits Available – 2015 FSMIP Projects: Total Funding: $1,005,906; Average Grant: $67,060; 15 projects in 14 States.

Application Process – 2015 grant cycle applications were due May 14, 2015; 2016 cycle not yet announced.

Link: http://www.ams.usda.gov/services/grants/fsmip/apply

Program Name: **Specialty Crop Block Grant Program**

Point of Contact: Nancy Nyquist, Michigan Department of Agriculture and Rural Development

Agriculture Development Division
P.O. Box 30017
Lansing, Michigan 48909
Phone: (517) 284-5735
E-Mail: nyquistn@michigan.gov

The Michigan Department of Agriculture and Rural Development (MDARD) offers the Specialty Crop Block Grant Program-Farm Bill (SCBGP-FB) through the United States Department of Agriculture/Ag Marketing Service (USDA/AMS); the funding is from the federal allocations.

Specialty crops are defined as "fruits and vegetables, tree nuts, dried fruits, and horticulture and nursery crops, including floriculture." Included are listings of plants commonly considered as fruits and tree nuts; vegetables; culinary herbs and spices; medicinal herbs; and nursery, floriculture, and horticulture crops.

PURPOSE OF GRANTS:

Examples of "enhancing the competitiveness" of specialty crops includes, but is not limited to: research, promotion, marketing, nutrition, trade enhancement, food safety, food security, plant health programs, education, increased knowledge and consumption, increased innovation, improved efficiency and reduced costs of distribution systems, environmental concerns and conservation, product development, good agricultural practices, good handling practices, and good manufacturing practices.

Increasing competitiveness may include developing local and rural agricultural economies, and improving food access in underserved communities:

- Increase nutritional knowledge and specialty crop consumption
- Improve efficiency within the distribution system and reduce costs
- Promote the development of good agricultural, handling and manufacturing practices while encouraging audit fund cost-sharing for small farmers, packers and processors
- Support research through standard and green initiatives
- Enhance food safety
- Develop new/improved seed varieties and specialty crops
- Control pests and diseases
- Create organic and sustainable production practices
- Establish local and regional fresh food systems
- Increasing healthy food access in underserved communities

Grant funds cannot be used for coupon/incentive redemptions or price discounts. Costs associated with printing, distribution, or promotion of coupons/tokens or price discounts (i.e., a print advertisement that contains a clip-out coupon) are allowable only if they solely promote the specialty crop rather than promote or benefit a program or single organization.

MDARD will release a request for proposals in early February 2016 for funding consideration. Applicants may request up to $100,000 in funding and approved projects cannot begin work until after October 1, 2016.

Program Name: **Value Added Grant Program (State funding)**

Point of Contact: Nancy Nyquist, Michigan Department of Agriculture and Rural Development

Agriculture Development Division
P.O. Box 30017
Lansing, Michigan 48909
Phone: (517) 284-5735
E-Mail: nyquistn@michigan.gov

This grant program is currently under review by the Michigan Department of Agriculture and Rural Development. It is anticipated that a late winter/early spring 2016 request for proposals will be available with funding of projects up to $150,000 with a 25% (minimum) match requirement of total project costs. Proposals should be focused on the following areas: Technical assistance, Feasibility studies, increasing the economic value of a commodity through production processes, export market opportunities, and projects that intend to establish, retain, expand, attract and/or develop value added agricultural processing in the State of Michigan.

Benefits Available – Loan guarantees for business development, enlargement, purchase of facilities & upgrades, purchase of equipment.

Application Process – Rolling applications; contact lender or USDA Rural Development Michigan office for more information.

Link: http://www.rd.usda.gov/files/Local_Food_Fact_Sheet_20150401.pdf

Program Name: **USDA Agricultural Marketing Service Farmers Market Promotion Program**

Agency Responsible for program – USDA Agricultural Marketing Service

Point of Contact: FMPP Staff by email at USDAFMPPQuestions@ams.usda.gov or by phone 202-720-0933

Type of Support (Individual or Government) – Grants to Businesses, Nonprofits, Governments

Eligibility Guidelines – Entities that are eligible to apply include:

- Agricultural businesses
- Agricultural cooperatives
- Community Supported Agriculture (CSA) networks
- CSA associations
- Economic development corporations
- Local governments
- Nonprofit corporations
- Producer networks
- Producer associations
- Public benefit corporations
- Regional farmers' market authorities

•Tribal governments

All applicants must be domestic entities owned, operated, and located within the 50 United States. State Departments of Agriculture are eligible if the State's regulatory statutes identify the specific State Department of Agriculture as a regional farmers' market authority (need to confirm Michigan status).

Benefits Available – The minimum FY 2015 award per grant was $15,000 and the maximum $100,000.

Application Process – 2015 grant cycle applications were due May 14, 2015; 2016 cycle not yet announced.

Link: http://www.ams.usda.gov/services/grants/fmpp

Program Name: **USDA Agricultural Marketing Service Local Food Promotion Program**

Agency Responsible for program – USDA Agricultural Marketing Service

Point of Contact: LFPP staff by e-mail at USDALFPPQuestions@ams.usda.gov or by phone at 202-720-2731.

Type of Support (Individual or Government) – Grants to Businesses, Nonprofits, Governments

Eligibility Guidelines – The Local Food Promotion Program (LFPP) offers grant funds with a 25% match to support the development and expansion of local and regional food business enterprises to increase domestic consumption of, and access to, locally and regionally produced agricultural products, and to develop new market opportunities for farm and ranch operations serving local markets. There are two types of project applications are accepted under LFPP—planning grants and implementation grants. Applicants can apply for either but will receive only one type of grant in the same grant cycle. Eligible entities may apply if they support local and regional food business enterprises that process, distribute, aggregate, or store locally or regionally produced food products. Such entities may include:

- Agricultural businesses and cooperatives
- Producer networks and associations
- Community supported agriculture networks and associations
- Other agricultural business entities (for-profit groups)
- Nonprofit and public benefit corporations
- Economic development corporations
- Regional farmers' market authorities
- Local and tribal governments

Benefits Available – The minimum FY 2015 award per grant was $15,000 and the maximum $100,000.

Application Process – 2015 grant cycle applications were due May 14, 2015; 2016 cycle not yet announced.

Link: http://www.ams.usda.gov/services/grants/lfpp

Program Name: **USDA Agricultural Marketing Service Federal State Marketing Improvement Program**

Agency Responsible for program – USDA Agricultural Marketing Service

Point of Contact: Federal-State Marketing Improvement Program
Transportation and Marketing Programs, Agricultural Marketing Service, USDA
1400 Independence Ave SW, Room 4549-S
Washington, DC 20250
Tel: 202-720-5024
Fax: 202-690-1144
E-mail: janise.zygmont@ams.usda.gov

Type of Support (Individual or Government) – Grants to state agencies & universities

Eligibility Guidelines – FSMIP provides matching grant funds to conduct applied research projects that explore new market opportunities for U.S. food and agricultural products and improve the efficiency and performance of the U.S. agricultural marketing system. These grants are awarded on a competitive basis to State departments of agriculture, forestry, natural resources, or energy, as well as other State agencies such as experiment stations, universities, and colleges. Projects can focus on a wide variety of agricultural research goals, including increased sales of value added meat products, aquaculture, fresh and processed products, local and regional food systems, forestry, bioenergy, and horticulture. *Proposals that benefit one business or individual will not be considered.* Proposals that address issues of importance at the State, multi-State, or national level are encouraged.

Benefits Available – 2015 FSMIP Projects: Total Funding: $1,005,906; Average Grant: $67,060; 15 projects in 14 States.

Application Process – 2015 grant cycle applications were due May 14, 2015; 2016 cycle not yet announced.

Program Name: **Specialty Crop Block Grant Program**

Point of Contact: Nancy Nyquist, Michigan Department of Agriculture and Rural Development

Agriculture Development Division
P.O. Box 30017
Lansing, Michigan 48909
Phone: (517) 284-5735
E-Mail: nyquistn@michigan.gov

The Michigan Department of Agriculture and Rural Development (MDARD) offers the Specialty Crop Block Grant Program-Farm Bill (SCBGP-FB) through the United States Department of Agriculture/Ag Marketing Service (USDA/AMS); the funding is from the federal allocations.

Specialty crops are defined as "fruits and vegetables, tree nuts, dried fruits, and horticulture and nursery crops, including floriculture." Included are listings of plants commonly considered as fruits and tree nuts; vegetables; culinary herbs and spices; medicinal herbs; and nursery, floriculture, and horticulture crops.

PURPOSE OF GRANTS:

Examples of "enhancing the competitiveness" of specialty crops includes, but is not limited to: research, promotion, marketing, nutrition, trade enhancement, food safety, food security, plant health programs, education, increased knowledge and consumption, increased innovation, improved efficiency and reduced costs of distribution systems, environmental concerns and conservation, product development, *good agricultural practices, good handling practices, and good manufacturing practices.*

Increasing competitiveness may include developing local and rural agricultural economies, and improving food access in underserved communities:

- Increase nutritional knowledge and specialty crop consumption
- Improve efficiency within the distribution system and reduce costs
- Promote the development of good agricultural, handling and manufacturing practices while encouraging audit fund cost-sharing for small farmers, packers and processors
- Support research through standard and green initiatives
- Enhance food safety
- Develop new/improved seed varieties and specialty crops
- Control pests and diseases
- Create organic and sustainable production practices
- Establish local and regional fresh food systems
- Increasing healthy food access in underserved communities

Grant funds cannot be used for coupon/incentive redemptions or price discounts. Costs associated with printing, distribution, or promotion of coupons/tokens or price discounts (i.e., a print advertisement that contains a clip-out coupon) are allowable only if they solely promote the specialty crop rather than promote or benefit a program or single organization.

MDARD will release a request for proposals in early February 2016 for funding consideration. Applicants may request up to $100,000 in funding and approved projects cannot begin work until after October 1, 2016.

Program Name: **Value Added Grant Program (State funding)**

Point of Contact: Nancy Nyquist, Michigan Department of Agriculture and Rural Development

Agriculture Development Division
P.O. Box 30017
Lansing, Michigan 48909
Phone: (517) 284-5735
E-Mail: nyquistn@michigan.gov

This grant program is currently under review by the Michigan Department of Agriculture and Rural Development. It is anticipated that a late winter/early spring 2016 request for proposals will be available with funding of projects up to $150,000 with a 25% (minimum) match requirement of total project costs. Proposals should be focused on the following areas: Technical assistance, Feasibility studies, increasing the economic value of a commodity through production processes, export market opportunities, and projects that intend to establish, retain, expand, attract and/or develop value added agricultural processing in the State of Michigan.

FEMA

FEMA-STATE AGREEMENT
FEMA-3375-EM-MICHIGAN

I. PURPOSE AND BACKGROUND

On January 16, 2016, the President declared that an emergency exists in the State of Michigan. This Declaration was based on emergency conditions described in the Governor's request as resulting from contaminated water (incident) and beginning on April 25, 2014, and continuing (incident period). This is the FEMA-State Agreement (Agreement) for this emergency, designated FEMA-3375- EM (Declaration), under the Robert T. Stafford *Disaster Relief and Emergency Assistance Act*, 42 U.S.C. §§ 5121-5207 (Stafford Act), in accordance with 44 CFR § 206.44. This Agreement between the United States of America through the Regional Administrator, Federal Emergency Management Agency (FEMA), Department of Homeland Security (DHS) or his/her delegate, and the State of Michigan (State or Recipient) governs all federal assistance FEMA provides the State for this Declaration. Please note: not all provisions of this agreement apply, only those provisions related to the Federal assistance declared in this disaster as listed in Attachment 3.

II. GENERAL PROVISIONS

A. **GRANT AWARD PACKAGE.** Any federal grant award package issued under this Agreement will consist of the Declaration, this Agreement, and the *Application(s) for Federal Assistance* (Standard Form (SF) 424), including *Assurances- Non-Construction Programs* (SF-424B) and also the *Assurances - Construction Programs* (SF 424D) when applicable, submitted by the State for each grant program provided under the Declaration and this Agreement.

B. **FEMA RESPONSIBILITIES.** FEMA may provide to the State or residents of the State, if applicable, funds in the form of federal grant assistance or direct federal services to support the activities and programs authorized under the Stafford Act and the President's Declaration (federal assistance) in accordance with this Agreement.

C. **STATE RESPONSIBILITIES.**

1. The State agrees to comply with the federal grant award terms and conditions set forth in the Declaration, this Agreement and all provisions of the State Administrative Plans in place for each grant award.

2. The State agrees to lead, manage and drive the overall recovery process and coordinate recovery activities and technical support by setting appropriate state policies. The State will coordinate with local, Tribal and Federal governments and

agencies, private businesses and nonprofit organizations to lead and coordinate state recovery planning and assistance to impacted communities.

3. The State agrees to be the "Recipient" for all federal financial assistance provided under the Stafford Act and this Agreement, with the exception of Housing Assistance or for Other Needs Assistance when administered by FEMA rather than by the State (i.e., the "the FEMA option") under the Individuals and Households Program, if applicable. The State also serves as the "pass-through entity" with respect to the State's role in providing subawards and administering grant assistance provided to sub-recipients.

   a. Recipient and pass-through entity have the same meaning as "Grantee," as used in governing statutes, regulations, and FEMA guidance.

   b. A recipient is also a "non-federal entity" for grants administration purposes.

4. The State agrees to comply with, and will require all subrecipients to comply with, the requirements of all applicable laws and regulations, including the Stafford Act, Title 44 of the Code of Federal Regulations (CFR) (*Emergency Management and Assistance*), 2 CFR Part 3002 (implementing 2 CFR Part 200 (*Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*)), and applicable FEMA policies and guidance.

   a. The term "subrecipient" has the same meaning as "subgrantee," as used in governing statutes, regulations, and FEMA guidance.

   b. A subrecipient is also a "non-federal entity" for grants administration purposes.

D. CERTIFICATION AND WAIVERS.

1. The State officials named by the Governor as authorized to execute certifications and otherwise to act on behalf of and to legally bind the State are listed on **Attachment 1** to this Agreement.

2. The State's Certification Regarding Lobbying is **Attachment 2** to this Agreement. This certification complies with the Lobbying Prohibitions in the DHS Standard Terms and Conditions and with the FEMA regulations found at 44 CFR Part 18 (*New Restrictions on Lobbying*).

3. The State waives any consultation process under Executive Order 12372 (*Intergovernmental review of Federal programs*) and 44 CFR Part 4 (*Intergovernmental Review of Federal Emergency Management Agency (FEMA) Programs and Activities*) for grants, loans, or other financial assistance under the Stafford Act for this major disaster or emergency.

E. FEDERAL ASSISTANCE.

1. The State has requested federal assistance and submitted FEMA Form 010-0-13 (*Request for Presidential Disaster Declaration – Major Disaster or Emergency*), the terms, representations and assurances of which are incorporated by reference.

2. Federal assistance is limited to activities necessary to alleviate damage, loss, hardship, or suffering resulting from the incident that took place during the incident period, except that reasonable expenses that were incurred in anticipation of and immediately preceding such event may be eligible.

3. Federal assistance under the Stafford Act and this Agreement is limited to those areas and programs designated by the President or FEMA in the Federal Register Notices for this major disaster or emergency, which are listed in **Attachment 3** to this Agreement and are incorporated by reference.

4. All scopes of work and costs approved as a result of this Agreement, whether as estimates or final costs approved through subawards, project worksheets, or otherwise, will incorporate by reference the terms of this Agreement and must comply with applicable laws, regulations, policy and guidance in accordance with this Agreement.

F. CONTROLLING AUTHORITIES. This Agreement is subject to the following governing authorities:

1. The Stafford Act and its implementing regulations contained in Title 44 of the Code of Federal Regulations (CFR), and FEMA policy and guidance.

2. "Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards," 2 CFR Parts 200 and 3002.

3. The DHS Standard Terms and Conditions for grants, available at http://www.dhs.gov/publication/fy15-dhs-standard-terms-and-conditions which are hereby incorporated by reference.

III. TYPES OF FEDERAL ASSISTANCE

The following disaster assistance programs may be authorized when a declaration is issued however all of these forms are not necessarily included in this Declaration. The specific forms of assistance authorized for this Declaration are listed in Attachment 3 to this Agreement.

A. PUBLIC ASSISTANCE (PA). When the Declaration authorizes Emergency Work under the PA Program, and FEMA makes a PA grant award to the State, the following terms apply:

1. The State agrees to make available the non-federal cost share of PA. FEMA funding will be limited to 75 percent of total eligible costs, except as may be provided for in **Attachment 4, Subpart B** reflecting cost share amendments to the Declaration and authorized cost share adjustments for debris removal if applicable under the conditions established in the attached **Public Assistance Program Addendum** for alternative procedures elected by PA applicants (subrecipients).

2. When Direct Federal Assistance is requested and the assistance is provided:

   a. The State will:

      i. Provide without cost to the United States all lands, easements, and rights-of-ways necessary to accomplish the approved work;

      ii. Hold and save the United States free from damages due to the requested work, and will indemnify the Federal Government against any claims arising from such work;

      iii. Provide reimbursement to FEMA for the non-federal share of the cost of such work; and

      iv. Assist the performing federal agency in all support and local *jurisdictional matters.*

   b. FEMA will bill the State for the non-federal cost share of Direct Federal Assistance provided and the State agrees to pay the non-federal share pursuant to the timeframes set forth in the letter or other correspondence transmitting the bill.

3. When debris removal is authorized, the State agrees to indemnify and hold harmless the United States for any claims arising from the removal of debris or wreckage for this major disaster or emergency. The State agrees that debris removal from public and private property will not occur until an unconditional authorization for the removal of debris is provided.

4. The attached **Public Assistance Programmatic Addendum** includes additional terms and conditions for the implementation of the PA Program as applicable, PA grant performance goals, and cost share adjustments under alternative procedures for debris removal.

IV. FUNDING

A. PAYMENT PROCESS.

1. FEMA will pay the State using the U.S. Department of Health and Human Services Payment Management System (HHS/Smartlink).

2. Payments are governed by the Treasury-State Cash Management Improvement Act (CMIA) agreements and default procedures codified at 31 CFR Part 205 (*Rules and Procedures for Efficient Federal-State Funds Transfers)* and Treasury Financial Management Manual, Volume 1, Part 4A-2000.

3. FEMA will use a "single obligation" system to process payments through a subaccount for each subaward. When FEMA identifies an overpayment, subject to the exhaustion of appeals, FEMA will deobligate the funds from the subaccount. If there are insufficient funds in the subaccount, the State will have 30 days to reimburse the HHS/Smartlink subaccount. At that time, if there are still insufficient funds in the subaccount, FEMA will refer the amount to the FEMA Finance Center (FFC) for collection.

4. The State and subrecipients have no property interest in the funds made available through the HHS/Smartlink account. At any time during the lifecycle of the grant, FEMA may adjust the amounts available to the State in HHS/Smartlink due to grant amendments, partial or full grant terminations, closeouts, or other reasons.

B. AVAILABILITY OF FUNDING. FEMA and the State agree to take measures to deliver assistance to individuals, households, governments and private nonprofits as expeditiously as possible, consistent with federal laws and regulations. To that end, the following terms and conditions apply:

1. This Agreement does not comprise an award of any type of assistance authorized for the Declaration or as described in Part III, Types of Federal Assistance, above and this Agreement does not obligate any federal funding. Rather, FEMA will separately make such award decisions for the assistance authorized for the Declaration.

2. If FEMA decides to make an award of federal assistance, such assistance will be made available within the limits of funds available from Congressional appropriations for such purposes.

3. FEMA may, in its sole discretion, if necessary because of limited funds, give first priority to assistance for individuals and households, emergency work for protection of public health and safety, and administrative costs for managing the disaster programs.

V. REPORTING

A. FEDERAL FINANCIAL REPORTS.

1. Initial and Quarterly Financial Reports. The State shall submit complete and accurate Federal Financial Reports (Standard Form 425) to the FEMA Regional Office 30 days after the end of the first federal quarter following the federal award

date for each program. The Regional Administrator or designee may waive the initial report if the incident is of such magnitude and complexity that it would place an undue administrative burden on the State. Subsequent reporting requirements shall not be waived. The State shall submit quarterly financial status reports thereafter until closeout of the federal grant award for each program funded. Reports are due on January 30, April 30, July 30, and October 30.

2. Subrecipient Final Financial Report.

   a. Requirements. After the State has submitted all payment of claim information and certifications as required in applicable regulations, including 44 CFR § 206.205 for PA, for all projects approved under a grant program for a particular subrecipient, the State will note in the remarks section of its next quarterly financial report:

      i. That the report represents the final expenditures for a particular subrecipient;

      ii. The name of that subrecipient; and

      iii. The date on which the recipient submitted to FEMA a payment of claim for each of that subrecipient's approved projects, or reference to other document submitted to FEMA that includes this information.

   b. Confirmation. FEMA will confirm the quarterly SF 425 as the final expenditure report for that subrecipient only if the State has submitted all outstanding information and certifications required by applicable regulations and FEMA policy and guidance for all the subrecipient's costs and work for the emergency or disaster.

   c. Governmental Subrecipients. This confirmed, complete and accurate quarterly report is the final expenditure report for a governmental subrecipient's final expenditures for the particular grant program for the disaster or emergency for the purposes of Section 705(a) of the Stafford Act (42 U.S.C. § 5205(a)).

3. Final Financial Report. The State shall submit a complete and accurate final Federal Financial Report (SF 425), no later than 90 days after each program's federal grant award performance period expiration date. This report is the final expenditure report reflecting the State's total expenditures by program under the federal award for the disaster or emergency for purposes of Section 705(a) of the Stafford Act (42 U.S.C. § 5205(a)).

B. PERFORMANCE REPORTS.

1. Initial and Quarterly Reports. The State shall submit performance/progress reports in compliance with each program identified under this Agreement to the FEMA Regional Office 30 days after the end of the first federal quarter following the federal award date. The Regional Administrator or designee may waive the initial report if the incident is of such magnitude and complexity that it would place an undue administrative burden on the grantee. Subsequent reporting requirements shall not be waived. The State shall submit quarterly performance/progress status reports thereafter until the grant performance period ends. Reports are due on January 30, April 30, July 30, and October 30.

2. The State shall include in its quarterly performance/progress reports (OMB Form 1660-0017 PA for PA) a status of project/subaward completion, amount of expenditures, and amount of payment for advancement or reimbursement of costs for each project/subaward funded under each of the programs authorized under this Agreement. The State shall submit project overruns requiring additional obligations to FEMA for review and approval prior to incurring costs.

3. Final Performance Report. The State shall submit a final performance/progress report 90 days from each program's grant award performance period expiration date that addresses all approved activities and the performance goals outlined in the federal award.

C. PROJECT CLOSEOUT.

1. Project Closeout Report: Within 90 days from the date the State or a subrecipient completes each project, the State shall submit a payment of claim to FEMA as required by FEMA regulations and guidance, including 44 CFR § 206.205 for PA.

2. Project Reporting: The State shall indicate on the quarterly performance/progress report each time a subrecipient has completed a project.

D. ENFORCEMENT. FEMA may suspend drawdowns, provide other special conditions or take other authorized action pursuant to 2 CFR § 200.338 (*Remedies for Noncompliance*) if the State does not submit accurate and timely reports.

E. RECORDS RETENTION.

1. State Requirement. The State will retain records for 3 years, except in certain rare circumstances described in 2 CFR § 200.333 (*Retention requirements for records*), from the date it submits the final Federal Financial Report (SF 425), to FEMA in compliance with 2 CFR § 200.333, notwithstanding the time period prescribed for subrecipients in subsection 2, Subrecipient Requirement, below.

2. Subrecipient Requirement. The State will require subrecipients to retain records for 3 years from the date that the State submits to FEMA the final expenditure report for the program in question as described above in Part V, Reporting, Section

A, Federal Financial Reports, Subsection 2, Subrecipient Final Financial Report, for that subrecipient.

VI. RECOVERY OF FUNDS

A. IN GENERAL. This agreement does not limit FEMA's right to disallow costs and recover funds based on a later audit or review during or after performance of the award to ensure compliance with the terms of the Agreement and award document, or the obligation of the recipient to return such funds, including funds paid to any subrecipient. FEMA will disallow costs for federal funds expended in error, misrepresentation, fraud, or otherwise disallowed or unused. Pursuant to the Debt Collection Improvement Act, as amended, and subject to section 705 of the Stafford Act (42 U.S.C. § 5205), the recipient is liable to repay funds to FEMA if the recipient or subrecipient has ineligible underruns (for example, actual costs are less than the amount FEMA awarded based on initial estimates); fails to comply with a term of this Agreement or the approved award/Project Worksheet documents; if costs are unreasonable; or as a result of misrepresentation or fraud. FEMA and the State will follow the reimbursement procedures provided above in Part IV, Funding, Section A, Payments.

B. DUPLICATION OF BENEFITS.

1. General. The State shall take all actions necessary and reasonable to ensure that all who receive federal assistance are aware of their responsibility to repay federal assistance that is duplicated by amounts available from insurance or any other source for the same purpose. FEMA may at any time pre-award or post-award adjust the level of funding provided to account for financial assistance provided from any other source for the same purpose as the federal assistance, or to account for benefits available for the same purpose from another source.

2. Insurance. Within his/her authorities, the Governor shall ensure, through the state agency responsible for regulation of the insurance industry, that insurance companies make full payment of eligible insurance benefits to disaster survivors and others who receive federal assistance. The State shall also take all reasonable steps to ensure that disaster survivors are aware of procedures for filing insurance claims, and are informed of any state procedures instituted for assisting insured disaster survivors.

C. COOPERATION. The State agrees, on its behalf and on behalf of its political subdivisions and others that receive federal assistance, to cooperate with the Federal Government in seeking recovery of federal assistance against any party or parties whose intentional acts or omissions or whose negligence or other tortious conduct may have caused or contributed to the damage or hardship for which federal assistance was provided under this Agreement. If applicable, FEMA will treat recovered funds as duplicated benefits available to the recipient/ subrecipient in accordance with Section 312 of the Stafford Act (42 U.S.C. § 5155).

D. STATE RESPONSIBILITIES. The State is responsible for the recovery of federal assistance expended in error, misrepresentation, fraud, or for costs otherwise disallowed or unused.

1. The State shall adjust its expenditures as it recovers funding and will report these adjustments quarterly on the Federal Financial Report, SF 425.

2. The State shall designate on its PA quarterly progress reports the applicants/ subrecipients from which they have not processed recoveries but from which recoveries are due FEMA.

3. The State is responsible for notifying FEMA of any potential debt as a result of federal funds expended in error, misrepresentation, fraud, or for costs otherwise disallowed or unused.

4. The State shall report all cases of suspected fraud to the DHS Office of Inspector General. The State agrees to cooperate with any investigation conducted by the DHS Office of Inspector General.

5. The State shall cooperate with FEMA regarding any and all lawsuits that may result from the State or FEMA's attempt to recover funds or disallow costs.

E. STATUTE OF LIMITATIONS. The three-year statute of limitations limiting FEMA's ability to recover funds paid as provided for in Section 705(a) of the Stafford Act (42 U.S.C. § 5205(a)) begins with the State's submission of the "final expenditure report" as follows:

1. The statute of limitations for recovering funds directly from the State as the recipient (that is, funds not passed through to a subrecipient) begins to run on the date that the State submits to FEMA the last complete and accurate SF 425 (Federal Financial Report) for the relevant FEMA program, as required in Part V, Reporting, Section A, Federal Financial Reports.

2. The statute of limitations for recovering funds the State passed through to a governmental subrecipient begins to run on the date the State submits to FEMA the final expenditure report for the governmental subrecipient. The final expenditure report is the complete and accurate quarterly SF 425 in which the State indicates it reflects the final expenditures for the governmental subrecipient for the relevant FEMA program under the Declaration, as required in Part V, Reporting, Section A, Federal Financial Reports, Subsection 2, Subrecipient Final Financial Report.

F. REFUNDS, REBATES AND CREDITS. The State shall transfer to FEMA the appropriate share, based on the federal support percentage, of any refund, rebate, credit or other amounts arising from the performance of this agreement. The State shall take necessary action to promptly collect all monies due or which may become due and if

applicable, to cooperate with the Federal Government in any claim or suit in connection with amounts due.

VII. CONSTRUCTION REQUIREMENTS

Prior to the start of any construction activity, the State will ensure that all applicable federal, state, and local permits and approvals are obtained and all permit conditions are addressed including FEMA and recipient/subrecipient compliance with the National Environmental Policy Act, the National Historic Preservation Act, the Endangered Species Act, and all other applicable environmental laws and executive orders. All construction should be in accordance with approved permits, projects plans and specifications, applicable building codes and program guidance.

VIII. PERFORMANCE PERIODS

A. PROGRAM/GRANT AWARD. The State will complete all grant award activities, including all projects and/or activities approved under each federal grant award, within the time period prescribed in FEMA regulations, program guidance and on the award documents.

B. EXTENSIONS. The State will include with any written request for an extension information and documentation to support the amendment and a schedule for completion. FEMA may approve subsequent work, monetary increase amendments, or activity time extension amendments only if the State submits all financial and performance reports to the appropriate Regional Office. FEMA will only approve extensions to the federal grant award period of performance or project completion timelines (if applicable) that comply with program regulatory timeframes. *FEMA will not approve extensions for delays* caused by lack of non-federal share funding.

IX. REMEDIES FOR NONCOMPLIANCE

FEMA may take action as it determines appropriate under the circumstances including but not limited to withholding of payments, disallowance of costs, suspension or termination of the award if the State or sub-recipient fails to comply with applicable Federal statutes, regulations or the terms of this Agreement pursuant to 2 CFR § 200.338 (Remedies for Noncompliance).

X. ATTACHMENTS, PROGRAMMATIC ADDENDUMS AND AMENDMENTS

A. ATTACHMENTS. Attached and also made part of this Agreement are the following Attachments which contain the terms and conditions applicable to all assistance provided under this Agreement:

Attachment 1: List of State Certification Officers

Attachment 2: Certification Regarding Lobbying

Attachment 3: List of Designated Programs and Areas

Attachment 4: Amendments

B. PROGRAMMATIC ADDENDUMS. Attached and also made part of this Agreement, if applicable, are the following Programmatic Addendums, which unless indicated otherwise in Attachment 1 may be signed or agreed to on behalf of the State by the Governor's Authorized Representative (GAR) listed in Attachment 1, and are included on a case by case basis depending on the assistance designated and whether additional terms and conditions for implementation of specific assistance programs are needed:

Public Assistance Programmatic Addendum:

- *Subpart A: PA Performance Measures as needed*
- *Subpart B: Alternative Procedures, as needed*
- *Subpart C-XX as needed*
- *Subpart B-XX as needed*

C. AMENDMENTS. This Agreement may be amended at any time by written approval of both parties and will be reflected as follows:

1. All amendments to this Agreement will be listed in Attachment 4, Subpart A to this Agreement;

2. Amendments to the State Certification Officers will be reflected in updates to Attachment 1;

3. Amendments to the programs and areas designated for this Declaration will be reflected in updates to Attachment 3;

4. Amendments to any of the cost share provisions will be reflected in Attachment 4, Subpart B;

5. Amendments to the Incident, such as type and period, will be reflected in Attachment 4, Subpart C; and

6. Amendments to any other term or condition contained in this Agreement or to the Declaration will be reflected in Attachment 4, Subpart D.

XI. SIGNATURES AND EFFECTIVE DATE

A. COUNTERPART SIGNATURES. This Agreement may be executed in two or more counterparts, each of which together shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a .pdf format data file, such signature shall create a valid and binding obligation of the party executing with the same force and effect as if such facsimile or .pdf signature page were an original thereof.

B. EFFECTIVE DATE. This FEMA-State Agreement becomes effective on the date of signature by the last Party.

FEMA-STATE AGREEMENT
FEMA-3375-EM-MICHIGAN

Agreed:

Governor	Regional Administrator
Date	Date

FEMA-STATE AGREEMENT
FEMA-3375-EM-MICHIGAN

ATTACHMENT 1
LIST OF STATE CERTIFICATION OFFICERS

1. The Governor hereby certifies that Anthony Katarsky is the Governor's Authorized Representative (GAR) empowered to execute on behalf of the State all necessary documents for federal assistance, including approval of subawards and certification of claims for Public Assistance. Captain Chris A. Kelenske is the Alternate Governor's Authorized Representative and is similarly empowered. Their specimen signatures follow:

GAR	Alternate GAR
Anthony Katarsky	Captain Chris A. Kelenske

2. The Governor hereby certifies that Captain Chris A. Kelenske and Anthony Katarsky are the State Coordinating Officer (SCO) and Alternate SCO, respectively, who will act in cooperation with the Federal Coordinating Officer under this Declaration.

3. The Governor hereby certifies that Richard Thelen is the representative of the State authorized to receive donations or loans of surplus property on behalf of the State and to execute certification, agreements, and other necessary documents with regard thereto.

4. The Governor hereby certifies that Brianna Briggs is the State official authorized to execute compliance reports, carry out compliance reviews, and distribute informational material as required by FEMA to ensure that all recipients of federal assistance are in full compliance with FEMA nondiscrimination regulations (44 CFR Part 7, *Nondiscrimination in Federally-Assisted Programs* and 44 CFR § 206.11, *Nondiscrimination in disaster assistance*).

5. The Governor hereby certifies that Brianna Briggs is the State official who will execute compliance reports, carry out compliance reviews, and distribute informational material as required by FEMA to ensure that all recipients of federal assistance are in compliance with the General Services Administration List of Parties Excluded from Federal Procurement and Nonprocurement Programs.

Restrictions on approval authority of the above named officials: N/A.

Agreed:

Governor	Date

ATTACHMENT 2
CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements

This certification is required by the regulations implementing the New Restrictions on Lobbying, 44 CFR Part 18. The undersigned certifies, to the best of his or her knowledge and belief, that:

1. No federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

2. If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, *Disclosure Form to Report Lobbying*, in accordance with its instructions.

3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31 U.S.C. § 1352. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

FEMA-STATE AGREEMENT
FEMA-3375-EM-MICHIGAN

ATTACHMENT 3

LIST OF DESIGNATED AREAS AND PROGRAMS

Genesee County is eligible for emergency protective measures (Category B), limited to Direct Federal Assistance, under the Public Assistance program.

This Direct Federal Assistance is specifically limited to FEMA providing water, water filters, water filter cartridges, water test kits, and other necessary related items for a period of no more than 90 days from the date of the emergency disaster declaration.

ATTACHMENT 4
AMENDMENTS

[This attachment is a placeholder to be added to and modified to reflect changes to the cost share, incident period, designated areas, designated officials, etc., that are authorized after the original FEMA-State Agreement is signed.]

Subpart A: List of Amendments (including listing amendments to the Declaration that are not reflected as amendments to the Agreement)

Subpart B: Cost Share Amendments

Subpart C: Amendments to the Incident (Type and Period)

Subpart D: Other Amendments not otherwise reflected in Attachments 1(List of State Certification Officers) or 3 (List of Designated Programs and Areas) and including Amendments to the Declaration that are not reflected as amendments to the Agreement

FEMA-STATE AGREEMENT
FEMA-3375-EM-MICHIGAN

PUBLIC ASSISTANCE PROGRAMMATIC ADDENDUM

SUBPART A: PA GRANT PERFORMANCE GOALS
(TBD per new requirements in 2 CFR* § 200.210*)

SUBPART B: ALTERNATIVE PROCEDURES
[This section applies only when an applicant elects section 428 procedures. Insert and modify to reflect elected 428 procedures, as applicable.]

1. **Prevailing Terms and Conditions.**

FEMA has adopted several alternative procedures for the provision of Public Assistance (PA) as a pilot program pursuant to Section 428 of the Stafford Act (42 U.S.C. § 5189f). Alternative procedures are provided for in the Public Assistance Alternative Procedures for Debris Removal Pilot Guide (Version 3) dated *June 28, 2015*, the terms and conditions of which are hereby incorporated into this Agreement. Participation in the alternative procedures is at the election of the PA applicant for the subaward.

2. **Special Cost Share Adjustments for Eligible Debris Removal Projects.**

The PAAP for Debris Removal Pilot Guide provides for the use of a sliding scale for determining the federal share for removal of debris and wreckage based on the time it takes to complete debris and wreckage removal per the declared incident and also provides for a one-time incentive per applicant/subrecipient of a 2 percent cost share adjustment applied to debris removal work completed within 90 days when an applicant/subrecipient has a FEMA-accepted debris management plan before the date of the declared incident period.

Projects properly carried out under either procedure will be subject to adjustments in the federal cost share as established by the Pilot Guide which will be recorded in Attachment 4, Subpart B, Cost Share Adjustments.

[Insert any additional terms regarding the pilot programs specific to this declared incident]

Job Description – VRC Director

Your job is to oversee the operation of the Volunteer Reception Center. You will:

- Clearly designate one entrance and one exit
- *Set up the room for efficient flow of volunteers and information*
- Ensure efficiency of operation
- Brief and assign tasks to staff and volunteers of the center
- Monitor the operation and make appropriate changes when necessary
- Maintain all records of safety and job training provided to volunteers, and hours worked in the VRC by employees and volunteers
- You should meet and thank all volunteers who help in the VRC and instruct them to sign in and out on the Volunteer Sign-in / Sign-out Record daily.

Preferred Qualifications:

- An undergraduate or graduate degree in nonprofit management or a similar field, or experience in marketing
- Excellent communication skills
- *Patience*
- Exceptional people skills
- Windows-based computer knowledge and experience
- Good organizational and delegating skills and/or experience
- Project management skills. He or she will be organized and detail-oriented
- Competence in written and oral communication, including group presentation experience
- Customer service experience
- One year of experience as volunteer coordinator and/or demonstrated leadership capability as a volunteer

Job Description – Greeters

(Red text is used to highlight the functions that trainees can realistically perform during VRC training or exercises. All other functions are critical to the smooth operation of a "real life" VRC.)

Ideally, you will be working with a partner, orienting volunteers inside and outside the volunteer entrance. **Your job is to greet people with a friendly and firm demeanor, determine the purpose of their visit and direct them accordingly.**

- **If they are there to volunteer, thank them, give them a "Volunteer Instructions" sheet and ask them to fill out a registration form. When the form is completed, direct them to the next available interviewer at Station #2.**
- If they are media personnel, direct them to the Public Information Officer.
- If they are disaster survivors, refer them to the appropriate organization.
- If they have food, clothing, etc., to donate, refer them to the appropriate agency, unless it is food for the volunteer reception center staff. (For safety reasons, most Emergency Management departments do no accept unsolicited donations of food for their staff – *Something to consider!*)

If there is a long wait, some volunteers may not understand the reason and may become impatient. **Please thank everyone for volunteering, briefly explain the process** and ask everyone to be patient or to come back later.

Items needed:

- ID badge
- Sign (Station #1 Registration)
- Table or clipboards and chairs for volunteers to use for filling out their forms
- Supply of "Volunteer Instructions" handouts
- Supply of Disaster Volunteer Registration Forms
- Pens
- Flag or hat to summon runners

VOLUNTEER RECEPTION CENTER

Job Description – Interviewers

(Red text is used to highlight the functions that trainees can realistically perform during VRC training or exercises. All other functions are critical to the smooth operation of a "real life" VRC.)

Your job is to do a quick interview of the prospective volunteer and determine his or her appropriateness and ability for the tasks needed. If possible, refer him to a job at an agency appropriate to his abilities and interests. (In some circumstances, this referral will be done by the Agency Coordination staff.) Volunteer requests will be posted on a board in front of you (behind the volunteers being interviewed) and will be erased as they are filled. If the center has a computer system, you might also receive a printed list of the current needs.

When a new volunteer approaches, ask for his/her registration form. With the volunteer, verify its completeness and accuracy, and use it as a guide from which to inquire more about the volunteer's skills. At the conclusion of the interview, have him/her take their registration form to the Data Coordination station, along with a Volunteer Referral Form. You should initial the Volunteer Referral Form to indicate the Interview Process was completed. When the volunteer accepts an assignment, complete a Referral form filling in all information requested, give it to the volunteer and instruct him to report to Data Coordination (Station #3).

Before signaling the Greeter that you are ready for another interview, take a minute to jot down in the "Notes" section anything about the volunteer you feel is important, that the volunteer did not include on his registration form (a special skill, an obvious physical limitation, etc.) If your center decides to use the blind field labeled "Office Use Only* **(see page two)**," check the appropriate box. Place his registration form in the bin or file.

Key points to remember are:

- **Disaster registration differs from a "normal" volunteer intake – there is less time to try to fit each volunteer into an ideal assignment.**
- **Refer the volunteer on the spot** if possible – it may be impossible to contact him later. If the volunteer has special training or unusual skills that you think might be needed soon, ask him to wait in the sitting area and to check the volunteer request board for new requests for their specialized skills.
- Be sure to watch for volunteers who would work well in the Volunteer Reception Center.
- It is likely that some volunteers will exhibit the stress of the disaster – an extra measure of patience and understanding is needed.
- You may be called upon to train volunteers to assist with the interviewing.

Job Description – Interviewers (cont'd)

The VRC Director should determine appropriate use of the "Office Use Only" field, with input from the local ESF-15 lead agency. It is intended to provide a customizable "blind" field in which special information can be noted about volunteers. If, for future referral of that volunteer, it would be helpful to know his general level of ability to work independently, boxes 1-5 could be coded:* ***1.* *Learns quickly, able to supervise the activities of others;* ***2.*** *Would work well independently, good decision making skills;* ***3.*** *Needs some supervision and assistance with decision making;* ***4.*** *Needs close or constant supervision; and* ***5.*** *Has a mental, physical or emotional limitation to consider in making a referral.*

Items needed:

- An ID badge for each interviewer
- Two tables and eight chairs (see VRC floor plan)
- Sign (Station #2 Interviews)
- Supply of Referral forms
- Pens
- Flag or hat to summon runners
- Bin or file for maintaining Volunteer Registration Forms

VOLUNTEER RECEPTION CENTER

Job Description – Data/Agency Coordinator

(Red text is used to highlight the functions that trainees can realistically perform during VRC training or exercises. All other functions are critical to the smooth operation of a "real life" VRC.)

Your job is to match the Referral forms to the Requests and to close out the Requests when they have been filled or are no longer needed. If *interviewers are overwhelmed, you may need to complete the referral* process with volunteers – identifying the appropriate volunteer task for them. You may have to call an agency contact to clarify the agency's Request. When you speak with an agency contact, record the information on the Request form in the section called "Follow-up Contacts with Requesting Agency."

When a volunteer brings you his Referral form, enter his name and the date of the referral on the Request form to which he was referred. Place your *initials on his Referral form.* *If you have time, call the agency contact to let him* know who or how many volunteers have been referred. Confirm with the agency contact whether you should continue referring volunteers or close out the request. **When a request has been filled, raise your flag or put on the hat to call a runner and ask him to remove that request from the board.**

If a volunteer who has been interviewed but not referred approaches your station, thank them for coming and ask them to please wait in the sitting area in the *center of the room.*

Enter the date and reason the request was closed (completed, no longer needed, etc.) at the bottom of the Request form. If your Requests for Volunteers have been entered into a database, be sure to enter the date and reason the Request was closed as soon as possible. **Place open Requests in one file and closed Requests in the other,** in either numerical order or **alphabetically by agency.**

Items needed:

- An ID Badge for each staff member
- Sign (Station #3 Data Coordination)
- Two tables and four chairs
- Phone
- Two sets of files – one for open Requests and one for closed out Requests
- Pens
- Computer, if available, networked to the computers at the Phone Bank station
- Flag or hat to summon runners

BLIND CODES – If Data Coordinator is making referrals, the Interviewers will use the following codes to convey their impression of the volunteers' suitability for tasks.

The VRC Director should determine appropriate use of the "Office Use Only" field, with input from the local ESF-15 lead agency. It is intended to provide a customizable "blind" field in which special information can be noted about volunteers. If, for future referral of that volunteer, it would be helpful to know his general level of ability to work independently, boxes 1-5 could be coded:* ***1.* *Learns quickly, able to supervise the activities of others;* ***2.*** *Would work well independently, good decision making skills;* ***3.*** *Needs some supervision and assistance with decision making;* ***4.*** *Needs close or constant supervision; and* ***5.*** *Has a mental, physical or emotional limitation to consider in making a referral.*

Job Description – Phone Bank Staff

(Red text is used to highlight the functions that trainees can realistically perform during VRC training or exercises. All other functions are critical to the smooth operation of a "real life" VRC.)

You will be handling two types of **calls,** those **from agencies requesting volunteers** and those from people wanting to volunteer. **The information you record about each call must be complete and in sufficient detail to facilitate matching volunteers to the needs.**

When you receive a call from an agency, fill out a Request for Volunteers form while you are speaking with the agency caller. If there is a computer available for entering the needs into a database, Data Entry staff should enter the need as soon as possible.

Next, call a runner by raising the flag at your station. Ask the Runner to post the volunteer request on the dry erase board in view of the Interviewers (Station #2) and then to give the Request for Volunteers form to the Data Coordinator (Station #3).

When people call to volunteer, thank them and give them the following registration options:

- If they choose to register on line or by fax, they will be e-mailed or called to discuss possible assignments and given further instructions. If the caller represents a group that wishes to volunteer together, ask them to be patient while you determine where they can be of most help. It might take one day or several to match them with a need, especially if they are coming from out of town. Post the caller's inquiry on the board behind the Phone Bank.

  When a match (a mission) is found for that volunteer, e-mail or call them back and schedule a time for them to come to the VRC to sign their on-line registration form, pick up their referral form and ID bracelet(s), and attend a safety briefing. Make sure that the volunteer's on-line registration form is waiting with the Interviewers (Station #2) on their arrival date.

- If they choose to register in person at the VRC, they will be given instructions when they arrive.

Items needed:

- An ID Badge for each staff member
- Sign (Phone Bank)
- Supply of Request for Volunteers forms
- Push pins or masking tape
- Two tables and four chairs
- Phones
- Pens
- Flag

Job Description – Data Entry

(**Red** text is used to highlight the functions that trainees can realistically perform during VRC training or exercises. All other functions are critical to the smooth operation of a "real life" VRC.)

Your job is to enter the information from the volunteer Registration and Request for Volunteers forms **into the database** so that the county has an accurate record of who participated in the recovery effort, what kinds of work they performed and when. The computer will assign a number to each Registration and Request, which must also be hand-written on the paper forms.

After the initial influx of volunteers has subsided, you may have time to begin entering the referrals recorded on the Request forms and to close out the completed Requests. As needed by VRC staff, print updated lists of the unfilled Requests and ask a Runner to distribute copies to Phone Bank staff, Data Coordination, Interviewers and, if requested, the VRC Director.

Even if you are familiar with the software being used by the VRC, please ask for a brief orientation before beginning your first shift. Accuracy is more important than speed. The information you enter will be used to determine the amount of money the county will receive from the Federal Government as a result of the disaster.

If you have difficulty using the computer, please ask for help immediately. Do not attempt to fix the problem yourself.

Items needed:

- An ID Badge
- One table and two chairs
- Printer
- Pens
- Flag
- One or more computers (multiple computers should be networked to provide all users access to information on the status of volunteer requests and the availability of volunteers.)

Job Description – Volunteer ID Staff

(Red text is used to highlight the functions that trainees can realistically perform during VRC training or exercises. All other functions are critical to the smooth operation of a "real life" VRC.)

Ask if the volunteer for his/her Referral form. If they have not been referred, thank them for coming and ask them to please wait in the sitting area in the center of the room.

Clearly write on the white portion of an ID wristband the name of the volunteer, dates he/she will be working, and the name of the agency to which the volunteer was referred, as shown on their Referral form. Place the ID wristband securely on the volunteer's wrist.

Explain to the volunteers that the ID will be "good" only for the date(s) written on the band. Authorities will not permit them to enter any of the disaster impacted areas on any other day, without a current ID wristband. If volunteers plan to work more than one day, you may write the beginning and ending dates of their service. Thank them for coming and direct them to Station #5 Safety Training.

If you need assistance, please raise your flag or put on the hat to summon a Runner.

Items needed:

- An ID Badge
- Two tables and four chairs
- Sign (Station #4 Volunteer I.D. Tags)
- Supply of volunteer ID wristbands
- ID bracelet tool, if required
- Markers
- Scissors
- Flag or hat to summon runners

VOLUNTEER RECEPTION CENTER

Job Description – Safety Trainers

(**Red** text is used to highlight the functions that trainees can realistically perform during VRC training or exercises. All other functions are critical to the smooth operation of a "real life" VRC.)

Your job is to brief all new volunteers on what to expect at their job sites, how to be safe while volunteering and how to take good care of themselves after their experience. When a small group has gathered, thank the volunteers for offering to help. Pass around a clipboard with an attendance sheet and check to be sure that all participants have signed it.

Read the entire Safety Training sheet slowly, emphasizing the importance of following supervisors' instructions at the worksite. Encourage everyone to attend a debriefing, if available, at the end of their shift. Ask if there are any questions. If a question arises to which you do not know the answer, put on the hat to summon a runner. Ask the runner to summon the VRC Director or other VRC staff to answer the question.

Some volunteers will be required to take additional training for their particular work. Direct those volunteers to where that training is provided. When your briefing is concluded, explain where the volunteers should meet the transportation to their worksites, if transportation is provided.

If you're conducting an exercise and have time to play a second round, please ask participants to play the role of at least one other volunteer with different skills. Direct them to the Registration Area to fill out another Registration form, giving only their new names and new skills.

File the attendance sheet for each class in the folder and turn them in to the VRC Director daily. If the content of your safety briefing changes (new material is added or safety instructions change), staple a copy of the new safety training script to the attendance sheet of the first class in which the new script was used. **Maintenance of these records is important to help protect the Coordinating Agency and local disaster officials from liability, should a volunteer be injured on the job.**

Items needed:

- An ID Badge
- Sign (Station #5 Safety Training)
- 10 or more chairs, preferably in a semi-circle so participants can see one another
- Clipboard with attendance sheets
- Pen
- Stapler
- Flag or hat to summon runners
- List of additional training required by specific worksites, training locations and instructors
- A supply of Safety Training handouts

Job Description – Runners

(Red text is used to highlight the functions that trainees can realistically perform during VRC training or exercises. All other functions are critical to the smooth operation of a "real life" VRC.)

Your job is to carry information from one station to another within the VRC. When a station needs you to pick up forms, restock their supplies or escort a volunteer from one place to another, **they will signal you by raising a flag or putting on a hat at their station.**

Please watch carefully for this signal and respond promptly, in order to keep the information and volunteers moving smoothly through the registration and referral process.

When you are asked to post a new Volunteer Request on the board, be sure to use only the markers provided and write neatly and large enough so that the interviewers can see the requests clearly. After posting the request on the board, give the Request form to the Data Coordinator (Station #3).

Items needed:

- An ID Badge
- Dry erase marker or water soluble marker (depending on the type of board available)
- Dry eraser or damp sponges

Volunteer Request Process Flow

Step 1:
The volunteer request form is filled out by the EOC/SEOC point of contact and emailed to the Workforce Coordinator.

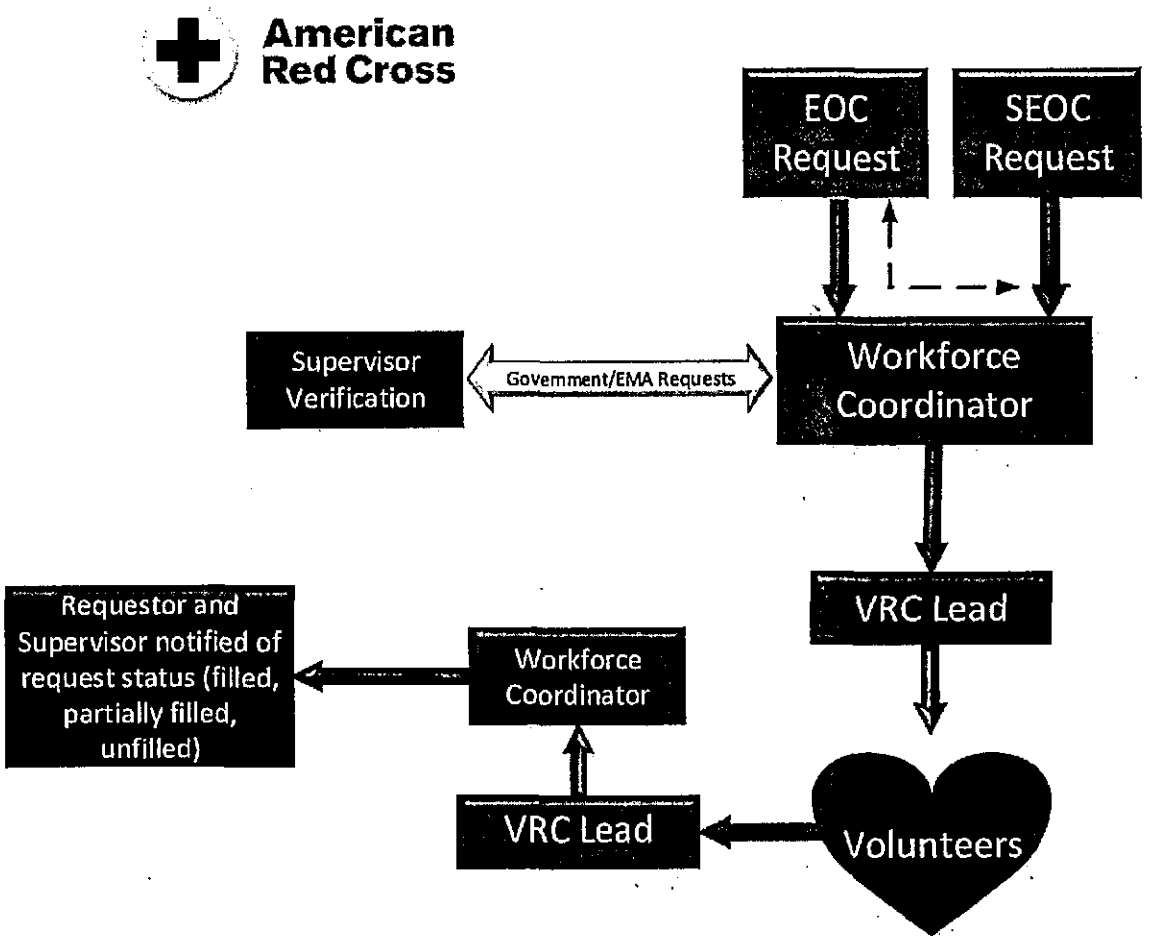
Step 2:
The Workforce Coordinator contacts the Job Assignment Supervisor listed, on the request form, to verify the information.

Step 3:
The request is then forwarded to the Volunteer Reception Center Lead.

Step 4:
The VRC Lead sends the filled request back to the Workforce Coordinator.

Step 5:
The Workforce Coordinator then notifies the Requestor and the Job Assignment Supervisor of the request status.

Step 6:
The Job Assignment Supervisor assumes responsibility for communicating any changes to the work assignment.



American Red Cross

Flint Water Crisis
Community Volunteer Resource Center (VRC)
Event-Based Volunteer Engagement Manual

V1_January 13, 2016

Community Volunteer Resource Center Overview

Overview:

Damaged infrastructure and the leaching of lead into the city's water caused damage to public and private water infrastructure and has caused or threatened to cause elevated blood lead levels especially in the population of children and pregnant women. The water situation has resulted in an immediate threat to public health and safety and disrupted vital community services. The city, county and state have all declared a state of emergency and have begun distributing required resources on a city-wide level. Stakeholders, (ex. NGOs, faith-based organizations, businesses and government agencies), acknowledge that a critical component of the Flint Water Crisis response and recovery is a sustainable community volunteer staffing solution.

Purpose:

The purpose of the Community Volunteer Reception Center (VRC) is to leverage the community partner agencies' expertise recruiting and managing event based volunteers to address the staffing needs of government agencies, community partners, and stakeholders.

The VRC will:

- Expand the existing workforce to meet urgent staffing needs and encourage long term planning of EBV staffed: events, work sites, activities, etc...
- Help set the strategic direction for building, sustaining and delivering the response and recovery programs to facilitate individual, family and community recovery.
- Serve as a mechanism/tool to recognize, capture and focus the good will of the local, regional and national communities and their interest in supporting the city of Flint and its citizens.
- Acknowledge, capture and focus the good will of the local, regional and national communities to support the response and recovery of the city of Flint and its citizens.

Volunteer Expectations:

- Match the need of the assignment with the skill set and ability of the volunteer.
- Orientation, education, training, safety briefing and job assignment.
- Providing an efficient and effective volunteer intake process and satisfying work assignment experience.

Definitions of Volunteers

An event-based volunteer (formerly spontaneous or community volunteers) are those people who volunteer for a specific event or disaster and who have no previous affiliation with the Red Cross.

The CVRC (supported by all partner agencies) will handle the scheduling of volunteers for all efforts requested. There are four types of volunteers that will be scheduled:

1. Event-Based Volunteers for the American Red Cross – Volunteers that are registering to support American Red Cross Efforts
2. Event-Based Volunteers for Partner Agencies – Volunteers that are registering to support Partner Agencies

Roles of the Community Volunteer Reception Center

State Community VCR Liaison – The Michigan Community Service Coalition (MCSC) will work in this role to clarify and streamline volunteer project requests from the state and local Emergency Operations Centers (SEOC and EOC respectively) and connect those requests to the point of contact (POC) at the Community Volunteer Reception Center (VRC). This position would serve to facilitate communication between the EOC structures and the VRC and affiliated partners.

Community VCR Lead – Oversees the Community Reception Center operation. Ensures the efficiency of operation within the Community VRC. Brief and assign tasks to staff and volunteers of the center. Monitor the operation and make changes as necessary. Regular Communication with the Community Volunteer Reception Center Workforce Coordinator and State Community VCR Liaison.

Community VRC Workforce Coordinator – Serves as the Point of Contact for Partner Agencies and Stakeholders. Review all Volunteer Workforce Request Forms for accuracy, clarity, and completion. Follow up with Volunteer Workforce Request Forms' with partners as needed. Submit approved volunteer workforce request forms to the Community VRC. Communicate to Partner Agencies and Stakeholders.

Reception Volunteer - The receptionist is responsible for being the first point of contact into the VRC and therefore sets the tone of the experience during the registration process. The receptionist is responsible for two primary things, initial direction and setting expectation.

Registration Volunteer - The Registration Station allows prospective EVBs register with the American Red Cross or for the Flint Water Crisis.

Interview Volunteer - The interviews allow for more information about the prospective EVB to be gathered, while assessing whether or not this prospective EVB would be interested in learning more about the volunteer opportunities available in the area.

Placement Volunteer – Ensures completion of registration packet, Place the new Event Based Volunteer for shifts when they are available. Will have their availability collected and possibly scheduled if available and matches..

Training Volunteer - The trainer will be responsible for having a brief orientation and training with the EVBs before they are sent into the field.

Data Entry Volunteer – Enters request for Volunteers and Volunteer Registration Forms into the computer. Maintains daily placement log and schedule.

Staff Wellness Volunteer – Reviews pre-health questionnaire to ensure EVB can complete the task. Must be a registered nurse.

Marketing/Communication Plan

The Community Partners and Stakeholders will create a plan together how to reach out through volunteers through the Internet and media. Information included is the current need for volunteers, with the knowledge, skills, and abilities needed, the Community VRC Location, Hours of operation, information on the VRC Process (such as background checks).

Facility Set-Up

The Community VRC facility should be setup with the following designated areas:

- Management
  - Space for the lead
- General information
  - Table or wall space for general disaster information, opportunities, and information on participating information
- Registration
  - Space with tables, chairs, and computers for potential volunteers to complete applications.
- Interview
  - Space for interviewing prospective volunteers prior to placement
- Training
  - Two or more spaces for orientation and other disaster training
- Placement
  - Space for workers to track open positions and place volunteers into those position

- Canteen
    - Space for snacks and staff breaks
- Staff Wellness (SW)
    - Space with privacy for volunteers to meet with SW

Ensure that there is signage up for each station as well as at the entrance and parking.

Receiving Requests

The VRC will receive request the following way:

1. All partner agencies are to complete the Volunteer Workforce Request Form when there is an established need for the use of volunteers.
2. All Volunteer Workforce Requestors must understand the following items:
    a. The requestor of the volunteers must assume responsibility for the volunteer's safety and actions, as well as take responsibility for management and direction while on worksite
    b. 48 hour advance notification is required for all volunteer requests and reasonable expectations
3. All Volunteer Workforce Requests must include the following information:
    a. Date of Request
    b. Requestor's name and contact information
    c. Job Description
    d. Supervisor on site
    e. Location of site
    f. Date and time (broken into shifts as needed) Volunteers are Needed
    g. Number of volunteers
    h. Qualifications
    i. Is there transportation for the Volunteers? Where should they meet?
    j. Will lunch and/or snack be provided?
    k. Any additional notes
4. Once the form is completed and approved by the partner agency it is then submitted MCSC Liaison or CVRC Workforce Coordinator
5. The MCSC Liaison or Workforce Coordinator reviews the request to ensure that it is a reasonable request for volunteers
6. After approved, the MCSC Liaison will send the request to the VRC Lead.
7. The VRC Lead will review the request.
    a. If there are no questions, the VRC POC will send to the Supervisor of the VRC.
    b. If there are no questions, the VRC POC will contact the MCSC Liaison.
        i. The MCSC Liaison will answer any questions to the VRC POC.
        ii. If needed, the MCSC Liaison will go to the Partners/Stakeholders
8. Add the request to the list of opportunities available for Event-Based Volunteers.
9. The VRC will fill the staff request with Event-Based Volunteers to the best of their ability.
10. The MSCS Liaison and Workforce Coordinator will submit to the Partners/Stakeholders so that they are aware of the status of request.

Intake of Volunteers

The VRC will volunteers as follows:

1. Event-Based Volunteers for the American Red Cross
    a. They will check in with the Registration table
    b. Complete the paperwork
        i. Media Consent
        ii. Pre Member Health Registration
    c. EBV will apply online through a portal set up by the American Red Cross
        i. They will complete an online profile
        ii. Read and sign code of conduct and CIIPA
        iii. Initiate a background check
    d. Once the application is complete, a training volunteer will complete an in-person interview
    e. The placement volunteer will ensure completion of the Pre-Assignment Health Questionnaire, ensure completion of Background Check, placement of volunteers, and availability of volunteers.
    f. The training volunteer will ensure training and orientation of volunteer.
    g. The staff-wellness volunteer will review form (must be a Registered Nurse).
2. Event-Based Volunteers for Partner Agencies
    a. They will check in the Registration Table for the American Red Cross
    b. EBV will complete paperwork
        i. Application
        ii. CIIPA
        iii. Business Code
        iv. Media Consent
        v. Pre Member Health Registration
    c. Once the application is complete, a training volunteer will complete an in-person interview
    d. The placement volunteer will ensure completion of the Pre-Assignment Health Questionnaire, ensure completion of Background Check, placement of volunteers, and availability of volunteers.
    e. The training volunteer will ensure training and orientation of volunteer.
    f. The staff-wellness volunteer will review form (must be a Registered Nurse).

VRC Station Process

I. Reception Station
   a. The receptionist is responsible for being the first point of contact into the VRC and therefore sets the tone of the experience during the registration process. The receptionist is responsible for two primary things:
      i. Initial direction
         1. If registering with the American Red Cross, give the prospective event based volunteer (EBV) both the Health and Media Consent form.
         2. If choosing to go unregistered with the American Red Cross, give packet of forms.
            a. Once they are done with the packet, they then go to the interview station
      ii. Setting expectations
         1. There may be situations where when a prospective event based volunteer may not be able to volunteer immediately. In such cases, communicate with the EBV that they will complete an availability sheet and be contacted when an opportunity is available to volunteer.

II. Registration Station
   a. The Registration Station allows prospective EVBs to begin their Volunteer Connection account and makes them an official Red Cross volunteer.
   b. For efficiency, this role is to be staffed by a Volunteer Services AmeriCorps Member. This individual is responsible for two things:
      i. Resetting the computers to the Entry Point homepage, allowing for easy access when signing up.
      ii. Answering any questions about Volunteer Connection for the prospective EVB.

III. Interview Station
   a. The interviews allow for more information about the prospective EVB to be gathered, while assessing whether or not this prospective EVB would be interested in learning more about the volunteer opportunities at the Red Cross and getting involved in other areas.

IV. Placement Station
   a. The Placement Station is the most important station in the VRC because this is where the new Event Based Volunteer will have their availability collected and possibly scheduled.
   b. The Placement Station will serve under these functions:
      i. If volunteering with the ARC; Check the profile to ensure all steps have been completed in Volunteer Connection

ii. If not volunteering with ARC, run ICHAT background.
iii. When the EVB comes to the station, take the Health and Media Consent form as well as the interview and paperclip them together
    1. If the Health Consent has a yes checked, send to the Staff wellness.
        a. If they can volunteer for an opportunity available, they would proceed to the Placement Table.
iv. Go over the job opportunities that are available
v. Go over the DRO Assignment Sheet
vi. Complete the excel Assignment Sheet to log the schedules and shifts. This will be essential in calling volunteers back when assignments do open
vii. Add to the placement list
viii. At the end of the day, pull the excel sheet and see if there are any previous shifts that could be filled

V. Training Station
    a. The trainer will be responsible for having a brief orientation, training, and safety overview with the EVBs before they are sent into the field.

Call Back Process

If a volunteer is available for other opportunities complete the following process:

I. Call back the volunteer and schedule them.
    a. If scheduling, place on schedule and indicate that you called them back.
    b. Update any further availability that they might have.
    c. If leaving a message, please indicate what the need is and a number to call back
II. There is also the option to send an email to all volunteers with shifts as needed asking to email back if they can fill a schedule.

Pre-decisional not for further distribution

Brianna & Phil,

We really appreciate you being able to jump on this afternoon's National VOAD Bi-Weekly Operations Call. The full agenda is at the bottom of this email. I asked to have Flint report out first so that you can jump off the call if need be.

Some potential talking points below. Brianna, feel free to report out on anything you'd like from the state side – please do not feel like you need to stick to talking points below. These are just ideas. Just a reminder that some of the national partners on this call may not be familiar with anything going on, so starting high level about activities would be helpful.

Brianna –

- State EOC is fully activated with many state agencies represented
- Distributing water, water filters, replacement filter cartridges, water tests kits through door-to-door canvassing, POD distribution, etc
- The state has been partnering with many voluntary agencies to accomplish this mission
- Working closely with Red Cross Volunteer Reception Center to engage volunteers in this canvassing efforts
- Any additional details or statistics you may be able to provide. I usually stick to approved stats in State Press Releases. Attached is the state press release from today:
    - Since Jan. 9, 2016, the following resources have been distributed to residents, both at the water resource sites and by water response teams:
    - 196,456 cases of water
    - 95,417 water filters
    - 30,255 water testing kits
- Some of the next steps include the launching of a recycling program today at an 11:30 media event (attached media advisory)
- Working to transition distribution of commodities to local voluntary agencies; working closely with them to develop a sustainable plan and model for future distribution

Phil- attached are FEMA's internal daily talking points for questions you may get.

- Start with EM Dec overview
    - On January 16, 2016, President Barack Obama declared an emergency for Genesee County in the State of Michigan, <u>limited to Direct Federal Assistance</u>, as a result of the emergency conditions resulting from contaminated water in the city of Flint, authorizing FEMA to support the state in its efforts to respond to the incident.
    - Under this emergency declaration, FEMA is authorized to provide emergency protective measures, Category B, limited to Direct Federal Assistance, under the Public Assistance program limited to 75 percent of the total eligible costs. <u>FEMA will, in coordination with the state, provide water, water filters,</u>

water filter cartridges, testing kits, and other necessary related items for a period of up to 90 days from the date of this declaration. We will also provide technical assistance to the state.

- Current number of commodities purchased by the state:
  - As of COB January 27, 2016, the following commodities were requested by and provided to the state of Michigan in support of the response to the emergency conditions resulting from contaminated water in the city of Flint.
    - 844,200 liters of water
    - 102,520 water filter replacement cartridges
    - 5,000-23 cup water dispenser & filtration systems (ZeroWater)
    - 30,000 water filters
- HHS efforts
  - On January 19, 2016, the U.S. Department of Health and Human Services (HHS) was designated as the lead federal agency responsible for coordinating federal government response and recovery efforts in Flint, Michigan.
  - FEMA will support HHS as needed to identify and mobilize the capabilities of the rest of the federal partners – including the Small Business Administration, the Environmental Protection Agency (EPA), the Department of Housing and Urban Development (HUD) and the Department of Agriculture (USDA), and others—that are already working to help residents in Flint.

I hope this helps! If you have any questions please reach out. I will be on the road to Flint but will monitor my BB.

Thanks,
Katie

REMINDER: Bi-Weekly Call Tomorrow

Dear Members and Partners,

Our next bi-weekly operations call will be held **tomorrow, January 28th at 3PM EST**. Our goal is to provide a platform for communication and collaboration between members and partners. Please report out unmet needs you are experiencing in relation to Flint, Michigan, Winter Storm Jonas, Texas, Mississippi, Missouri and California. Updates of your current activities can be posted to VOADNet/Yammer.

In an effort to make this call as productive as possible and foster collaboration, please report out the following:

1. Brief overview of current operations
2. Resources available
3. Unmet needs

Purpose: To promote information sharing and operational coordination among VOAD Members and Partners. Please provide information regarding where you are responding, any unmet needs and/or available resources.

Audience: Members and Partners responding or interested in responding shared unmet needs and available resources for response and recovery to the following:

- Flint, Michigan
- Winter Storm Jonas
- Texas and Mississippi tornadoes
- Midwest Floods including Missouri and Illinois
- South Carolina
- Other

Date: 1/28/2016

Time: 3 PM EDT

Talking Points: Flint, Michigan Water Contamination

January 28, 2016 @ 9 a.m.

Daily Numbers

Reported at 8 p.m. on January 27, 2016

As of January 27, 2016, the following commodities were requested by and provided to the state of Michigan in support of the response to the emergency conditions resulting from contaminated water in the city of Flint.

- 844,200 liters of water
- 102,520 water filter replacement cartridges
- 5,000-23 cup water dispenser & filtration systems (ZeroWater)
- 30,000 water filters

Major Disaster Declaration/Full EM Denial

- Governor Snyder's January 20, 2016, appeal for a major disaster declaration for contamination and damage to the public water system in the City of Flint was denied on January 22, 2016. After review, FEMA determined that this event does not meet the statutory definition of major disaster under the Robert T. Stafford Disaster Relief and Emergency Assistance Act.

    - *IF ASKED:* To qualify for a "major disaster" declaration there must be a natural catastrophe or, regardless of cause, a fire, flood or explosion which causes damages of significant severity and magnitude to warrant a declaration. FEMA's assistance is intended to supplement the efforts and available resources of States, local governments, and disaster relief organizations in alleviating the damage and loss by the natural catastrophe, fire, flood or explosion. It was determined that the presence of lead in the Flint drinking water was not caused by a natural catastrophe, or by a fire, flood or explosion, so it does not qualify for a major disaster declaration.

- FEMA's assistance remains limited to what the President authorized in the Emergency Declaration on January 16, 2016. FEMA will, in coordination with the state, provide water, water filters, water filter cartridges, testing kits, and other necessary related items for a period of up to 90 days from the date of this declaration. The portions of the Emergency Declaration not granted can be appealed by the Governor.

- The decision means that the state can continue to work directly with other federal agencies and those agencies can provide assistance through their own authorities.

- On January 19, 2016, the U.S. Department of Health and Human Services (HHS) was designated as the lead federal agency responsible for coordinating federal government response and recovery efforts in Flint, Michigan.

- FEMA will support HHS as needed to identify and mobilize the capabilities of the rest of the federal partners – including the Small Business Administration, the Environmental Protection Agency (EPA), the Department of Housing and Urban Development (HUD) and the Department of Agriculture (USDA), and others—that are already working to help residents in Flint.

HHS as Federal Response Lead

- On January 19, 2016, the U.S. Department of Health and Human Services (HHS) was designated as the lead federal agency responsible for coordinating federal government response and recovery efforts in Flint, Michigan.

- Assistant Secretary for Preparedness and Response Dr. Nicole Lurie will lead this effort, supported by HHS Acting Assistant Secretary for Health Dr. Karen DeSalvo, as well as two U.S. Public Health Service officers.

- FEMA will support HHS as needed to identify and mobilize the capabilities of the rest of the federal partners – including the Small Business Administration, the Environmental Protection Agency (EPA), the Department of Housing and Urban Development (HUD) and Department of Agriculture (USDA), and others—that are already working to help residents in Flint.

- FEMA will work with the HHS team in Michigan to establish a collaborative process to best support state and local leaders with identifying the size and scope of the problem and help them develop and execute a plan to address the public health and infrastructure issues in Flint.

Emergency Declaration

- On January 14, FEMA received Governor Snyder's request for an Emergency Declaration, as well as a Major Disaster Declaration for emergency protective measures, temporary housing and repairs to homes and low-cost loans for covering uninsured loss of property, as well as other federal assistance.

- On January 16, 2016, President Barack Obama declared an emergency for Genesee County in the State of Michigan, **limited to Direct Federal Assistance**, as a result of the emergency conditions resulting from contaminated water in the city of Flint, authorizing FEMA to support the state in its efforts to respond to the incident.

- Under this emergency declaration, FEMA is authorized to provide emergency protective measures, Category B, limited to Direct Federal Assistance, under the Public Assistance program limited to 75 percent of the total eligible costs. FEMA will, in coordination with the state, provide water, water filters, water filter cartridges, testing kits, and other necessary related items for a period of up to 90 days from the date of this declaration.

IF ASKED about period of assistance through EM (90 days):

- FEMA's emergency assistance is designed to be supplemental and temporary in nature. FEMA, and our partners in other federal agencies, will be working closely with the state, county, and city officials to support those officials in the development of medium and longer term solutions to this problem.

- The state may submit a request to extend the current 90 day period of assistance established by the declaration, providing a valid reason that the extension is necessary.

If ASKED about the $5 million cap on assistance

- When the amount of federal assistance for an emergency declaration exceeds $5 million, FEMA is required to notify Congress.

Other Federal Agency Assistance To-Date

- U.S. Health and Human Services

    - The Department of Health and Human Services (HHS) Office of the Assistant Secretary for Preparedness and Response (ASPR) is working to identify vulnerable Flint residents who may not be able to travel to obtain filters and water testing kits. They are also working with the Centers for Medicare and Medicaid Services (CMS) to provide critical information needed for city responders to locate vulnerable residents and to help focus the city's outreach efforts.

    - HHS-funded health care centers in the area are offering free lead testing for their patients and are reaching out to patients to make them aware of the free testing. Exposed children will receive ongoing monitoring while they are health center patients. Health centers also are providing bottled water at their facilities and are assisting patients in obtaining bottled water or water filters in coordination with county-wide efforts.

    - HHS is helping educate residents who use HHS programs and services, such as Head Start programs and programs that serve seniors. In addition, HHS-funded local agencies on aging and community partners are reaching out to seniors and grandparents raising grandchildren to help them find water and filter distribution sites and to provide homebound residents with assistance in obtaining and installing filters.

    - The Centers for Disease Control and Prevention (CDC) is currently providing technical assistance to the Michigan state health department to assess lead

exposure especially in homes with children. CDC also has provided recommendations on educational interventions for children affected by lead.

- U.S. Environmental Protection Agency
    - In mid-October, the EPA established a Flint Safe Drinking Water Task Force comprised of EPA scientists who are internationally recognized experts in the field of lead in drinking water. The EPA Task Force is providing technical assistance to the Michigan Department of Environmental Quality and the City of Flint to implement corrosion control treatment and to develop school and residential sampling protocols.
    - EPA is also conducting an audit of the Michigan Department of Environmental Quality (MDEQ) drinking water program – to examine MDEQ's implementation of the Safe Drinking Water Act and related rules on lead and copper, total coliform, nitrates and ground water. This comprehensive audit will provide Flint residents and the people of Michigan with more information about MDEQ oversight of public water supplies and will identify actions that may be needed to strengthen the Michigan drinking water program.
- Housing & Urban Development
    - Flint was identified as one of six target cities in the second round of the Strong Cities – Strong Communities (SC2) White House initiative in 2014. This program focuses on enhanced Federal agency support in areas of blight reduction, public safety and economic development.
    - Discussions are ongoing between the FEMA Region 5 SC2 program lead and Department of Housing and Urban Development (HUD) staff on the Flint water crisis impacts to SC2 programs and initiatives; as well as possible opportunities for collaboration through existing federal engagement with local, county and State agencies.
    - HUD is working closely with the city on economic development and interagency coordination. They have successfully assisted the city with the purchase and installation of water filters. HUD had an existing lead hazard grant to Flint, targeted to lead paint, $325,000 of which could be used for addressing the water lead contamination. Additionally, HUD has provided a data tracking and reporting system for the State of Michigan to use in its lead investigations.
- U.S. Army Corps of Engineers
    - The FEMA Region 5 Recovery Coordinator is in discussion with the United States Army Corps of Engineers to identify possible technical assistance and/or

Subject Matter Experts on public water distribution systems, and possible courses of action.

- US Department of Agriculture
    - USDA has waived requirements on potable tap water availability at school meal service, allowing schools to provide bottled water. The Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) is also allowing participants to use WIC vouchers for ready-to-feed infant formula, which does not need to be mixed with water, and participants can also swap powdered formula for ready-to-feed formula.

STATE OF MICHIGAN
JOINT INFORMATION CENTER

Media Advisory

January 28, 2016

PHOTO/VIDEO OPPORTUNITY TODAY

Community Coalition kicks off water bottle recycling program

Who: A coalition of public-private partners including the State of Michigan, City of Flint, Genesee County, Schupan Recycling, Republic Services, Young's Environmental Cleanup, Keep Genesee County Beautiful and UM-Flint

Speakers include:

- Matt Flechter, Recycling Market Development Specialist, State of Michigan
- Heather Griffin, Waste Services Coordinator, City of Flint
- Shane Kelley, Planner, Genesee County Metropolitan Planning Commission

What: Will host a media event to announce Flint's coordinated recycling program in place for empty water bottles and used water filter cartridges

When: Thursday, January 28, 2016
11:30 a.m.

Where: Fire Station #1
310 E. 5th St., Flint

- The press conference will take place behind the fire station near the water distribution station

Details: Public and private partners will detail the collaborative short- and long-term recycling efforts for water bottles and filter cartridges.

NOTE: **ALL MEDIA INQUIRIES ARE BEING HANDLED BY THE JOINT INFORMATION CENTER AT 888-EMD-TODAY (888-363-8632).**

STATE OF MICHIGAN
JOINT INFORMATION CENTER

NEWS RELEASE

FOR IMMEDIATE RELEASE
January 27, 2016
Release #: 20

Efforts Continue to Provide Safe Water Resources in Flint

1,020 Homes Visited Today by Water Response Teams

Flint, Mich. – Water response teams comprised of 109 city, county and state personnel, American Red Cross and volunteers continued door-to-door delivery efforts today visiting 1,020 homes. These teams are canvassing the city providing free bottled water, filters, water replacement cartridges and water testing kits to Flint homes not yet identified as having a water filter.

As part of the distribution process, residents seeking water filters and replacement cartridges are asked to share their address. This data is being collected and mapped in real-time to assist with long-term recovery and help water response teams know where to focus their door-to-door efforts. It is important to note that no resident will be denied resources if an address is not provided, and a photo identification is not required.

Since Jan. 9, 2016, the following resources have been distributed to residents, both at the water resource sites and by water response teams:

- 196,456 cases of water
- 95,417 water filters
- 30,255 water testing kits

In addition to water response teams, water resource sites remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1 (also a recycling site)
310 East 5th St.

Fire Station #3
1525 Martin Luther King Ave.

Fire Station #5 (also a recycling site)
3402 Western Rd.

MORE

Fire Station #6
716 West Pierson Rd.

Fire Station #8 (also a recycling site)
202 East Atherton Rd.

All water filters distributed by the State of Michigan are certified by NSF International for lead reduction. Individuals wishing to verify that a specific filter is NSF-certified can do so via the NSF website.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

###

NOTE: **ALL MEDIA INQUIRIES ARE BEING HANDLED BY THE JOINT INFORMATION CENTER AT 888-EMD-TODAY (888-363-8632). FOR FLINT WATER EMERGENCY DONATION INFORMATION, GO TO www.helpforflint.com.**

Attachments: Volunteer Report.docx; ATT00001.htm

This is the document that Ginna put together for me. Gives me everything I need. This is all I asked her to do. And I asked her because she is the ONLY one that stepped up to help. Sorry for all the confusion. She's not and never intended to give the teams routes. The only thing I care about is what resources are going to be needed. The rest I would imagine would be valuable to you who has to tell Capt who's out there.

This is so frustrating. If I want an inventory, I go to one person. If I want a list of donations, I go to one person. But for some reason asking to go to one person for volunteers is too much to ask. People get all upset about it. I never meant to cause problems, but this part of the response is beyond jacked up! Thanks Bri

Subject: draft of Volunteer report
Attachments: Volunteer Report.docx

I am sending you the draft version of the volunteer report. I listed the teams for this week - as Chris described them, but they can be changed - it is just a draft for how it could look.

The big question for tomorrow is what will Red Cross teams be doing - if there are needs for vulnerable population they could start on that list or do you want them to go to the apartments tomorrow. If you choose the apartments for tomorrow and if there are vulnerable populations you find are beyond the ones Team Rubicon have done, you can let Chris know Red Cross will start on them on Tuesday. That allows him to report that out to the County tomorrow. Team Rubicon can be split between the two options - rapid response and vulnerable populations. It also allows you to tell the captain that you have started on the apartments.

Another Idea - the weekends could be the apartments with Red Cross and Islamic Relief - they could then increase the number of volunteers they add to teams because the trucks could be parked in the parking lot and they could increase their volunteers who go in to provide the support. More people could be engaged in volunteering that way. (in fact tomorrow let's brainstorm some ideas like that - how we can get more done with volunteers by being strategic)

Your choice in what plan works best for tomorrow.

Hello everyone,

I apologize that I have not sent this e-mail out sooner. I am still working on a new location for our next meeting, and will let you know as soon as I have a place set. However, our next meeting is still scheduled for this Thursday, February 4th at 3:00 p.m.

As promised, I have attached a number of documents to this e-mail. They are...

1. Minutes from last Thursday's meeting

2. Volunteer Request Form for any organization that needs event based volunteers from the Community Volunteer Reception Center. (Also, please remember that groups interested in volunteering in the work that is being done around the water crisis should visit www.flintvolunteer.org)
3. Updated contact list for the Community Partners Meetings
4. Catholic Charities support group for those affected by the water crisis
5. Long term community recovery model (introduced at last week's meeting)

Finally, remember that tomorrow (Monday), there will be a rally at First Trinity Missionary Baptist Church (1226 Beach St., Flint, MI)...at 12:00 p.m. Everyone is invited.

Hope to see everyone on Thursday. Take care.

Tony Lasher
Executive Director
American Red Cross of East Central Bay - Michigan
(serving the counties of Arenac, Bay, Genesee, Gladwin, Huron, Lapeer, Midland, Saginaw, Sanilac and Tuscola)
tony.lasher@redcross.org

Work: 810-893-6647

American Red Cross
Michigan Region

The American Red Cross prevents and alleviates human suffering in the face of emergencies by mobilizing the power of volunteers and the generosity of donors.

Community Partners Meeting
American Red Cross
1401 S Grand Traverse St, Flint, MI 48503
Thursday, January 28, 2016

Introductions

- Lieutenant Governor Brain Calley: eye on sustainability, window of opportunity to help Flint, wants to be physically present in community (physical presences will be Rich Baird). Wants over communication. Wants to leave tangible money (100million) for long run before close of his run as a government official. Intends to be at next meeting.
    - Alternative to 211- 866-561-2500, Going to be on Michigan.gov
      211 does not work for Obama Phones or for some of the prepaid phones.
    - Need for translation of all documents in Arabic and Spanish. Some posted to Michigan.gov.
    - Concerns raised about how will those who test negative will receive treatment if they are still affected.

National Guard I.D. announcement

- Issues with PODs
    - There are currently rumors going around, they are not working with law enforcement (I.e. ICE). The National Guard's main concern is just to get clean water out to the community. "No human being will be denied water at our five locations. You do not need to give ID; you do not need to show your address." When they ask "What is your address?" if you feel uncomfortable you can call 211 and get a delivery schedule or have someone come for you.

Planning (See PowerPoint)

- Recovery Destination: Healthy Home, Healthy Community
- 6 points of recovery (Each one over seen by someone in the room), possibly have people sign up for "committees" at a later date. KEY OUTCOME.
- Need to work from this macro distribution to a more targeted sustainable solution
- Need to carve out "players" known and unknown
- Team Rubicon: skills of military and first responders to respond to disasters
- Artist/Activist speaking about how 211 is hard and some locations not receiving resources that they need

- Flint Food Bank (810-239-4441), who works with 100 partners, is now making deliveries to over 40 sites, with 21 trucks, 372 pallets. The Food Bank plans on doing this each week. If you know of any nonprofit interested in receiving water have them call the Food Bank. Must call for pallets only. Catholic Charities can help with smaller quantities of water.
- Some houses are being hit more than once. But there are areas where they have not seen a bottle of water. The Red Cross gets out routes Emergency Operation Center. If there are addresses and locations please leave them here at the Red Cross or call 211. Senior/ Section eight housing seems to be a main concern. Catholic Charities seems to be working on that hurdle as well.

Activity Reports

- Behavioral health support meeting with the Public Health "Flint Community Resilience Group" next Tuesday February 2nd 11am-1pm at River Front Banquet Center. Immediate, intermediate and long term behavioral health addressed.

County EOC/State EOC:

- Sheriff is encouraging everyone to use/promote 211. Or the Sheriff's radio room has a center set up (more information?). 211 does not meet immediate need for water unless it is a special circumstance. Your name is going on a list. Rumor of State pulling out is not true, there is a "transition" going on.
- More clear guidelines on how to get answers needed. There are 600 franchise customers. Suggestion: look at where the bill comes may/may not help you know where the water is coming from. Emphasis on having people CALL to get answers. There is also the "leaving things on the door" we need to think about if people have the tools to read or call for answers.
- There was a suggestion for an online database so that people can look it up on their own if they would like to. Sean Kammer from the Mayor's office said that he can most likely get that up tomorrow. There is one floating around out there but we should see if there are differences to make sure correct information is released.
- 95% of community reached by canvasing, 90% twice.
- Reoccurring issue brought up: Put people of Flint to work with the Flint Water Crisis?

FEMA:

- Katie Halliday: There was a federal emergency declaration allowing for four critical commodities: water, filter, filter replacement and water test kits. Also providing technical guidance.
- Staff at federal storing agency and then commodities go to the state area that goes out to distribution. You will not see FEMA out on the ground level.
- Jeannie Moran FEMA region 5 (regina.moran@fema.dhs.gov; 202-821-3867) is our contact
- Health and Human Services have also come in to set up operations on the ground to see what they can offer for sustainable, long term options.
- Department of Community Health states they have had a revolving door of FEMA and State coming through to help come up with long term goals. They are feeling heard. Health Department with EPA will be here all weekend working on long term plans to create center here in Flint. (More information?)

Partners and Stakeholders:

Good360:

- Resource for everyone. Happy to have individual calls. Partners with large local donors to procure products for non-profits. Understand that product need may not be at this time but it may show up down the road. Walmart, Home Depot, CVS, + would be working with 360. They have also been working with local government and non-profits here. Some of these companies are already on the ground.
- Non- Profits can develop their own wish list. Disasterrecovery360.org and you can create your "needs list". There is no fee to use their services. Products offered at extreme discount or at no cost to non-profit.
- Contact: tiffany@good360.org

Community Volunteer Reception Center (VRC), Staffing request, Website

- Over 310 EBV last Saturday and 40 ARC volunteers. This weekend 360 volunteers coming in, including partners such as Michigan Carpenters.
- There is now a website for the Volunteer Reception Center: Flintvolunteer.com
- This is where large groups will be sent to get connected to VRC.
- Questions keep coming up about pledged money for jobs to help empower people of Flint and long term breaking away from relying on volunteers.

- Transition to working with United Way and how to distribute volunteers for community partners that will help beyond this cause. Starting through the current VRC will allow for this development. "Civic engagement beyond this crisis." If agencies have a request for volunteers please fill out Volunteer Workforce Request Form (see attached).
- Hours are changing week to week and a set schedule should be released next week.
- GOAL: Eventually have partners post needs to the website and help to stay engaged through a sharing site. Looking for tools to share information.

Other business

- Catholic Charities has started a support group 1pm- 3pm at Catholic Charities' Center for Hope Warming Center 517 E. Fifth Ave
- Monday at 12:00p rally at 1226 Beach St. Flint, MI, First Trinity Missionary Baptist Church
- *Metro (Chanelle) keeps a cohesive list of local events and has an email- Thought: link* her to site?
- St. Michaels and St. Mary's are trying to canvas. They are going to get in touch with Catholic Charities and Bottles for Babies
- Social Media? "#volunteer4flint" Genesee County Health Department also puts stuff on their Facebook page. They are willing to put things on their page and they have a marketing specialist.
- Who has the resources to host a FB page for this group? TABLE FOR NXT TIME.
- "Bottles for the Babies" working on hitting 41,000 households will be getting magnets and flyering. Getting information from the Health Department. Water IQ (something they use to test local knowledge) results: only 50% new they needed replacement filters and less than 50% knew where to get the replacement filter.
- Cooking Matters Class also going to be offered though Catholic Charities. Time TBA on Monday Afternoons.
- Next Thursday Meeting 3:00p at the American Red Cross. Room TBA.

American Red Cross

Volunteer Workforce Request Form

REQUIRED INFORMATION:

- Brief Job Description
- The requestor of the volunteers must understand they assume responsibility for the volunteer's safety and the volunteer's actions
- The requestor of the volunteers is responsible for managing and providing direction
- 48 hour advance notification required for request (Note: The VRC team will process high priority requests with less than a 48-hour notice, however, this cannot be guaranteed – the longer the lead time the better)
- Reasonable expectations of the volunteer workforce

Today's Date:	
Requestor's Name:	
Requestor's Cell Phone:	
Requestor's Email:	
Requestor's Agency:	
Volunteer Job Description:	
Name and contact of the volunteer's supervisor for volunteer opportunity:	
Where volunteers report for volunteer opportunity: (Name of Facility, Address, City, Zip)	
Dates volunteers are needed:	
Times volunteers are needed: (Shifts are encouraged)	
Number of volunteers needed per date/time:	
Transportation of volunteers for activity:	
Does the volunteer need to **provide their own lunch or will the requestor provide meals, snacks and beverages?**	
Volunteer qualifications to complete volunteer opportunity:	
Additional notes:	
Submit request to:	rwenzlick@unitedwaygenesee.org

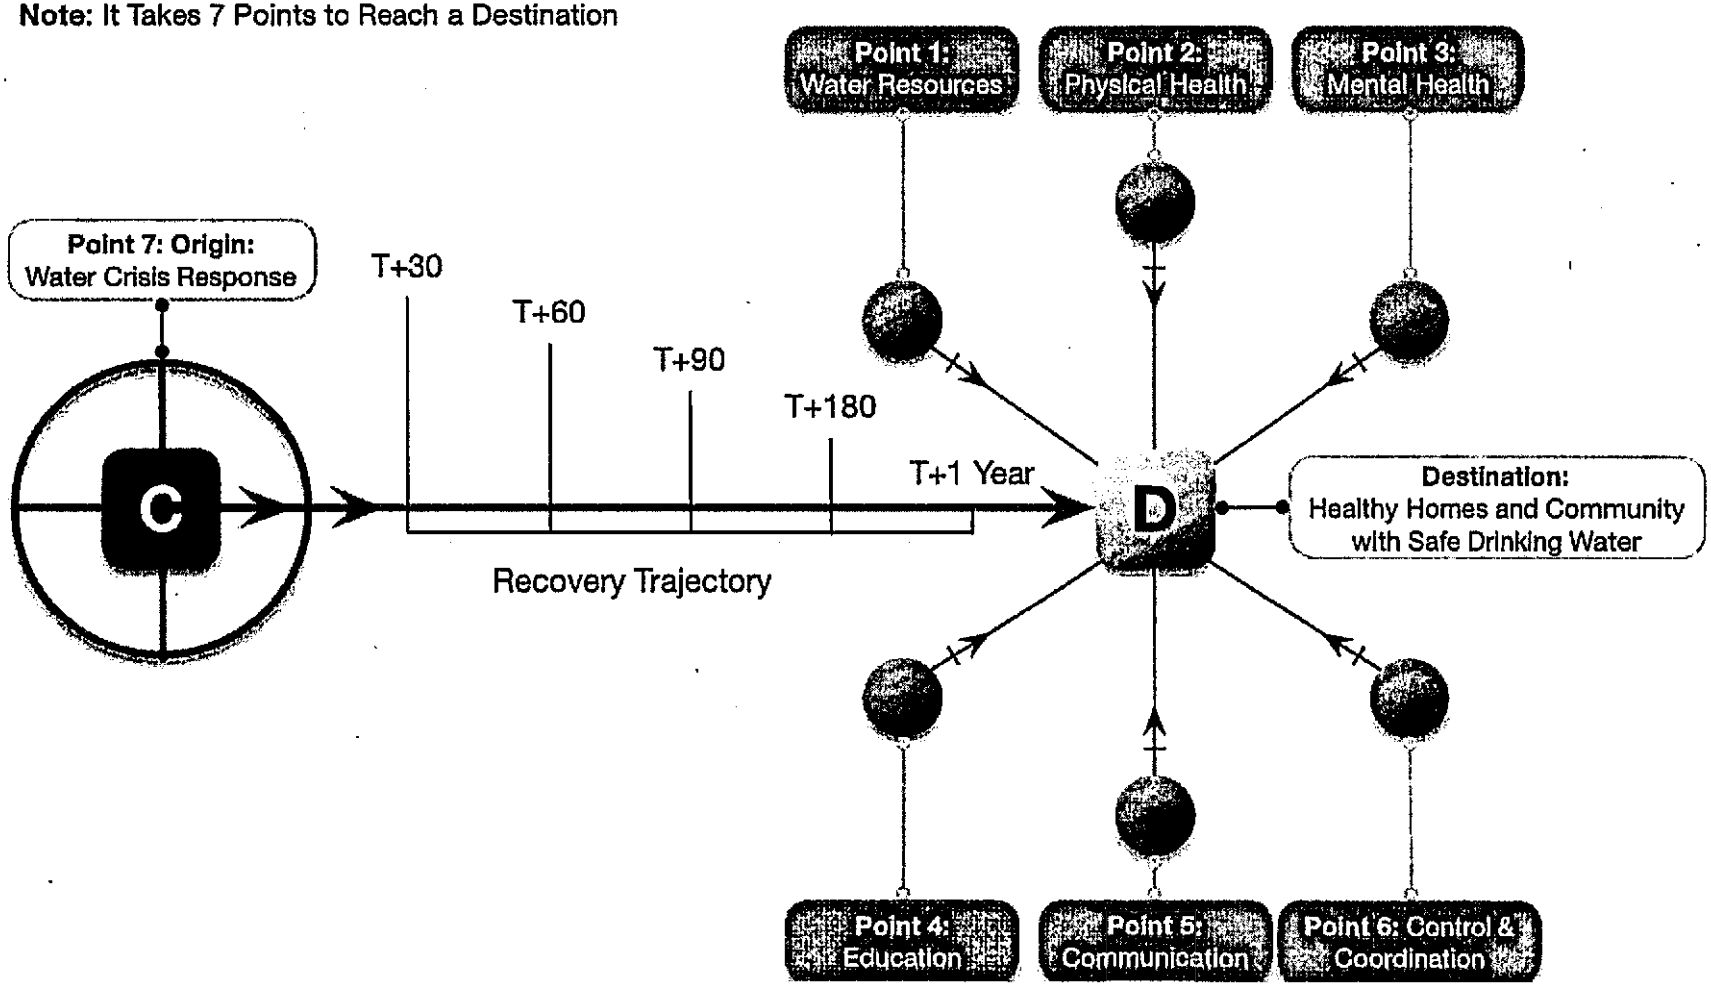
FLINT MI WATER CRISIS: DESTINATION RECOVERY

RECOVERY – RESILIENCE – RETURN TO HEALTHY HOMES AND A HEALTHY COMMUNITY

DESTINATION RECOVERY MODEL

FLINT MI: Water Crisis - **Destination Recovery**

Note: It Takes 7 Points to Reach a Destination



RECOVERY DESTINATION DEFINITION

HEATHY HOME?

- FILTERED WATER
  - FILTERS CHANGED AT KNOWN INTERVALS BASED ON CURRENT LEAD LEVELS
- SAFE AND REGULAR SUPPLY OF DRINKING WATER
- SAFE AND REGULAR SUPPLY OF WATER FOR:
  - COOKING
  - HYGIENE
  - LAUNDRY
- PERSONAL EDUCATION
- INDIVIDUAL AND FAMILY PHYSICAL HEALTH RECOVERY
- INDIVIDUAL AND FAMILY MENTAL HEALTH RECOVERY

HEALTHY COMMUNITY?

- SAFE WATER
- REPAIRED INFRASTRUCTURE
- EDUCATED COMMUNITY
- SELF-SUSTAINING HOUSEHOLDS
- COMMUNITY TRUST AND POSITIVE PERCEPTIONS
- SAFE ENVIRONMENT

DESTINATION RECOVERY POINTS &MODELS

- **R** - WATER RESOURCES
  - MACRO DISTRIBUTION TO MICRO DISTRIBUTION
- **P** - PHYSICAL HEALTH
  - MITIGATING AND REVERSING THE PHYSICAL HEALTH IMPLICATIONS OF PROLONGED LEAD EXPOSURE
  - NUTRITION
- **M** - MENTAL HEALTH
  - MITIGATING AND REVERSING THE PSYCHOLOGICAL IMPACT OF WATER CRISIS INCLUDING MENTAL HEALTH AND BEHAVIORAL ISSUES ASSOCIATED WITH LEAD EXPOSURE
  - REESTABLISHING THE COMMUNITY'S TRUST
- **E** - EDUCATION
  - INDIVIDUALS AND FAMILIES UNDERSTAND HOW TO RECOVER
  - INDIVIDUALS AND FAMILIES UNDERSTAND THE RECOVERY PROCESS
  - INDIVIDUALS AND FAMILIES UNDERSTAND HOW TO PROTECT THEMSELVES
- **C** - COMMUNICATION
  - RAPID AND TRUSTED COMMUNICATION NETWORKS
  - RELIABLE MESSAGING
- **CC** - RECOVERY CONTROL AND COORDINATION
  - PROVIDING RESOURCES
  - RECOVERY PLAN EXECUTION AND MONITORING
  - DATA COLLECTION AND METRICS

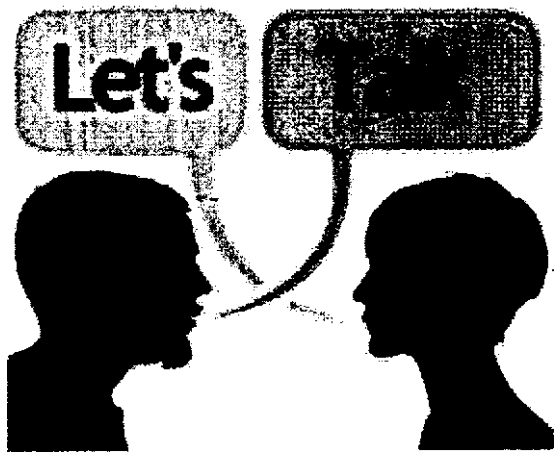
Have you been affected by the Flint Water Crisis?

Let's Talk about it!



- Resource Development
- Crisis Management
- Problem Solving
- Basic Needs
- Support
- Prayer
- Blood Pressure Checks
- Mental Health Resources
- Relaxation

Catholic Charities will be offering an opportunity to learn more about the water crisis, providing necessary resources, including emotional, behavior and spiritual support.

Tuesdays
1 - 3 p.m.

Catholic Charities' Center for Hope
Warming Center
517 E. Fifth Ave.

Providing Help...Creating Hope

Briggs, Brianna (MSP)

From: *DeVriendt, Chris <CDeVriendt@co.genesee.mi.us>*
Sent: Tuesday, February 02, 2016 5:27 PM
To: Briggs, Brianna (MSP)
Subject: Homebound Additions
Attachments: SKMBT_60116020216010.pdf

Dear Brianna,

The attached list is from GCCARD and indicates homebound seniors receiving meals. The water that these residents receives is typically one or two bottles. Adding this list to our current one will allow us to ensure these residents are supplied in a regular fashion beyond the one or two bottles then are currently getting.

I requested an electronic version but the agency indicates that they cannot export the data but only print it. If this proves to be a logistical nightmare, let me know and I can try to get over to the agency and see if I can figure out how to export the data (I am sure it can be done...).

Chris DeVriendt, LVT, MPH

Briggs, Brianna (MSP)

From: Thelen, Richard (DHHS)
Sent: Tuesday, February 02, 2016 7:10 PM
To: Weber, Thomas (MSP); Briggs, Brianna (MSP)
Subject: bullet points
Attachments: IMAG0893.jpg

Just things we talked about.

Using stores who normally stock the water and filtration devices.
Same stores would have "gift" card. Card is loaded periodically with specific commodity codes.
Would have to ensure store stays stocked.
Still work with home delivery services to provide to home bound.

We did talk about keeping the pods, and warehouse going while water was involved.
Water be supplied until the "all good" given, then no more purchases and disperse the inventories (water & filters) until gone.

Drawing attached.

Don't use the term bridge card and don't compare to bridge card.

Richard Thelen

> > **Subject:** Update on HUD Mandatory Water Testing

Harvey,

Pursuant to emails with Mel Brown, I wanted to update you with regard to what we know about mandatory HUD water testing of HUD financed apartments in the City of Flint:

- Attached is correspondence that HUD sent to HUD financed apartment complex properties requiring property managers to install water filters.
- In addition to this letter, HUD staff informed MSHDA staff yesterday that water testing was mandatory for HUD properties. We're seeking written clarification on mandatory water testing from HUD and will share this information when received.
- MSHDA will be reaching out this week to MSHDA financed rental properties and following suit. MSP has provided us with locations of where testing material can be obtained and we'll be communicating with property managers as to where they can attain these materials and required testing. If you have any concerns or issues with us taking this direction, please let us know.
- NOTE: The HUD properties that Pastor Woods has contacted you about are properties administered through the Flint Housing Commission with HUD related resources. These are not MSHDA properties.

I have copied our Chief Housing Investment Officer, Michele Wildman as well as Daphne Wells from MSHDA who recently communicated with HUD about water testing. If you need any further information or have more questions, don't hesitate to contact me, Michele or Daphne.

Knowing that you were heading to a meeting with Pastor Woods, I wanted to get you the most recent information available. Updates will follow as more information is gathered.

Brian.

Subject: RE: Lead / Copper Data

Thank you. I didn't receive the distribution sites you alluded to that were attached in your email. If you wouldn't mind forwarding those along so we have them correctly identified, we'll be sure our tenants, landlords and or property managers are directed to these locations where testing materials are located accordingly.

Brian.

Hello Mr. Mills,

Please direct your landlords, property managers or residents to pick up water testing materials at the distribution sites which are attached.

Subject: RE: Lead / Copper Data

Wendy,

Just to clarify, HUD and its relationship with the Flint County Housing Commission for HUD financed properties is unrelated/separate from the MSHDA's properties that we finance and or manage directly.

As a team this morning, we discussed whether or not MSHDA should be taking similar actions (water quality testing for the tenants and homeowners residing in single homes and apartment complexes financed or managed by MSHDA) and the consensus was that we should.

Therefore, I would like ask if there is a point of contact or information sharing we should use/provide when directing our landlords, home-owners and tenants to test their water.

Is testing of water being centralized by ways of logistics like filters are now? Or, should we direct our landlords, property managers or residents to pick up water testing materials at any of the five stations in the city?

Thank you,

Brian.

Subject: RE: Lead / Copper Data

According to HUD staff, HUD did send letters to their Flint properties making water testing mandatory and allowing the properties to use their reserves to pay for it. Someone from HUD will forward the letters to me. I'll send to you once I receive it.

Subject: RE: Lead / Copper Data

I haven't heard anything from HUD on this either though it might be that public housing units are overseen by the Public and Indian Housing part of HUD whereas our PBCA and Section 8 contracts are overseen by the Multifamily part of HUD. I think having testing done would be a good idea to at least see how the filters are working now that they are in place.

Mike

Subject: Re: Lead / Copper Data

I have not. But if a similar request had come through us it would've most likely been PbCA.

Mike/Daphne - have we heard anything from HUD?

Might not be a bad idea on our portfolio regardless of if they're requiring it.

Thank you, Mel.

I received a call and email today from Pastor Frank Woods who was in the meeting yesterday. He also works for the Flint Housing Commission and they are being asked

by HUD about testing for the public housing units. Pastor Woods said it has not been done. Do you have any information on when/if this will be scheduled?

Pastor Woods has requested a meeting with the Flint Public Housing Executive Director and Harvey and I want to have an answer for him prior to the meeting.

Thank you,
~Stacie

Hello everyone,

To start...we have a new location for the Community Partners Meeting. We will be meeting tomorrow, February 4th, 3:00 p.m. at the Food Bank of Eastern Michigan's Hunger Solution Center on Howard Ave. For GPS, use the address of 1938 Howard Ave. to find the entrance. Thank you to Bill and Kara for donating their space.

We expect to start this meeting promptly at 3:00 p.m., and expect a number of people to attend. The goal of the meeting is to quickly break into groups surrounding five areas...Water Resources, Education, Physical Health, Mental

Health and Communication...and, create resource networks around each area based on of your skill sets, and work each of you are already doing for the Flint water issue.

Please distribute this to anyone you think should attend. The meeting is open to anyone working on this issue, large or small.

Attached, please find the minutes from last Thursday's meeting, and an updated list of those who have participated in this group, thus far.

Let me know if you have any questions. Otherwise, I look forward to seeing you tomorrow.

Subject: RE: Community Partners Meeting - Thursday, February 4th, 3:00 p.m.

Hello everyone,

I apologize that I have not sent this e-mail out sooner. I am still working on a new location for our next meeting, and will let you know as soon as I have a place set. However, our next meeting is still scheduled for this Thursday, February 4th at 3:00 p.m.

As promised, I have attached a number of documents to this e-mail. They are...

1. Minutes from last Thursday's meeting
2. Volunteer Request Form for any organization that needs event based volunteers from the Community Volunteer Reception Center. (Also, please remember that groups interested in volunteering in the work that is being done around the water crisis should visit www.flintvolunteer.org)
3. Updated contact list for the Community Partners Meetings
4. Catholic Charities support group for those affected by the water crisis
5. Long term community recovery model (introduced at last week's meeting)

Finally, remember that tomorrow (Monday), there will be a rally at First Trinity Missionary Baptist Church (1226 Beach St., Flint, MI)...at 12:00 p.m. Everyone is invited.

Hope to see everyone on Thursday. Take care.

The American Red Cross prevents and alleviates human suffering in the face of emergencies by mobilizing the power of volunteers and the generosity of donors.

Community Partners Meeting
American Red Cross
1401 S Grand Traverse St, Flint, MI 48503
Thursday, January 28, 2016

Introductions

- Lieutenant Governor Brain Calley: eye on sustainability, window of opportunity to help Flint, wants to be physically present in community (physical presences will be Rich Baird). Wants over communication. Wants to leave tangible money (100million) for long run before close of his run as a government official. Intends to be at next meeting.
    - Alternative to 211- 866-561-2500, Going to be on Michigan.gov
      211 does not work for Obama Phones or for some of the prepaid phones.
    - Need for translation of all documents in Arabic and Spanish. Some posted to Michigan.gov.
    - Concerns raised about how will those who test negative will receive treatment if they are still affected.

National Guard I.D. announcement

- Issues with PODs
    - There are currently rumors going around, they are not working with law enforcement (I.e. ICE). The National Guard's main concern is just to get clean water out to the community. "No human being will be denied water at our five locations. You do not need to give ID; you do not need to show your address." When they ask "What is your address?" if you feel uncomfortable you can call 211 and get a delivery schedule or have someone come for you.

Planning (See PowerPoint)

- Recovery Destination: Healthy Home, Healthy Community
- 6 points of recovery (Each one over seen by someone in the room), possibly have people sign up for "committees" at a later date. KEY OUTCOME.
- Need to work from this macro distribution to a more targeted sustainable solution
- Need to carve out "players" known and unknown
- Team Rubicon: skills of military and first responders to respond to disasters
- Artist/Activist speaking about how 211 is hard and some locations not receiving resources that they need

- Flint Food Bank (810-239-4441), who works with 100 partners, is now making deliveries to over 40 sites, with 21 trucks, 372 pallets. The Food Bank plans on doing this each week. If you know of any nonprofit interested in receiving water have them call the Food Bank. Must call for pallets only. Catholic Charities can help with smaller quantities of water.
- Some houses are being hit more than once. But there are areas where they have not seen a bottle of water. The Red Cross gets out routes Emergency Operation Center. If there are addresses and locations please leave them here at the Red Cross or call 211. Senior/ Section eight housing seems to be a main concern. Catholic Charities seems to be working on that hurdle as well.

Activity Reports

- Behavioral health support meeting with the Public Health "Flint Community Resilience Group" next Tuesday February 2nd 11am-1pm at River Front Banquet Center. Immediate, intermediate and long term behavioral health addressed.

County EOC/State EOC:

- Sheriff is encouraging everyone to use/promote 211. Or the Sheriff's radio room has a center set up (more information?). 211 does not meet immediate need for water unless it is a special circumstance. Your name is going on a list. Rumor of State pulling out is not true, there is a "transition" going on.
- More clear guidelines on how to get answers needed. There are 600 franchise customers. Suggestion: look at where the bill comes may/may not help you know where the water is coming from. Emphasis on having people CALL to get answers. There is also the "leaving things on the door" we need to think about if people have the tools to read or call for answers.
- There was a suggestion for an online database so that people can look it up on their own if they would like to. Sean Kammer from the Mayor's office said that he can most likely get that up tomorrow. There is one floating around out there but we should see if there are differences to make sure correct information is released.
- 95% of community reached by canvasing, 90% twice.
- Reoccurring issue brought up: Put people of Flint to work with the Flint Water Crisis?

FEMA:

- Katie Halliday: There was a federal emergency declaration allowing for four critical commodities: water, filter, filter replacement and water test kits. Also providing technical guidance.
- Staff at federal storing agency and then commodities go to the state area that goes out to distribution. You will not see FEMA out on the ground level.
- Jeannie Moran FEMA region 5 (regina.moran@fema.dhs.gov; 202-821-3867) is our contact
- Health and Human Services have also come in to set up operations on the ground to see what they can offer for sustainable, long term options.
- Department of Community Health states they have had a revolving door of FEMA and State coming through to help come up with long term goals. They are feeling heard. Health Department with EPA will be here all weekend working on long term plans to create center here in Flint. (More information?)

Partners and Stakeholders:

Good360:

- Resource for everyone. Happy to have individual calls. Partners with large local donors to procure products for non-profits. Understand that product need may not be at this time but it may show up down the road. Walmart, Home Depot, CVS, + would be working with 360. They have also been working with local government and non-profits here. Some of these companies are already on the ground.
- Non- Profits can develop their own wish list. Disasterrecovery360.org and you can create your "needs list". There is no fee to use their services. Products offered at extreme discount or at no cost to non-profit.
- Contact: tiffany@good360.org

Community Volunteer Reception Center (VRC), Staffing request, Website

- Over 310 EBV last Saturday and 40 ARC volunteers. This weekend 360 volunteers coming in, including partners such as Michigan Carpenters.
- There is now a website for the Volunteer Reception Center: Flintvolunteer.com
- This is where large groups will be sent to get connected to VRC.
- Questions keep coming up about pledged money for jobs to help empower people of Flint and long term breaking away from relying on volunteers.

- Transition to working with United Way and how to distribute volunteers for community partners that will help beyond this cause. Starting through the current VRC will allow for this development. "Civic engagement beyond this crisis." If agencies have a request for volunteers please fill out Volunteer Workforce Request Form (see attached).
- Hours are changing week to week and a set schedule should be released next week.
- GOAL: Eventually have partners post needs to the website and help to stay engaged through a sharing site. Looking for tools to share information.

Other business

- Catholic Charities has started a support group 1pm- 3pm at Catholic Charities' Center for Hope Warming Center 517 E. Fifth Ave
- Monday at 12:00p rally at 1226 Beach St. Flint, MI, First Trinity Missionary Baptist Church
- Metro (Chanelle) keeps a cohesive list of local events and has an email- Thought: link her to site?
- St. Michaels and St. Mary's are trying to canvas. They are going to get in touch with Catholic Charities and Bottles for Babies
- Social Media? "#volunteer4flint" Genesee County Health Department also puts stuff on their Facebook page. They are willing to put things on their page and they have a marketing specialist.
- Who has the resources to host a FB page for this group? TABLE FOR NXT TIME.
- "Bottles for the Babies" working on hitting 41,000 households will be getting magnets and flyering. Getting information from the Health Department. Water IQ (something they use to test local knowledge) results: only 50% new they needed replacement filters and less than 50% knew where to get the replacement filter.
- Cooking Matters Class also going to be offered though Catholic Charities. Time TBA on Monday Afternoons.
- Next Thursday Meeting 3:00p at the American Red Cross. Room TBA.

Attachments: Child Care Facilities.pdf

Importance: High

Dear Brianna/OPS,

Team Rubicon attempted to make contact on all agencies listed in Task Assignment SEOC – 2152092. I removed the Hurley Hospital reference due to the impracticality of providing assistance to an agency that already far exceeds any standard of relief that we can offer. The attached list should be added to the AFN list that ARC services and supplies should be distributed as indicated on the list and at the direction of the State.

Please keep me in the loop as to supplies being authorized for 'for profit' agencies as this will have a huge impact on my operations at the local level.

I'm not sure of the best way to 'close out' this Req so I will pass it on to one of the State gurus down here for action on the actual ticket.

Walter,

We are almost finished generated an excel list with approximately 1400 addresses for seniors living in Flint who receive in-home services.

Are you our GIS point of contact to receive this list or is there someone else?

1. Our list is sorted by service category to make it easier to for MSP to prioritize residents by level of needed service. Seniors receiving Care Management, Home Delivered Meals, Personal Care, and going to Adult Day Centers are most likely to have the higher physical or cognitive functional deficits.

2. Valley Area Agency on Aging (Valley)'s Executive Director, Kathy Boles is generating an additional list of Flint seniors and adults under age 60 who receive MiChoice Waiver services. Valley will forward that list to AASA and We will forward it to MSP.

3. Ms. Boles is contacting the Genesee Senior Millage Care Management provider to request a list of their In-Home Services clients. She estimates Senior Millage about serves another 1,400 older adults as well.

4. We also working with our APS friends to generate addresses for APS's Home Help and Adult Community Placement clients over age 60 living in Flint. We hope to have something by Wednesday at the earliest.

Steve Betterly
AASA

Subject: RE: 2015-10-01-City of Flint-Water Contamination / Shortage: mapping aged population (Older Adults)

Good Morning Walter,

We think we can generate an excel report from our National Aging Program Information System (NAPIS) database listing the addresses of I older adults receiving all In-Home services or one or more specific programs from grant funding this office provides to the Valley Area Agency on Aging. These programs serve a population age 60 and older that meet varying levels of functional loss up to and including being eligible for admission to a nursing home.

Please keep in mind, the list we can generate cannot be exhaustive of all older adults with functional loss because there are families that pay privately for home supportive services or may be receiving in home rehab covered by their insurance.

Specific In-Home Service Programs would include seniors who've enrolled for the following services:

Home Delivered Meals (HDM)
Care Management (CM)
Case Coordination and Support (CCS)
Chore
Homemaking
Medication Management
Personal Care
In Home Respite
Adult Day Services

Valley Area Agency on Aging is also the Medicaid MiChoice Waiver (Waiver) agent for Genesee County and can generate a list of addresses for seniors in that program. The Waiver program provides in home services to seniors and persons with disabilities who are nursing home eligible.

We would pull addresses based on the address provided by the senior or their caregiver at time of assessment/enrollment. Postal zip codes often but not always recorded.

We can start with the City of Flint and then on a 2nd run we could pull from the other communities that are also fully or partially served by the Flint Water System.

Thoughts?

Steve:

I am writing to find out more information about what data you have for mapping the elderly population in Flint. Do you have a list of Meals on Wheels destinations? That would be a good start.

Best,

Walter Chomentowski

Subject: FW: Information for AASA

Good afternoon Walter,

Attached is an encrypted file from VAAA in Flint of another 79 addresses for City of Flint seniors, age 60 and older, who are receiving services through the MiChoice Medicaid Waiver Program. These are very frail Medicaid eligible seniors who would be in nursing homes but the in-home services they receive.

An encryption key will be sent separately.

Also attached are 4 unencrypted files listing unlicensed senior housing facilities that serve Flint seniors ranging in function from fairly independent to needing assistance with activities of daily living. Thought it would be good to know where these facilities are located in relationship to the hot spots.

Thanks again for mapping out these seniors living in Flint.

Steve Betterly
AASA Field Rep

Subject: RE: Community Partners Meeting - Thursday, February 4th, 3:00 p.m.

Hello everyone,

To start...we have a new location for the Community Partners Meeting. We will be meeting tomorrow, February 4th, 3:00 p.m. at the Food Bank of Eastern Michigan's Hunger Solution Center on Howard Ave. For GPS, use the address of 1938 Howard Ave. to find the entrance. Thank you to Bill and Kara for donating their space.

We expect to start this meeting promptly at 3:00 p.m., and expect a number of people to attend. The goal of the meeting is to quickly break into groups surrounding five areas...Water Resources, Education, Physical Health, Mental Health and Communication...and, create resource networks around each area based on of your skill sets, and work each of you are already doing for the Flint water issue.

Please distribute this to anyone you think should attend. The meeting is open to anyone working on this issue, large or small.

Attached, please find the minutes from last Thursday's meeting, and an updated list of those who have participated in this group, thus far.

Let me know if you have any questions. Otherwise, I look forward to seeing you tomorrow.

Subject: RE: Community Partners Meeting - Thursday, February 4th, 3:00 p.m.

Hello everyone,

I apologize that I have not sent this e-mail out sooner. I am still working on a new location for our next meeting, and will let you know as soon as I have a place set. However, our next meeting is still scheduled for this Thursday, February 4th at 3:00 p.m.

As promised, I have attached a number of documents to this e-mail. They are...

1. Minutes from last Thursday's meeting
2. Volunteer Request Form for any organization that needs event based volunteers from the Community Volunteer Reception Center. (Also, please remember that groups interested in volunteering in the work that is being done around the water crisis should visit www.flintvolunteer.org)
3. Updated contact list for the Community Partners Meetings
4. Catholic Charities support group for those affected by the water crisis
5. Long term community recovery model (introduced at last week's meeting)

Finally, remember that tomorrow (Monday), there will be a rally at First Trinity Missionary Baptist Church (1226 Beach St., Flint, MI)...at 12:00 p.m. Everyone is invited.

Hope to see everyone on Thursday. Take care.

Tony Lasher

Community Partners Meeting
American Red Cross
1401 S Grand Traverse St, Flint, MI 48503
Thursday, January 28, 2016

Introductions

- Lieutenant Governor Brain Calley: eye on sustainability, window of opportunity to help Flint, wants to be physically present in community (physical presences will be Rich Baird). Wants over communication. Wants to leave tangible money (100million) for long run before close of his run as a government official. Intends to be at next meeting.
    - Alternative to 211- 866-561-2500, Going to be on Michigan.gov
      211 does not work for Obama Phones or for some of the prepaid phones.
    - Need for translation of all documents in Arabic and Spanish. Some posted to Michigan.gov.
    - Concerns raised about how will those who test negative will receive treatment if they are still affected.

National Guard I.D. announcement

- Issues with PODs
    - There are currently rumors going around, they are not working with law enforcement (I.e. ICE). The National Guard's main concern is just to get clean water out to the community. "No human being will be denied water at our five locations. You do not need to give ID; you do not need to show your address." When they ask "What is your address?" if you feel uncomfortable you can call 211 and get a delivery schedule or have someone come for you.

Planning (See PowerPoint)

- Recovery Destination: Healthy Home, Healthy Community
- 6 points of recovery (Each one over seen by someone in the room), possibly have people sign up for "committees" at a later date. KEY OUTCOME.
- Need to work from this macro distribution to a more targeted sustainable solution
- Need to carve out "players" known and unknown
- Team Rubicon: skills of military and first responders to respond to disasters
- Artist/Activist speaking about how 211 is hard and some locations not receiving resources that they need

- Flint Food Bank (810-239-4441), who works with 100 partners, is now making deliveries to over 40 sites, with 21 trucks, 372 pallets. The Food Bank plans on doing this each week. If you know of any nonprofit interested in receiving water have them call the Food Bank. Must call for pallets only. Catholic Charities can help with smaller quantities of water.
- Some houses are being hit more than once. But there are areas where they have not seen a bottle of water. The Red Cross gets out routes Emergency Operation Center. If there are addresses and locations please leave them here at the Red Cross or call 211. Senior/ Section eight housing seems to be a main concern. Catholic Charities seems to be working on that hurdle as well.

Activity Reports

- Behavioral health support meeting with the Public Health "Flint Community Resilience Group" next Tuesday February 2nd 11am-1pm at River Front Banquet Center. Immediate, intermediate and long term behavioral health addressed.

County EOC/State EOC:

- Sheriff is encouraging everyone to use/promote 211. Or the Sheriff's radio room has a center set up (more information?). 211 does not meet immediate need for water unless it is a special circumstance. Your name is going on a list. Rumor of State pulling out is not true, there is a "transition" going on.
- More clear guidelines on how to get answers needed. There are 600 franchise customers. Suggestion: look at where the bill comes may/may not help you know where the water is coming from. Emphasis on having people CALL to get answers. There is also the "leaving things on the door" we need to think about if people have the tools to read or call for answers.
- There was a suggestion for an online database so that people can look it up on their own if they would like to. Sean Kammer from the Mayor's office said that he can most likely get that up tomorrow. There is one floating around out there but we should see if there are differences to make sure correct information is released.
- 95% of community reached by canvasing, 90% twice.
- Reoccurring issue brought up: Put people of Flint to work with the Flint Water Crisis?

FEMA:

- Katie Halliday: There was a federal emergency declaration allowing for four critical commodities: water, filter, filter replacement and water test kits. Also providing technical guidance.
- Staff at federal storing agency and then commodities go to the state area that goes out to distribution. You will not see FEMA out on the ground level.
- Jeannie Moran FEMA region 5 (regina.moran@fema.dhs.gov; 202-821-3867) is our contact
- Health and Human Services have also come in to set up operations on the ground to see what they can offer for sustainable, long term options.
- Department of Community Health states they have had a revolving door of FEMA and State coming through to help come up with long term goals. They are feeling heard. Health Department with EPA will be here all weekend working on long term plans to create center here in Flint. (More information?)

Partners and Stakeholders:

Good360:

- Resource for everyone. Happy to have individual calls. Partners with large local donors to procure products for non-profits. Understand that product need may not be at this time but it may show up down the road. Walmart, Home Depot, CVS, + would be working with 360. They have also been working with local government and non-profits here. Some of these companies are already on the ground.
- Non- Profits can develop their own wish list. Disasterrecovery360.org and you can create your "needs list". There is no fee to use their services. Products offered at extreme discount or at no cost to non-profit.
- Contact: tiffany@good360.org

Community Volunteer Reception Center (VRC), Staffing request, Website

- Over 310 EBV last Saturday and 40 ARC volunteers. This weekend 360 volunteers coming in, including partners such as Michigan Carpenters.
- There is now a website for the Volunteer Reception Center: Flintvolunteer.com
- This is where large groups will be sent to get connected to VRC.
- Questions keep coming up about pledged money for jobs to help empower people of Flint and long term breaking away from relying on volunteers.

- Transition to working with United Way and how to distribute volunteers for community partners that will help beyond this cause. Starting through the current VRC will allow for this development. "Civic engagement beyond this crisis." If agencies have a request for volunteers please fill out Volunteer Workforce Request Form (see attached).
- Hours are changing week to week and a set schedule should be released next week.
- GOAL: Eventually have partners post needs to the website and help to stay engaged through a sharing site. Looking for tools to share information.

Other business

- Catholic Charities has started a support group 1pm- 3pm at Catholic Charities' Center for Hope Warming Center 517 E. Fifth Ave
- Monday at 12:00p rally at 1226 Beach St. Flint, MI, First Trinity Missionary Baptist Church
- Metro (Chanelle) keeps a cohesive list of local events and has an email- Thought: link her to site?
- St. Michaels and St. Mary's are trying to canvas. They are going to get in touch with Catholic Charities and Bottles for Babies
- Social Media? "#volunteer4flint" Genesee County Health Department also puts stuff on their Facebook page. They are willing to put things on their page and they have a marketing specialist.
- Who has the resources to host a FB page for this group? TABLE FOR NXT TIME.
- "Bottles for the Babies" working on hitting 41,000 households will be getting magnets and flyering. Getting information from the Health Department. Water IQ (something they use to test local knowledge) results: only 50% new they needed replacement filters and less than 50% knew where to get the replacement filter.
- Cooking Matters Class also going to be offered though Catholic Charities. Time TBA on Monday Afternoons.
- Next Thursday Meeting 3:00p at the American Red Cross. Room TBA.

Tomorrow I am meeting with GST Works, our boots on the ground in workforce development/talent enhancement. The message below gives an outline of what we will cover. We are moving forward with a grant proposal, but do not have specific amount yet. We are looking at your outline and hope to incorporate most if not all. I'm sure the question will be asked about your involvement.

I think that tomorrow's meeting will not be beneficial for any of you to attend. But, as we move forward (and I believe it will be fast paced) , your presence and expertise will be needed.

Would you please forward to Jeannie Moran. I do not have her contact info.

Maggie Sayles, CBSP
WIOA Title I Specialist
Office of Talent Policy and Planning
Workforce Development Agency

Cc: Comai, Stephanie (TIA) <ComaiS1@michigan.gov>; Johnson, Krista (WDA) <JohnsonK2@michigan.gov>
Subject: Tomorrow's meeting

- The plan for tomorrow will include

- review of NDWG, and how it fits into what is happening today in Flint.
  - TEGL 2-15, attached
  - Roles of WDA, GST Works
  - Role of others (MSP/FEMA)

- Strategies to expend other WIOA funds for this purpose (Formula and NEG)
  - Youth work experience
  - Identifying DW, especially LTU
    - Barriers to identifying
  - how can WDA support GST
- Outreach activities to highlight GST involvement

- Moving forward.

I have attached documents that will be helpful throughout the discussion. Please share with your staff. The morning should be interactive discussion that will produce strategies for immediate action. (and I am sure you will be seeing more of me in the near future)

Thank you! I look forward to working with you.

A veteran/covered person, as defined in Section 4215 of the Jobs for Veterans Act, is entitled to priority of service under the WIOA Title I programs, e.g., Adult, Youth and Dislocated Worker.	•DD 214 •Veterans Administration Letter or Records
NOT EMPLOYED	
Use WIASRD, Item 115 definition.	•Applicant Statement
UNDEREMPLOYED	
Applies to adult, dislocated worker, and youth.	•Employment Specialist or Case Manager's Determination •Telephone Verification •Applicant Statement

Attachment 02: Youth Eligibility Checklist

Note: Some acceptable source documents for eligibility may not be acceptable as source documents for Data Validation purposes.

YOUTH	
GENERAL ELIGIBILITY CRITERIA (Verify each criterion unless specified otherwise)	**ACCEPTABLE DOCUMENTATION** (Only one document from this column per eligibility criterion is required)
School Status	• Applicable records from education institution (GED certificate, diploma, attendance record, transcripts, drop out letter, school documentation) • WIA intake or registration form • State MIS • Self-attestation
The general eligibility criteria for youth are the same as for adults and dislocated workers: • Birth Date/Age; • U.S. Immigration and Naturalization Service, Work Authorization, and Selective Service Registration.	See adult and dislocated worker general eligibility criteria
ECONOMIC ELIGIBILITY CRITERIA (Only one economic eligibility criterion in the left column need be verified)	**ACCEPTABLE DOCUMENTATION** (Only one document from this column per eligibility criterion is required)
CASH PUBLIC ASSISTANCE **Note:** The applicant receives, or is a member of a family that receives, cash payments under a federal, state, or local income-based public assistance program.	• Authorization to Receive Cash Public Assistance • Public Assistance Check • Public Assistance Identification Card Showing Cash Grant Status • Public Assistance Records/Printout • Refugee Assistance Records/Printout • Signed Statement from Health & Welfare • Telephone Verification
FAMILY INCOME **Note:** Documentation should be provided for **each** applicable inclusive income source received by the applicant and each family member for the six-month income period immediately preceding the determination date. It is necessary to verify family size when utilizing family income eligibility. An applicant who claims little or no income must submit a statement that little or no income was received during the past six months, and that he/she was **not employed** for that period.	• Accountant Statement • Alimony Agreement • Award Letter from Veterans Administration • Bank Statements (Direct Deposit) • Compensation Award Letter • Court Award Letter • Employer Statement • Farm or Business Financial Records • Housing Authority Verification • Pay Stubs • Pension Statement • Public Assistance Records • Applicant Statement • Quarterly Estimated Tax for Self-employed Persons (Schedule C) • Social Security Benefits Records • Telephone Verification with Employer • Unemployment Insurance Documents and/or Printout

YOUTH (continued)

ECONOMIC ELIGIBILITY CRITERIA (Only one economic eligibility criterion in the left column need be verified)	ACCEPTABLE DOCUMENTATION (Only one document from this column per eligibility criterion is required)
FAMILY SIZE/ INDIVIDUAL STATUS **Note:** In addition to documentation of family size, additional documentation may be required to establish that the family is living in a single residence. Persons ordinarily included in the definition of family, but claiming to be no longer dependent, must attest to their individual status. The head of household in which that person resides, if possible, should corroborate such statement. Individual must also show source of support. **Note:** A social security card is invalid if not signed by the number holder, unless health or age prevent signature.	• Lease • Telephone Verification • Birth/Baptismal Certificates or Church/Hospital Records of Birth • Decree of Court • Divorce Decree • Social Security Cards • Alien Registration Cards • Landlord Statement • Marriage Certificate • Medical Card • Public Assistance/Social Service Agency Records • Written Statement from a 24-Hour Care Facility or Institution (e.g. Mental, Prison) • Most Recent Tax Return Supported by IRS Documents (e.g. Form Letter 1722) • Applicant Statement
FOOD STAMPS **Note:** The documentation listed must show that the applicant is a member of a household that receives (or has been determined within the 6-month period prior to application for the program involved to be eligible to receive) food stamps pursuant to the Food Stamp Act of 1977 (7 U.S.C. 2011 et seq.).	• Authorization to Obtain Food Stamps • Food Stamp Card with Current Date • Food Stamp Receipt • Postmarked Food Stamp Mailer with Applicable Name and Address • Statement from County Welfare Office • Public Assistance Records/Printout • Telephone Verification with County Welfare Office
FOSTER CHILD **Note:** Must be a foster child for which State or local government payments are made on his/her behalf.	• Court Records/Documentation • County Welfare Office Records/Statement • Medical Card • Telephone Verification • Verification of Payments Made on Behalf of the Child • Written Statement from Cognizant Agency
HOMELESS	• Applicant Statement • Statement from a Social Service Agency • Statement from an Individual Providing Temporary Residence • Statement from Shelter • Telephone Verification
INDIVIDUALS WITH DISABILITIES **Note:** Disability status as well as income must be verified. An individual with a disability shall be considered a family of one for eligibility purposes.	• Letter from Drug or Alcohol Rehabilitation Agency • Medical Records • Observable Condition • Physician's Statement • Psychiatrist or Psychologist Diagnosis/Statement • Rehabilitation Evaluation • School Official Statement • Sheltered Workshop Certification • Social Security Administration Disability Records • Social Service Records/Referral • Veterans Administration Letter/Records • Vocational Rehabilitation Letter/Statement • Workers Compensation Records/Statement • Telephone Verification • Applicant Statement

YOUTH (continued)

ADDITIONAL REQUIREMENTS (Only one eligibility criterion in the left column need be verified)	ACCEPTABLE DOCUMENTATION (Only one document from this column per eligibility criterion is required)
BASIC LITERACY SKILLS DEFICIENT	• Locally defined, may include: – Standardized Test – School Records
ENGLISH LANGUAGE LEARNER An eligible individual who has limited ability in reading, writing, speaking, or comprehending the English language, and— (A) whose native language is a language other than English; or (B) who lives in a family or community environment where a language other than English is the dominant language.	• Case Notes • Applicant Statement
FOSTER CHILD **Note:** Must be a foster child for which State or local government payments are made on his/her behalf.	• Court Records/Documentation • County Welfare Office Records/Statement • Medical Card • Telephone Verification • Verification of Payments Made on Behalf of the Child • Written Statement from Cognizant Agency
HOMELESS OR RUNAWAY	• Applicant Statement • Statement from a Social Service Agency • Statement from an Individual Providing Temporary Residence • Statement from Shelter • Telephone Verification
OFFENDER	• Documentation from juvenile or adult criminal justice system • Documented phone call with court or probation representatives • WIA intake or registration form • Self-attestation
PREGNANT OR PARENTING	• Copy of child's birth certificate • Baptismal record • Observation of pregnancy status • Doctor's note confirming pregnancy • Self- attestation
SCHOOL DROPOUT or HAS NOT ATTENDED PREVIOUS CALENDAR QUARTER	• School Statement/Records • Applicant Statement

Section 2-4: WIOA Title I Dislocated Worker Eligibility Requirements

To be eligible for participation in the WIOA Title I Dislocated Worker program, that is, to receive career services and to meet the eligibility requirements training services, the participant must:

1) Be a citizen of the United States or an eligible non-citizen; and

2) Be registered with selective service (if applicable); and meet the requirements of one or more of the following criteria:

(A) Has been terminated or laid off, or who has received a notice of termination or layoff from employment; **-AND-**

i. (I) Is eligible for or has exhausted entitlement to unemployment compensation; **-OR-**

ii. (II) Has been employed for a duration sufficient to demonstrate, to the appropriate entity at a One-Stop center, attachment to the workforce, but is not eligible for unemployment compensation due to insufficient earnings or having performed services for an employer that were not covered under state unemployment compensation law; **-AND-**

iii. Is unlikely to return to a previous industry or occupation;

(B) i. Has been terminated or laid off, or has received a notice of termination or layoff, from employment as a result of any permanent closure of or any substantial layoff at a plant, facility, or enterprise; **-OR-**

ii. Is employed at a facility at which the employer has made a general announcement that such facility will close within 180 days; **-OR-**

iii. Is employed at a facility at which the employer has made a general announcement that such facility will close with no date given;*

** For purposes of eligibility to receive services other than training services, career services, or support services.*

(C) Was self-employed (including employment as a farmer, a rancher, or a fisherman) but is unemployed as a result of general economic conditions in the community in which the individual resides or because of natural disasters;

(D) Is a displaced homemaker; **-OR-**

(E) i. Is the spouse of a member of the Armed Forces on active duty and who has experienced a loss of employment as a direct result of relocation to accommodate a permanent change in duty station of such member **-OR-**

ii. Is the spouse of a member of the Armed Forces on active duty and whose family income is significantly reduced because of a deployment, a call or order to active duty pursuant to a provision of law, a permanent change of station, or the service connected death or disability of the member **-AND-**

iii. is unemployed or underemployed and is experiencing difficulty in obtaining or upgrading employment.

Flint Water – Proposal
Local Hire Program

TOTAL STAFF REQUESTED: 190

Assumed Period of Operations: 1 year (at a minimum)

Church Distribution Hubs

- 5 total hubs
- Each hub requires:
  - 10 Loaders
  - 2 Admin Staff
  - 2 Recycling Staff
  - 1-2 Manual and/or electric pallet jacks
- **Total Staff Requested:** 70 personnel
- **Total Equipment Requested:**
  - 5-10 Manual and/or electric pallet jacks

Warehouses

- 2 warehouses currently
- Each warehouse requires:
  - 1 warehouse manager
  - 13 warehouse staff (at least 3 forklift certified)
  - 9 truck drivers
  - 1 overnight security personnel
  - 9 Trucks – 20' or longer with lift gate and electric pallet jack (trucks over 26k lbs require CDL)
  - 2 electric pallet jacks
  - 3 forklifts (operators must be certified)
  - 1 laptop
  - 1 phone
  - 1 printer
  - Office Supplies
  - Packing tape
  - Shrink wrap
  - Dispensers
  - Cardboard pallet boxes to stabilize stacks of water
  - Box cutters
  - Side snips
  - Disposal arrangements – 40yd dumpster
- **Total Staff Requested:** 48 personnel
- **Total Equipment Requested (lease or buy):**
  - 18 Trucks – 20' or longer with lift gate
  - 11 Electric pallet jacks (9 for trucks; 2 for warehouse)
  - 3 forklifts
  - 1 laptop
  - 1 phone

    - 1 printer
    - Office supplies
    - Packing tape
    - Shrink wrap
    - Dispensers
    - Cardboard pallet boxes to stabilize stacks of water
    - Box cutters
    - Side snips
    - 40yd dumpster
- **Leases:** 2 warehouse spaces

Rapid Response Deliveries

- 5 box trucks – 16' with lift gate
- 2 staff per truck
- **Total Staff Requested:** 10 personnel
- **Total Equipment Requested:**
    - 5 box trucks – 16' with lift gate

Emergency Operations Center Staffing

- 4 Data entry personnel
- 2 Planners
- 2 Geographic Information System (GIS) Technicians
- **Total Staff Requested:** 8 personnel

Miscellaneous Operations

- 2 Translators (1 Spanish; 1 Arabic)
- 20 Plumber Apprenticeships for Local Contractors
- 20 Social and medical case worker training
- 10 Bus drivers
- 10 Mechanics
- 2 Building Inspectors

Recycling Operations

- Is this something we could work on? This is still being developed at the local level.

EMPLOYMENT AND TRAINING ADMINISTRATION ADVISORY SYSTEM U.S. DEPARTMENT OF LABOR Washington, D.C. 20210	CLASSIFICATION WIOA National Dislocated Worker Grants
	CORRESPONDENCE SYMBOL OWI
	DATE July 1, 2015

ADVISORY: **TRAINING AND EMPLOYMENT GUIDANCE LETTER WIOA NO. 2-15 OPERATING GUIDANCE for the WORKFORCE INNOVATION AND OPPORTUNITY ACT (referred to as WIOA or the Opportunity Act)**

TO: STATE AND LOCAL STAKEHOLDERS IN THE WORKFORCE INNOVATION AND OPPORTUNITY ACT
STATE WORKFORCE AGENCIES
STATE AND LOCAL WORKFORCE BOARDS AND CHAIRS
INDIAN AND NATIVE AMERICAN PROGRAM GRANTEES

FROM: PORTIA WU
Assistant Secretary

SUBJECT: Operational Guidance for National Dislocated Worker Grants, pursuant to the Workforce Innovation and Opportunity Act (WIOA or Opportunity Act)

1. Purpose. To provide guidance to the workforce investment system on the policies and priorities that govern the award and use of the Secretary's discretionary National Dislocated Worker Grants (DWG), under the WIOA, Title I, Section 170, which becomes effective July 1, 2015. The new program is preceded by National Emergency Grants (NEG) under Title I of the Workforce Investment Act of 1998 (WIA), and National Reserve Account grants under the Job Training Partnership Act Title III.

   DWGs are discretionary grants awarded by the Secretary of Labor, under Section 170 of WIOA. DWGs provide resources to states and other eligible applicants to respond to large, unexpected layoff events causing significant job losses. This funding is intended to temporarily expand capacity to serve dislocated workers, including military service members, and meet the increased demand for WIOA employment and training services, with a purpose to reemploy laid off workers and enhance their employability and earnings. Disaster DWGs provide funding to create temporary employment opportunities to assist with clean-up and recovery efforts, when an area impacted by disaster is declared eligible for public assistance

RESCISSIONS	EXPIRATION DATE
TEGL 16-03 TEGL 16-03, Change 1-5	Continuing

from the Federal Emergency Management Agency (FEMA) or otherwise recognized by a Federal agency with authority or jurisdiction over Federal response to the emergency or disaster.

WIOA was signed into law on July 22, 2014. WIOA is designed to help job seekers access employment, education, training, and support services to succeed in the labor market and to match employers with the skilled workers they need to compete in the global economy. WIOA supersedes Titles I and II of the Workforce Investment Act of 1998 and amends the *Wagner-Peyser Act and the Rehabilitation Act of 1973. In general, the Act takes effect on* July 1, 2015, the first full program year after enactment, unless otherwise noted.

The Departments of Labor and Education published a set of regulations for implementing WIOA through the posting of five Notice of Proposed Rulemaking (NPRMs) documents. These NPRMs were open for public comment until June 15, 2015, and several hundred comments were received by both Departments. The Federal agencies will review, analyze and consider the comments received. The Final WIOA rules will be issued in 2016.

In order to continue implementation prior to the final rule, a series of WIOA Operating Guidance documents are being issued in the form of Training and Employment Guidance Letters (TEGLs). These Operating Guidance documents on WIOA will inform the workforce system on how to begin the important planning and organizational work necessary to comply with the WIOA statutory requirements. The Operating Guidance TEGLs will provide a framework for program activities until the regulations are finalized. This TEGL is one in a series of WIOA Operating Guidance.

2. **References**. See Attachment I.

3. **Background**. In 2004, the Employment and Training Administration (ETA) issued Training and Employment Guidance Letter 16-03, "National Emergency Grant (NEG) Policy Guidance" and published in the Federal Register, "Workforce Investment Act: National Emergency Grants Application Procedures". This Guidance replaces the 2004 Guidance, provides updates to DWG policy, and implements new provisions of WIOA.

4. **Operating Guidance**. New Operating Guidance for the DWG program is found in Attachment II of this TEGL.

5. **Significant Changes**. WIOA establishes DWGs, including grants for employment and training assistance and grants for disaster relief employment assistance, to supersede regular and disaster NEGs authorized under WIA. The new Operating Guidance updates a number of relevant NEG policies as they relate to the administration of DWGs, and provides guidance on new provisions under WIOA. Significant changes under WIOA include:
   - Authorizes DWGs to provide assistance to areas with a higher than average demand for employment and training services from dislocated members of the Armed Forces and military spouses.

- For disaster relief employment DWGs, WIOA:
  - Allows Federal agency emergency or disaster declarations, in addition to those made by the Federal Emergency Management Agency, to trigger an opportunity for eligible entities to apply for assistance. The newly eligible situations must fit the definition of emergency or disaster situations of national significance that could result in a potentially large loss of employment, as declared or otherwise recognized by the chief official of a Federal agency with authority for the federal response to the emergency.
  - Allows circumstances where a substantial number of individuals from a disaster area relocate to another area to trigger an opportunity for eligible entities in the relocation area to apply for assistance.
  - Affirms eligibility for the grant program for self-employed individuals who become unemployed or significantly underemployed as a result of the emergency or disaster.
  - Increases the temporary employment duration from six months (under WIA) to 12 months. The Secretary of Labor may extend the duration of disaster relief employment for up to an additional 12 months.

6. **Transition of Participants.** Most of the programmatic provisions of WIOA are effective July 1, 2015. Consistent with the transition provisions described in TEGL 38-14, all WIA NEG participants enrolled at that time must be grandfathered into the DWG program under WIOA. Grantees are not to complete eligibility redetermination for participants already determined eligible and enrolled under WIA. Grandfathered participants must be allowed to complete the WIA services, either with WIA PY 13 and 14 carry-in funds that become WIOA funds or with WIOA funds. The services authorized under WIOA become available July 1, 2015 to new and existing participants. On or after July 1, 2015, grantees must make eligibility determinations for new DWG participants under the WIOA framework. All active NEG guidance not specifically rescinded by this TEGL continues to apply to DWGs, except where that guidance is inconsistent with the new Operating Guidance in Attachment II.

7. **Submission Requirements.** ETA will accept DWG applications on a continual basis. The current process for submitting draft applications for review by Regional Offices, followed by a formal application submission, is outlined in TEN 32-10, "Revised National Emergency Grant Application Submission and Review Process". As WIOA is implemented and ETA updates the application submission process, additional information will be provided.

8. **Inquiries.** Questions may be directed to the appropriate ETA Regional Office.

National Dislocated Worker Grants Program Guidance

Table of Contents

1. Introduction
2. General Policy Framework for National Dislocated Worker Grants
3. Types of Dislocated Worker Grants
    a. Dislocated Worker Grants for Layoffs
    b. Dislocated Worker Grants for Dislocated Service Members
    c. Dislocated Worker Grants for Trade Impacted Workers
    d. Dislocated Worker Grants for Emergencies and Disasters
4. Performance and Post-Award

Section 1 Introduction

The purpose of this program guidance is to provide a policy framework for National Dislocated Worker Grants (DWG) including policies, priorities, and requirements for the DWG program. The Employment and Training Administration (ETA) accepts applications within four broad categories: Layoffs, Military Service Members, Trade Impacted Workers, and Emergency/Disaster. ETA may develop additional categories and conduct limited competitions to meet particular needs of dislocated workers, and as program funding allows. In such cases, ETA will issue a separate announcement and guidance.

Section 2 General DWG Policy Framework

Description

DWGs are discretionary grants awarded by the Secretary of Labor, under Section 170 of WIOA. DWGs provide resources to states and other eligible applicants to respond to large, unexpected layoff events causing significant job losses. This funding is intended to temporarily expand capacity to serve dislocated workers, including military service members, and meet the increased demand for WIOA employment and training services, with a purpose to reemploy laid off workers and enhance their employability and earnings. Disaster DWGs provide funding to create temporary employment opportunities to assist with clean-up and recovery efforts, when an area impacted by disaster is declared eligible for public assistance by the Federal Emergency Management Agency (FEMA) or otherwise recognized by a Federal agency with authority or jurisdiction over Federal response to the emergency or disaster.

Eligible Applicants

Depending on the type of DWG being sought, eligible applicants for DWGs may include:

1. A designated state or outlying area WIOA program agency;
2. Local Workforce Development Board;
3. Entities eligible to receive funding under 166(c) of WIOA (the Indian and Native American Program provision);

4. Entities determined to be appropriate by the Governor of the State or outlying area involved; and
5. Entities that demonstrate to the Secretary of Labor the capability to effectively respond to circumstances relating to particular dislocations.

The typical applicants for each type of DWG are highlighted in the sections below.

In cases where the state is not the applicant, ETA expects that applicants will work collaboratively with their respective state workforce development agency to ensure that Rapid Response efforts are coordinated, and to assist in subsequent performance and fiscal reporting requirements where the state is responsible for data collection and report submission.

Eligible Participants
Generally, participants must qualify as a Dislocated Worker as defined under WIOA Section 3(15). Certain DWGs, such as Disaster grants, have additional eligibility criteria. Participant eligibility for each type of DWG is described in the applicable sections below.

General Program Policies

Project Start – Applicants must define the period of performance as part of the DWG application. The project start date, otherwise known as the effective date referenced in the grant award, must reasonably align with the date of the first dislocation event and the subsequent submission of the DWG application. If a start date is requested that is prior to the date of submission, it is subject to negotiation between the applicant and the Grant Officer. Generally, this date may only include activities one quarter prior to the date of award. ETA expects that the amount of funds requested to cover costs incurred prior to the application and award of the grant will be minimal. For Disaster DWGs addressing an emergency or major disaster declared by FEMA, the project start date cannot be before the disaster's incident date listed in the FEMA declaration and no costs may be covered prior to the date of the disaster declaration. For Disaster DWGs addressing other emergency or disaster situations of national significance, the project start date must coincide with the incident date as declared by the chief official of the federal agency with jurisdiction over the Federal response of the emergency of disaster situation.

Project Duration – DWG funds may be expended during the months remaining in the program year in which the award is made plus the subsequent two program years. (A program year is the twelve month period from July 1 through June 30). Generally, planned durations for DWG projects should not exceed 24 months.

Incremental Funding – ETA typically funds DWG awards on an incremental basis. The release of subsequent funding increments is based on demonstrated need, as evidenced by enrolled participants and accrued expenditures. Such accrued expenditures are monitored by ETA through the submission of quarterly ETA 9130 financial reports. Funding increments may be requested when grantee expenditures have reached 70 percent of the total DWG funds awarded. Cash disbursements from the Federal level via the Payment Management System (PMS) to grantees, which are tracked in real time, may also be used to verify the usage of funds between quarterly reporting periods. Further guidance on financial management and reporting definitions are provided in ETA TEGL 28-10, "Federal Financial Management and Reporting Definitions",

which will be updated to include changes affected by the release of the Uniform Guidance at 2 CFR Part 200 and the DOL exceptions at 2 CFR Part 2900.

For Disaster DWGs, the initial incremental award is generally one-third of the total "up-to" amount approved. This allows the state to enroll DWG participants and begin project implementation while completing an assessment of the needs of the affected community and developing a complete ("Full") application. The initial incremental award may also take into account the state's experiences with past disaster NEGs, as applicable. For Disaster DWGs, additional increments may be requested after the submission of the Full Application and when the grantee has expended 70 percent of the initial award.

Supplemental Funding – If a DWG project's funding requirements surpass the approved award amount, a grantee may request supplemental funding to complete the project. As with the release of incremental funding, the award of supplemental funds is based on demonstrated need, as evidenced by enrolled participants and accrued expenditures. Generally, ETA expects a 70 percent expenditure rate to be met before it will award supplemental funding. Cash disbursements from the Federal level to grantees, which are tracked in real time, may also be used to verify the usage of funds between quarterly reporting periods. Additionally, the grantee must provide an explanation/justification for additional funding that addresses the changes in project requirements that exceeded the initial planning assumptions.

Performance Goals – State performance goals for the Dislocated Worker formula program serve as a basis for each DWG's performance goals. ETA negotiates with states to determine acceptable performance targets for the Dislocated Worker program, including use of regression adjusted targets. These goals will be utilized for DWGs unless applicants request additional considerations in setting performance targets for an individual grant. Native American Program section 166 applicants should use goals established for that program as a basis for DWG performance targets. Goals approved in the application serve as final performance targets.

Reasonable Costs – DWGs are subject to the Uniform Guidance: Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards at 2 CFR Part 200 and OMB's approved exceptions for DOL at 2 CFR Part 2900, which require that costs must be reasonable, necessary, and allocable.

The decision making process for determining whether a cost is allowable to a grant includes evaluating necessity, reasonableness, and allocability. For a cost to be allowable, it must first be determined as necessary to carry out the goals of the grant. Necessary means the cost is required in order to carry out the requirements of the grant or needed for the proper & efficient operation of the grant. After the decision of necessity, reasonableness must be evaluated. A cost is reasonable if, in its nature and amount, it does not exceed that which would be incurred by a prudent person under the circumstances prevailing at the time the decision was made to incur the cost. A cost is allocable to a particular Federal award or other cost objective if the goods or services involved are chargeable or assignable to that Federal award or cost objective in accordance with relative benefits received. Additional guidance on the allowability, reasonableness and allocability of costs and other factors to be considered in determining allowability can be found at 2 CFR 200.402-4011.

Additionally, ETA will assess the overall cost per participant. While this is not a stand-alone metric, it may provide a baseline measure for reasonableness when assessed in conjunction with other components of the DWG's proposed implementation. The following assessments may be done for the cost-per-participant analysis:

- The cost per participant may be assessed against the cost per participant of previously awarded DWGs similar in size, scope, and geographic area served. In general, DWG projects should offer services comparable to the services received by individuals being served by the State's DW Formula fund program. If the proposed project has a cost per participant which is significantly higher than similar DWG projects, or higher than the average Dislocated Worker formula fund cost per participant, the applicant may be required to submit additional narrative to justify the proposed costs.
- The cost per participant for each DWG-funded service must reflect the scope of the project, based on the number of participants receiving each service, and the types of services provided. In particular, training or supportive services costs that exceed the costs of similar past DWG projects are subject to additional scrutiny, and may also require the submission of additional narrative to justify the proposed costs.

Disaster projects' cost per participant generally are not compared to formula fund costs, but may be evaluated for reasonableness, including through elements of the cost per participant analysis described above.

Administrative Costs – In general, an entity that receives a grant to carry out a DWG program or project may not use more than 10 percent of the amount of the grant to pay administrative costs associated with the program or project. If the state is the grantee and one or more local areas operate the DWG program, the state may retain up to five percent of the award amount for administrative costs and the project operator(s) may retain up to 10 percent of the award amount (for a total of 15 percent). Administrative costs may be negotiated with the applicant. If the direct recipient/grantee is also the project operator, the administrative cost limit is 10 percent.

For grants that are incrementally funded, the administrative limitations apply to each increment. Administrative costs are defined in sec. 3(1) of WIOA. The Grant Award terms and conditions will specify the limitation of administrative costs.

Waivers – Grantees who seek to apply one or more of the waivers that have been approved for formula WIOA program(s) must submit a request to apply the waiver to the DWG, either in the initial application, or in a subsequent grant modification. DWG applicants should also include a copy of the relevant waiver approval letter(s) addressed to the Governor as an attachment to the DWG application or modification request. Typically, if a WIOA waiver is approved for a state, it then may be applied to DWGs.

The process for requesting a WIOA waiver is separate from the DWG application process and will be addressed through separate guidance. There are some components of Disaster DWGs that are not subject to the waiver authority authorized in WIOA, including the limitation on the length of temporary disaster relief employment. Submit questions on waivers to the WIOA waiver point of contact in the National Office or ETA Regional Office.

Veterans' Priority – DWGs are subject to the provisions of 38 U.S.C. 4215, which provides priority of service to veterans and eligible spouses in all Department of Labor-funded job

training programs. DWG participants who are also veterans will receive priority of service for training made available under DWGs as described in TEGL 10-09, which provides guidance on implementing priority of service.

Consistent Services – On projects with multiple regional, local, or state project operators, ETA will award the grant to the entity designated as grant recipient. The project should be designed to operate under a consistent set of service policies. An agreement must be executed among all of the involved eligible applicants and the agreement must designate one of the entities to be the grant recipient, as well as identify the service policies and procedures that will apply.

Section 2a Dislocated Worker Grants for Layoffs

Description
The Secretary of Labor is authorized to award DWGs to eligible entities where the State or local board has expended formula funding and the eligible entity can demonstrate the need for additional funds to provide employment and training assistance to workers affected by major economic dislocations. These DWGs provide direct services and assistance to dislocated workers. Major dislocation events generally are defined as layoffs of 50 or more individuals, as well as additional criteria described in this section.

Qualifying Layoff Events

Mass Layoff or Closure – Layoffs at one or more companies where the dislocation from each company impacts 50 or more workers. If at least one company has a large layoff of 50 or more workers, companies with smaller layoffs may be included if the primary layoff caused or contributed to the smaller layoffs.

Industry–Wide Layoffs – Multiple company layoffs from companies in the same industry as determined by the two-digit code level in the North American Industrial Classification System (NAICS). Layoffs of less than 50 workers may be included in an industry-wide DWG application when at least one company of 50 or more is included in the application and the additional companies are in the same NAICS two-digit code level.

Community Impact – Multiple small dislocations occurring over a period of up to twelve months that have significantly increased the total number of unemployed individuals in a designated regional or local workforce area. Community impact grants typically serve rural areas where the employer base is predominantly smaller companies with less than 50 employees each, and where layoffs may not meet the definition of "mass layoffs" above. The project must have a total of 50 impacted workers.

Eligible Applicants
Entities as described below are typically eligible to apply for Layoff DWGs. Eligible applicants include:

1. A designated state or outlying area WIOA program agency
2. A state or local Workforce Development Board

3. An entity eligible for funding through the Native American Programs (WIOA Section 166(c))

Eligible Participants
Dislocated workers are eligible participants for Layoff DWGs. Generally, a dislocated worker is an unemployed individual who had previous attachment to the workforce and was laid off. Previously self-employed individuals as well as temporary or contract workers impacted by a plant closure or a layoff are also eligible. For a full definition of dislocated worker eligibility, see WIOA Section 3(15). Governors and local boards have the authority to establish policies and procedures for frontline staff to determine dislocated worker eligibility.

Certain individuals that have served National Guard active duty are eligible as described under WIOA section 170(c)(2)(A)(iv) and Section 2b of this guidance.

BRAC Eligible Participants
Where military installations are intended to be closed or realigned through a formal Base Realignment and Closure (BRAC) process, eligible impacted individuals may be served with DWG funds. Civilians employed at a military installation (employed by the Department of Defense or the Department of Energy) that is being closed or that will undergo realignment are eligible participants. Department of Defense contractors who are employed in non-managerial positions, and who are determined to be at risk of termination as a result of reductions in defense expenditures, are also eligible. In the event of an announcement of a new round of BRAC activities, ETA will issue specific guidance for DWG applications reflecting the requirements of the BRAC law. If there is a military installation or closure not specific to a BRAC action, applicants should follow eligibility guidelines for Layoff DWGs.

General Policies: Layoff DWGs

Timing of Application – Applications should be submitted within 120 days of a qualifying layoff event to facilitate the timely delivery of reemployment services to the affected workers. The targeted participants are eligible for assistance upon notification of layoff (receipt of an individual layoff notice or the date of the company's layoff announcement), or the date of the layoff itself.

Applications may be submitted under "emergency" status for a mass layoff event without notice to workers, such as an unannounced facility closure or other unexpected events such as the destruction of a place of employment due to a fire. The emergency application must be submitted no later than 15 days after the event occurs. A full application must be submitted within sixty business days following the date of award. After that time, applicants should have access to data to support a full application.

Rapid Response Information – Rapid Response and other early intervention strategies for assisting dislocated workers should be deployed as soon as the government entity has information that workers are going to be laid off. Effective strategic planning through Rapid Response and other sources will contribute to positive employment and earnings outcomes for dislocated workers, and is a critical tool in the development of service strategies to support DWG applications. Assessments, demographic information, and interest in services should be collected

through surveys or other mechanisms. These data provide a rationale for enrollment estimates and justify that proposed grant activities will meet the needs of the participants.

Formula program expenditure rates – To demonstrate the need for additional funds, states and outlying areas should expend at least 70 percent of the prior program year's total DW formula funds (including Rapid Response and carry-in) in order to request DWG funding. This expenditure threshold demonstrates that the state has maintained an adequate rate of expenditures on services for dislocated workers, and that the available funds are not sufficient to provide the services for the proposed DWG. This expenditure threshold is also utilized for local board applicants. The expenditure threshold does not apply to Native American Program entities. For Disaster DWGs, the expenditure threshold does not apply to the temporary jobs component. ETA uses financial reports (ETA 9130 form) to verify expenditures of the DW formula funds of the prior program year. Cash disbursements from the Federal level to grantees, which are tracked in real time, may also be used to verify the usage of funds between quarterly reporting periods.

Adding layoff events – The modification request to add employers to a DWG project not included in the initial grant award should generally be submitted within the same program year in which the grant award was made. Rarely is it permissible to add employers outside the program year of award. If the addition of new employers results in a change in scope to the DWG project, such additions may be prohibited by federal appropriations law. Grant recipients must administer DWG projects for the original purpose under which the funds were awarded.

Allowable Grant Activities

Career Services – Career services, as defined in WIOA section 134(c)(2), are allowable and may include outreach, intake, labor exchange services, initial and comprehensive assessments, referrals, provision of labor market information, provision of information on eligible training providers, and provision of information on the availability of supportive services.

Training Services – Training services, as defined in WIOA section 134(c)(3), are allowable and may include occupational training, on-the-job training, entrepreneurial training, customized training, and transitional jobs as defined in WIOA section 134(d)(5). For on-the-job training, DWG funds may be used to reimburse up to 50 percent of the wage rate for on-the-job training participants, and up to 75 percent if certain criteria are met as outlined in 134(c)(3)(H). The use of DWG funds for training are subject to the limitations or requirements as applicable to the Dislocated Worker formula program delineated in WIOA and its implementing regulations.

Transitional jobs provide subsidized work experiences and are an allowable training service for DWG participants. Ten percent of the awarded funds for a DWG project may be used for transitional jobs. WIOA Sec. 134(d)(5) sets an expenditure cap on transitional jobs of ten percent of the amount of funds provided to a local area to carry out the Adult and Dislocated Worker programs in the area for a program year. This requirement is extended to DWGs.

Supportive Services - Supportive services, as defined in WIOA section 134(d)(2), are allowable for DWG participants receiving career services and training services. The use of DWG funds for supportive services is subject to the requirements delineated in WIOA and the implementing regulations.

Needs-Related Payments (NRP) - NRPs, as defined in WIOA section 134(d)(3), are allowable for DWGs to enable participants to participate in training services. NRPs offered in a DWG must adhere to state and/or local area policies and procedures that are in place for all customers, and may not be specifically created for DWG participants. Applicants for DWGs must include a copy of the applicable NRP policies as part of the grant submission.

If unemployed dislocated workers receiving DWG services are not able to meet the 13 week deadline for enrollment in training requirement at WIOA section 134(d)(3)(B), due to a lack of formula or DWG funds, these individuals are still eligible for needs-related payments if they are enrolled in training by the end of the sixth week following the date of the DWG award.

Section 2b:	Dislocated Worker Grants for Dislocated Service Members

Description
DWGs may provide assistance to areas where there is a higher-than average demand for employment and training activities from dislocated military service members and certain spouses that exceeds state and local resources for providing such activities.

Qualifying Layoff Events

Higher than Average Demand - Assisting military service members with the transition from military service to the civilian workforce is a priority. Generally, it is expected that existing WIOA formula funds are available to provide transition assistance for veterans. These services are provided in coordination with resources made available through the Jobs for Veterans State Grants Program and transition assistance programs administered by the Department of Defense and the Department of Veterans Affairs, as well as the Transition Assistance Program (TAP) administered by the Department of Labor's Veterans Employment and Training Service. In communities experiencing a higher than average demand for services, DWG resources are available to meet that need.

To demonstrate higher than average demand, applicants must draw from administrative data sources to document unemployment levels among veterans within a local area for the current quarter, compared to the same quarter one year ago. Appropriate sources of data include workforce data, unemployment include Unemployment Compensation for Ex-service members (UCX) data, or Transition Assistance Program (TAP) data. Dislocation events also qualify for DWGs when there are 50 or more recently separated veterans within 48 months of separation, as defined in WIOA section 3(63)(B). Service members with notification before separation may be included in these calculations. States are well-positioned to work with bases to determine the expected number of service members that will seek employment and training assistance from the workforce system. Local board applicants and WIOA section 166 Native American Program applicants should coordinate with states to obtain data to determine the demand from military service members for employment and training services.

Eligible Applicants
Entities as described below are typically eligible to apply for Dislocated Service Member DWGs. Eligible applicants include:

1. A designated state or outlying WIOA program agency
2. A state or local Workforce Development Board
3. An entity eligible for funding through the Native American Programs (WIOA Section 166(c))

Eligible Participants

- Dislocated members of the Armed Forces (service members who are transitioning to the civilian workforce) as defined in TEGL 22-04 "Serving Military Service Members and Military Souses under WIA Dislocated Worker Formula Grants".
- Recently separated veterans who are within 48 months of discharge or release as defined in WIOA Section 3(63)(B).
- Spouses of members Armed Forces on active duty if they: (1) Have experienced a loss of employment as a direct result of relocation to accommodate a permanent change in duty station of the member of the Armed Forces; or (2) are unemployed or underemployed and experiencing difficulty obtaining or upgrading employment.
- A member of the Armed Forces who:*
    - Was on active duty or full-time National Guard duty and is involuntarily separated, or is separated under section 1174A or voluntarily separated under section 1175 of Title 10 of the United Sates Code;
    - Is not entitled to retired or retained pay incident to the separation; and
    - Applies for employment and training assistance within 180 days of separation.

*Note: this population is also eligible under a regular Layoff NEG. Active duty means "full-time duty in the active military service of the United States," including "full-time training duty, annual training duty, and attendance, while in the active military service, at a school designated as a service school by law or by the Secretary of the military department concerned." 10 U.S.C. 101(d)(1). Full-time National Guard duty means "training or other duty, other than inactive duty, performed by a member of the Army National Guard of the United States or the Air National Guard of the United States in the member's status as a member of the National Guard of a State or territory, the Commonwealth of Puerto Rico, or the District of Columbia . . . for which the member is entitled to pay from the United States or for which the member has waived pay from the United States." 10 U.S.C. 101(d)(5).

Allowable Grant Activities
The policies described in "Section 2a: Dislocated Worker Grants for Layoffs" above are applicable to Dislocated Service Member DWGs. Participants should use services and benefits funded through veterans' programs first, such as relocation assistance, before utilizing DWG-funded services. Applicants should describe how the project will be coordinated with other veterans' services and avoid duplication.

Section 2c	Dislocated Worker Grants for Trade Impacted Workers

All of the policies described in "Section 2a: Dislocated Worker Grants for Layoffs" above are applicable to Trade Adjustment Assistance (TAA) DWGs. Each of the Layoff DWG types can serve as a TAA DWG project if any of the participants are TAA certified. The following specific criteria apply to TAA DWGs.

Description
The primary purpose of a TAA DWG project is to provide dislocated workers certified as eligible for TAA with a full range of reemployment services in cases where such services are not available through the TAA program and cannot be provided with the state's WIOA Dislocated Worker formula funds, as those funds are insufficient to cover such services. These services are often referred to as wraparound services. TAA DWG projects are intended to supplement TAA funded services with DWG-funded services to meet the reemployment needs of the affected workers.

Qualifying Layoff Events
TAA-certified workers include workers in a certified group employed by a firm that produces articles (a "primary firm"), a certified group employed by a firm that produces and supplies component parts for a primary firm (a "supplier"), and a certified group employed by a firm that provides additional, value-added production processes (a "downstream producer") for a primary firm. TAA DWG funds may be requested to provide assistance for layoffs at one or more companies, which include primary firms, suppliers or downstream producers, as long as the layoff impacts 50 or more workers and at least one worker group employed by the companies has been certified as TAA-eligible by the Department or has a TAA petition investigation pending.

If the project for which funds are requested includes workers of more than one employer, only one of the companies is required to have workers in a TAA-certified group or have a TAA petition determination pending for a group of its workers. The companies whose workers are not TAA-certified or the subject of a TAA petition under investigation may be included in the TAA DWG project.

Eligible Applicants
Applicants for TAA DWGs must be the state workforce agency designated by the Governor to receive WIOA Dislocated Worker formula funds.

Eligible Participants
In order to be eligible to receive services through a TAA DWG project, all participants must meet the definition of a dislocated worker as defined in WIOA Section 3(15). A subset of participants in a DWG project must be part of a worker group certified as eligible to apply for TAA benefits, and are in need of services not provided by the TAA program. Participants eligible for TAA must meet the eligibility requirements of the TAA program in order to receive TAA program benefits. Those individuals who are not eligible for TAA may be included in the DWG project and are eligible to receive the full array of DWG services.

General Policies: TAA DWG

Expenditure Requirements - In addition to the requirement that state agencies applying for DWG funding meet the 70 percent expenditure threshold for the prior year of their DW Formula funds, ETA will also review the state's expenditures for the TAA program. The collective assessment of the expenditure patterns in both programs assists ETA in determining the reasonableness of the state's DWG funding request and to ensure the state has adequate TAA training funds available.

Pending TAA Petition Investigations - State agencies may apply for TAA DWG funds to assist workers for which a petition for TAA eligibility is pending (under investigation), so that the duration of unemployment is minimized and dislocated workers receive the skills training needed for available jobs. The cost of training may shift from DWG to the TAA program at the next logical break in training for grant project participants who become eligible for TAA and whose training is approved under the TAA program. Under those circumstances, new accrued expenditures would shift from DWG to TAA. If a TAA petition is denied after a DWG award, the grantee must request a modification to adjust the DWG budget and plan accordingly. Projected grant project participants who are not eligible for TAA may receive the full array of DWG services, including DWG-funded training.

Coordination of Funding Sources – TAA DWG projects and TAA program funds must be managed in a coordinated manner to best meet the needs of the workers while abiding by all applicable statutes, regulations and federal policies. The Trade Act, as amended, contains provisions allowing the costs of a training program approved under the Act to be paid by TAA funds or from other sources, but does not allow duplication of payment of training costs. Those authorities and restrictions are spelled out in 20 CFR 617.25(b). Under certain circumstances, the costs of training may be shared, but such an arrangement must not authorize reimbursement from TAA funds of any training costs that were incurred before a participant was certified and determined individually eligible for TAA and that training was TAA-approved. Additionally, the TAA Governor-Secretary Agreement, Section D, requires that the TAA program will be the primary source of assistance to adversely affected workers covered by a certification and that to the extent adversely affected workers covered by a certification enrolled in the TAA program require assistance or services not authorized under the TAA program, or for which TAA program funds are unavailable or insufficient (including for required employment and case management services), such assistance will be made available through the one-stop delivery system. This provision includes services provided by TAA DWGs.

Allowable Grant Activities

Career and Supportive Services – The primary purpose of TAA DWG projects is to provide TAA-eligible dislocated workers with Career and Supportive Services that are not available through the TAA program, or when state TAA or formula Dislocated Worker program funds are not authorized or sufficient to provide such services. These services include providing supportive services relating to child care, transportation, dependent care, housing assistance, and need-related payments, and may also include career services such as conducting comprehensive assessments, developing individual employment plans, providing on-going and post-training case management, and providing other Career and Supportive Services as authorized by WIOA that are necessary to enable an individual to participate in training. TAA generally provides case

management and employment services, training, job search, and relocation allowances for workers covered by a certified petition. Career and Supportive Services authorized by WIOA may be provided with the TAA DWG funds.

Training - Grantees must ensure that each individual reemployment plan is developed in concert with the worker and is signed by the worker (including training, as appropriate). Participants who are certified as eligible for TAA may receive DWG-funded training otherwise provided under TAA under *limited circumstances*, the details of which must be explained in the narrative of the application. These circumstances are:

a. If TAA-eligible participants are unable to begin a training program immediately as required, the DWG may fund training for a limited time period. Systems must be in place to seamlessly accommodate a change in the funding of training, as appropriate. In this instance, any training proposed with DWG funds to TAA-eligible workers must be delivered through a training provider eligible under both the TAA and the WIOA program requirements, and the training must be approvable under the TAA program.
b. When a TAA petition has been filed by or on behalf of a group of workers but a determination of group eligibility has not been made, DWG funding may be used for training in the short-term until an affirmative decision is rendered after a completed TAA investigation, and the state agency operating the TAA program as an agent of the Department determines the worker's individual eligibility and approves the training. Again, systems must be in place to seamlessly accommodate a change in the funding of training, as appropriate after TAA program approval is obtained. Training may be modified by the TAA program to allow a worker additional training under the TAA program in order to meet retraining needs as indicated in individual reemployment plans. Such a participant may remain enrolled in DWG/WIOA and the TAA program as the individual may need continued career and supportive services through the DWG.
c. In the event that state TAA funds are not available at a sufficient level to provide training to the affected workers, DWG funds may be requested to provide training when the state also demonstrates that WIOA DW formula funds are limited. States must also determine if TAA Reserve Funds under the Trade program are available and apply for such funds, in order to receive additional TAA funding. Any training proposed to be provided with DWG funds to trade-eligible workers must qualify and be approvable under both the trade and WIOA programs, and must be in accordance with 20 CFR 617.25(b)..

Note: DWG-funded Career and Supportive services are subject to the limitations and requirements delineated in WIOA and its regulations and guidance; these may not be adjusted to match TAA levels when the individuals are subsequently deemed TAA-eligible DWG participants.

Section 2d Disaster DWGs

Description
Disaster DWG projects create temporary jobs for eligible individuals to assist with clean-up, recovery, and humanitarian efforts in areas impacted by disasters or emergency situations as outlined in Section 170(d)(4). These projects also provide funds for employment and training services where needed, to help impacted individuals return to full employment as quickly as possible.

Qualifying Events
DWG funds are available to assist with clean-up and other activities under three circumstances:

1. *Emergencies and major disasters, as defined in paragraphs (1) and (2) of section 102 of* the Robert T. Stafford Disaster Relief and Emergency Assistance Act, which are declared eligible for public assistance by the Federal Emergency Management Agency (FEMA). Public Assistance is a specific eligibility term used by FEMA in designation of disaster areas.

   Applications must include a copy of the FEMA declaration, as well as amended FEMA declarations as the project is implemented, confirming that the counties targeted for DWG-funded clean-up activities are eligible for FEMA Public Assistance. States awaiting FEMA declarations may submit a Disaster DWG application if the governor of a state has formally requested such a declaration. However, final FEMA declaration determinations are required before a grant *award* is made. An emergency declaration by the governor of a state is not sufficient to receive funding assistance.

2. *Federal agency declarations, other than FEMA, are eligible for DWG assistance.* These must fit the definition of emergency or disaster situations of national significance that could result in a potentially large loss of employment, as declared or otherwise recognized by a Federal agency. Federal declarations from the Department of Commerce and the Small Business Administration are examples of eligible federal declarations.

   Applications must include the following information: 1.) Name of the federal agency declaring the emergency event/disaster; 2.) Date of the emergency or disaster; and 3.) Other pertinent information, as defined in DWG application tools and technical assistance.

3. Circumstances where a substantial number of individuals, defined as 50 or more, relocate to another area from a disaster area.

Eligible Applicants
All Disaster DWG applications must be submitted by the state agency or outlying area designated by the Governor to receive WIOA Dislocated Worker formula funds or by an organization eligible for funding through the Native American Programs (WIOA Section 166(c)). This agency or organization will be the grantee, as well as the fiscal agent responsible for the appropriate allocation of funding to the affected areas.

States may subgrant funds to local boards and/or may expend such funds through public and private agencies and organizations engaged in such projects. States are expected to be able to deobligate and reobligate funds to affected areas and service providers quickly in order to ensure the funds are where they need to be in order to fulfill the purposes of this grant and to ensure that workers needing assistance are receiving it.

Eligible Participants

Participants must be determined eligible as defined in WIOA Sec. 170(d)(2). The following eligibility requirements apply to the following individuals residing within the declared disaster area, or who are forced to relocate due to the disaster or emergency event:

1. Individuals who are temporarily or permanently laid off as a consequence of the disaster;
2. Other eligible dislocated workers as defined in WIOA Section 3(15);
3. Long-term unemployed workers, as defined by the state; and
4. Self-employed individuals who become unemployed or significantly underemployed as a result of the emergency or disaster.

Outreach efforts should emphasize workers who lost employment as a result of the disaster. Veterans' preference applies within these eligible groups.

Allowable Grant Activities

Temporary Jobs - Disaster DWGs provide funding for the creation of Disaster Relief Employment, or temporary jobs, which are restricted to the following activities:

1. Clean-up and recovery efforts including demolition, repair, renovation and reconstruction of damaged and destroyed structures, facilities and lands located within the disaster area and in offshore areas related to the emergency or disaster.
2. The distribution of food, clothing, and other humanitarian assistance for disaster victims.

DWG funds allocated for wages should cover the activities related to humanitarian work and must not cover the actual humanitarian aid itself. Humanitarian assistance includes actions designed to save lives, alleviate suffering, and maintain human dignity in the aftermath of emergencies.

Career and Training Services – DWG projects provide Career and Training services for those grant participants already enrolled in the temporary jobs component of a Disaster DWG project, who are unlikely to return to their prior employment. DWG funds may provide employment and training services concurrently with participation in the temporary jobs component. The state must have met the expenditure threshold (70 percent of the prior program year's DW formula funds) in order to request Career and Training services for a Disaster DWG. Clean-up and recovery activities take precedence when offered in conjunction with Career and Training activities.

Disaster DWGs for emergencies or disaster situations of national significance that could result in a large loss of employment, but which may not cause physical damage, are authorized to provide Career and Training services only, depending on the circumstances of the specific event.

Generally, Disaster grants serving individuals relocated from a disaster area will provide Career and Training services as the primary service, because participants are relocated outside of the disaster area. These grants may also include disaster relief employment or humanitarian assistance.

Supportive Services - For Disaster DWGs, supportive services are allowable for participants to participate in disaster relief employment and Career and Training services, including reimbursement or payment for such costs as child care and transportation to and from the job site.

Temporary Jobs Policies

Limit on Temporary Job Duration – A participant may hold a temporary job for no longer than 12 months or 2,080 hours. If clean-up work remains in the project even after the participants reach their temporary employment limit, generally the state must bring in additional new eligible workers to replace those who have worked 12 months. It is possible for individuals to be cycled in and out of the project for longer than 12 months, with participants working intermittently over an extended time period that does not exceed 2,080 hours. Grantees may submit a modification request to extend an individual's disaster relief employment for up to an additional 12 months.

Participant Wages – Participants in a Disaster DWG temporary jobs project must be paid the higher of the Federal, state, or local minimum wage, or the comparable rates of pay for other individuals employed in similar occupations by the same employer. In accordance with WIOA Section 181(a)(1)(A), generally, participants shall be compensated at the same rates, including periodic increases, as employees who are similarly situated in similar occupations by the same employer and who have similar training, experience, and skills, and such rates shall be in accordance with applicable law, but in no event less than the higher of the rate specified in section 6(a)(1) of the Fair Labor Standards Act of 1938 (29 U.S.C. 206(a)(1)) or the applicable State or local minimum wage law. Fringe benefits should be paid in accordance with the policies of the employer of record.

Where the local project operator or another approved worksite employer hires temporary workers for positions for which wage levels have not been established and supervision of the temporary workers is performed by another agency, the agency performing the supervisory responsibilities could be consider the worksite employer for purposes of determining the appropriate wage for the temporary worker. In such a case, the temporary worker's wage could be established based on similar or same work performance by employees of the worksite employer.

Grantees must ensure that the DWG funding allocated for wages of the temporary workers is appropriately apportioned to only the entities approved as official employers of record for the Disaster DWG project. The employers of record for temporary workers are limited to public entities, not-for-profit organizations, and private for-profit entities such as outplacement or staffing agencies.

Worksite Selection – The geographic areas where the worksites are located must be located in the geographic area covered by a FEMA declaration eligible for public assistance or within the area subject to another Federal agency's declaration of an emergency or disaster situation of

national significance. Grantees must prioritize the worksites for temporary jobs so that the highest priority is given to public facilities which have been most severely damaged, consistent with the strategic plans of the community.

Generally, worksites will be limited to public and private non-profit facilities. Under certain circumstances, work on private property is authorized to the extent that it achieves a greater positive benefit for the workers and the community being assisted. Work on private property must meet the requirements outlined below.

1. Clean-up activities on private property may be performed by grant participants if workers from units of general local government are also:
    a. authorized to conduct such work; and
    b. perform such work.
2. As determined by the extenuating circumstances of the disaster for which Title I funds are being provided, repair and restoration activities are authorized on the private property of economically disadvantaged individuals, under the following specific conditions.
    a. Work can only be performed on the homes of economically disadvantaged individuals who are eligible for the federally-funded Weatherization program; and
    b. Work may be performed on private land or homes of such individuals if the non-WIOA employees of the employing unit or state or local government workers are authorized to do the same work and are in fact engaged in performing the work using non-WIOA funds; and
    c. Work on private land or buildings is performed to remove health and safety hazards to the larger community; and
    d. The work is limited to returning a home to a safe and habitable level -- not to make home improvements; and
    e. Priority is given for service to the elderly and individuals with disabilities; and
    f. WIOA funds cannot be used for the cost of materials to do repairs; and
    g. Work must be disaster-related and not related to general home improvements authorized under the Federal Weatherization program; and
    h. Work is coordinated with or supervised by the local agency responsible for the Federal Weatherization program.

General Policies: Disaster DWGs

Emergency Application – Generally, an initial request for Disaster DWG funding is made in an abbreviated Emergency Application to facilitate timely delivery of DWG assistance in response to a disaster event. Emergency applications for Disaster DWGs should be submitted within 15 days of the qualifying Federal Agency or FEMA declaration. States submitting after the fifteenth day must provide a reasonable justification for the late submission, or submit a full application.

Full Application – Within sixty business days following an award of Disaster DWG funds requested via an Emergency Application, the grantee must submit a Full Application via the DWG electronic application system. The system will generate the applicable screens to collect additional information pertaining to the budget and implementation plan for the disaster DWG project. In addition, grantees must provide information including a list of worksites in the counties where the work will be performed, job titles of each of the temporary jobs associated with those worksites, and the amount of funds allocated to each county being served under the

projects. The grantee is required to submit additional information per conditions of the initial DWG award.

Coordination with Emergency Management Agencies – In an effort to ensure non-duplication of services and maintenance of effort requirements, the State must coordinate the activities funded under a disaster DWG with those funded by and/or performed under the auspices of FEMA. Disaster DWG grantees should also coordinate where applicable with the appropriate organizations, including state emergency management agencies and other federal response agencies, to ensure a comprehensive response and to prevent duplication of services. The website www.disasterassistance.gov provides additional resources.

Obtaining Equipment – FEMA or other federal, state, or local agencies provide assistance in obtaining equipment needed for temporary jobs participants to conduct clean up, renovation, restoration, and other allowable activities. In situations where the state is unable to obtain funding or equipment from another source, DWG funds may be used to lease or buy necessary equipment for worksites where Disaster DWG participants are employed to support clean-up and recovery activities. Purchase of equipment is subject to prior approval and disposition requirements in 2 CFR 200 and 2 CFR 2900.

A grantee must request approval for all equipment purchases with a cost of $5,000. Equipment at 2 CFR 200.33 is defined as tangible personal property (including information technology systems) having a useful life of more than one year and a per-unit acquisition cost which equals or exceeds the lesser of the capitalization level established by the non-Federal entity for financial statement purposes, or $5,000. When obtaining equipment, grantees are advised to follow the appropriate procurement procedures as defined by state procurement policies; subrecipients, unless a state government, must follow the procurement requirements in 2 CFR 200.

Grantees must summarize equipment purchases in the application and subsequent modifications. The grantee may use the following methods to request approval for equipment purchases. Each method requires that the grantee identify the type of equipment, the required quantity of each type, the estimated price per unit, and a brief justification for the type and quantity of heavy equipment requested:

1. The applicant may request the purchase in the Emergency Application;
2. The applicant may request the purchase in the Full Application; or,
3. The grantee may request the purchase in subsequent modification requests to the disaster DWG.
    a. If the grantee finds it necessary to make an urgent modification request for equipment purchases, states may send an email directly to the Grant Officer in the Regional Office, with a copy to the associated Federal Project Officer in the Region. Note, ETA will not approve requests emailed before the initial DWG award.

Endangered Species/Habitats Protection – In order to ensure compliance with the National Environmental Policy Act (NEPA) and the Endangered Species Act (ESA) and to protect valuable habitats and endangered species, all disaster projects in which participants will be entering or impacting natural areas must ensure that activities are not negatively affecting endangered species or their habitats. NEPA and ESA require DWG projects to either affirm with the Fish and Wildlife Service (FWS) that there are no endangered species or habitats within the

project area, or to consult with FWS to mitigate negative impacts where there are endangered species or protected habitats before beginning any work in those areas. To contact a state FWS field office visit http://www.fws.gov/offices/.

Health and Safety Standards – In all DWG projects, Federal and state standards, otherwise applicable to working conditions of employees, apply to the working conditions of participants. Where a participant is engaged in activities not covered under the Occupational Safety and Health Act (OSHA) of 1970, as amended, the participant shall not be required or permitted to work, be trained, or receive services in buildings or surroundings or working conditions that are unsanitary, hazardous, or dangerous to the participant's health or safety. Health and safety standards must be followed as outlined in WIOA Section 181(b)(4). Additional information and local contacts can be found at OSHA's website: www.osha.gov

Section 4 Reporting and Post-Award

Performance and Fiscal Reporting

Applicable Performance Measures – To satisfy reporting requirements, states must report the characteristics, services received, and outcomes of participants served with WIOA funds, including DWGs. Such information is necessary to determine the success of these investments. Performance measures as described in WIOA Section 116 apply to the DWG program.[1] If a grantee is not a state, ETA will work with the grantee to determine accessibility options to wage records, in order to verify outcomes.

Reporting – To ensure ETA is able to assess the success of DWGs and other WIOA programs, the collection of accurate data is a critical component of financial and performance accountability. The data collected on program activities, participants, and outcomes are used for program management, and to convey information on the performance of workforce programs to policymakers and stakeholders. The required reports for DWG grantees include quarterly reporting requirements under WIOA, a DWG quarterly report, and the quarterly ETA 9130 financial report.

- Individual record file submission (currently the Workforce Investment Act Standardized Record Data (WIASRD) Quarterly Submission). Note this requirement is described in more detail below.
- ETA 9090 – WIA Quarterly Report which is generated automatically with quarterly individual record file submission
- ETA 9130 – U.S. DOL ETA Quarterly Financial Status Report
- ETA 9104 – Quarterly Performance Report (QPR)

Individual Record Submission –The quarterly WIASRD submission is the means for calculating individual participant performance outcomes as well as performance for the DWG. Grantees will continue reporting DWG participants in the current WIASRD until new performance reporting requirements are approved and the system is revised to reflect WIOA requirements.

[1] Section 116 of WIOA does not go into effect until July 1, 2016. Until then, grantees will continue reporting on the WIA performance measures in the current Workforce Investment Act Performance Management System until new performance reporting requirements are approved and the system is updated

Grantees must submit an individual record file quarterly on all participants and exiters. DWGs who are also co-enrolled through an additional WIA/WIOA funding stream should utilize a common exit (i.e. when the participant has completed all partner services).

All relevant data elements on the individual record layout must be completed. Grantees must identify participants enrolled in a DWG project as persons receiving assistance with DWG funds and enrolled in DWG projects. In order to ensure that each DWG participant is appropriately recorded and tracked to a DWG project, the project number must be captured in WIASRD element 923 and 924. Each DWG has a four-digit project identifier to be entered for DWG participants, which will ensure that each DWG participant is recorded and tracked to a DWG project. This number is identified in the DWG Grant Award Letter, and is generally the state code and the numeric figure immediately following it (e.g. AK01). Grantees must record services provided through a NEG Disaster grant in WIASRD data element 1402 "Received Services Through a Disaster NEG"

Post-Award Policies

Grant Modifications - Modifications are formal changes made to an awarded grant project. Grantees must submit modifications to request changes to the budget and project plan which address changing circumstances affecting the project's implementation. Modifications for DWGs are also submitted to respond to the terms and conditions of a previous award, and to request additional incremental or supplemental funding. Modifications must follow the Uniform Guidance. Additional information on the DWG modification process is contained in TEGL 17-14 "National Emergency Grant Revised Modification Process".

As with new DWG applications, grantees must request all changes requiring a grant modification through the DWG eSystem. The DWG eSystem provides grantees data fields for the specific information to be submitted, based upon the modification type.

Project Implementation Plan - Each grantee is required to develop an implementation plan to reflect the approved project design and funding parameters in the grant award. The grantee must complete the implementation plan within 60 calendar days following grant award and transmit it to the Federal Project Officer upon completion.

Deobligation Limitations – Deobligations are only possible within the program year of award. ETA generally will not consider requests from grantees to return grant funds when those requests are made outside of the program year of award. Where grantees are experiencing unforeseen issues with the ability to expend funds (for example, if affected dislocated workers are recalled following a layoff) the grantee should work with the grantee's Federal Project Officer and the Grant Officer to identify opportunities to use the existing grant funds to serve eligible participants.

Grant Close-Out Package - Grantees receive a closeout packet which includes required closeout documents. The grantee then has 90 days to complete all required closeout documents, including the closeout financial report. All outstanding terms and conditions on the grant must be resolved prior to close-out.

Other Terms - The Department may negotiate and fund projects under terms other than those specified in these DWG guidelines, where it can be clearly demonstrated that such adjustments will achieve a greater positive benefit for the workers and/or the communities being assisted.

Pastor Ellison, Harris, and Overton,

Below is a list of churches that have volunteered to be Church Distribution Hubs. I had direct contact with the pastors and their point of contacts. I have also conducted site assessments at their facilities.

It was conveyed to them that this initial plan was a collaborative effort, and may change with input from all parties involved.

It was discussed, and agreed that the HUB churches would network with the surrounding churches, and set up their own agreed upon distribution schedule. It was requested that the HUB church provide a list of churches that are obtaining their water from the HUB church. This list can be sent via email to Lt. Roach at Roachb@michigan.gov.

Hopefully this plan will further assist and augment our initiative of getting water to our residents more efficiently.

Request for Water

At this time the Church HUB point of contact is Lt. Roach The Church HUB will call and provide the quantity of water, and schedule the delivery time. This should be scheduled at least 24 hours in advance.

Deliveries

The deliveries will be conducted by a Mi DTMB driver, and truck. They have a pallet jack and the capability of moving pallets from their truck to a staging area. If the water needs to be transported to an upper or lower level, there needs to be people to assist off-loading.

Church Distributions

The Church Distribution HUB would be responsible to network with the surrounding churches, and set up a distribution schedule, along with amounts of water needed.

Michigan State Police Points of Contact

Lt. B.J. Roach , Roachb@michigan.gov

Lt. Mark A. Russo . Russom2@michigan.gov

CHURCH DISTRIBUTION HUBS

NORTH

Foss Avenue Baptist Church
1159 East Foss Avenue
Flint MI
Pastor Flynn 810-965-1515
Point of Contact: Jackie Scott 810-787-9019

Delivery: 4 pallets starting 2-2-2016 @ 12:30 pm

NORTH WEST

St. Mark Baptist Church
3020 DuPont NE
Flint MI
Pastor Thompson 810-280-9985
Point of Contact: Angie George 810-955-6297/810-234-6609

Delivery: 25 pallets starting 1-29-2016 @ 11:00 am

COA# 3 Food Banks

- 86 total stops
    - Pantries
    - Once per week
    - 4 routes per week, 21 stops per week
        - Route 1 Monday
        - Route 2 Tuesday
        - Route 3 Tuesday
        - Route 4 Friday
    - Each route has different pantries
    - Food bank would deliver commodities to 86 stops

Data still needed (variables)

- Where are the 86 Pantries
- Size of pantries
- Willingness to do other commodities other than water
- Ability to hold water, filers and cartridges
- Ability to deliver to all 86 pantries
- Do we reduce # of 86
- Accessibility of pantries
- Hours of pantries
- What trucks will be needed to deliver
- What equipment will be needed
- Funding need to support
- How often are deliveries need per pantry
- Would we just fund them to increase their equipment or would we supplement
- Need supply chain management or would we use and track ourselves or use food bank.
- Assign neighborhoods to pantries
-

Facts

1) Move from State to ??? distribution method
2) EM expires 14 Apr 16
3) Distro plan included faith based
4) DEQ 3rd party H2O safe
5) FEMA provide H2O 90 day
6) FEMA 3 commodities
7) One filter in ever residence
8) State engaged – high level
9) Stewardship {reports, oversight}
10) Restore Confidence in Govt F S L

Assumptions

1) Move to long term distribution plan in 2-4 weeks
2) Move State Distribution
3) Distro command defined as
    a. H2O filters
    b. H2O Cartridges
    c. Pitchers
    d. H2O Pods
4) ***State will maintain commodities past 90 days?**
    a. **Does state want to prepurchase commodities other than water?**

Parking lot

Zip Code GIS overlay

1) City section
2) Pop density
    a. distributed?
        i. Sections (38)
            1. -38 sections
        ii. wards(9: approx. 10k people each)
            1. + fewer
            2. + equal population
            3. + Includes local government cooperation &
            4. + instill confidence in local government
            5.
        iii. zip codes (17)
            1. +food bank uses zip codes
            2. +includes franchise customers
            3. –includes more than on water system
            4. –not population centric
3) Need formal logistics long term plan
4) Who will be employer of record (State, City, County, NGO)?

Distribution Model COA1: 9 wards

Minimum of one

Location based upon

Fixed Location (parking lots)

Utilize semi/box truck w/just in time commodities

Parking lot next to bus route &/or transportation route

Use IC26 checklist to ID Loc

Full Service

H2O, Filters, cartridges, test kits (only advertise H2O, cartridges and test kits) + recycling

Rapid response to 211 calls 5 penskes with 10 pax

Need to address vulnerable population in this COA

approx. 3000 question of how many are mobile

Potential existing homecare assist delivery

Some in assisted living and addressed there.

Staffing

Numbers 15 per POD (1 supply management, 1 assistant 2 admin/data, 9 laborers) and 2 drivers per POD (based on 3 load points per POD) Start at 9 per POD with 1 load point & only 3 laborers

Type

Responsibilities

Paid FT/PT (supply chain management)

Core Tm supplemented by Volunteers

Subject: Job Titles

Tom and Brianna-

Attached is a list of job titles that could be included for the local hires program, along with a short description. Helen and I did a crosswalk of the proposal sent along to Maggie and the logistics requirements in IS26 (POD training) in the hopes of being as comprehensive as possible. There were a few job ideas on the proposal that I wasn't sure of, so we left off their description for your input.

Give it a look through and let us know if you need anything else.

Have a great weekend,
Jeannie

Predecisional; not for further distribution

Deployed to EM 3375: Flint, Michigan Water Operation

Flint Water – Proposal Local Hire Program

Suggested Job Titles

Total Staff Requested: [dependent on COA selected]

Warehouse:

General Manager/Coordinator: responsible for overseeing the everyday operations of the warehouse. Suggested hiring one individual per warehouse

Receiving Manager: responsible for receiving logs and reconciliations. Suggested hiring one individual per warehouse

Shipping Manager: receives all requests for distribution of commodities and records all shipments. Suggested hiring one individual per warehouse

Fleet Coordinator: Coordinates point of distribution drivers, trucks, and equipment. Suggested hiring one individual per warehouse

Yard Manager: Directs traffic in and around the warehouse. Suggested hiring one individual per warehouse

Security: Monitors building for unauthorized personnel. Could be asked to work overnight depending on the need. Suggested hiring at least one individual per warehouse

Inventory/Receiving/ Floor Workers: Staff dedicated to receiving inventory, daily inventory and actual picking of orders for shipping. Individual must be comfortable picking up at least 50 pounds. Suggested hiring six individuals per warehouse.

Drivers: Delivers supplies to points of distributions. Individual could be asked to drive large vehicles in all weather conditions throughout the city. A few individuals will be held for special orders such as churches, or community centers. Suggested hiring seven individuals per warehouse.

Fork Lift Drivers: works within the warehouse operating fork lifts to organize and compile supplies for distribution. Individuals should obtain certification to operate a fork lift. Suggested hiring three to four individuals per warehouse.

Technical advisors: As needed for initial set-up.

POD:

POD Manager: responsible for the daily operations of the POD. This includes all staff and resources on site throughout the activation.

Administrative Support Specialist: works alongside of the POD Manager to support daily operational needs for maintaining the POD.

Recycling Support Specialist: works with a team of individuals who would properly recycle water bottles and other supplies.

Support Team Leader: supervises all support operations including: ensuring equipment used onsite has been inspected, maintained, and used in a safe manner, coordinating supply truck movement onsite, conducting resupply operations including downloading commodities and resupplying the loading line, maintaining accountability of all commodities received, on hand, and distributed from the site, maintaining all paperwork relating to resource accountability and providing daily resource reports

Traffic Controller: manages the movement of vehicles through the POD

Community Relations: serves as the central point of contact for media and public relations on the site

Pallet Jack Operator: responsible for the movement of pallets to and from the loading line and removing empty pallets

Fork Lift Operator: manages the movement of pallets to and from the resupply vehicles.

Loading Team Leader: supervises all loading and sustainment operations including: loading of supplies into customer vehicles, ensuring the loading line has adequate supplies, oversees site security and coordinates with local law enforcement for assistance

Loaders: responsible for loading set quantities of supplies into customer vehicles. Loaders also coordinate with the Support Team for resupply of the loading line

Site Security Officer: responsible for securing the POD site and ensuring/maintaining good order.

Rapid Response Teams: (COAs suggests that a background check maybe required)

Direct Delivery Specialist: will be part of the Rapid Response team who are responsible for direct delivery of supplies into the community.

Plumbing Apprentice: will work alongside a local plumber to assist in changing out filters in affected homes.

Plumber: licensed plumber to field plumbing-related calls and provide mentorship and training to accompanying apprentice

Driver: delivers supplies within the community. Individuals could be asked to drive large vehicles in all weather conditions throughout the city.

211:

Operators: will be responsible for answering phones in the 211 call center and fielding requests from the callers for supplies and services. Individual may be bilingual.

Referral Specialist: will be responsible for compiling and updating referral lists for operators to use when answering calls asking for requests for services and supplies.

Administrative Support Specialist/Data Analyst Specialist: will work with operators and leadership to collect and analyze information to track calls, requests, and unmet needs within the community of Flint. Will generate reports for distribution to relevant government and nongovernment partners.

Emergency Operation Center Staffing:

Data Entry Specialist: Inputs data collected in the Operation Center to compile reports and other documents.

Planner: Produces planning related documents throughout the lifespan of the situation

Geographic Information System Technicians (trainees): will provide additional support to state and county GIS teams in support of the operation

Other:

Donation Specialist: manages and coordinates the oversight of donations and their movement through the distribution system.

Translators: language specialists to assist with outreach and communication to residents for whom English is not their primary language spoken.

Social and medical case worker:

Mechanic:

Bus Driver:

Building Inspector:

Chris DeVriendt called me and said that the Adventist's are handing out their own flyers (attached) soliciting volunteers to assist with the warehouse. This goes around the VRC system and has not been coordinated through the SEOC to my knowledge. Did any of you know about this or do you know of any issues with them doing this? Personally, I feel they should use the VRC system, but I do not totally understand how they work.

Thanks,
Wendy

Flint Water Donation Management Warehouse

Volunteers are needed daily to sort, pallet and shrink-wrap cases of bottled water.

Who: Must be 18 years or older and able to lift 20-25 lbs.

When: February 21—April 30, 2016

Time: Sunday—Saturday
10:00 am to 5:00 pm

Where: Flint, MI location

Critical need:

- Certified Forklift Drivers

Give us a call to schedule your date(s) and time. At least twenty volunteers per day are needed.

All volunteers should dress warmly, wear work shoes, and bring gloves. Bring a lunch and drinks.

Although we love children, safety regulations require that there is absolutely no one under 18 allowed on the premises.

Don't Delay! Sign Up Today ⬇

Subject: ARC brainstorming and local agencies
Attachments: Flint Genesee NGO Involvement 2016-01.pdf; VOAD NGO Ideas Flint Water Contamination 20160106.docx

Recovery Branch:

Paul and Linda sat down and put together two things for me: one is a list of IDEAS of ways in which they and other voluntary organizations might be able to provide assistance going forward. These are ideas, so any that seem needful would need additional discussion/researching. The other is a list of local agencies in Genesee County that have been contributing so far. There is going to be a meeting next week of voluntary organizations for coordinating activities. The Genesee EOC is aware of this meeting.

Planning Group Chief, State Emergency Operations Center
Michigan State Police/Emergency Management and Homeland Security
(This email is monitored only when the SEOC is activated)

Brainstorm Ideas for Possible VOAD/NGO Support in Flint Water Contamination 1/06/16 Version

The MSP/EMHSD planners asked the Red Cross [ARC] to brainstorm and come up with possible ways in which MI-VOAD, the Red Cross and other NGOs might be able to assist in the response and recovery phases of the Flint Water Contamination. When reviewing the ideas which follow, please keep in mind these considerations:

1. We cannot speak for MI-VOAD and recommend that MI-VOAD be convened so that the members can be briefed and discuss these ideas.
2. NGOs seek funding to implement programs which align with their missions. None of them are funded to conduct recovery efforts for the Flint Water Contamination and would likely need financial support to do so.
3. These ideas are not task assignments or commitments.

POSSIBLE NGO SUPPORT ACTIVITIES

a) NGOs can help educate Flint residents about water filters and ways to mitigate lead exposure in children through nutrition and early childhood education. (Leveraging the Red Cross' Home Fire Prevention Campaign, ARC volunteers could provide education materials, water filters and replacement cartridges when they visit homes to install smoke alarms. Discussions are currently underway to do this.)

b) The ways in which educational information is disseminated may provide an opportunity to rebuild trust in government. If those efforts engage trusted organizations such as faith-based groups and the Red Cross, the positive perceptions may be extended to government.

c) NGOs' places of business could be used as points of distribution for water and filters. In addition to space, the NGOs may be able to provide people to staff them. Perhaps some NGOs could provide the water and filters, but not all. Such arrangements would need to be time limited.

d) Some NGOs can provide language interpretation and translation for those residents who need it and for translation of educational materials.

e) In Flint, Child Care Network trains providers of early childhood education.

f) Some Flint residents affected by the water contamination may benefit from crisis counseling. People who work on the recovery (agency staff and volunteers) may also. There are NGOs which provide such counseling.

g) Some homes contain lead pipes, faucets or related infrastructure. Perhaps some NGOs (Habitat for Humanity?) could install new ones. However, this may require specific licenses or permits.

h) If it's determined that food will be distributed to improve nutrition, NGOs may be able to assist.

i) There may be NGO services available directly to those children who evidence disabilities as a result of lead exposure.

j) There are local agencies which have been and continue to address the needs of Flint residents. Because the recovery may be long term, the capacity of these agencies may be taxed. It's possible that NGOs could support them by providing workers (staff and/or volunteers) to help, depending on their needs (including answering phone calls and responding to email.)

k) Some of the MI-VOAD member agencies may be able to act as liaisons with local government and non-profit agencies.

Possible organizations that can help us with the Distribution of water filters, water pitchers, 23 cup filters and replacement filters along with distribution of preparedness materials, health department material and smoke detector sign up sheets.

Good afternoon,

Attached is the list of staff assigned to work in the SEOC this weekend. Please find your name and report to your assignment at 8 a.m. tomorrow (1/9) morning. The hours are 8 a.m. to 5 p.m. Lunch will be provided. As always, business casual attire is appropriate. No jeans for EMHSD staff.

Trevor, your name is not on the spreadsheet at the time of this email, but your assistance will be needed this weekend.

My cell number is !

Thank you,

Wendy

To: MSP-seoclgc; Roach, Billie Jo (MSP)
Subject: RE: teams

BJ,

At this time, the teams being trained and hitting the ground on Tuesday consist of DHHS staff and MSP troopers. I will be assessing, when the replacement for Richard Thelen arrives, to bring the local volunteer coordinator into the operation for additional coordination. I am unsure where he will reach out, but my intent is to shift from DHHS employees to volunteers after a couple days.

Once the team format changes, training will provided about the operation. Once I finalize the training agenda/content, I can share that with you as well.

Don't hesitate to call me if you need anything related to this operation, I did speak with Scott in the county EOC this morning to clarify a couple requests we've made as well.

Thanks,
Brianna

Brian,
The list is now attached.
Please note that since my email below, one volunteer has backed out.
We now have 12 (Tues), 10 (Wed) , 11 (Thu), and 12 (Fri).

I know Mike Milks is working to get volunteers; however with the weather I am unsure we will get the level requested.

Cc:	Eickholt, Jay (MSP); Briggs, Brianna (MSP)
Subject:	Vehicles to Flint
Attachments:	Directions.pdf

Thank you so much for volunteering to help take vehicles to Flint.

You will all take one car to the training center to pick up the keys to 2 Suburbans and 2 Crew Cab Trucks. The car that drives to the Training Center will follow the 4 vehicles to Flint and bring everyone back...hopefully you can trust that person not to leave you in Flint ☺...select your trusted person wisely.

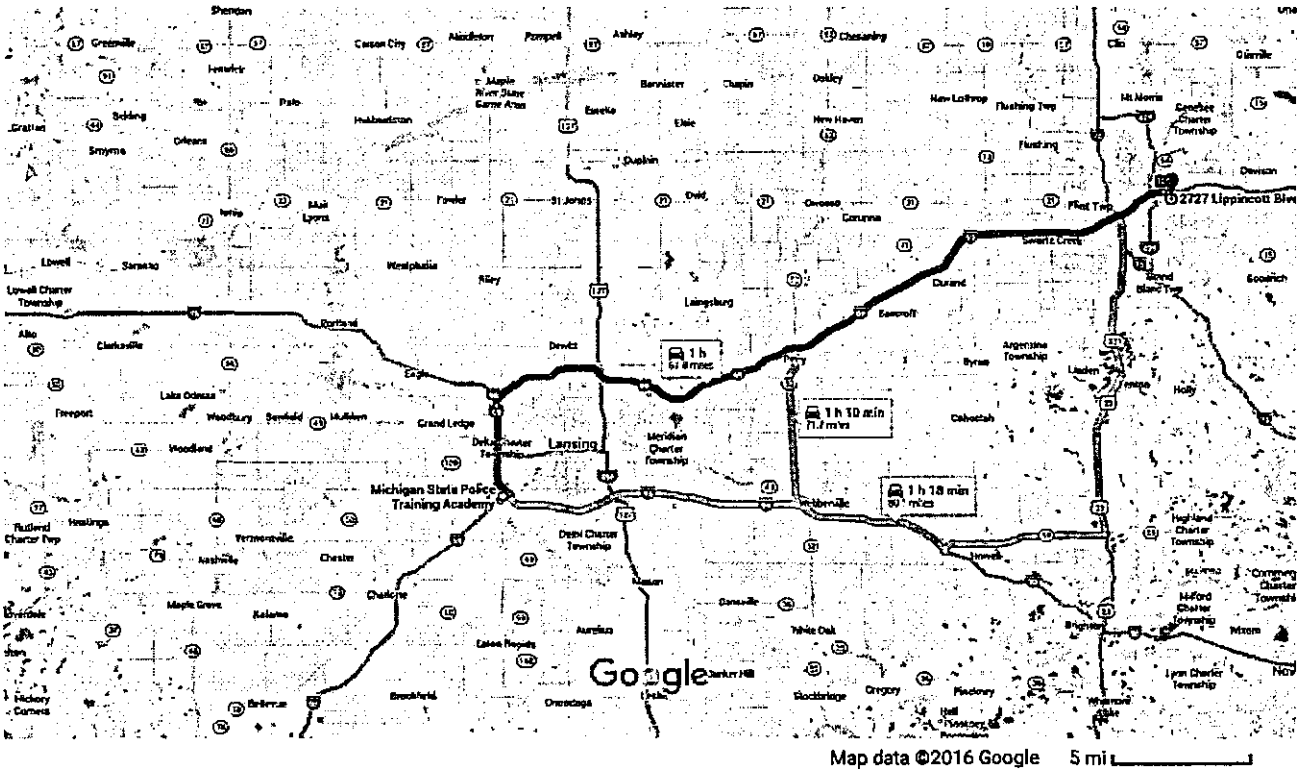
The address is 2727 Lippincott Blvd., Flint, MI Attached are the directions from the Training Center.
It is the Genesee County Community Action Resource Department location.

Sam, please grab the keys from Joyce and meet everyone else in the lobby.

Please notify your supervisor upon your return.

Thanks,
Carly and Kristi

Google Maps Michigan State Police Training Academy to 2727 Lippincott Blvd, Flint, MI 48507 Drive 67.8 miles, 1 h



Michigan State Police Training Academy

7426 N Canal Road, Lansing, MI 48913

Get on I-96 W from N Canal Rd and Lansing Rd N

3 min (1.7 mi)

1. Head north on N Canal Rd toward Osborn St

430 ft

2. Make a U-turn at Osborn St

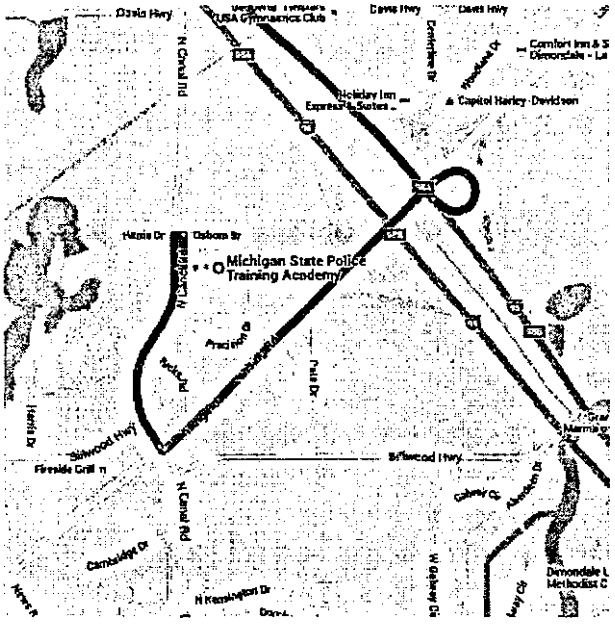
0.5 mi

3. Turn left onto Lansing Rd N

0.8 mi

4. Use the right lane to merge onto I-96 W via the ramp to Gd Rapids

0.2 mi



Take I-69 N to M-54 S/S Dort Hwy in Flint. Take exit 138 from I-69 N

55 min (65.4 mi)

5. Merge onto I-96 W

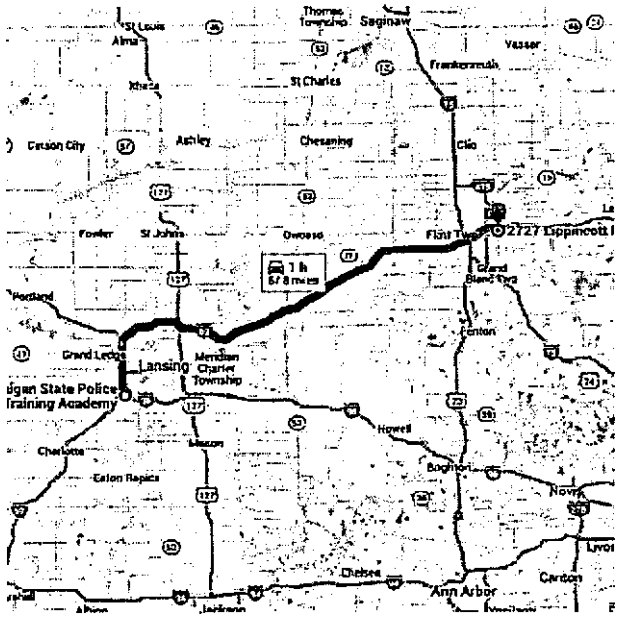
7.0 mi

6. Keep right at the fork to continue on I-69 N, follow signs for Flint

58.1 mi

7. Take exit 138 for M-54/Dort Hwy

0.3 mi



Continue on M-54 S/S Dort Hwy. Drive to Lippincott Blvd

2 min (0.7 mi)

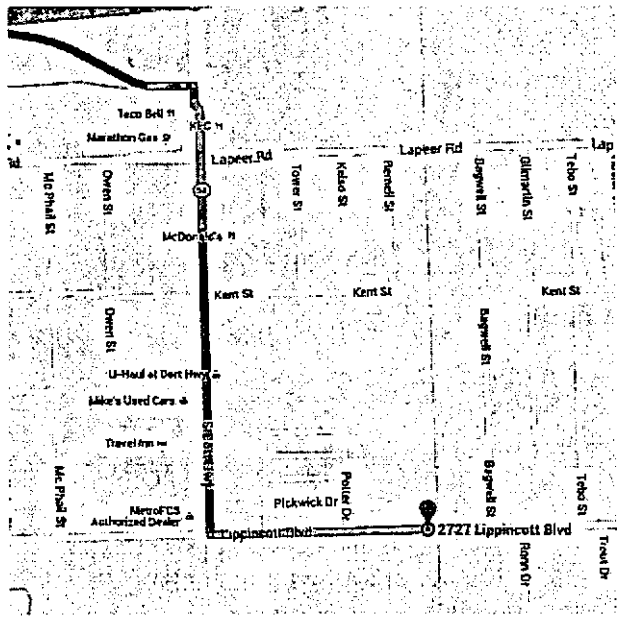
8. Turn right onto M-54 S/S Dort Hwy

0.5 mi

9. Turn left onto Lippincott Blvd

Destination will be on the left

0.2 mi



2727 Lippincott Blvd

Flint, MI 48507

These directions are for planning purposes only. You may find that construction projects, traffic, weather, or other events may cause conditions to differ from the map results, and you should plan your route accordingly. You must obey all signs or notices regarding your route.

Subject: RE: Potential Assistance Programs - SEOC Response

Good afternoon.
Attached, please find the Michigan Department of Talent and Economic Development's (MTED's) comprehensive response to your request for potential assistance programs related to the Flint Water Crisis.

As always, should you have additional questions or need further information, please don't hesitate to contact my office.

Best regards,
Lynne A. Feldpausch, CHRO
Senior Vice President - Strategy, Technology & Administrative Services
Michigan Economic Development Corporation

Subject: Potential Assistance Programs

State Emergency Management Coordinator:

As discussed in this morning's briefing, your agency has been identified to research potential assistance programs (private, state, federal, etc.) that may be available to address the short- and long-term recovery needs in response to the Flint water incident. Earl Zuelke, FEMA Long-Term Recovery, has made contact with some federal agencies to assist with this research. Feel free to touch base with him in the SEOC.

Attached is a copy of the Non-Stafford Act Recovery Guide. Appendix 2 (pg. 24-26) provides a list of some potential federal programs. This list is **not** all-encompassing; however, it will provide a starting point if any of these programs may apply to the response and recovery for this incident.

Provide the following information, *at a minimum*, on potential assistance programs for individuals and/or government support in response to this incident:

- Program Name
- Agency Responsible for program
- Point of Contact
- Type of Support (Individual or Government)
- Eligibility Guidelines
- Benefits Available
- Application Process

This information shall be submitted to Brianna Briggs, the Recovery Branch Chief, at briggsb3@michigan.gov by **COB Friday, January 15.**

Let Brianna (cell phone below) know if you have any questions on this request.

Thank you,

Brianna Briggs
Recovery Branch Director

MICHIGAN DEPARTMENT OF TALENT AND ECONOMIC DEVELOPMENT

TED Assistance Programs for Individuals and/or Government:

MEDC MSF

Community Development

a. **Program Name: Redevelopment Ready Communities**
b. Agency Responsible for program: MEDC
c. Point of Contact: Jennifer Rigterink
d. Type of Support (Individual or Government): Government
e. Eligibility Guidelines: Flint is in the program and is an eligible applicant.
f. Benefits Available: Technical Assistance dollars that could be used for training on planning/marketing/crisis management, etc.
g. Application Process: Request from community

a. **Program Name: Core Communities Fund**
b. Agency Responsible for program: MEDC
c. Point of Contact: Katharine Czarnecki
d. Type of Support (Individual or Government): Government
e. Eligibility Guidelines: Flint is an eligible applicant as a Core Community
f. Benefits Available: Up to $250,000 is available to be used for economic development activities, infrastructure is eligible.
g. Application Process: Form for community to complete, but should work directly with MEDC staff

---

Capital Access

a. **Program Name: Collateral Support Program**
b. Agency Responsible for program: MEDC
c. Point of Contact: Chris Cook
d. Type of Support: Individual
e. Eligibility Guidelines: A federally regulated bank or credit union willing to provide new debt to a qualified for profit operating company. Borrower must be primarily operating in one of the following industries: manufacturing, wholesale & trade, research & development, mining, film & digital media productions, HQ office operations, or businesses that are qualified high technology businesses. Support limited to the lesser of 49.9% of the loan amount or $5,000,000. Fees of 1-3% of MSF support amount at closing and annually thereafter.
f. Benefits Available: Provide access to capital to companies that would otherwise not be able to access that capital due to a lack of collateral.
g. Application Process: The lender provides its underwriting document, along with an application form and company background check form, to MEDC Capital Access for evaluation and due diligence.

a. **Program Name: Loan Participation Program**
b. Agency Responsible for program: MEDC
c. Point of Contact: Chris Cook
d. Type of Support: Individual
e. Eligibility Guidelines: A federally regulated bank or credit union or certified development financial institution willing to provide new debt to a qualified for profit operating company. Borrower must be primarily operating in one of the following industries: manufacturing, wholesale & trade, research & development, mining, film & digital

media productions, HQ office operations, or businesses that are qualified high technology businesses. Support limited to the lesser of 49.9% of the loan amount or $5,000,000. Fees of 1-3% of MSF support amount at closing and annually thereafter.

f. Benefits Available: Provide access to capital to companies that would otherwise not be able to access that capital due to a lack of cash flow in the near term.
g. Application Process: The lender provides its underwriting document, along with an application form and company background check form, to MEDC Capital Access for evaluation and due diligence.

a. **Program Name: Loan Guaranty Program**
b. Agency Responsible for program: MEDC
c. Point of Contact: Chris Cook
d. Type of Support: Individual
e. Eligibility Guidelines: A federally regulated bank or credit union or certified development financial institution willing to provide new debt to a qualified for profit operating company. Support limited to not more than of 80% of the loan amount. Fees of 1-3% of MSF support amount at closing and annually thereafter.
f. Benefits Available: Provide access to capital to companies that would otherwise not be able to access that capital due to increased risk as determined by the senior lender.
g. Application Process: The lender provides its underwriting document, along with an application form and company background check form, to MEDC Capital Access for evaluation and due diligence.

a. **Program Name: Private Activity Bond**
b. Agency Responsible for program: MEDC
c. Point of Contact: Chris Cook
d. Type of Support: Individual
e. Eligibility Guidelines: Borrower must be primarily involved in manufacturing, be a not-for-profit corporation, or be a solid or hazardous waste disposal facility. Maximum bond amount is $1 million free of any restrictions on capital expenditures or $10 million subject to the condition that the company's total capital expenditure in the locality over the three years before and three years after the date of the issuance does not exceed $20 million. There is no size limit for bonds issued to finance solid or hazardous waste disposal facilities. Fees apply based on the amount of the bond
f. Benefits Available: Provide firms with capital cost savings stemming from the difference between taxable and tax-exempt interest rates.
g. Application Process: Applicant prepares an application for the bond and submits it to MSF staff. MSF considers an inducement resolution at its public meeting recognizing the public purpose of the project. Applicant structures the financing and bond counsel begins to prepare documents. MSF considers adoption of authorizing resolution.

Business Development

a. **Program Name – Michigan Business Development Program**
b. Agency Responsible for program – MEDC
c. Point of Contact – Josh Hundt
d. Type of Support (Individual or Government) – Government
e. Eligibility Guidelines – job creation and private investment by expanding or relocating business
f. Benefits Available – cash grant
g. Application Process – submission of application to MEDC staff, Michigan Strategic Fund review and approval, execution of incentive agreement, milestones and disbursements, reporting and compliance.

Federal Grant Development

a. **United States Department of Agriculture – Rural Community Development Initiative Grants**
b. Agency Responsible for program – USDA
c. Point of Contact – Jennifer Tebedo

d. Type of Support (Individual or Government) – Government
e. Eligibility Guidelines – Rural areas outside the boundaries of a city of $50,000 or more and its immediately adjacent urbanized area to improve housing, community facilities, and community and economic development projects
f. Benefits Available – cash grant
g. Application Process – Applications are accepted on an annual basis through a Notice of Funding Availability (NOFA) in the Federal Register.

a. **United States Department of Agriculture – Rural Business Development Initiative Grants**
b. Agency Responsible for program – USDA
c. Point of Contact – Jennifer Tebedo
d. Type of Support (Individual or Government) – Government
e. Eligibility Guidelines – Rural areas outside the boundaries of a city of $50,000 or more and its immediately adjacent urbanized area to support community economic development.
f. Benefits Available – cash grant
g. Application Process – Applications are accepted through the USDA Rural Development's local or State Office once per year.

a. **United States Department of Commerce – Planning Program and Local Technical Assistance Program**
b. Agency Responsible for program – US EDA
c. Point of Contact – Jennifer Tebedo
d. Type of Support (Individual or Government) – Government
e. Eligibility Guidelines – assists eligible recipients in developing economic development plans and studies designed to build capacity and guide the economic prosperity and resiliency of an area or region. The Planning program helps support organizations, including District Organizations, Indian Tribes, and other eligible recipients, with Short Term and State Planning investments designed to guide the eventual creation and retention of high-quality jobs, particularly for the unemployed and underemployed in the Nation's most economically distressed regions.
f. Benefits Available – cash grant
g. Application Process – Applications are accepted on a continuous basis through the regional or State Office.

a. **United States Department of Commerce – Public Works and Economic Adjustment Assistance Programs**
b. Agency Responsible for program – US EDA
c. Point of Contact – Jennifer Tebedo
d. Type of Support (Individual or Government) – Government
e. Eligibility Guidelines – EDAP makes construction, non-construction, and revolving loan fund investments to support the implementation of regional economic development strategies designed to create jobs, leverage private capital, and encourage economic resilience.
f. Benefits Available – cash grant
g. Application Process – Applications are accepted on a continuous basis through the regional or State Office.

MSHDA

Program Names: Community Development Block Grant Program (CDBG) and HOME

Agency Responsible For Programs:

Non-Entitlement Areas – Statewide

CDBG: Michigan Strategic Fund/Collaborative Community Development
Contact Person: Katherine Czarnecki Phone Number: 517.241.4950

HOME: Michigan State Housing Development Authority
Contact Person: Michelle Wildman Phone Number: 517.373.4363

Entitled Areas receive a direct allocation from the U.S. Department of Housing and Urban Development (HUD). Flint falls under the category of an Entitled Area and in FY15, HUD directly awarded Flint $3,617,741 in CDBG and $666,059 in HOME.

Type of Support: CDBG and HOME Federal Assistance

CDBG Eligibility Guidelines:
There is a lot of flexibility overall within CDBG. Note: activities identified in the City of Flint's Consolidated Plan include: **"Community Development and Infrastructure** - The City has 540 miles of water distribution lines, 570 miles of sanitary lines, and 350 miles of storm rain water lines. Much of this infrastructure is over 100 years old and in need of reconstruction or replacement. Insufficient funds are the major obstacle to addressing this need. CDBG and municipal financing represent a fraction of what is needed to address the problem. Additional funds from state and federal sources are needed and are being sought. CDBG will help fill the gap of inadequate resources to maintain community facilities and increase services."

For additional details go to the attached hyperlink City of Flint Consolidated Plan Link.

Overall CDBG can be used for: Acquisition of Real Property; Disposition; Public Facilities and Improvements; Clearance; Public Services; Interim Assistance; Relocation; Loss of Rental Income; Privately-Owned Utilities; Rehabilitation; Construction of Housing; Code Enforcement; Special Economic Development Activities; Microenterprise Assistance; Special Activities by CBDOs; Homeownership Assistance; Planning and Capacity Building; Program Administration Costs and Miscellaneous Other Activities.

CDBG can be qualified based on Urgent Need: An activity designated to alleviate existing conditions and the grantee certifies that those conditions are a serious and immediate threat to the health or welfare of the community, they are of recent origin or recently became urgent, the grantee is unable to finance the activity on its own, and other sources of funds are not available.

CDBG can be qualified based L/M Income Area Benefit: Can be used for an activity the benefits of which are available to all the residents in a particular area that is primarily residential, and at least 51% of those residents (or fewer if the exception criteria apply) are L/M income persons. **See hyperlink page 37 for a list of eligible census tracts.

HOME Eligibility Guidelines:
The actual activities that have been identified in the Consolidated Plan (hyperlink Page 155) are homebuyer assistance and refinancing of existing debt on multi-family projects.

Overall HOME can be used for: home purchase or rehabilitation financing assistance to eligible homeowners and new homebuyers; build or rehabilitate housing for rent or ownership; or for other reasonable and necessary expenses related to the development of non-luxury housing, including site acquisition or improvement, demolition of dilapidated housing to make way for HOME-assisted development, and payment of relocation expenses. HOME funds can also sometimes be used for tenant-based rental assistance contracts.

HOME can be qualified based L/M Income Household Benefit: The incomes of households receiving HUD assistance must not exceed 80 percent of the area median. HOME income limits are published each year by HUD. For rental housing and rental assistance, at least 90 percent of benefiting families must have incomes that are no more than 60 percent of the HUD-adjusted median family income for the area. In rental projects with five or more assisted units, at least 20% of the units must be occupied by families with incomes that do not exceed 50% of the HUD-adjusted median.

Benefits Available/Application Process: Undetermined – contact with the City of Flint regarding current allocation balances for FY15 and prior years is recommended.

Program Name: Housing Choice Vouchers (HCV)

Agency Responsible: HUD, MSDHA

Point of Contact: Kelly Rose

Type of Support: Individual, Rental Assistance

Eligibility Guidelines: 80% of applicants must be below 30% AMI, 20% below 50% AMI. Applicants must pass criminal screening that they do not have any violent crime in the past 24 months or drug offenses in last 12 months.

Benefits Available: HCV program pays a portion of the participants rent and utilities. It does not have any home repair funding component.

Application Process: MSHDA has a Homeless preference—homeless service agencies across the state can enter homeless person's application on waiting list. Non-homeless individuals/families must apply when the County resident waiting list is open for applications. This happens periodically when waiting lists get low on applicants. When vouchers are available names are pulled off the waiting list and applicants are contacted to fill out an application so their eligibility can be determined. Once eligibility is determined, they are issued a voucher and search for a rental unit. The unit is then inspected for HUD's HQS standards (does not have a water quality component) and if the unit passes a contract with the landlord is done and the family moves into the unit.

Editorial Comments: This program is not able to directly help with the Flint water issue. We are formulating a plan in consultation with HUD as to notifying individuals of their ability to get free water filters, etc. as well as their options for moving if they would like to relocate. We are also considering inspecting all homes with children 6 and under for proper installation of water filters.

Program Name: Section 8 Project Based Rental Assistance (Subsidized and Public Housing)

Agency Responsible for Program: HUD, MSHDA

Point of Contact: Daphne Wells

Type of Support: Individual. It provides rental assistance to tenants who reside at a property that has a project based rental assistance Section 8 contract with HUD. MSHDA administers this subsidy as a HUD subcontractor and in some instances has provided financing to build/rehab some of these properties.

Eligibility guidelines: Housing is available to income eligible individuals at these specific properties. Eligible applicants must apply individually at each property in which they are interested in living at and each property has a tenant selection criteria that is adhered to for prospective applicants. Each individual property maintains its own waiting list for applicants wishing to reside there.

Benefits Available: This program wouldn't have any benefits available to the Flint Water issue in that the Section 8 housing is tied to a specific property and only offers rent assistance.

Application Process: Applicants can apply at each individual rental property.

Editorial Comments: The only thing that really fits this category (Subsidized and Public Housing) is the Section 8 program as it provides rental assistance to tenants. Nothing in the program can help as it relates to the water issue as the assistance is tied to the building itself. There isn't anything in the program that would help in this situation except using our contacts with agents and owners in Flint to provide them information as we have talked about.

Program Name: MSHDA Housing Development Fund

Agency Responsible for Program: MSHDA

Point of Contact: Brian Mills

Type of Support: Individual. It provides rental assistance to tenants who reside at a property that has a project based rental assistance Section 8 contract with HUD. MSHDA administers this subsidy as a HUD subcontractor and in some instances has provided financing to build/rehab some of these properties.

Eligibility guidelines: In order for a proposal to be eligible for MSHDA's Statewide Partnership Grant program, the proposed activities must fit within one of five categories (Demolition, Land Acquisition & Development, Neighborhood Service Centers, Capital Improvements, or Community Development).

Benefits Available: Grants are limited discretionary budget dollars generated from interest from MSHDA earning on loan proceeds. Grants under $250,000 do not require formal board approval.

Application Process: Application is attached

Editorial Comments: Pursuant to communications with Mel Brown a few months ago, we suggested a number of different potential *ideas for grant use in Flint. Those are detailed below:*

- Pay for the costs of water quality analysis of all MSHDA backed mortgages in Flint. Evidently FHA is now conditioning all appraisals in Flint on a water quality analysis – and depending on the results won't put the mortgage through without the addition of a water infiltration system of some kind. Cost estimates are around $3,000 per home which is apparently having a negative impact on an already difficult real estate market.
- Pay for the replacement of water lines owned by residents with MSHDA mortgages within the city that need to be replaced or lines to homes with MSHDA backed mortgages or incomes less than 50% AMI.
- Pay for a percentage of the reconnection fee to acquire water from Detroit up to an amount not to exceed the % of MSHDA financed homes or low income households in the city (50% AMI).
- Pay for the replacing the city's municipal water line infrastructure associated with water lines being replaced to homes in the city with MSHDA backed mortgages or those household at or below 50% AMI.
- *Pay for a percentage of any new infrastructure costs associated with the build out of a new water supply system so long as* the amount doesn't exceed the % of MSHDA financed homes or low-income households in the city (50% AMI).
- Purchase of water for low income households (50% AMI).
- Purchase of water filters for any low income households (50% AMI).

Program Name: Housing Counseling

Editorial Comment: We have one Counseling agency in Flint right now (Metro Community Development) and they are not involved with water/filter distribution nor are they a site for people to get these items. More information regarding program information can be obtained from Mary Townley at 517.373.6864

Program Name: Self-help Homeownership Opportunity Program (SHOP)

Editorial Comments: The SHOP program is not administered by MSHDA. Mary Townley has calls into HUD to find out who in the state offers this product. Above is a product eligibility information showing that it is administered through non-profits.

SHOP awards grant funds to eligible national and regional non-profit organizations and consortia to purchase home sites and develop or improve the infrastructure needed to set the stage for sweat equity and volunteer-based homeownership programs for low-income persons and families. SHOP funds must be used for eligible expenses to develop decent, safe and sanitary non-luxury housing for low-income persons and families who otherwise would not become homeowners. Homebuyers must be willing to contribute significant amounts of their own sweat equity toward the construction or rehabilitation of their homes.

SHOP is authorized by the Housing Opportunity Program Extension Act of 1996, Section 11, and is subject to other Federal crosscutting requirements. No separate program regulations exist. All program requirements are listed in the applicable SHOP Notice of Funding Availability (NOFA).

Eligible Applicants: National and regional nonprofit organizations or consortia with experience in using homebuyer and volunteer labor to build housing may apply for SHOP grants. Applicants must have completed at least 30 units of self-help homeownership housing within the last 24 months. Eligible homebuyers must apply to participate in the SHOP program through a current SHOP grantee or one of their affiliates.

Application: SHOP grant funds are made available through HUD's annual SHOP NOFA competition. The SHOP NOFA is published on HUD's e-grant portal. Once the NOFA is published, eligible applicants may apply through this e-grant portal.

Eligible Activities: SHOP grant funds can only be used for land acquisition, infrastructure improvements, and administrative costs. Total land acquisition and infrastructure improvement costs cannot exceed an average of $15,000 in SHOP assistance per unit. Administrative costs cannot exceed 20% of the SHOP grant amount. SHOP grantees must leverage other funds for the new construction or rehabilitation of their SHOP units.

Program Name: HOPE

Editorial Comments: At this time MSHDA is unaware of this program and do not administer functions related to it.

TIA/WDA

Program Name: Workforce Innovation and Opportunity Act (WIOA) Adult Program
Agency Responsible for Program: Workforce Development Agency (WDA)
Point of Contact: Krista Johnson, Manager, WIOA Title I Section
Type of Support (Individual or Government): Government
Eligibility Guidelines: Adults Age 18 and Older, Priority is given to recipients of public assistance, other low income individuals, and individuals who are basic skills deficient.
Benefits Available:
Basic Career Services: Basic career services are available to all adults and may include: program information and basic assessment, general information, individual job development, advanced job club, advanced screened referrals, group activities, and job search.
Individualized Career Services: Individualized career services are designed for adults who have been unable to obtain employment through core services and have been determined to be in need of more individualized services. Individualized career services may include: comprehensive and specialized assessments, individual employment planning, counseling, short-term pre-vocational skills, case management, literacy activities, out-of-area job search, relocation assistance, internships and work experience.
Training Services: Training services, if made available, may include occupational skills training, On-the-Job training, workplace training with related instruction, registered apprenticeship, incumbent worker training, pre-apprenticeship training, skill upgrading and retraining, entrepreneurial training, transitional jobs, and adult education and literacy training provided in combination with another training service.
Application Process:
Individuals should contact their local Michigan Works! Agency to apply by calling 1-800-285-9675 to locate the nearest Michigan Works! One-Stop Center. Or they may visit www.michiganworks.org.

Program Name: Workforce Innovation and Opportunity Act (WIOA) Dislocated Worker Program
Agency Responsible for Program: Workforce Development Agency (WDA)
Point of Contact: Krista Johnson, Manager, WIOA Title I Section
Type of Support (Individual or Government): Government
Eligibility Guidelines:
A dislocated worker is an individual who:
1. Has been terminated or laid off, or who has received a notice of termination or layoff; and
   Is eligible for or has exhausted entitlement to unemployment compensation; or
   Has been employed for a duration sufficient to demonstrate attachment to the workforce, but is not eligible for unemployment compensation; and
   Is unlikely to return to a previous industry or occupation.
2. Has been terminated or laid off, or has received a notice of termination or layoff, from employment as a result of any permanent closure of, or any substantial layoff at, a plant, facility, or enterprise; or
   Is employed at a facility at which the employer has made a general announcement that such facility will close within 180 days; or
   Is employed at a facility at which the employer has made a general announcement that such facility will close.
3. Was self-employed but is unemployed as a result of general economic conditions.
4. Is a displaced homemaker.
5. Is the spouse of a member of the Armed Forces on active duty and who has experienced a loss of employment as a direct result of relocation to accommodate a permanent change in duty station of such member; or
   Is the spouse of a member of the Armed Forces on active duty and whose family income is significantly reduced because of a deployment, a call or order to active duty pursuant to a provision of law, a permanent change of station, or the service connected death or disability of the member; and
   Is unemployed or underemployed and is experiencing difficulty in obtaining or upgrading employment.

Benefits Available:
Basic Career Services: Basic career services are available to all dislocated workers and may include: program information and basic assessment, general information, individual job development, advanced job club, advanced screened referrals, group activities, and job search.

Individualized Career Services: Individualized career services are designed for dislocated workers who have been unable to obtain employment through core services and have been determined to be in need of more individualized services. Individualized career services may include: comprehensive and specialized assessments, individual employment planning, counseling, short-term pre-vocational skills, case management, literacy activities, out-of-area job search, relocation assistance, internships and work experience.

Training Services: Training services, if made available, may include occupational skills training, On-the-Job training, workplace training with related instruction, registered apprenticeship, incumbent worker training, pre-apprenticeship training, skill upgrading and retraining, entrepreneurial training, transitional jobs, and adult education and literacy training provided in combination with another training service.

Application Process:

Individuals should contact their local Michigan Works! Agency to apply by calling 1-800-285-9675 to locate the nearest Michigan Works! One-Stop Center. Or they may visit www.michiganworks.org.

Program Name: **Workforce Innovation and Opportunity Act (WIOA) National Dislocated Worker Grants (NDWGs) – previously called National Emergency Grants (NEGs) under the WIA**

Agency Responsible for Program: Workforce Development Agency (WDA)

Point of Contact: Krista Johnson, Manager, WIOA Title I Section

Type of Support (Individual or Government): Government

Eligibility Guidelines:

A dislocated worker is an individual who:

1. Has been terminated or laid off, or who has received a notice of termination or layoff; and
   - Is eligible for or has exhausted entitlement to unemployment compensation; or
   - Has been employed for a duration sufficient to demonstrate attachment to the workforce, but is not eligible for unemployment compensation; and
   - Is unlikely to return to a previous industry or occupation.
2. Has been terminated or laid off, or has received a notice of termination or layoff, from employment as a result of any permanent closure of, or any substantial layoff at, a plant, facility, or enterprise; or
   - Is employed at a facility at which the employer has made a general announcement that such facility will close within 180 days; or
   - Is employed at a facility at which the employer has made a general announcement that such facility will close.
3. Was self-employed but is unemployed as a result of general economic conditions.
4. Is a displaced homemaker.
5. Is the spouse of a member of the Armed Forces on active duty and who has experienced a loss of employment as a direct result of relocation to accommodate a permanent change in duty station of such member; or
   - Is the spouse of a member of the Armed Forces on active duty and whose family income is significantly reduced because of a deployment, a call or order to active duty pursuant to a provision of law, a permanent change of station, or the service connected death or disability of the member; and
   - Is unemployed or underemployed and is experiencing difficulty in obtaining or upgrading employment.

Benefits Available:

Basic Career Services: Basic career services are available to all dislocated workers and may include: program information and basic assessment, general information, individual job development, advanced job club, advanced screened referrals, group activities, and job search.

Individualized Career Services: Individualized career services are designed for dislocated workers who have been unable to obtain employment through core services and have been determined to be in need of more individualized services. Individualized career services may include: comprehensive and specialized assessments, individual employment planning, counseling, short-term pre-vocational skills, case management, literacy activities, out-of-area job search, relocation assistance, internships and work experience.

Training Services: Training services, if made available, may include occupational skills training, On-the-Job training, workplace training with related instruction, registered apprenticeship, incumbent worker training, pre-apprenticeship training, skill upgrading and retraining, entrepreneurial training, transitional jobs, and adult education and literacy training provided in combination with another training service.

Application Process:

Individuals should contact their local Michigan Works! Agency to apply by calling 1-800-285-9675 to locate the nearest Michigan Works! One-Stop Center. Or they may visit www.michiganworks.org.

Disaster Relief Employment Specific NDWGs:

The Secretary of Labor is authorized to award NDWGs to provide assistance to the Governor of any state whose boundaries include a disaster area in order to provide disaster relief employment assistance in the disaster area.

"Emergency or disaster" means:

1. An emergency or a major disaster, as defined in paragraphs (1) and (2), respectively, of Section 102 of the Robert T. Stafford Disaster Relief Emergency Assistance Act; or
2. An emergency or disaster situation of national significance that could result in a potentially large loss of employment, as declared or otherwise recognized by the chief official of a Federal agency with authority for or jurisdiction over the Federal response to the emergency or disaster situation.

The term "disaster area" means an area that has suffered or in which has occurred an emergency or disaster.

If awarded, funds shall be used in coordination with the Administrator of the Federal Emergency Management Agency, as applicable, to provide disaster relief employment on projects that provide food, clothing, shelter, and other humanitarian assistance for emergency and disaster victims, and projects regarding demolition, cleaning, repair, renovation, and reconstruction of damaged and destroyed structures, facilities, and lands located within the disaster area and in offshore areas related to the emergency or disaster.

An individual may be eligible to be offered disaster relief employment if such individual is:

1. A dislocated worker;
2. A long-term unemployed individual;
3. Temporarily or permanently laid off as a consequence of the emergency or disaster; or
4. In the case of an individual who is self-employed, becomes unemployed or significantly underemployed as a result of the emergency or disaster.

No individual may be employed for more than 12 months for work related to recovery from a single emergency or disaster, unless an extension is granted by the Secretary of Labor. Extensions granted by the Secretary of Labor may not exceed an additional 12 months.

Program Name: **Workforce Innovation and Opportunity Act (WIOA) Youth Program**

Agency Responsible for Program: Workforce Development Agency (WDA)

Point of Contact: Krista Johnson, Manager, WIOA Title I Section

Type of Support (Individual or Government): Government

Eligibility Guidelines:

Out-of-School Youth (OSY) are individuals who are:

- Not attending any school (as defined by State law);
- Not younger than age 16 or older than age 24; and
- One or more of the following:
    - A school dropout;
    - A youth who is within the age of compulsory school attendance, but has not attended school for at least the most recent complete school year calendar quarter;
    - A recipient of a secondary school diploma or its recognized equivalent who is a low-income individual and is:
        - Basic skills deficient; or
        - An English language learner.
    - An individual who is subject to the juvenile or adult justice system;
    - A homeless, runaway, or current/prior foster youth;
    - An individual who is pregnant or parenting;
    - A youth who is an individual with a disability; or
    - A low-income individual who requires additional assistance to enter or complete an educational program or to secure or hold employment.

In-School Youth (ISY) are individuals who are:

- Attending school (as defined by State law);

- Not younger than age 14 or older than age 21 (unless an individual with a disability who is attending school under State law);
- A low-income individual; and
- One or more of the following:
    - Basic skills deficient;
    - An English language learner;
    - An offender;
    - A homeless, runaway, or current/prior foster youth;
    - Pregnant or parenting;
    - A youth who is an individual with a disability; or
    - An individual who requires additional assistance to complete an educational program or to secure or hold employment.

Benefits Available:

Available services include tutoring; study skills training; alternative secondary school offerings; dropout recovery services; paid and unpaid work experiences, including summer employment opportunities; occupational skills training; education offered concurrently with workforce preparation; leadership development opportunities; supportive services; adult mentoring; follow-up services; comprehensive guidance and counseling; financial literacy education; entrepreneurial skills training; provision of labor market and employment information; and activities that help youth prepare for, and transition to, post-secondary education and training.

Application Process:

Individuals should contact their local Michigan Works! Agency to apply by calling 1-800-285-9675 to locate the nearest Michigan Works! One-Stop Center. Or they may visit www.michiganworks.org.

Program Name: Community Ventures

Agency Responsible for Program: Workforce Development Agency (WDA)

Point of Contact: James Durian, Manager, Community Ventures

Type of Support (Individual or Government): Government

Eligibility Guidelines: Flint residents who are DHHS clients, PATH participants, ex-offenders, and persons with disabilities.

Benefits Available: Connection to employment and comprehensive 24 months of wraparound services after job placement. Community Ventures (CV) can assist Flint residents negatively impacted by contaminated drinking water by providing employment and wraparound services to those effected. CV can also help recruit and retain companies in Flint by partnering with companies and bringing companies together in coordinated community development efforts to help Flint residents. We have done this through promoting social enterprise partnerships like New Life Enterprises, through the formation of an Employer Resource Network (ERN), in Flint, and by partnering with United Way and local financial institutions in providing hard ship loans and financial literacy to Flint residents. CV could expand upon these efforts with a special focus on helping those most negatively impacted by the water crisis.

Application Process: Participants are referred from Mott Community College, Genesee-Shiawassee MWA (MWA), Mid-Michigan Goodwill, New Life Enterprises or DHHS.

Program Name: Job's for America's Graduates

Agency Responsible for Program: Workforce Development Agency (WDA)

Point of Contact: Krista Johnson, Manager, WIOA Title I Section

Type of Support (Individual or Government): Government

Eligibility Guidelines: Students from middle school to 21 years of age.

The JAG Flint program targeted at-risk students at two Flint-area high schools (Flint Northwestern and Flint Southwestern) to help them earn a high school diploma and prepare for college/careers following high school.

Benefits Available:

JAG-Flint's mission focuses on the following:

- Deliver a unique set of services to at-risk and disadvantaged youth in high school;
- Provided follow-up services which will result in the graduate's pursuing a postsecondary education; and
- Ensured the participants entered the workforce in a quality job leading to a career.

The primary objectives of The JAG Model program are:

- Keep program participants in school through graduation.
- Extend program services to participants for 12 months after graduation.
- Assist graduates or completers in pursuit of a postsecondary education and/or an entry-level job that leads to a career.
- Deliver services to non-graduates and non-completers during the 12-month follow-up period to attain a GED certificate or a high school diploma.

Application Process: Individuals should contact their local Michigan Works! Agency to apply by calling 1-800-285-9675 to locate the nearest Michigan Works! One-Stop Center. Or they may visit www.michiganworks.org.

Program Name: Partnership Accountability Training Hope (PATH)
Agency Responsible for Program: Workforce Development Agency (WDA)
Point of Contact: Brian Marcotte, Manager, Welfare Reform Section
Type of Support (Individual or Government): Government
Eligibility Guidelines: Individuals receiving Family Independence Program cash assistance (TANF)
Benefits Available: PATH is the work participation program required for families receiving cash assistance through the Family Independence Program administered by the Michigan Department of Health and Human Services. The Primary goals of PATH are two-fold. First, PATH will identify barriers and help participants connect to the resources they need to obtain employment. Second, the program helps Michigan reach the federally mandated 50% work participation requirement. Work participation is defined by the total number of participants fully engaged in job preparedness training, job search activities, and employment as a percentage of the states work eligible individuals receiving cash assistance.
The program is designed to assist eligible individuals in obtaining employment by offering job search assistance and work skills enhancement. The program offers vocational/occupational training, high school completion or GED attainment and a full range of supportive services that may be required to meet the job search and retention needs of the participants.
Application Process: Individuals should contact their local Michigan Works! Agency to apply by calling 1-800-285-9675 to locate the nearest Michigan Works! One-Stop Center. Or they may visit www.michiganworks.org.

Program Name: Trade Adjustment Assistance (TAA) Program
Agency Responsible for Program: Workforce Development Agency (WDA)
Point of Contact: Tammy Flynn, Manager, TAA Section
Type of Support (Individual or Government): Government
Eligibility Guidelines: Individuals are eligible for the TAA program who have a qualifying separation from a company with a certified petition by the US Department of Labor (USDOL). A petition identifies a worker group at a specific firm or subdivision and covers all individuals in that group. Generally, if a worker is laid off, a petition must be submitted within one year of the layoff for that worker to be covered by the petition and the certification, if USDOL grants the petition. A group of workers may be eligible for TAA if their jobs are lost or threatened due to trade-related circumstances as determined by the USDOL investigation.
After the investigation, USDOL determines group eligibility to apply for TAA benefits and services. Workers in a certified group will be notified by their local Michigan Works! Agency, at which time they may apply for individual eligibility for benefits and services.
Benefits Available: Employment and case management services: Assessments, career guidance, pre-vocational services, labor market information, supportive services, information on financial aid, employment planning, and information on training.
Training: Up to 130 weeks of training including:
- Classroom training
- On-the-job training
- Customized training
- Registered Apprenticeships

Trade Readjustment Allowances (TRA): Up to 130 weeks of wage subsidies for workers enrolled in fulltime training within 26 weeks of their trade-related layoff or certification, whichever is later.
Re-employment Trade Adjustment Assistance: A wage subsidy for workers age 50 or over who are re-employed at annual wages of $50,000 or less.
Job Search Allowance: Reimbursement for job search costs outside the worker's local area.
Relocation Allowance: Reimbursement for relocation costs for a job outside the worker's local area.
Application Process: Individuals should contact their local Michigan Works! Agency to apply by calling 1-800-285-9675 to locate the nearest Michigan Works! One-Stop Center. Or they may visit www.michiganworks.org.

To learn more about how to file a petition, check on the status of a petition, or to obtain more information on benefits and services, please visit www.doleta.gov/tradeact or contact Tammy Flynn at flynnt@michigan.gov.

Program Name: GED To School
Agency Responsible for Program: Workforce Development Agency (WDA)
Point of Contact: Keenan Wade
Type of Support (Individual or Government): Government
Eligibility Guidelines: Must Pass Official Practice Test or Complete Adult Education GED Preparation Course.
Benefits Available: $150 per candidate to pay the cost of GED testing fees.
Application Process: Individuals should visit the GED To School website at http://michigan.gov/wda/0,5303,7-304-64362-298726---,00.html or call 517-373-1692 for additional information.

Program Name: Adult Education Program
Agency Responsible for Program: Workforce Development Agency (WDA)
Point of Contact: Cliff Akujobi, State Administrative Manager
Type of Support (Individual or Government): Government
Eligibility Guidelines: Adults Age 16 and Older
Benefits Available: Adult Education provides an opportunity for students to improve or achieve education levels equivalent to those of high school graduates each year. Instruction is tailored to meet the individual needs of adult students. Standardized tests identify existing skill levels, appropriate instruction, and academic gains due to instruction. Adult Education consists of five components:

- High School Completion: Instruction designed to fulfill the requirements for a high school diploma.
- GED Test Preparation: Instruction in language arts, math, social studies, science, and writing, to enable successful completion of a GED test.
- Adult Literacy: Instruction in reading, English, language arts, math, and civics for adults without a high school diploma. The most basic literacy courses teach adults to read.
- English as a Second Language: Instruction in reading, speaking, writing, and understanding the English language.
- Labor Employment Related/Employer Workforce Readiness: Instruction in job- or employment-related mathematics, reading, and communication skills. Instruction may be "applied," which means that the academic material is directly related to specific job requirements.

Application Process:
Individuals should contact the Office of Adult Education at 517-373-8800 or visit the Adult Education website at http://www.michigan.gov/wda/0,5303,7-304-64362---,00.html

Briggs, Brianna (MSP)

State Emergency Management Coordinators:

We are in need of any research you have compiled for the below request no later than close of business Tuesday, January 19.

This information shall be submitted to Brianna Briggs, the Recovery Branch Chief, at briggsb3@michigan.gov.

Thank you!

From: MSP-SEOC5

Cc: MSP-SEOCOPSC
Subject: Potential Assistance Programs

State Emergency Management Coordinator:

As discussed in this morning's briefing, your agency has been identified to research potential assistance programs (private, state, federal, etc.) that may be available to address the short- and long-term recovery needs in response to the Flint water incident. Earl Zuelke, FEMA Long-Term Recovery, has made contact with some federal agencies to assist with this research. Feel free to touch base with him in the SEOC.

Attached is a copy of the Non-Stafford Act Recovery Guide. Appendix 2 (pg. 24-26) provides a list of some potential federal programs. This list is **not** all-encompassing; however, it will provide a starting point if any of these programs may apply to the response and recovery for this incident.

Provide the following information, *at a minimum*, on potential assistance programs for individuals and/or government support in response to this incident:

- Program Name
- Agency Responsible for program
- Point of Contact
- Type of Support (Individual or Government)
- Eligibility Guidelines
- Benefits Available
- Application Process

This information shall be submitted to Brianna Briggs, the Recovery Branch Chief, at briggsb3@michigan.gov by **COB Friday, January 15.**

Let Brianna (cell phone below) know if you have any questions on this request.

Thank you,

Brianna Briggs
Recovery Branch Director

Appendix 2: Examples of Potential Non-Stafford Federal Assistance Programs 24

Introduction

Purpose of the Guide

This guide provides a framework or strategy for government and non-government disaster recovery stakeholders at all levels to assess, plan for, and support the recovery of communities following events that do not rise to the level of or receive a Stafford Act declaration (herein referred to as "non-Stafford Act events"). To support this overall objective, this guide focuses on achieving three major goals:

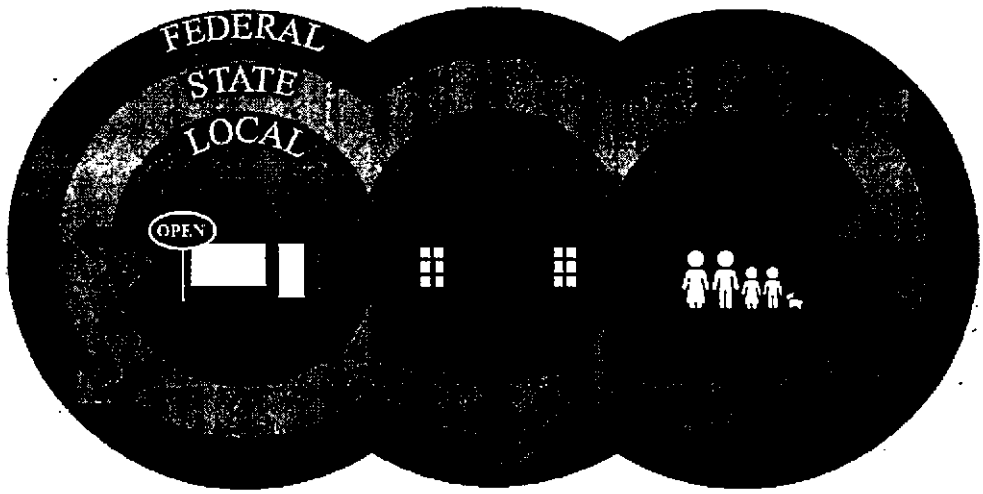
1. Emphasize the importance of local, State, and Tribal governments in assessing and addressing the needs of affected communities following non-Stafford Act disasters
2. Encourage the development of engaged partnerships between emergency management and non-emergency management stakeholders
3. Provide a framework that supports unified recovery-focused coordination between local, Tribal, State, and Federal agencies, non-governmental organizations, and the private sector

These objectives are intended to provide recovery stakeholders the means to identify and coordinate the resources necessary to support sustainable recovery solutions at the State, Tribal, and local level utilizing the principles of the National Disaster Recovery Framework (NDRF).

For the purposes of this document, non-Stafford Act events are defined as events that have recovery requirements exceeding the capability of individuals and the local community, but do not exceed the capabilities of the State.

Background

Subsequent to a Stafford Act declaration, the State and Federal government coordinate available resources to assist individuals and communities recover from the disaster. Although resources made available through specific Stafford Act authorities would not be provided in a non-Stafford Act event, many resources are available to States, Tribes, and local governments that can be used to support the recovery of the whole community.



The impact of concentrated damage can be overwhelming, even to well-resourced or resilient communities. Often times systems are disrupted, need exceeds individual resources, regular service providers are overwhelmed, and networks necessary to address disaster related needs do not exist. With capabilities exceeded, outside resources and expertise may be required to support the local community.

State agencies may have programs or grants that can generally be *re-prioritized* to meet identified recovery needs and goals. Federal presence, if warranted, is typically limited to technical assistance following non-Stafford Act events; however, a limited number of Federal agencies like the Small Business Administration (SBA) and the United States Department of Agriculture (USDA) do maintain programs or authorities that can directly support the needs of impacted communities outside Stafford Act declaration.

Principles and Concepts of the National Disaster Recovery Framework

The resources and needs of impacted States, Tribes, and communities may differ following a non-Stafford Act event; however, the nine core principles and the key concepts set forth in the NDRF can be equally applied to any event and any jurisdiction to holistically support recovery. For more information visit the National Disaster Recovery Framework website at www.fema.gov/national-disaster-recovery-framework .

Core Principles:

- Individual and family empowerment
- Leadership and local primacy
- Pre-disaster recovery planning
- Partnerships and inclusiveness
- Public information
- Unity of effort
- Timeliness and flexibility
- Resilience and sustainability
- Psychological and emotional recovery

Key Concepts:

Structure
The NDRF provides a scalable structure for organizing recovery operations around the needs of the community through the six identified Recovery Support Functions (RSFs);

- Community Planning and Capacity Building
- Economic
- Health and Social Services
- Housing
- Infrastructure
- Natural and Cultural Resources

These sector-specific functions can be developed at any level of government to facilitate problem solving and foster coordination among recovery stakeholders.

Planning
Recovery planning is set forth in the NDRF as a critical activity that should begin prior to an event and extend through all phases of the emergency management cycle. Successful recovery planning requires active engagement with and between all levels government, nongovernmental organizations, the private sector, and the community itself in order to increase post-disaster collaboration and unified decision-making.

Leadership
The NDRF outlines leadership positions at the local, State, and Tribal levels through Local Disaster Recovery Managers, State Disaster Recovery Coordinators, and Tribal Disaster Recovery Coordinators. Individuals in these positions are intended to serve as the primary point of contact for recovery for their jurisdiction, and are responsible for organizing, coordinating, and advancing recovery in all phases of the emergency management cycle.

Following a non-Stafford Act event, the State may also request the support of a Federal Disaster Recovery Coordinator or recovery advisor/liaison to provide technical assistance. When deployed or engaged, these representatives support the State by providing relevant subject matter expertise, and facilitating enhanced coordination between Federal agencies and State recovery leadership.

When combined with the full involvement of all stakeholders and realistic and well-communicated expectations, the concepts and principles outlined in the NDRF can be used as building blocks to develop resiliency and support a successful recovery following a non-Stafford Act event.

General Recovery Needs

Understanding the needs of a community is critical to the development of appropriate structures, plans, and partnerships to support recovery. Specific needs will vary by event and community, and need to be assessed holistically following an event. Categorizing needs prior to an event may be helpful in identifying recovery partners and programs. Examples may include:

Individual needs

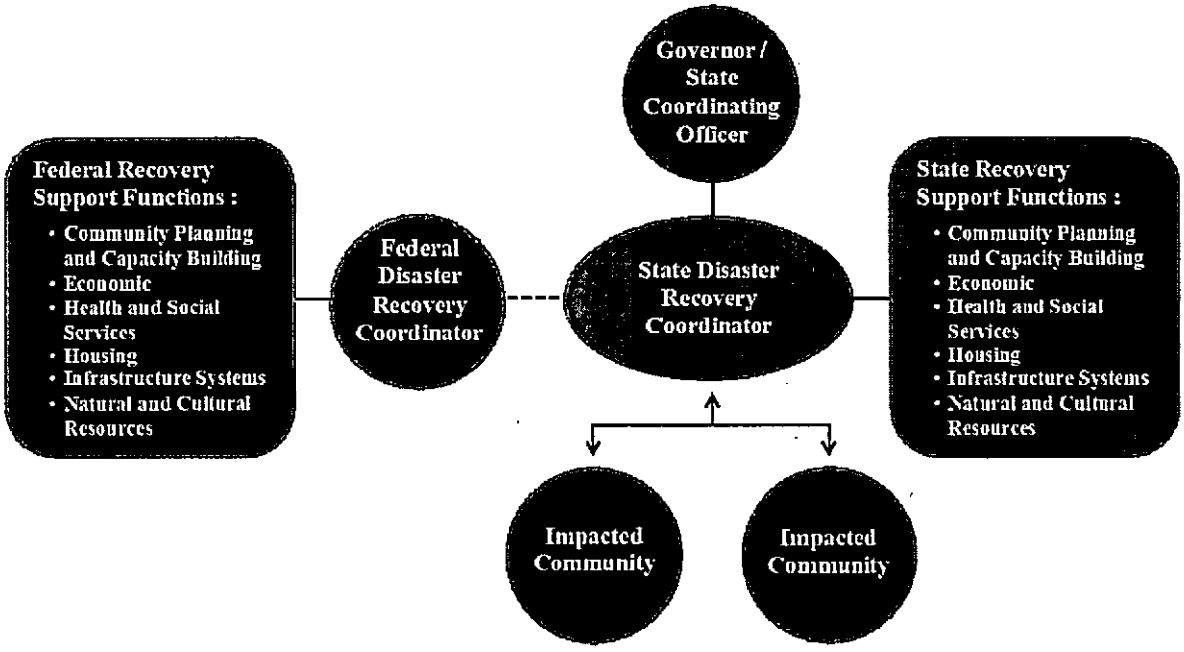
- Temporary housing (rental assistance or other temporary housing)
- Home repair/rebuild assistance (real property and mechanicals)
- Medical, dental, funeral assistance (including the replacement of damaged durable medical equipment)
- Personal property (clothing, household items, furniture, appliances) replacement assistance
- Transportation or vehicle replacement assistance
- Replacement of job related tools and specialized/protective clothing
- Moving and storage assistance
- Legal assistance
- Insurance claims assistance
- Mental health needs
- Employment related assistance
- Food replacement
- Agricultural support for farmers and ranchers
- Assistance to mitigate against the effects of future events

Government needs

- Recovery planning support
- Debris removal cost recoupment
- Legal and contract support
- Economic/Business stabilization support
- Reimbursement for emergency protective measures taken in the response phase
- Assistance to support repairs to roads, bridges, and other infrastructure
- Assistance to support necessary repairs to water and utility networks
- Assistance for damaged public buildings
- Support for public healthcare facilities
- Assistance for damaged equipment
- Insurance claims assistance
- Support to ensure environmental and historic considerations are taken throughout recovery
- Assistance to mitigate against the effects of future events

Non-Stafford Act Recovery Support Structure

The NDRF can provide a structure to support unified coordination between all governmental and non-governmental recovery stakeholders following non-Stafford Act events. While it is expected that the State and affected community will work together to scale this structure according to specific recovery needs, the structure defined in the NDRF may be helpful in defining and aligning the roles of local and State governmental and non-governmental recovery stakeholders.



The recovery structure defined in the NDRF centers around multi-agency coordination facilitated by the Disaster Recovery Coordinators/Manager and the RSF Coordinating Agencies. Multi-agency coordination is a process that allows all levels of government and all disciplines to work together more efficiently and effectively. Multi-agency coordination is a National Incident Management System (NIMS) compliant method of providing coordination to multidisciplinary, policy-level decision makers brought together to support incident level operations. This organizational concept is particularly relevant at the State and Federal levels where organizational leadership is brought together to identify resources to support needs in the impacted jurisdiction.

Local Non-Stafford Act Recovery Support Structure

Successful recovery coordination efforts stem from well-planned, well-coordinated and inclusive local recovery efforts. The local recovery support structure is made up of operational elements brought together to establish and prioritize recovery goals, develop community focused recovery plans, ensure clear and consistent public messaging, and support resource coordination.

Overall leadership for the local recovery coordination group is provided by the Local Disaster Recovery Manager (LDRM), identified by local emergency management or by the office of the senior elected official. This facilitative role centers on coordinating operational elements to meet recovery goals.

Local recovery Coordinating agencies/organizations are designated based on relevant authorities, roles, resources or capabilities. These agencies can support the LDRM and the overall recovery effort by ensuring coordination and providing resources and subject matter expertise in their given functional area.

Potential local leadership and Coordinating agencies may include:

Leadership

City/County office of Emergency Management or the office of senior elected leadership

Coordinating Agencies/Organizations

City/County Department of Commerce or Planning and Development Commission
City/County Department of Public Works and Engineering
City/ County Department of Health or Department of Human Services
City/County Department of Emergency Management
Local Housing Authority
City/County Parks Department

The local recovery structure must also coordinate with keystone partners from local faith and community based organizations, the private sector, educational institutions, and regular service providers that support children, elders, people with disabilities, and people with other functional and access needs. These community leaders provide essential support on an every-day-basis. Understanding the roles of these individuals and organizations allows local recovery leadership to identify needs and leverage resources more effectively.

Appreciating the actual capabilities and needs of a community is essential to supporting and enabling local actions.

Many non-governmental organizations have disaster programs which play a pivotal role in supporting the recovery of impacted individuals and communities. These organizations coordinate through local, State, and national coalitions known as Voluntary Organizations Active in Disaster (VOAD). VOAD member agencies can support a variety of needs including:

- Individual and community needs assessments
- Case management training and support
- Construction (repair/rebuild) support and coordination
- Long Term Recovery Group (LTRG) formation support
- Debris removal from private property
- Grant assistance
- Resource identification and fundraising support
- Disaster mental health or emotional and spiritual care
- Youth focused resiliency programs
- Support for faith leaders in impacted areas
- Coordination of spontaneous volunteers
- Donations management support
- Information and referral support

More information on Voluntary Organizations Active in Disaster can be found at http://www.NVOAD.org

State/Tribal Non-Stafford Act Recovery Support Structure

The State/Tribal recovery support structure is designed to augment recovery resources. This often requires the re-prioritization of resources so the intent and priorities of senior elected leadership must be made clear at the outset. Individual State/Tribal agencies may contribute operational elements to support local recovery operations; however, State/Tribal-level recovery coordination is conducted by policy-level decision makers with the authority to commit resources on behalf of their agency.

Leadership for the State/Tribal recovery coordination group is provided by the State/Tribal Disaster Recovery Coordinator (SDRC or TDRC), identified by State/Tribal emergency management, the office of the Governor, or Tribal leadership. The person in this role is responsible for facilitating coordination with and between State/Tribal agencies and the impacted jurisdictions(s).

State RSF Coordinating agencies are designated based on relevant authorities, roles, resources or capabilities and can support the SDRC/TDRC and the overall recovery effort by ensuring coordination with and between the impacted communities and State agencies working within their functional area(s) (RSF).

Potential State leadership and Coordinating agencies may include:

Leadership

State Emergency Management or the Governor's Office

Coordinating Agencies

State Department of Commerce or Economic Opportunity
State Department of Transportation
State Department of Health and Human Services
State Emergency Management Agency
State Department of Housing
State Department of Natural Resources

Additional State agencies and organizations may be identified as supporting agencies when their specific capabilities, resources, or programs can be used to support impacted communities. When scaling the State/Tribal recovery structure, recovery leadership must consider the actual needs of impacted communities and the mechanisms necessary to coordinate the broad range of support available through regular State programs and non-governmental organization partners.

Federal Non-Stafford Act Recovery Support Structure

The Federal recovery support structure following non-Stafford Act events does not change from that outlined in the NDRF. This structure is scalable and it may not be necessary for staff to be physically present in the state to provide support. Additional information on the Federal recovery support structure can be found in the NDRF.

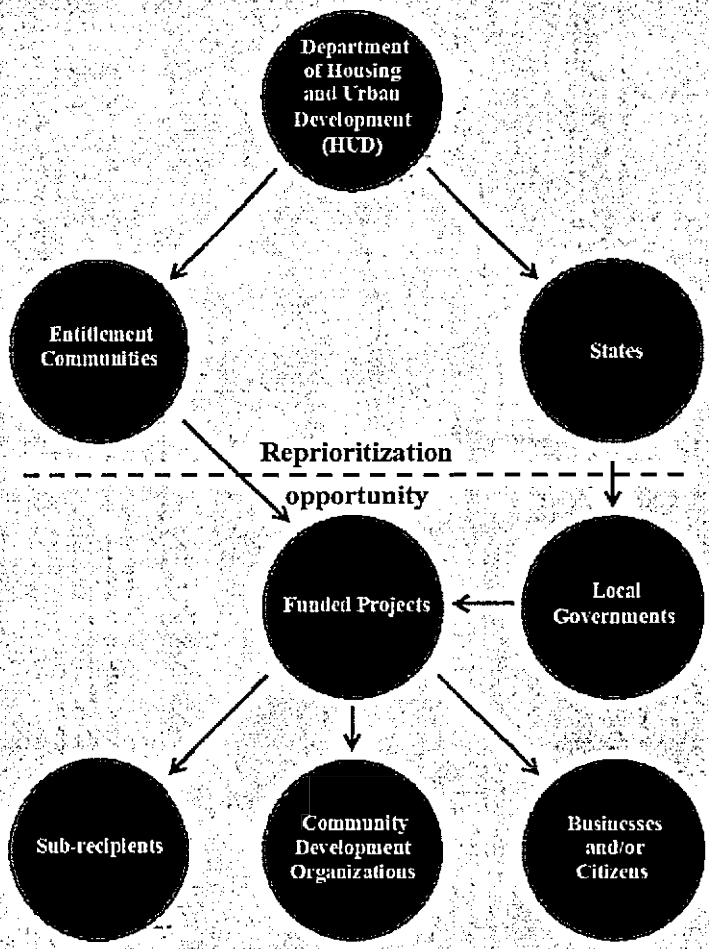
The following list of Federal agencies represents some of the resources and technical assistance that may be available to support impacted jurisdictions, States/Territories, and Tribes following non-Stafford events:

Department of Commerce
Department of Defense, U.S. Army Corps of Engineers
Department of Health and Human Services
Department of Homeland Security, Federal Emergency Management Agency
Department of Housing and Urban Development
Department of the Interior
United States Department of Agriculture

State recovery leadership and State Recovery Support Function leads are encouraged to coordinate with Federal agencies through regional or field offices as appropriate, to discuss authorities relevant to disaster recovery and better understand how non-disaster programs already being administered may have relevance following an event. More information on Federal recovery programs can be found on the National Disaster Recovery Program Database and at DisasterAssistance.gov

Non-Stafford Act Programs in Action:

Department of Housing and Urban Development Community Development Block Grants (CDBG)



This flow chart outlines how CDBG funding is allocated to benefit programs and communities. Funds flow from the U.S. Department of Housing and Urban Development to major urban areas (Entitlement Communities) and States. These funds are then allocated to approved projects or communities according to priorities or State formulas.

Following a disaster, States and Entitlement Communities can shift funding priorities (at dotted line), for unused funds, and approve projects that support individual and community recovery needs. All approved projects must meet certain criteria and address specific program goals; however, CDBG funds are flexible and can be used to meet a variety of needs.

Governmental, Non-Profit, and Private-Sector Coordination

Integrating and coordinating with governmental, non-governmental and private-sector associations and their member agencies/organizations can be key to successfully addressing the needs of impacted communities. These partners may include sector-specific associations with missions directly or indirectly related to emergency management. Associations can support planning, coordination, and the development of agreements/understandings that support and leverage the capacity of member agencies. Additionally, associations can develop or improve overarching recovery coordination processes that independent organizations may not have the capacity to develop on their own.

GOVERNMENTAL ASSOCIATIONS

Governmental Associations provide coordination between agencies of all types and are engaged at the national, regional, State, and local levels. These organizations can provide additional coordination, lessons learned, and programmatic/subject matter support via peer-to-peer networks of government entities (mutual aid). Engagement with government associations can encourage resiliency through the development, promotion, and coordination of tools and best practices. Examples of government associations include:

- Council of State Community Development Agencies
- Emergency management associations (such as the National Emergency Management Association, the International Association of Emergency Managers, and local, county, and State associations of emergency managers)
- City/County Manager Associations
- National Association of Regional Councils
- National League of Cities
- State and national associations of county or municipal governments
- State and national associations of health departments (such as National Association of County and City Health Officials)
- State and national public works associations (such as the American Public Works Association)
- Tribal Associations

EXAMPLE:

International Association of Emergency Managers

The International Association of Emergency Managers (IAEM) serves to advance the profession by promoting the principles of emergency management; to serve members by providing information, networking and professional development opportunities; and to advance the emergency management profession.

NON-PROFIT AGENCIES, ORGANIZATIONS

Non-profit agencies, organizations, and associations can play a critical role following non-Stafford Act events. These key partners provide outside resources, and training that can help local non-profit, faith-based, and community-based organizations to maximize the support they provide in an affected community. This support is generally coordinated through member organizations and provided via peer-to-peer networks similar to mutual aid. Non-profit associations can be helpful to State and local governments working to expand their capacity by supporting the identification of member

organizations and helping to explain the resources and missions of their members and provide introductions. Examples of nonprofit associations include:

- Academic Associations
- American Planning Association (APA)
- State and national offices of civic organizations (such as Lions Club International, Kiwanis International, and Rotary Clubs)
- Disability service and advocacy organizations (such as the State Protection and Advocacy Agency, and the local Centers for Independent Living)
- Faith-based associations
- Foundation Associations (such as the Council on Foundations and the Association of Small Foundations
- Disaster Long Term Recovery Groups (LTRG)
- State and National Non-profit Associations
- Non-profit legal associations (such as the American Bar Association, the Legal Services Corporation, and the National Legal Defender Association)
- Trade unions
- Voluntary Organizations Active in Disaster (such as National VOAD and State VOAD)
- Community Organizations Active in Disaster (COAD)
- State and National offices of youth councils and organizations (such as the Boys and Girls clubs, Future Farmers of America, 4H clubs, and the Boy Scouts and Girl Scouts of America)

EXAMPLE:

The Extension Disaster Education Network (EDEN)

EDEN links Extension educators from across the U.S. and various disciplines, enabling them to use and share resources to reduce the impact of disasters.

Learn more at eden.lsu.edu

THE PRIVATE SECTOR

By actively engaging private sector partners *prior* to an event, and working to establish mutually-supportive relationships, recovery leadership can better take into account the needs and resources of the whole community and support successful recovery.

By working to establish public-private partnerships, recovery leadership can develop relationships with key stakeholders who have insight into economic and community needs as well as access to potential resources. While well-developed mutually supportive relationships with individual business partners is a goal, private sector associations and trade groups can help to provide recovery leadership with more information on the resources and needs of their membership and facilitate introductions to key stakeholders. Examples of private-sector associations include:

- Business Associations
- Professional Associations
- Local, State, and National Chambers of Commerce

EXAMPLE:

The Business Civic Leadership Center (BCLC)

BCLC helps businesses communicate and collaborate with each other and with the nonprofit and government sectors to make disaster relief, recovery, and reconstruction activities more effective.

Pre-Event Recovery Coordination and Non-Stafford Act Capacity Development

Pre-disaster recovery planning, coordination and capacity development is set forth in the NDRF as key to the successful recovery of communities affected by disaster. This is particularly true of non-Stafford Act events, where a premium is placed on coordination in order to maximize the impact of available resources. By identifying recovery leadership, defining roles, engaging with partners, expanding partnerships, planning, training, and exercising prior to an event, States can develop the resources and structure necessary to support impacted communities following any event.

Resource and Guidance Development

- Identify recovery leadership at all levels of government and define positions, authorities, roles, and responsibilities.
    - Determine how the State/Tribal/local Disaster Recovery Coordinator or equivalent will be identified, and what the specific authorities, roles, and responsibilities of the position will be.
    - Identify State/Tribal/local Recovery Support Function Coordinating agencies and define the authorities, roles, and responsibilities of these positions.
    - Develop guidance to support local jurisdictions in identifying and developing recovery leadership.
- Identify traditional and non-traditional State, Tribal, and Federal non-Stafford Act programs that can be used to support the needs of impacted communities.
    - Promote agency-specific policy development by all identified recovery stakeholders.
    - Promote the development and maintenance of State/Tribal and local recovery resource lists that outline the potential assistance available from state and or local agencies and recovery partners.
- Support the development of non-Stafford Act recovery coordination plans as part of each jurisdictions broader recovery plan.
    - Promote the inclusion of all governmental, non-governmental, and private sector stakeholders in the development and maintenance of recovery plans and partnerships.
    - Plan for the needs of individuals with disabilities and others with access and functional needs, children and seniors as a fundamental aspect of the recovery plan rather than as a supplement, annex, or separate plan.
- Promote the development of engaged recovery-focused partnerships at all levels and between all sectors of government, non-governmental organizations and the private sector.
    - Develop recovery-focused memorandums of understanding (MOU) or memorandums of agreement (MOA) between state agencies and agencies with identified recovery roles.
    - Develop recovery-focused mutual aid and Emergency Management Assistance Compact (EMAC) agreements with other States, Tribes, or local jurisdictions as appropriate.

- Promote the development of local, State, and National non-governmental organization consortiums (such as State/National VOADs, COADs, Inter-faith Councils, Disability related advocacy groups, and Private Sector networks).
- Work with government agencies to encourage collaboration between local, State and Tribal governments.

Pre-Disaster Coordination

- Promote non-Stafford Act support forums for idea and information sharing between recovery stakeholders at all levels.
  - Gather and disseminate lessons learned and best practices from other non-Stafford Act recovery operations to Federal, Tribal, State, local, non-governmental, and private sector partners.
- Organize State agencies with identified recovery roles according to RSFs or state recovery structure.
  - Promote the development of recovery taskforces according to identified RSFs
  - Support the identification and coordination of agency functions, roles, and capacity to support non-Stafford Act disasters.
- Insure that non-governmental organization partners are fully integrated into State, Tribal, and local coordination and capacity building initiatives.

Post-Event Recovery Coordination

Defining, coordinating and addressing the needs of an impacted community following a non-Stafford Act event requires active coordination and planning between all levels of government and with all sectors of society. This section outline steps that States, Tribes, and local communities can take to conduct a more accurate needs assessments, develop appropriate goals, and enhance multi-agency coordination.

Community Impact Assessment

- Ensure coordination with departments/organizations active in the response phase to discuss the current situation, activity to date, major areas of concern, and the transition to recovery. (i.e. share damage assessment numbers and identified community impacts, share known locations of displaced/evacuated residents)
- Conduct comprehensive damage and impact assessment to identify potential community needs and strategic recovery challenges across the 6 Recovery Support Function areas. Examples may include:
    - Convene a multidisciplinary impact assessment team to ensure that assessments are as efficient and comprehensive as possible. The team should be composed of governmental, non-governmental, and private sector stakeholders representing all identified RSFs.
    - Coordinate with existing community information and referral networks (2-1-1, 3-1-1, etc.) to support the identification of community needs.
    - Insure that assessments provide a base line need in each of the identified functional areas (i.e. Total number of damaged homes, number of homes with failed structural elements, and the number of destroyed homes).
    - Provide State/Tribal and Federal technical/subject-matter/policy support as appropriate to support local needs assessments.
- Coordinate local and State/Tribal governmental and non-governmental agencies/organizations to identify existing individual and community resources that can be used to support recovery – including insurance, continuity of business plans/support, locally administered programs, and donated/volunteer resources.
- Seek out the input of elected leadership, governmental agency/office leadership, faith leaders, faith and community based organization leadership, key private sector stakeholders, and individuals from the impacted community in order to identify community structures and priorities.
- Provide State and Federal technical/subject-matter support as appropriate to support local assessments.

Non-Stafford Act Planning and Recovery Strategy Development

- Develop State and local recovery strategies that support the needs, plans, and goals of impacted communities.
    - Engage local leadership and RSF taskforce stakeholders to support the development of local recovery strategies.
    - Involve the impacted community (public) during the development of the recovery strategy – considerations should be taken to include non-English speaking populations, people with limited resources, and people with access and functional needs.
    - Insure that recovery strategies take into account the specific needs of seniors, people with disabilities, and people with limited resources.
    - Insure that case management and other coordinative elements are incorporated into each community's recovery strategy in order to maximize impact and avoid overlap or gaps in service.
    - Request or provide State/Tribal/ Federal technical, subject-matter, and policy support as appropriate to support the development of local recovery strategies.
    - Develop a State recovery strategy to ensure the unified coordination of State/Tribal and Federal agencies supporting impacted jurisdictions.
- Support the development of local Business Recovery Plans for individual impacted businesses
- Support the development of Individual Recovery Plans for impacted survivors
    - Ensure that case management is available to assist impacted survivors to identify and coordinate resources necessary to support the holistic sustainable recovery solutions.
- Support ongoing recovery planning at the State and local level to align available resources with identified goals, priorities, and progress.
    - Promote local leadership in recovery planning.
    - Involve all recovery stakeholders in recovery planning initiatives. Include local and State/Tribal governmental agencies, non-governmental organizations, and local service providers.
    - Ensure that all recovery plans are in line with the goals and strategies of the impacted community.
    - Provide a mechanism for continued State and Federal technical assistance support as appropriate.
    - Ensure that State recovery planning is scaled to meet the coordination needs of supporting state agencies and takes into account the evolving needs of affected jurisdictions.
    - Promote public feedback opportunities to insure that recovery strategies and priorities continue to be in line with the needs of the community –considerations should be taken to include non-English speaking populations, people with limited resources, and people with access and functional needs.

Non-Stafford Act Coordination and Support

- Ensure that recovery leadership at the local, State and Tribal levels is adequate to support the recovery needs, strategies, and plans of impacted communities.
    - Assess the need to identify or assign a Local Disaster Recovery Manager (LDRM).
    - Assess the need to identify/assign, and deploy a State/Tribal Disaster Recovery Coordinator (SDRC/TDRC).
    - Assess the need for Federal technical assistance.
- Promote the development of Recovery Support Functions and recovery focused multi-agency coordination groups at the local, State, and Tribal levels as appropriate.
    - Implement RSF task forces as appropriate
    - Promote the broad inclusion of current and potential recovery partners – to include non-governmental organizations and the private-sector to ensure that technical support and programmatic resources are known, available, and coordinated.
    - Promote coordination between counterpart local, state, and national non-governmental and private-sector partners to maximize an understanding of available support and ensure coordination.
    - Promote the development of Long Term Recovery Groups (LTRG) and the use of case management to coordinate long-term unmet needs assistance to disaster survivors.
    - Identify the need for Federal RSF support to local and State/Tribal recovery functions.
- Ensure that the appropriate technical assistance is available from the State and through mutual aid networks to support local recovery assessment, planning, and program administration.
    - Coordinate and/or deploy technical assistance teams, made up of identified State/Tribal recovery partners, to support local communities in the assessment of disaster impacts and the development of local recovery strategies.
    - Identify the potential for peer-to-peer/mutual aid assistance to support local recovery coordination and planning efforts.
    - Ensure the development of an interface between local, State/Tribal, and Federal agencies to streamline policy discussions and promote an understanding of the processes and requirements associated with requesting and administering supplemental assistance.
    - Assess the need for Federal technical or programmatic advisors to support State/Tribal and local recovery efforts.
- Ensure that all non-Stafford Act programmatic assistance (financial and in-kind) is available to and coordinated with local recovery leadership.
    - Ensure that supplemental support is in alignment with identified local goals, strategies, and plans to maximize impact, identify gaps, and avoid duplication.
    - Identify additional State/Tribal and local programs that can be used, reprioritized, or altered to support the needs of affected communities identified in the assessment process.
    - Assess the need for and, if needed, request additional non-Stafford Act assistance from the State/Tribe or other Federal agencies.

Appendix 1: Case Study – State of Illinois, 2012 Spring Tornadoes

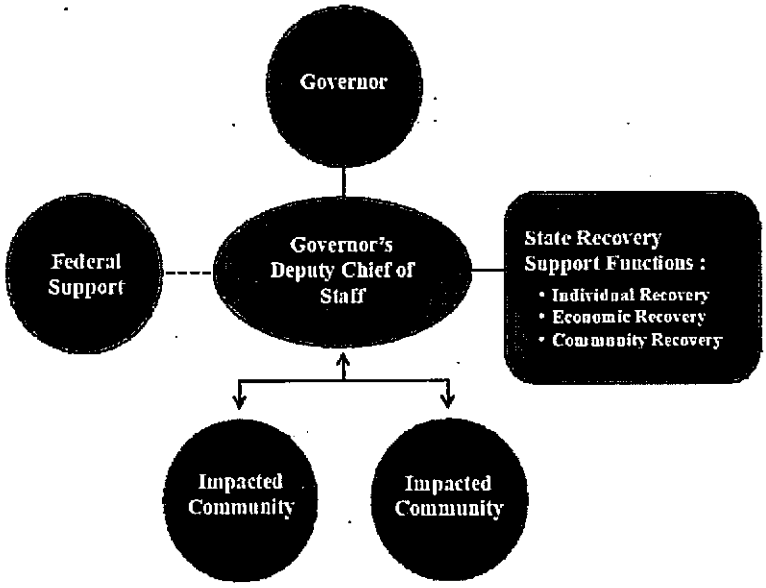
Overview:

In the early hours of February 29, severe storms and tornadoes tore through Gallatin, Massac, Saline, Union, and Williamson counties of Illinois. Around 5a.m. an EF4 tornado touched down in the City of Harrisburg in Saline County, and an EF3 tornado touched down in the Village of Ridgway in Gallatin County. The State estimated that 440 homes were impacted by the event, of which 176 were destroyed or suffered major damage. Eight people in Harrisburg lost their lives as a result of the tornado, making this the deadliest Illinois disaster in nearly a decade.

Subsequent to the determination that the event did not exceed the capabilities of the State of Illinois, FEMA Region V deployed two specialists to provide technical assistance in support of State efforts to identify and coordinate recovery assistance around the needs and goals of the impacted communities.

Strategy:

On March 25, 2012 the Governor's office held a meeting with twenty-three State agencies to outline the intent of leadership and begin coordinating state recovery support. Three Recovery Support Functions (RSFs) were outlined according to the goals of the state and the impacted communities, and leadership was assigned.



State RSFs and assigned State agency leads:

- Individual Recovery – Illinois Emergency Management Agency
- Economic Recovery – Illinois Department of Commerce and Economic Opportunity
- Community Recovery – Illinois Department of Commerce and Economic Opportunity

Over the ensuing week, RSF leads coordinated with local, State, Federal, and non-governmental partners to conduct comprehensive needs assessments in the impacted area and identify sources of non-Stafford Act assistance.

On April 2, 2012 the Governor's office issued a press release announcing $13 million in State assistance available to support recovery needs in the impacted communities. This package, made up of reprioritized existing State and Federal programs and block-grants, addressed needs in all three identified State RSFs.

Following the announcement, State agency representatives met in the affected communities to outline programmatic requirements, coordinate assistance, and support the development of a unified local recovery plan.

Key Elements and Lessons Learned:

Local needs assessments and recovery goals are critical to the identification and coordination of potential recovery support. Recovery efforts share many similarities; however, the impact of a disaster on a community is ultimately complex and unique. By conducting holistic community recovery assessments and engaging with the public, recovery leadership will be better equipped to set appropriate recovery goals, establish structures, and inform outside partners of needs. The State can support this effort by offering/providing technical expertise from state agencies, or helping to coordinate mutual aid support from experienced jurisdictions outside of the impacted area.

Senior leadership must clearly state recovery goals and priorities. Since support available to impacted communities following non-Stafford Act events is primarily accomplished through re-prioritizing existing funds, programs, and personnel, senior elected leadership must make clear the intent to redirect these funds to support impacted communities to agency level decision makers at the outset.

An understanding of how currently available programs can support the recovery of impacted communities is essential following non-Stafford Act events. Many of the resources available to support the recovery of impacted jurisdictions following non-Stafford Act events are available through existing programs. Understanding how block-grants and other programs/resources may apply to the recovery of affected citizens and the community is essential when considering potential resources.

A scalable, flexible, and adaptable support structure is crucial. Location-based, or in person, support from State and Federal recovery partners is not always warranted. Coordination requirements for current and potential support should be considered to ensure that the structures established are appropriately scaled.

Supporting recovery requires more than programmatic resources. Technical assistance is often key to successfully supporting recovery operations. The establishment of State subject-matter expert strike teams to support local assessments, planning, and resource identification should be considered as a best-practice.

Coordinating Partners:

Governor Quinn Announces Up to $13 Million in New Relief for Southern Illinois Communities

Governor Secures State, Federal Resources to Help Southern Illinois Families, Businesses, and Local Governments Recover from Tornado

HARRISBURG – April 2, 2012. At the direction of Governor Pat Quinn, the heads of a number of state agencies today announced in Harrisburg up to $13 million of financial aid and construction projects to help families, businesses and local governments recover from the deadly tornado that ravaged several Southern Illinois communities on Feb. 29. The package put together at the Governor's instruction includes reimbursements to local governments for some of their disaster-related expenses, road improvements, grants to help homeowners repair or rebuild damaged homes, and low-interest business loans to create jobs and help businesses recover.

"This assistance package offers real solutions for the long-term recovery effort in Harrisburg and other communities," Governor Quinn said. "Recovery from this tornado won't happen overnight, but these resources will help residents and businesses of hard hit areas in Southern Illinois begin to rebuild their lives."

Following FEMA's denial of assistance for people affected by the tornado on March 10 and denial of an appeal on March 21, Governor Quinn moved quickly to secure support for people and businesses through the U.S. Small Business Administration (SBA). That request was approved the following day, and the SBA began meeting with people interested in the low-interest, long-term loans on March 23.

"In the weeks since the severe storms and tornadoes hit Southern Illinois in February and early March, I have met with representatives from federal, state, and local emergency management agencies to discuss the ongoing recovery efforts in Harrisburg, Ridgway and surrounding areas," said U.S. Senator Dick Durbin (D-IL). "I will continue to work with Governor Quinn and the Illinois Congressional Delegation to seek further opportunities for federal assistance to help these communities rebuild."

In addition to the SBA loans, the state's multi-agency relief package includes:

- **Assistance from Illinois Department of Commerce and Economic Opportunity (DCEO)** – Up to $5 million from the Community Development Assistance Program (CDAP) will pay for public infrastructure improvements, housing rehabilitation and reconstruction efforts. In partnership with Ameren Illinois, another $1 million from the Energy Efficiency Trust will fund energy efficiency incentives through Ameren's Act on Energy program to benefit customers affected by the disaster. Additionally, DCEO will make as much as $750,000 in Workforce Investment Act grants available to cover wages for dislocated workers to participate in disaster

OFFICE OF GOVERNOR PAT QUINN **NEWS**

cleanup and structured work-based learning.

- **Assistance from Illinois Finance Authority (IFA)** - Up to $2 million in U.S. Department of Agriculture-Rural Development (USDA-RD) business loans will be available through IFA under a relending in Gallatin, Saline and Williamson counties. Loans from a minimum of $50,000 up to a maximum of $250,000 may be used for the purchase of land, construction or renovation of an industrial or commercial building or purchase of machinery and equipment. The IFA will partner with local banks to market the program to local businesses hurt by the recent storms and tornadoes.

- **Assistance from Illinois Department of Transportation (IDOT)** – Twenty-one municipal road improvements in Harrisburg will be completed at an estimated cost of $1.58 million.

- **Assistance from Illinois Emergency Management Agency (IEMA)** – Reimbursements up to $1.5 million to affected local governments for some of their disaster-related expenses will be made through the state's Disaster Response and Recovery Fund, which supports emergency response and recovery efforts.

- **Assistance from Illinois Housing Development Authority (IHDA)** – IHDA will commit up to $1 million in federal HOME Funds using the Single Family Owner Occupied Rehabilitation (SFOOR) Program. Up to $40,000 per household in forgivable non-payment loans will be made available to homeowners in affected areas. The funds can be used to build or renovate destroyed or damaged homes.

- **Delta Regional Authority** – Governor Quinn secured $400,000 in federal funding to reimburse local governments for expenses related to debris removal.

"Ameren Illinois is delighted to partner with the Illinois Department of Commerce and Economic Opportunity to help make recovery a little easier for residents of the Harrisburg and Ridgway areas," said Michael Moehn, Ameren Illinois senior vice president of customer operations. "Through our ActOnEnergy® program and the Warm Neighbors Cool Friends Home Repair Program, residents will be able to receive the financial assistance they need to meet the highest energy efficiency standards as they repair and rebuild. This will allow them to save money today and in the years to come."

Governor Quinn has directed his staff to continue to work with local, federal and non-governmental agencies to secure additional support for families in the affected areas.

This assistance package is in addition to nearly $1.4 million of in-kind state assistance already provided to the affected region. Shortly after the tornado stuck, Governor Quinn surveyed the damaged area and activated the State Emergency Operations Center to coordinate the deployment of state resources and personnel in support of local response and recovery efforts. The state's response included large deployments from IDOT, the Illinois Department of Corrections and the Illinois State Police, as well as assistance from several other state agencies and mutual aid organizations.

"The state of Illinois has been a trusted partner with us since the day the tornado struck," said Harrisburg Mayor Eric Gregg. "Recovery after a disaster of this magnitude isn't easy. This state assistance package will give our recovery efforts a significant boost. I appreciate Governor Quinn's continued commitment to helping our communities recover."

OFFICE OF GOVERNOR PAT QUINN **NEWS**

Governor Quinn directed state officials to start developing the state assistance package immediately after the state's request for FEMA assistance for individuals and subsequent appeal were denied. The administration has been exploring all possible opportunities to deliver relief and assistance to Southern Illinois' impacted communities.

Additional information about the state's response efforts is available at www.Ready.Illinois.gov.

Volunteer Workforce Request Form

REQUIRED INFORMATION:

- Brief Job Description
- The requestor of the volunteers must understand they assume responsibility for the volunteer's safety and the volunteer's actions
- The requestor of the volunteers is responsible for managing and providing direction
- 48-hour advance notification required for request (Note: The VRC team will process high priority requests with less than a 48-hour notice, however, there is no guarantee, the longer the lead time the better)
- Reasonable expectations of the volunteer workforce

Today's Date:	
Requestor's Name:	
Requestor's Cell Phone:	
Requestor's Email:	
Requestor's Agency:	
Volunteer Job Description:	
Name and contact of the volunteer's supervisor for volunteer opportunity:	
Where volunteers report for volunteer opportunity: (Name of Facility, Address, City, Zip)	
Dates volunteers are needed:	
Times volunteers are needed: (Shifts are encouraged)	
Number of volunteers needed per date/time:	
Transportation of volunteers for activity:	
Does the volunteer need to provide their own lunch or will the requestor provide meals, snacks and beverages?	
Volunteer qualifications to complete volunteer opportunity:	
Additional notes:	
Submit request to:	VeeserC@michigan.gov

FEMA

FEMA-STATE AGREEMENT
FEMA-3375-EM-MICHIGAN

I. PURPOSE AND BACKGROUND

On January 16, 2016, the President declared that an emergency exists in the State of Michigan. This Declaration was based on emergency conditions described in the Governor's request as resulting from contaminated water (incident) and beginning on April 25, 2014, and continuing (incident period). This is the FEMA-State Agreement (Agreement) for this emergency, designated FEMA-3375- EM (Declaration), under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121-5207 (Stafford Act), in accordance with 44 CFR § 206.44. This Agreement between the United States of America through the Regional Administrator, Federal Emergency Management Agency (FEMA), Department of Homeland Security (DHS) or his/her delegate, and the State of Michigan (State or Recipient) governs all federal assistance FEMA provides the State for this Declaration. Please note: not all provisions of this agreement apply, only those provisions related to the Federal assistance declared in this disaster as listed in Attachment 3.

II. GENERAL PROVISIONS

A. GRANT AWARD PACKAGE. Any federal grant award package issued under this Agreement will consist of the Declaration, this Agreement, and the *Application(s) for Federal Assistance* (Standard Form (SF) 424), including *Assurances- Non-Construction Programs* (SF-424B) and also the *Assurances - Construction Programs* (SF 424D) when applicable, submitted by the State for each grant program provided under the Declaration and this Agreement.

B. FEMA RESPONSIBILITIES. FEMA may provide to the State or residents of the State, if applicable, funds in the form of federal grant assistance or direct federal services to support the activities and programs authorized under the Stafford Act and the President's Declaration (federal assistance) in accordance with this Agreement.

C. STATE RESPONSIBILITIES.

1. The State agrees to comply with the federal grant award terms and conditions set forth in the Declaration, this Agreement and all provisions of the State Administrative Plans in place for each grant award.

2. The State agrees to lead, manage and drive the overall recovery process and coordinate recovery activities and technical support by setting appropriate state policies. The State will coordinate with local, Tribal and Federal governments and

agencies, private businesses and nonprofit organizations to lead and coordinate state recovery planning and assistance to impacted communities.

3. The State agrees to be the "Recipient" for all federal financial assistance provided under the Stafford Act and this Agreement, with the exception of Housing Assistance or for Other Needs Assistance when administered by FEMA rather than by the State (i.e., the "the FEMA option") under the Individuals and Households Program, if applicable. The State also serves as the "pass-through entity" with respect to the State's role in providing subawards and administering grant assistance provided to sub-recipients.

   a. Recipient and pass-through entity have the same meaning as "Grantee," as used in governing statutes, regulations, and FEMA guidance.

   b. A recipient is also a "non-federal entity" for grants administration purposes.

4. The State agrees to comply with, and will require all subrecipients to comply with, the requirements of all applicable laws and regulations, including the Stafford Act, Title 44 of the Code of Federal Regulations (CFR) (*Emergency Management and Assistance*), 2 CFR Part 3002 (implementing 2 CFR Part 200 (*Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*)), and applicable FEMA policies and guidance.

   a. The term "subrecipient" has the same meaning as "subgrantee," as used in governing statutes, regulations, and FEMA guidance.

   b. A subrecipient is also a "non-federal entity" for grants administration purposes.

D. CERTIFICATION AND WAIVERS.

1. The State officials named by the Governor as authorized to execute certifications and otherwise to act on behalf of and to legally bind the State are listed on **Attachment 1** to this Agreement.

2. The State's Certification Regarding Lobbying is **Attachment 2** to this Agreement. This certification complies with the Lobbying Prohibitions in the DHS Standard Terms and Conditions and with the FEMA regulations found at 44 CFR Part 18 (*New Restrictions on Lobbying*).

3. The State waives any consultation process under Executive Order 12372 (*Intergovernmental review of Federal programs*) and 44 CFR Part 4 (*Intergovernmental Review of Federal Emergency Management Agency (FEMA) Programs and Activities*) for grants, loans, or other financial assistance under the Stafford Act for this major disaster or emergency.

E. FEDERAL ASSISTANCE.

1. The State has requested federal assistance and submitted FEMA Form 010-0-13 (*Request for Presidential Disaster Declaration – Major Disaster or Emergency*), the terms, representations and assurances of which are incorporated by reference.

2. Federal assistance is limited to activities necessary to alleviate damage, loss, hardship, or suffering resulting from the incident that took place during the incident period, except that reasonable expenses that were incurred in anticipation of and immediately preceding such event may be eligible.

3. Federal assistance under the Stafford Act and this Agreement is limited to those areas and programs designated by the President or FEMA in the Federal Register Notices for this major disaster or emergency, which are listed in **Attachment 3** to this Agreement and are incorporated by reference.

4. All scopes of work and costs approved as a result of this Agreement, whether as estimates or final costs approved through subawards, project worksheets, or otherwise, will incorporate by reference the terms of this Agreement and must comply with applicable laws, regulations, policy and guidance in accordance with this Agreement.

F. CONTROLLING AUTHORITIES. This Agreement is subject to the following governing authorities:

1. The Stafford Act and its implementing regulations contained in Title 44 of the Code of Federal Regulations (CFR), and FEMA policy and guidance.

2. "Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards," 2 CFR Parts 200 and 3002.

3. The DHS Standard Terms and Conditions for grants, available at http://www.dhs.gov/publication/fy15-dhs-standard-terms-and-conditions which are hereby incorporated by reference.

III. TYPES OF FEDERAL ASSISTANCE

The following disaster assistance programs may be authorized when a declaration is issued however all of these forms are not necessarily included in this Declaration. The specific forms of assistance authorized for this Declaration are listed in Attachment 3 to this Agreement.

A. PUBLIC ASSISTANCE (PA). When the Declaration authorizes Emergency Work under the PA Program, and FEMA makes a PA grant award to the State, the following terms apply:

1. The State agrees to make available the non-federal cost share of PA. FEMA funding will be limited to 75 percent of total eligible costs, except as may be provided for in **Attachment 4, Subpart B** reflecting cost share amendments to the Declaration and authorized cost share adjustments for debris removal if applicable under the conditions established in the attached **Public Assistance Program Addendum** for alternative procedures elected by PA applicants (subrecipients).

2. When Direct Federal Assistance is requested and the assistance is provided:

   a. The State will:

      i. Provide without cost to the United States all lands, easements, and rights-of-ways necessary to accomplish the approved work;

      ii. Hold and save the United States free from damages due to the requested work, and will indemnify the Federal Government against any claims arising from such work;

      iii. Provide reimbursement to FEMA for the non-federal share of the cost of such work; and

      iv. Assist the performing federal agency in all support and local jurisdictional matters.

   b. FEMA will bill the State for the non-federal cost share of Direct Federal Assistance provided and the State agrees to pay the non-federal share pursuant to the timeframes set forth in the letter or other correspondence transmitting the bill.

3. When debris removal is authorized, the State agrees to indemnify and hold harmless the United States for any claims arising from the removal of debris or wreckage for this major disaster or emergency. The State agrees that debris removal from public and private property will not occur until an unconditional authorization for the removal of debris is provided.

4. The attached **Public Assistance Programmatic Addendum** includes additional terms and conditions for the implementation of the PA Program as applicable, PA grant performance goals, and cost share adjustments under alternative procedures for debris removal.

IV. FUNDING

A. PAYMENT PROCESS.

1. FEMA will pay the State using the U.S. Department of Health and Human Services Payment Management System (HHS/Smartlink).

2. Payments are governed by the Treasury-State Cash Management Improvement Act (CMIA) agreements and default procedures codified at 31 CFR Part 205 (*Rules and Procedures for Efficient Federal-State Funds Transfers)* and Treasury Financial Management Manual, Volume 1, Part 4A-2000.

3. FEMA will use a "single obligation" system to process payments through a subaccount for each subaward. When FEMA identifies an overpayment, subject to the exhaustion of appeals, FEMA will deobligate the funds from the subaccount. If there are insufficient funds in the subaccount, the State will have 30 days to reimburse the HHS/Smartlink subaccount. At that time, if there are still insufficient funds in the subaccount, FEMA will refer the amount to the FEMA Finance Center (FFC) for collection.

4. The State and subrecipients have no property interest in the funds made available through the HHS/Smartlink account. At any time during the lifecycle of the grant, FEMA may adjust the amounts available to the State in HHS/Smartlink due to grant amendments, partial or full grant terminations, closeouts, or other reasons.

B. **AVAILABILITY OF FUNDING.** FEMA and the State agree to take measures to deliver assistance to individuals, households, governments and private nonprofits as expeditiously as possible, consistent with federal laws and regulations. To that end, the following terms and conditions apply:

1. This Agreement does not comprise an award of any type of assistance authorized for the Declaration or as described in Part III, Types of Federal Assistance, above and this Agreement does not obligate any federal funding. Rather, FEMA will separately make such award decisions for the assistance authorized for the Declaration.

2. If FEMA decides to make an award of federal assistance, such assistance will be made available within the limits of funds available from Congressional appropriations for such purposes.

3. FEMA may, in its sole discretion, if necessary because of limited funds, give first priority to assistance for individuals and households, emergency work for protection of public health and safety, and administrative costs for managing the disaster programs.

V. REPORTING

A. FEDERAL FINANCIAL REPORTS.

1. Initial and Quarterly Financial Reports. The State shall submit complete and accurate Federal Financial Reports (Standard Form 425) to the FEMA Regional Office 30 days after the end of the first federal quarter following the federal award

date for each program. The Regional Administrator or designee may waive the initial report if the incident is of such magnitude and complexity that it would place an undue administrative burden on the State. Subsequent reporting requirements shall not be waived. The State shall submit quarterly financial status reports thereafter until closeout of the federal grant award for each program funded. Reports are due on January 30, April 30, July 30, and October 30.

2. Subrecipient Final Financial Report.

   a. Requirements. After the State has submitted all payment of claim information and certifications as required in applicable regulations, including 44 CFR § 206.205 for PA, for all projects approved under a grant program for a particular subrecipient, the State will note in the remarks section of its next quarterly financial report:

      i. That the report represents the final expenditures for a particular subrecipient;

      ii. The name of that subrecipient; and

      iii. The date on which the recipient submitted to FEMA a payment of claim for each of that subrecipient's approved projects, or reference to other document submitted to FEMA that includes this information.

   b. Confirmation. FEMA will confirm the quarterly SF 425 as the final expenditure report for that subrecipient only if the State has submitted all outstanding information and certifications required by applicable regulations and FEMA policy and guidance for all the subrecipient's costs and work for the emergency or disaster.

   c. Governmental Subrecipients. This confirmed, complete and accurate quarterly report is the final expenditure report for a governmental subrecipient's final expenditures for the particular grant program for the disaster or emergency for the purposes of Section 705(a) of the Stafford Act (42 U.S.C. § 5205(a)).

3. Final Financial Report. The State shall submit a complete and accurate final Federal Financial Report (SF 425), no later than 90 days after each program's federal grant award performance period expiration date. This report is the final expenditure report reflecting the State's total expenditures by program under the federal award for the disaster or emergency for purposes of Section 705(a) of the Stafford Act (42 U.S.C. § 5205(a)).

B. PERFORMANCE REPORTS.

1. Initial and Quarterly Reports. The State shall submit performance/progress reports in compliance with each program identified under this Agreement to the FEMA Regional Office 30 days after the end of the first federal quarter following the federal award date. The Regional Administrator or designee may waive the initial report if the incident is of such magnitude and complexity that it would place an undue administrative burden on the grantee. Subsequent reporting requirements shall not be waived. The State shall submit quarterly performance/progress status reports thereafter until the grant performance period ends. Reports are due on January 30, April 30, July 30, and October 30.

2. The State shall include in its quarterly performance/progress reports (OMB Form 1660-0017 PA for PA) a status of project/subaward completion, amount of expenditures, and amount of payment for advancement or reimbursement of costs for each project/subaward funded under each of the programs authorized under this Agreement. The State shall submit project overruns requiring additional obligations to FEMA for review and approval prior to incurring costs.

3. Final Performance Report. The State shall submit a final performance/progress report 90 days from each program's grant award performance period expiration date that addresses all approved activities and the performance goals outlined in the federal award.

C. PROJECT CLOSEOUT.

1. Project Closeout Report: Within 90 days from the date the State or a subrecipient completes each project, the State shall submit a payment of claim to FEMA as required by FEMA regulations and guidance, including 44 CFR § 206.205 for PA.

2. Project Reporting: The State shall indicate on the quarterly performance/progress report each time a subrecipient has completed a project.

D. ENFORCEMENT. FEMA may suspend drawdowns, provide other special conditions or take other authorized action pursuant to 2 CFR § 200.338 (*Remedies for Noncompliance*) if the State does not submit accurate and timely reports.

E. RECORDS RETENTION.

1. State Requirement. The State will retain records for 3 years, except in certain rare circumstances described in 2 CFR § 200.333 (*Retention requirements for records*), from the date it submits the final Federal Financial Report (SF 425), to FEMA in compliance with 2 CFR § 200.333, notwithstanding the time period prescribed for subrecipients in subsection 2, Subrecipient Requirement, below.

2. Subrecipient Requirement. The State will require subrecipients to retain records for 3 years from the date that the State submits to FEMA the final expenditure report for the program in question as described above in Part V, Reporting, Section

A, Federal Financial Reports, Subsection 2, Subrecipient Final Financial Report, for that subrecipient.

VI. RECOVERY OF FUNDS

A. IN GENERAL. This agreement does not limit FEMA's right to disallow costs and recover funds based on a later audit or review during or after performance of the award to ensure compliance with the terms of the Agreement and award document, or the obligation of the recipient to return such funds, including funds paid to any subrecipient. FEMA will disallow costs for federal funds expended in error, misrepresentation, fraud, or otherwise disallowed or unused. Pursuant to the Debt Collection Improvement Act, as amended, and subject to section 705 of the Stafford Act (42 U.S.C. § 5205), the recipient is liable to repay funds to FEMA if the recipient or subrecipient has ineligible underruns (for example, actual costs are less than the amount FEMA awarded based on initial estimates); fails to comply with a term of this Agreement or the approved award/Project Worksheet documents; if costs are unreasonable; or as a result of misrepresentation or fraud. FEMA and the State will follow the reimbursement procedures provided above in Part IV, Funding, Section A, Payments.

B. DUPLICATION OF BENEFITS.

1. General. The State shall take all actions necessary and reasonable to ensure that all who receive federal assistance are aware of their responsibility to repay federal assistance that is duplicated by amounts available from insurance or any other source for the same purpose. FEMA may at any time pre-award or post-award adjust the level of funding provided to account for financial assistance provided from any other source for the same purpose as the federal assistance, or to account for benefits available for the same purpose from another source.

2. Insurance. Within his/her authorities, the Governor shall ensure, through the state agency responsible for regulation of the insurance industry, that insurance companies make full payment of eligible insurance benefits to disaster survivors and others who receive federal assistance. The State shall also take all reasonable steps to ensure that disaster survivors are aware of procedures for filing insurance claims, and are informed of any state procedures instituted for assisting insured disaster survivors.

C. COOPERATION. The State agrees, on its behalf and on behalf of its political subdivisions and others that receive federal assistance, to cooperate with the Federal Government in seeking recovery of federal assistance against any party or parties whose intentional acts or omissions or whose negligence or other tortious conduct may have caused or contributed to the damage or hardship for which federal assistance was provided under this Agreement. If applicable, FEMA will treat recovered funds as duplicated benefits available to the recipient/ subrecipient in accordance with Section 312 of the Stafford Act (42 U.S.C. § 5155).

D. STATE RESPONSIBILITIES. The State is responsible for the recovery of federal assistance expended in error, misrepresentation, fraud, or for costs otherwise disallowed or unused.

1. The State shall adjust its expenditures as it recovers funding and will report these adjustments quarterly on the Federal Financial Report, SF 425.

2. The State shall designate on its PA quarterly progress reports the applicants/ subrecipients from which they have not processed recoveries but from which recoveries are due FEMA.

3. The State is responsible for notifying FEMA of any potential debt as a result of federal funds expended in error, misrepresentation, fraud, or for costs otherwise disallowed or unused.

4. The State shall report all cases of suspected fraud to the DHS Office of Inspector General. The State agrees to cooperate with any investigation conducted by the DHS Office of Inspector General.

5. The State shall cooperate with FEMA regarding any and all lawsuits that may result from the State or FEMA's attempt to recover funds or disallow costs.

E. STATUTE OF LIMITATIONS. The three-year statute of limitations limiting FEMA's ability to recover funds paid as provided for in Section 705(a) of the Stafford Act (42 U.S.C. § 5205(a)) begins with the State's submission of the "final expenditure report" as follows:

1. The statute of limitations for recovering funds directly from the State as the recipient (that is, funds not passed through to a subrecipient) begins to run on the date that the State submits to FEMA the last complete and accurate SF 425 (Federal Financial Report) for the relevant FEMA program, as required in Part V, Reporting, Section A, Federal Financial Reports.

2. The statute of limitations for recovering funds the State passed through to a governmental subrecipient begins to run on the date the State submits to FEMA the final expenditure report for the governmental subrecipient. The final expenditure report is the complete and accurate quarterly SF 425 in which the State indicates it reflects the final expenditures for the governmental subrecipient for the relevant FEMA program under the Declaration, as required in Part V, Reporting, Section A, Federal Financial Reports, Subsection 2, Subrecipient Final Financial Report.

F. REFUNDS, REBATES AND CREDITS. The State shall transfer to FEMA the appropriate share, based on the federal support percentage, of any refund, rebate, credit or other amounts arising from the performance of this agreement. The State shall take necessary action to promptly collect all monies due or which may become due and if

applicable, to cooperate with the Federal Government in any claim or suit in connection with amounts due.

VII. CONSTRUCTION REQUIREMENTS

Prior to the start of any construction activity, the State will ensure that all applicable federal, state, and local permits and approvals are obtained and all permit conditions are addressed including FEMA and recipient/subrecipient compliance with the National Environmental Policy Act, the National Historic Preservation Act, the Endangered Species Act, and all other applicable environmental laws and executive orders. All construction should be in accordance with approved permits, projects plans and specifications, applicable building codes and program guidance.

VIII. PERFORMANCE PERIODS

A. PROGRAM/GRANT AWARD. The State will complete all grant award activities, including all projects and/or activities approved under each federal grant award, within the time period prescribed in FEMA regulations, program guidance and on the award documents.

B. EXTENSIONS. The State will include with any written request for an extension information and documentation to support the amendment and a schedule for completion. FEMA may approve subsequent work, monetary increase amendments, or activity time extension amendments only if the State submits all financial and performance reports to the appropriate Regional Office. FEMA will only approve extensions to the federal grant award period of performance or project completion timelines (if applicable) that comply with program regulatory timeframes. FEMA will not approve extensions for delays caused by lack of non-federal share funding.

IX. REMEDIES FOR NONCOMPLIANCE

FEMA may take action as it determines appropriate under the circumstances including but not limited to withholding of payments, disallowance of costs, suspension or termination of the award if the State or sub-recipient fails to comply with applicable Federal statutes, regulations or the terms of this Agreement pursuant to 2 CFR § 200.338 (Remedies for Noncompliance).

X. ATTACHMENTS, PROGRAMMATIC ADDENDUMS AND AMENDMENTS

A. ATTACHMENTS. Attached and also made part of this Agreement are the following Attachments which contain the terms and conditions applicable to all assistance provided under this Agreement:

Attachment 1: List of State Certification Officers

Attachment 2: Certification Regarding Lobbying

Attachment 3: List of Designated Programs and Areas

Attachment 4: Amendments

B. PROGRAMMATIC ADDENDUMS. Attached and also made part of this Agreement, if applicable, are the following Programmatic Addendums, which unless indicated otherwise in Attachment 1 may be signed or agreed to on behalf of the State by the Governor's Authorized Representative (GAR) listed in Attachment 1, and are included on a case by case basis depending on the assistance designated and whether additional terms and conditions for implementation of specific assistance programs are needed:

Public Assistance Programmatic Addendum:

- *Subpart A: PA Performance Measures as needed*
- *Subpart B: Alternative Procedures, as needed*
- *Subpart C-XX as needed*
- *Subpart B-XX as needed*

C. AMENDMENTS. This Agreement may be amended at any time by written approval of both parties and will be reflected as follows:

1. All amendments to this Agreement will be listed in Attachment 4, Subpart A to this Agreement;

2. Amendments to the State Certification Officers will be reflected in updates to Attachment 1;

3. Amendments to the programs and areas designated for this Declaration will be reflected in updates to Attachment 3;

4. Amendments to any of the cost share provisions will be reflected in Attachment 4, Subpart B;

5. Amendments to the Incident, such as type and period, will be reflected in Attachment 4, Subpart C; and

6. Amendments to any other term or condition contained in this Agreement or to the Declaration will be reflected in Attachment 4, Subpart D.

XI. SIGNATURES AND EFFECTIVE DATE

A. COUNTERPART SIGNATURES. This Agreement may be executed in two or more counterparts, each of which together shall be deemed an original, but all of which together shall constitute one and the same instrument. In the event that any signature is delivered by facsimile transmission or by e-mail delivery of a .pdf format data file, such signature shall create a valid and binding obligation of the party executing with the same force and effect as if such facsimile or .pdf signature page were an original thereof.

B. EFFECTIVE DATE. This FEMA-State Agreement becomes effective on the date of signature by the last Party.

FEMA-STATE AGREEMENT
FEMA-3375-EM-MICHIGAN

Agreed:

Rick Snyder Governor	Andrew Velasquez III Regional Administrator
Date	Date

FEMA-STATE AGREEMENT
FEMA-3375-EM-MICHIGAN

ATTACHMENT 1
LIST OF STATE CERTIFICATION OFFICERS

1. The Governor hereby certifies that Anthony Katarsky is the Governor's Authorized Representative (GAR) empowered to execute on behalf of the State all necessary documents for federal assistance, including approval of subawards and certification of claims for Public Assistance. Captain Chris A. Kelenske is the Alternate Governor's Authorized Representative and is similarly empowered. Their specimen signatures follow:

GAR	Alternate GAR
Anthony Katarsky	Captain Chris A. Kelenske

2. The Governor hereby certifies that Captain Chris A. Kelenske and Anthony Katarsky are the State Coordinating Officer (SCO) and Alternate SCO, respectively, who will act in cooperation with the Federal Coordinating Officer under this Declaration.

3. The Governor hereby certifies that Richard Thelen is the representative of the State authorized to receive donations or loans of surplus property on behalf of the State and to execute certification, agreements, and other necessary documents with regard thereto.

4. The Governor hereby certifies that Brianna Briggs is the State official authorized to execute compliance reports, carry out compliance reviews, and distribute informational material as required by FEMA to ensure that all recipients of federal assistance are in full compliance with FEMA nondiscrimination regulations (44 CFR Part 7, *Nondiscrimination in Federally-Assisted Programs* and 44 CFR § 206.11, *Nondiscrimination in disaster assistance*).

5. The Governor hereby certifies that Brianna Briggs is the State official who will execute compliance reports, carry out compliance reviews, and distribute informational material as required by FEMA to ensure that all recipients of federal assistance are in compliance with the General Services Administration List of Parties Excluded from Federal Procurement and Nonprocurement Programs.

Restrictions on approval authority of the above named officials: N/A.

Agreed:

Rick Snyder Governor	Date

ATTACHMENT 2
CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements

This certification is required by the regulations implementing the New Restrictions on Lobbying, 44 CFR Part 18. The undersigned certifies, to the best of his or her knowledge and belief, that:

1. No federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

2. If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, *Disclosure Form to Report Lobbying*, in accordance with its instructions.

3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31 U.S.C. § 1352. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

_____ _____

Captain Chris A. Kelenske — Date
State Coordinating Officer

ATTACHMENT 3

LIST OF DESIGNATED AREAS AND PROGRAMS

Genesee County is eligible for emergency protective measures (Category B), limited to Direct Federal Assistance, under the Public Assistance program.

This Direct Federal Assistance is specifically limited to FEMA providing water, water filters, water filter cartridges, water test kits, and other necessary related items for a period of no more than 90 days from the date of the emergency disaster declaration.

ATTACHMENT 4
AMENDMENTS

[This attachment is a placeholder to be added to and modified to reflect changes to the cost share, incident period, designated areas, designated officials, etc., that are authorized after the original FEMA-State Agreement is signed.]

Subpart A: List of Amendments (including listing amendments to the Declaration that are not reflected as amendments to the Agreement)

Subpart B: Cost Share Amendments

Subpart C: Amendments to the Incident (Type and Period)

Subpart D: Other Amendments not otherwise reflected in Attachments 1(List of State Certification Officers) or 3 (List of Designated Programs and Areas) and including Amendments to the Declaration that are not reflected as amendments to the Agreement

FEMA-STATE AGREEMENT
FEMA-3375-EM-MICHIGAN

PUBLIC ASSISTANCE PROGRAMMATIC ADDENDUM

SUBPART A: PA GRANT PERFORMANCE GOALS

(TBD per new requirements in 2 CFR § 200.210)

SUBPART B: ALTERNATIVE PROCEDURES

[This section applies only when an applicant elects section 428 procedures. Insert and modify to reflect elected 428 procedures, as applicable.]

1. Prevailing Terms and Conditions.

FEMA has adopted several alternative procedures for the provision of Public Assistance (PA) as a pilot program pursuant to Section 428 of the Stafford Act (42 U.S.C. § 5189f). Alternative procedures are provided for in the Public Assistance Alternative Procedures for Debris Removal Pilot Guide (Version 3) dated *June 28, 2015*, the terms and conditions of which are hereby incorporated into this Agreement. Participation in the alternative procedures is at the election of the PA applicant for the subaward.

2. Special Cost Share Adjustments for Eligible Debris Removal Projects.

The PAAP for Debris Removal Pilot Guide provides for the use of a sliding scale for determining the federal share for removal of debris and wreckage based on the time it takes to complete debris and wreckage removal per the declared incident and also provides for a one-time incentive per applicant/subrecipient of a 2 percent cost share adjustment applied to debris removal work completed within 90 days when an applicant/subrecipient has a FEMA-accepted debris management plan before the date of the declared incident period.

Projects properly carried out under either procedure will be subject to adjustments in the federal cost share as established by the Pilot Guide which will be recorded in Attachment 4, Subpart B, Cost Share Adjustments.

[Insert any additional terms regarding the pilot programs specific to this declared incident]

Attachments: Flint Water Operations Plan V2 2016-01-22 DRAFT.docx

Cap,

Here's a first revision of the draft Flint Water Operations Plan.

The plan is to review it with a larger group of the SEOC chiefs tomorrow and to begin working on the longer term elements with the community partners (if approved) beginning Monday.

Tom Weber, PEM
State Planning Unit Manager
Emergency Management and Homeland Security Division
Michigan State Police
4000 Collins Road
Lansing, MI 48910

"A PROUD tradition of SERVICE through EXCELLENCE, INTEGRITY, and COURTESY"

Draft Flint Water Operations Plan

January 22, 2016

The State of Michigan's emergency response to the Flint water crisis will involve several phases: Initial Mass Distribution; a distribution Surge, Volunteer Expansion (an increase in the utilization of the volunteer force to distribute commodities over the longer term, Ongoing Resourcing, and Long Term Recovery.

Initial Distribution

- Canvassing teams were initiated by the sheriff and fleshed out by MSP, American Red Cross, National Guard, and volunteers.
- Goal – Touch every residence with water, filters, filter cartridges, and test kits to demonstrate we have attempted to supply all residences with potable water.
- Canvassing was based on geographic areas to make the distribution as efficient as possible.
- Points of Distribution (PODS) established at 5 Flint fire stations to distribute water, filters, filter cartridges, and test kits; initially ARC staffed, then replaced by National Guard.
- 2-1-1 used to address all questions and serve as POC for all special needs requests (hot shots).
- Initial Distribution complete the morning of January 21 based on feedback from local EOC.

Surge

- A resource surge, including 38 National Guard and American Red Cross canvassing teams began January 21. Daily missions were intended to reach as many households as possible who may not have been reached in the initial distribution. The surge included water, filters, filter cartridges and test kits.
- Goal – Reach every residence with water, filters, filter cartridges, and test kits.
    - Metric 1 – Every household will be identified as having either been reach and resources distributed or information left at the door as to how to have resources delivered.
- Canvassing was based on geographic areas to provide manageable areas for each team and to assure that areas where risks of lead contamination or vulnerable populations were known to be more likely were adequately covered. Also, where distribution in the Initial Distribution phase needed additional support were identified and re-canvassed.
- Points of Distribution (PODS) staffed by National Guard continue at 5 Flint fire stations to distribute water, filters, filter cartridges, and test kits.
- 2-1-1 is addressing all questions and serving as Point of Contact for all special needs requests (hot shots).
- Surge completion is planned for COB January 24; remaining hot shots will be addressed by ARC or other volunteer teams.

Volunteer Expansion

- Goal – Move from manual distribution mechanism to less labor intensive processes.
    - Metric – One year of availability and supply of water and other commodities to every household and franchise customer.
- Develop messaging for the transition to a more volunteer/community based distribution of water, filters, cartridges, and test kits noting Fire Station PODS to be relocated to locally operated PODs by January 31 (*Suggested alternate: February 12*).
- Identify new water only PODs operated by local non-governmental agencies, faith-based organizations or other volunteer groups.
- With a working group of SEOC staff and local agencies, develop and implement best methodology for long-term distribution of filters and filter cartridges by *the target date.*
- Volunteer Expansion complete by COB January 31 (*or February 12*).

Draft Flint Water Operations Plan
January 22, 2016

Ongoing Resourcing

- Goal – Implement long-term, workable processes to sustain provision of potable water to residents.
    - Metric – Every household and franchise customer has access to adequately filtered water at each faucet within the home.
- Develop messaging for implementation of this phase and transition to next phase.
- Water distribution by the city or by faith-based or other volunteer groups.
- Establish long-term filter distribution process using USPS, vouchers, Bridge style cards, or other measureable program.

Long Term Recovery

- Goal –water distribution operations are normalized.
    - Metric 1 – Households are served by the Flint water system.
    - Metric 2 – Households do not require filtration at the faucet.
    - Metric 3 – All water tests meet or exceed all established water quality metrics and regulations.
- Ongoing public messaging and education are offered free to the public by a variety of public message outlets, media, extension courses and community workshops and seminars.
- All recommended solutions are implemented. Analyses are complete, and public trust in Flint water is re-established.
    - Metric 1 – Surveys indicate that __% of residents and customers agree that the water tastes fresh and they trust test results.

Here's our most current scheduled for the Recovery Branch. Pending the workload this week, this could change to reduce the number of staff. Carly and I will keep our eyes on it. :)

Subject: FW: Adult Foster Care

Some of these are located outside of the City of Flint and are not franchise water customers. I am reducing the list based on those factors and prioritizing according to need. The Valley Area on Aging (VAAA) is working on a new list for me that should include more locations. They should have the list by Monday.

FYI Jay is doing a GREAT JOB!

"A PROUD tradition of SERVICE through EXCELLENCE, INTEGRITY, and COURTESY"

Declared: January 16, 2016

SUMMARY

STATE: Michigan

NUMBER: FEMA-3375-EM

INCIDENT: Contaminated Water

INCIDENT PERIOD: April 25, 2014, and continuing

DATE REQUESTED BY GOVERNOR: January 14, 2016

FEDERAL COORDINATING OFFICER: David G. Samaniego
National FCO Program

DESIGNATIONS AND TYPES OF ASSISTANCE:

The Department of Homeland Security, Federal Emergency Management Agency (FEMA), is authorized to provide appropriate assistance for required emergency measures, authorized under Title V of the Stafford Act, to save lives and to protect property and public health and safety, or to lessen or avert the threat of a catastrophe in the designated area. Specifically, FEMA is authorized to provide emergency protective measures (Category B), limited to direct federal assistance, under the Public Assistance program at 75 percent federal funding.

This emergency assistance is to provide water, water filters, water filter cartridges, water test kits, and other necessary related items for a period of no more than 90 days for Genesee County.

OTHER: Additional designations may be made at a later date if requested by the state and warranted by the results of further damage assessments.

Note: This is an emergency declaration.

Hello!

We changed the schedule to split shifts – you would work 2 hours in your regular job and 6 hours in the SEOC (we can decide how the splits work as far as crossover time to brief each other).

Bri and Renee you can work out if you would like to spilt this Sunday.

Carly

Subject: RE: plan

BJ,

Can you help me determine who should be part of this meeting? I'd like to try to set it up for tomorrow, if I can make it happen. I know it will be a little late notice, but I'd like to start the process. It will help to get this down for us in future disasters too. Here are my thoughts: Ginna, Chris, Capt. Tafoya?, Dave Gutierrez, me. Anyone else? You are more than welcome, or anyone else from our staff that has been involved.

It sounds like Chris and Dave met today. It sounds like they coordinated some operational pieces, so that will be good information to get in the plan so the coordination can continue in a way that makes sense!

Thanks for letting me bounce ideas off you tonight. It's been a whirlwind, but we'll get there! You're doing a great job!

Thanks,
Bri

Hi Brianna, in talking with EM Chris Devriendt he advised he had a conversation with Ginna yesterday ref her coming up with a volunteers/donation plan. As far as I know Ginna is working on one today- not sure if u want to reach out to her so she doesn't keep going on something unnecessarily. BJ

Execution:

Key Locations

ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Team Assignment – Target Areas

Team Priority Visited Today: Franchise Customers
Priority – City Sections 27, 29, 30, 31, 22, 33, 4
Secondary – City Sections 7, 1, 13

Please provide an update of your team mission assignments. Complete the chart below each day so we can track team needs.

Group	# of volunteers	Commodities Needed	Resources needed (Vehicle? Driver? Pallet Jack?)	Date needed

Map Support

Maps will be provided daily to provide detailed information on city sections. Teams will target specific homes not originally reached during the first two rounds of canvassing.

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunch will be provided by the ARC.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail.

Subject: SEOC Staffing - Recovery Unit
Attachments: SEOC EMHSD Staff Schedule week of 2-1-16-2-7-16.xlsx; SEOC EMHSD Staff Schedule week of Feb 8-14.xlsx

Good afternoon,

Each of you have been identified as Recovery Unit staff leads. One of you will need to staff the Recovery Unit desk at all times. Operational hours are 8 a.m. to 8 p.m. Lunch and dinner are provided and attire is business casual. Ms. Brianna Briggs will be available to train you. You will be provided support staff. They are as follows:

Kari Day
Renee Tober
Stacy Theis

Please take a look at the schedule for the remainder of the week and next week and decide who is going to work which shift and let me know. It is our desire to cut down on overtime costs, but understand that sometimes it is necessary. When determining your schedule, please keep this in mind. You can handle it however you choose, some options that other units are doing...

Staff A: 8-4 and Staff B: 4-8
Staff A: 8-2 and Staff B: 2-8
Staff A: 12 hours 4 days on and 3 days off – Staff B 4 days on 3 days off (overlapping for transition)

Please work together to coordinate what schedule works best for you and send it back to me to input into the master schedule.

Wendy

Subject: Fwd: Homebound Additions
Attachments: SKMBT_60116020216010.pdf

Can Alex take a look at this? We may want to touch base with Chris and have him push for an electronic version. Let's talk about this in the morning. Copied Mike so he's aware too.

Subject: Homebound Additions

Dear Brianna,

The attached list is from GCCARD and indicates homebound seniors receiving meals. The water that these residents receives is typically one or two bottles. Adding this list to our current one will allow us to ensure these residents are supplied in a regular fashion beyond the one or two bottles then are currently getting.

I requested an electronic version but the agency indicates that they cannot export the data but only print it. If this proves to be a logistical nightmare, let me know and I can try to get over to the agency and see if I can figure out how to export the data (I am sure it can be done...).

Subject: SEOC Staffing - Recovery Unit

Good afternoon,

Each of you have been identified as Recovery Unit staff leads. One of you will need to staff the Recovery Unit desk at all times. Operational hours are 8 a.m. to 8 p.m. Lunch and dinner are provided and attire is business casual. Ms. Brianna Briggs will be available to train you. You will be provided support staff. They are as follows:

Kari Day
Renee Tober
Stacy Theis

Please take a look at the schedule for the remainder of the week and next week and decide who is going to work which shift and let me know. It is our desire to cut down on overtime costs, but understand that sometimes it is necessary. When determining your schedule, please keep this in mind. You can handle it however you choose, some options that other units are doing...

Staff A: 8-4 and Staff B: 4-8
Staff A: 8-2 and Staff B: 2-8
Staff A: 12 hours 4 days on and 3 days off – Staff B 4 days on 3 days off (overlapping for transition)

Please work together to coordinate what schedule works best for you and send it back to me to input into the master schedule.

Wendy

Group,

I worked on both plans, unfortunately, my brain wasn't getting very far with the filter distribution. My personal feeling based on observations is that filter distribution should continue as it is with the exception of providing them in bulk to Catholic Charities and Food Bank and any other groups that would like to distribute them.

A communication I received from Sean Kammer (with the mayor copied) was that they want all resources to be available at all PODs and Hubs.

I started to take POD detail out of the Word draft and put it into an Excel draft. That might be less confusing and allows for more detail on each POD or hub (and I included the warehouses).

My apologies for having to leave, but I'll be back asap.

I don't know if any of you had emailed me comments or bullets, but I didn't receive them, as would be expected given the email system's peculiarities the last few days. Hopefully you all receive this.

The Flint IAP was one the City prepared in December. I had forgotten about it, and I included I think the pertinent distribution points that are listed within it.

Hub Based

This is a collaborative effort, and may change with input from all parties involved.

- What do we want to do?
- Who is responsible for doing it?
- How do we communicate with each other?
- What is the procedure?

Work SMART:
Safe – Keep our community safe! Let our police and fire fighters protect and serve us!
Measurable – How will achievements be measured?
Action Oriented – Is an action verb used to describe expected accomplishments?
Realistic – Is the outcome achievable with given available resources?
Time Sensitive – What is the timeframe?

HUB churches will network with surrounding churches and establish agreed upon distribution schedules.

HUB churches will provide the list of churches that will obtain their water from the HUB church. This list will be sent to Lt. Roach at Roachb@michigan.gov.

Each ward will have one central church to be the Hub for water distribution for that area/ward. Within that ward will be the 3 sub-Hubs that will provide services to that area. Each hub will have the following:

- Loaders (National Guard/Sheriff work detail)
- Admin (Address look-up to direct you to your nearest hub)
- Water
- Water filters/replacement cartridges
- Home water test kits
- Provide mobile lead testing clinic, twice a week for individuals without insurance. The mobile clinics will ONLY be at the ward hubs. There will be no door to door clinics. Once tested, residents will receive a lead awareness nutrition booklet which will provide education on lead prevention tips for families.
- Recycling center for the empty water bottles will be placed at all 9 ward hubs.

Current Burn Rates at Fire Station PODs

Location	Pallet Capacity	Burn Rate
Station 3	29	2,404 cases/day
Station 6	25	2,362 cases/day
Station 8	35	2,299 cases/day
Station 1	22	2,248 cases/day
Station 5	30	1,663 cases/day (industrial area, no drive through limits distribution)

Logistic Requirements

Warehouse

- Drivers

- Trucks 9- 20' or longer, 1 electric pallet jack, lift gate
- Trucks 16' Penske for Rapid Response Calls, lift gate
- 5 electric pallet jacks
- 6 manual pallet jacks
- 3 forklifts
- 1 laptop, 1 phone, 1 printer, office supplies
- Packing tape, shrink wrap, dispensers, cardboard pallet boxes to stabilize stacks of water
- 23 staff/100,000 sq. ft. warehouse
- Drivers for vehicles over 26k lbs require CDL
- Forklift operators must be certified.
- Pallet sizes 40x48
- Box cutters, side snips, etc to break down pallets and packing material
- Disposal arrangements

PODs

- Loading dock or level sidewalk with smooth transition to storage area for pallet jack operation
- Manual and/or electric pallet jack
- If storage areas are not indoors, an outdoor forklift or skyjack would be required.

Requests for Water

- The Hub point of contact is Lt. B.J. Roach
- Hubs will call at least 24 hours in advance to provide the quantity of water needed, and schedule a delivery time.

Deliveries

- Deliveries will be conducted by a MI DTMB driver, and truck.
- They have a pallet jack and the capability to move pallets from the truck to the staging area.
- If the water needs to be transported to an upper or lower level, Hub staff or volunteers will need to be available to help off-load.
- MTA has committed to assisting with distribution.

Church Distributions

- Hubs will network with and recruit surrounding churches and organizations to support as neighborhood PODs.
- Hubs will work with PODs to establish distribution schedules, including amounts of water needed.

Hubs

Neighborhood PODs

Filter Distribution

Consider a plan of installing whole house filters in each customer household.
The community sees the value of being able to continue to distribute all resources at all PODs.
Investigate possibility of a debit card or voucher system for people to obtain commodities at area stores.
Planning Consideration – MOUs needed with vendors to supply the appropriate cartridges and maintain minimum stock.
Same stores would have "gift" card. Card is loaded periodically with specific commodity codes.

Continue Rapid Response/home delivery for Functional Needs households and individuals.
Provide stock in bulk to Catholic Charities and Food Bank (and other partners as identified)
Maintain the Fire Station PODs until community hubs and PODs are running adequately or when demand no longer supports the need.
As demand wanes, maintain availability and Rapid Response until resources are depleted/no longer requested.

Wards

1st Ward – Eric Mays	810-922-4860

CITY OF FLINT

INCIDENT ACTION PLAN

STATE OF EMERGENCY

Objectives:

To provide short term relief and long term solutions in addressing the man-made emergency of increased lead levels in the City of Flint (the "City") water system resulting from the switch to Flint River as the City's water source as well as the threat to public health related to elevated blood lead levels in Flint residents, without interruption of the provision of public safety and other essential public services. Due to the fluidic nature of emergencies and the complexity of the City of Flint's declared emergency, this plan serves as a framework and may be altered as the emergency develops.

The Response Framework

The purpose of this plan is to organize efforts on behalf of the city to assess the extent of the City's infrastructure needs and risks to public health, provide immediate relief to those who are at risk, and establish long term solutions. In addition, the city must ascertain what immediate relief and long term solutions the City is capable of implementing based on what resources are available. For any activities that are beyond the resource capacity of the City, external sources of funding, supplies, and manpower must be sought.

There are a number of steps that must be taken in accordance with the Flint Emergency Support Operations Plan (SEOP), in order for the City to be compliant with the Genesee County Emergency Action Guidelines. These include the activation of the Incident Management Team, the Emergency Operation Center, and the sharing of essential documents with the County, including this plan. Information must also be shared by the City's Public Information Officer on a regular basis, as required by the SEOP.

This plan calls for the provision of immediate relief to those at risk in our community. Special consideration must be given to residents who belong to underserved groups, such as those who are homebound, undocumented, in poverty, etc. Additional consideration must also be given to the equitable provision of services throughout our community in order to equally protect the health and safety of every member of our community.

Implementation of this plan is to be conducted by the Incident Management Team, which will monitor the effective delivery of goods and services in order to address the conditions of the emergency.

Understanding the Issue:

October 1, 2015, the Genesee County Health Department issued a Public Health Emergency after elevated blood-lead levels were found among children in the City of Flint. This incident correlates with elevated levels of lead found in the City's drinking water after the City switched water sources in April of

2014 to the Flint River. The scope of this problem appears to be limited to Flint City Water Customers and their dependents, not to exclude franchise customers (i.e. Burton, Flint Township, Genesee and Mount Morris Townships) Public agencies from several levels of government, as well as charitable, nonprofit organizations have partnered with the City to provide immediate relief to Flint residents, including the expansion of health services, the provision of bottled water and NSF rated water filters. The city is also seeking long term infrastructure improvements to eliminate lead and other contaminants from the water system.

Gov. Rick Snyder appointed a task force to review "actions regarding water use and testing in Flint" and to make recommendations for future guidelines: Members of the state task force are Ken Sikkema of Public Sector Consultants, Chris Kolb of the Michigan Environmental Council, Dr. Matthew Davis of the University of Michigan Health System, Eric Rothstein of the Galardi Rothstein Group and Dr. Lawrence Reynolds of Mott Children's Health Center.

In an effort to halt the further escalation of this crisis, the City returned to receiving its water from the Detroit Water and Sewerage Department (DWSD) on October 16, 2015. Since that time, additional corrosion control program has started, estimating a reduction of lead levels over the next six months. In light of these efforts, concerns surrounding the quality of water and health of the residents persist to the point that Mayor Karen Weaver declared a State of Emergency on December 14, 2015 so as to resolve this crisis once and for all.

The current challenge facing the City is providing immediate relief and long term solutions of the quality of the water and health of residents while the City remains in a financially critical condition. It is hoped and expected that higher levels of government recognize this emergency as it pertains to the condition of the City's infrastructure and health of its residents, and do all things necessary to assist the City in the provision of relief and the execution of capital improvement projects that will eliminate the causes of this emergency.

Enhancing Understanding:

Information Collection

Essential Elements of Information (EEIs) can be qualified as the City's water tests containing lead results, the verification of lead water lines (both public and private), and health information. Water testing is performed by the City's water plant in cooperation with the MDEQ. The verification of lead water lines is being handled by University of Michigan Flint, who is currently digitizing the City's water line information and PSI Engineering, who is initiating the effort to verify lead lines by excavating an initial 150 residential lines. This information allows the Incident Management Team to assess the current

condition of the emergency by way of determining the water quality and the condition of the water distribution infrastructure.

Information Analysis

The City has sought partners to assist in the analysis and evaluation of complex data. Wayne State University's center for Urban Studies will serve a supporting role to assist the City efforts to document and track lead water lines, water test results, and filter distribution with geographic information system (GIS) technology. This allows for clear and precise information to be presented to officials.

Assessment of Impacts

The City will need assistance in determining the total cost of damage done to the public health and infrastructure. As of now, only portions of this damage are visible.

PSI is providing some assistance by excavating 150 residential water lines to verify that they are comprised of lead. This is an initial step, but not enough. More resources will be needed to continue this process.

Continuous Situational Awareness

It is important that the Incident Management Team receive continuous information regarding water testing results, lead water line numbers, and filter distribution information in order to gain a realistic and current perspective. Much of this information is currently available on the City's website (cityofflint.com) and more is added each week by the PIO team.

Actions taken in Response to the Emergency

Activation of the Incident Management Team

Upon the declaration of Emergency by Mayor Weaver, the Support Emergency Operations Plan (SEOP) was activated. The SEOP calls upon the Incident Management Team to generate the Incident Action Plan (IAP. Each member of this team serves a specific function as it relates to addressing the causes and effects of the emergency. The Emergency Management Team roster can be found in the SEOP on page 3, with a list of alternates on page 4 in case the need for succession arises.

Emergency Operations Center

The Emergency Operations Center (EOC) must be activated upon the declaration of a State of Emergency by the Mayor. This center is required by the SEOP and serves as a nerve center for the Incident Management Team. Here, emergency relief efforts are coordinated by key members of the

Incident Management Team. In this case, these relief efforts consist of the distribution of water filters at City Hall and community events, the distribution of bottled water throughout the city in conjunction with the efforts of community partners, and assisting with the circulation of water testing kits throughout the community. The EOC will also be monitoring and managing the inventory of relief supplies, such as water filters and bottled water.

According to the SEOP, the EOC must establish an incident tracking system. This system will serve as a work plan for the management of the emergency. In addition, it is essential that the IMT record water testing results, lead water line location information, and information about the distribution of water filters and bottled water all in one place so that information is readily available for the Incident Management Team. This information will also be sent out to the public and media in the form of daily regular updates by the City's PIO.

Communication

The EOC maintains a telephone system that exists to intake questions about relief efforts and to organize relief logistics. It is open from 8am to 5pm, Monday through Friday. A voicemail system and eventual email system will exist to handle requests and inquiries that occur outside of the normal operating hours. This system will be constructed by the City's IT department.

Public Awareness and Education

1. **Emergency Alerts and Updates:**
   The City's Public Information Officer will make available information as it relates to the emergency in the form of press releases, emails, and physical documents. Daily updates containing information on the distribution of water filters, bottled water, water testing, blood lead testing, and other relief efforts will be available on the City's website for the public to view. Information will be available at City Hall for residents. 211 is an important resource to receive information about where to get water filters and other important updates. The PIO will regularly be in contact with 211 personnel to ascertain the frequency and content of inquiries in order to continuously provide relevant information.

2. **Joint Information Center:**
   The City's PIO will establish a joint Information Center that is organized to coordinate the efforts of multiple agencies to communicate with the public. This includes the circulation of joint press releases, public health information, educational materials, and updates relating to the State of Emergency. This committee is comprised of public information officers and public relations personnel to coordinate efforts to keep the public updated and informed. Regular updates to the media regarding events and progress will be made as news develops.

The US EPA has offered assistance in the form of Public Information support. Additional support in this area has been provided by the Michigan State Police.

3. **Education:**
   Many government agencies and philanthropic organizations are already distributing information regarding the effects of lead on public health. It is important that the City assist in these efforts so vital information and knowledge is presented to all members of the community. The goal is to continue to eliminate misunderstandings and incorrect information as it relates to reducing lead in drinking water, pursuing medical help, and maintaining a healthy diet to reduce lead absorption in the body. Lead education is currently being performed by the Genesee County Health Department, the Michigan Department of Health and Human Services and Medical community at-large.

Assessment of Social Needs

In order to effectively and equitably provide immediate relief to Flint water customers, the City must take into account many of the socio-economic needs and limitations of the community. Some residents cannot get to City Hall for a water filter. Some residents do not have internet access. Literacy or a language barrier may also pose significant obstacles to the effective distribution of educational information and relief to those in need. These will be continuing challenges facing the community. At present these are the resources the City has available to mitigate some of those challenges.

Logistics

Logistics are being coordinated by the City Emergency Management Team's City's *Chief Logistics Officer*, who is the City Administrator. The CLO is responsible for the coordination, procurement, and transportation of goods and services, which is essential for effective implementation of the response plan.

Fixed Distribution Points

There are several locations throughout the City, coordinated by Genesee County Health Department, where residents may acquire a water filter. These locations are:

Flint City Hall
1101 South Saginaw, Flint MI 48502

Genesee County Community Action Resource Department (GCCARD)
601 North Saginaw, Flint MI 48502
and
2727 Lippencott Blvd, Flint MI 48507

Michigan Department of Health and Human Services
4809 Clio Road, Flint MI 48504
and
125 E. Union Street, Flint, MI 48502

Activation of Ward Distribution Centers

Each of the nine wards will have activated distribution centers that are primarily managed by City Council Members or their designees.

Flint City Council – Water Distribution Sites

WARD	COUNCILPERSON	LOCATION	ADDRESS
1	Eric Mays	Hasselbring Senior Center	1002 W. Home Avenue
2	Jackie Poplar	Joy Tabernacle Church	2505 N. Chevrolet Avenue
3	Kerry Nelson	Antioch Baptist Church	1083 E. Stewart Avenue
4	Joshua Freeman	Flint Fire Station No. 5	3402 Western Road
5	Wantwaz Davis	Doyle/Ryder Elementary School	1040 N. Saginaw Street
6	Herbert Winfrey	New Community Baptist Church	1375 Lavender Avenue
7	Monica Galloway	Brennan Community Center	1301 Pingree Avenue
8	Vicki VanBuren	Flint Southwestern Academy	1420 W. 12th Street
9	Scott Kincaid	Dort Mall Police Service Station	3600 S. Dort Highway

Mobile Distribution Centers

The city can help establish mobile distribution centers and delivery systems with the help of transportation agencies, like the Metro Transit Authority (MTA), Meals on Wheels, and GCCARD that can provide water filters, bottled water, and nutritious foods, among other types of relief accompanied by educational materials to neighborhoods and to homes of people who experience limited mobility.

- Mass Transportation Authority-MTA bus passes: Assisting residents with bus passes to improve their mobility will increase their chances of receiving help. Transportation services will also improve residents' access to medical care.
- MTA-Your Ride mobile distribution:
  - Estimated Costs: $25 per hour to deliver water and filters to homes throughout the City.

Problem 1. Public Health Emergency

The first objective in addressing this emergency is reducing, and eventually eliminating, the danger to public health. As City water coming out of faucets continue to contain lead, and copper and other harmful contaminants exceeding government guidelines and regulations, it poses a risk to the people of our community. Preventative measures must be taken to avoid the effects of toxicosis that are difficult if not impossible to completely reverse.

As far as preventative measures are concerned, education, water filters, and bottled water must be provided to every household in the City in order to reduce the chances of lead exposure, especially to our most vulnerable members of the community. If lead exposure has occurred, resulting in elevated blood lead levels, immediate and sustained medical attention must be available to those affected. Health services must be expanded in the area to accommodate increased numbers of case loads and specialized care regarding lead poisoning and its effects.

Immediate Relief for Public Health:

1. Prevention: Education, water filters and replacement cartridges, free water testing, and bottled water must be available to everyone.
2. Access to nutritious food that reduces the risks of lead absorption by the body. The City can coordinate activities with the County Health Department.
3. Genesee County Health Department comprehensive plan to address immediate and long term health issues for segments of the population.

Long Term Solutions: Maintaining Public Health and Coping with Lead Exposure

1. Work closely with the Genesee County Health Department and Michigan Department of Health and Human Services in order to provide sustainable care and monitoring of children exposed to lead. This care must be available for them for several years-preferably several decades.
2. Support and education for primary care providers regarding aggressive long-term neurodevelopmental screening and testing.
3. Improved access to developmental and behavioral (DBP) specialists, pediatric psychologists, pediatric psychiatrists.
    a. Pre-emptive referral to mental health/ toxic stress screenings.
    b. Support capacity building and or incentivize recruitment to allow Genesee Health System (GHS) to build this capacity which is currently needed and lacking.
4. Increase recognition and education regarding trauma informed care, social determinants of health (SDOH).
5. Expand State funded Genesee Health System (GHS) services.

a. Infant mental health (30 day capacity)
b. Child case management
c. Home based services
d. Trauma informed care- trauma focused CBT

Problem 2. Lead Contamination in the Water

Immediate Relief:

1. Education, water filters and replacement cartridges, free water testing for water customers, and bottled water must be available to everyone. Water filters can be obtained at any of the fixed distribution points throughout the City.
2. Identification and verification of lead water service lines throughout the city- both public and private.
3. Assistance to identify lead pipes within buildings and homes.

Distribution of Bottled Water:

At this point, we are directing all offers for donations to the Food Bank of Eastern Michigan. It is imperative that water be accessible to all members of the community through a variety of distribution channels. These channels are explained in the Logistics Section of this plan.

Distribution of Test Bottles:

Water testing kits can be picked up at City Hall with instructions. Test results are posted on the City's website to raise public awareness and encourage more participation.

Long term Solutions: Capital Improvements Needs

The distribution of filters, water, and food to counter the effects of lead are essential response efforts to keep people safe. However, long term solutions are required to keep people healthy, to eliminate lead from the public and private water distribution system distribution, and to provide affordable clean water. Our public infrastructure and utilities must be reliable, sustainable, and equitable in order for this community to rebound after this emergency. The following long term solutions must be implemented in order to set the City of Flint on a course for recovery. These solutions come at a heavy cost for a City that is currently in receivership. The City has experienced financial distress due to this Emergency, in addition to a two million dollar loss from switching back to DWSD. The City has diligently applied for Fiscally Distressed Cities, Villages, and Townships Grant in order to supplement funding for capital improvement projects. It is essential that these grants be awarded in order to achieve long term solutions.

1. **COMPLETE Transition to a Temporary Safe Water Source until the Completion of KWA:**
   This has already occurred. On October 16, 2015, Flint returned to receiving its water from DWSD on a 9 month agreement. This agreement will expire in June 2016, when the KWA is projected to be complete. *The City had to pay $2 million out of its general fund to make this switch.*

2. **IN PROGRESS Additional Corrosion Control added to the Water System:**
   This is already occurring. In early December, 2015, Flint began to add additional corrosion control to the water coming in from DWSD in attempts to rebuild the protective scale inside its pipes. This is estimated to reduce lead levels in two to six months.

3. **Faucet Replacement:**
   Replacement of Water faucets, and drinking fountains in the school system. It has been determined after state inspections that many sources of lead contamination in the School System's water were the faucets themselves. These faucets need to be replaced.

4. **Water Line Replacement:**
   Water Line Replacement to reduce antiquated infrastructure and lead service lines. These lines must be identified, verified, and replaced. Residents who are facing financial hardships must have access to assistance to cover the costs of these replacements through access to grants and (forgivable) loans made available through State and Federal agencies. The corrosion damage to public and private lines that Flint River water caused is still being determined.
   - Replacement of an estimated fifteen thousand (15,000) lead service lines at an *estimated cost of three thousand dollars ($3,000) per line. Total costs forty –five million* dollars ($45,000,000).

5. **Reimbursement of Critical Expenditures:**
   Seeking reimbursement of two million dollar cost of returning to DWSD and forgiveness of Water Revolving Loan Debt from the State of Michigan.

6. **KWA Capital Improvements:** The City has reconnected to Detroit temporarily until a water line from Port Huron is developed. The new water line known as the KWA pipeline or Karegnondi Water Authority is expected to bring water to the City from Lake Huron by July. The current cost agreement between Flint and DWSD is for nine months, therefore it is imperative that KWA be completed as soon as possible. Assistance relating to capital improvements to expedite this process will help to achieve long term goals.

KWA Capital Improvements:	**Estimated Costs:**

a.	*Transfer Station to Dort Reservoir*	*$4,500,000*
b.	*Raw water line to pump station #4*	*$636,000*
c.	*Phosphoric acid feed system*	*$186,000*
d.	*Alum Feed system*	*$40,000*
e.	*Post filtration system*	*$387,289*
f.	*SCADA Upgrades*	*$424,000*
g.	*Sewer Relining*	*$100,000*
	Total	***$6,273,289***

Ancillary Considerations: Public Safety during an Emergency

During a time of emergency public safety agencies need to be prepared to respond to threats to public safety and critical infrastructure. The City is facing a man-made emergency that is threatening the public health. Resentment and hostility toward local institutions and municipal government is at a significant level.

Critical infrastructure should be safeguarded if the need arises. This includes increasing security at City Hall to reduce potential for public safety risks. In the case of credible threats to public infrastructure, it may be required to hire private security company for first line of defense. Private Security is lower cost, thereby making it the first option. The minimum response is acted upon first, elevating only if the need arises. Credible or imminent threats of damage or destruction to critical infrastructure requires an elevated response. Such needs may require over-time police officers to address critical situations. Mutual aid from surrounding communities can be requested if Flint public safety is overextended.

Implementation:

Community Partners

Financial limitations of the city persist while it confronts this emergency. Many community partners have offered their assistance to perform various needed functions. The city is heavily reliant on the assistance that government agencies and nonprofit organizations have provided.

The Ruth and C.S. Mott Foundations

The C.S. Mott Foundation has provided financial assistance, especially in their generous contribution of $4 million for the reconnection to DWSD.

United Way

The Genesee County United Way has provided significant financial assistance in the way of purchasing and helping to distribute water filters since the Public Health Emergency began on October 1st, 2015.

Genesee County Community Action Resources Department (GCCARD)

GCCARD is organized to fight poverty and has been a primary partner in the distribution of water filters. It has also regularly supported the city with the logistics and availability of water filters at City Hall.

Genesee County Health Department

Has provided educational information to Flint Water customers concerning lead and public health. They have also diligently provided prevention information

Genesee County Board of Commissioners

The Board of Commissioners have pledged their support to help Flint seek solutions to this crisis. The Board has already assisted in making health and nutrition information available to the public. On October 1, 2015, Genesee County declared a Public Health Emergency recommending that people not drink the water coming from the City of Flint.

Assistance from Wayne State University

Wayne State University's Center for Urban Studies will be providing technical GIS support to assist in the documentation of emergency relief efforts and program evaluation guidance to ensure implementation effectiveness.

The US Environmental Protection Agency

Region 5 EPA has offered assistance with Public Information distribution during the emergency.

Outside Help is still needed...

The City of Flint is forever thankful to our community partners who have given so much to help so many people. However the magnitude of this emergency calls for more resources that are beyond the capacity of the combined local organizations and government agencies. Long term solutions will require a heavy investment in health care and capital improvement projects to upgrade the city's antiquated water distribution system.

- Help with Immediate Relief in terms of assuring allocative efficiency. Distribution should be equitable- assistance from other governments required to assure this.
- Reaching communities for the distribution of water filters, water, and educational materials.

- Help with Water Testing to increase participation and lead education.
- Increasing the rate of water testing
- Assistance is required to fund essential capital improvement projects to guarantee clean and safe water.

"A PROUD tradition of SERVICE through EXCELLENCE, INTEGRITY, and COURTESY"

Hub Based

This is a collaborative effort, and may change with input from all parties involved.

- What do we want to do?
- Who is responsible for doing it?
- How do we communicate with each other?
- What is the procedure?

Work SMART:
Safe – Keep our community safe! Let our police and fire fighters protect and serve us!
Measurable – How will achievements be measured?
Action Oriented – Is an action verb used to describe expected accomplishments?
Realistic – Is the outcome achievable with given available resources?
Time Sensitive – What is the timeframe?

HUB churches will network with surrounding churches and establish agreed upon distribution schedules.

HUB churches will provide the list of churches that will obtain their water from the HUB church. This list will be sent to Lt. Roach at Roachb@michigan.gov.

Each ward will have one central church to be the Hub for water distribution for that area/ward. Within that ward will be the 3 sub-Hubs that will provide services to that area. Each hub will have the following:

- Loaders (National Guard/Sheriff work detail)
- Admin (Address look-up to direct you to your nearest hub)
- Water
- Water filters/replacement cartridges
- Home water test kits
- Provide mobile lead testing clinic, twice a week for individuals without insurance. The mobile clinics will ONLY be at the ward hubs. There will be no door to door clinics. Once tested, residents will receive a lead awareness nutrition booklet which will provide education on lead prevention tips for families.
- Recycling center for the empty water bottles will be placed at all 9 ward hubs.

Current Burn Rates at Fire Station PODs

Location	Pallet Capacity	Burn Rate
Station 3	29	2,404 cases/day
Station 6	25	2,362 cases/day
Station 8	35	2,299 cases/day
Station 1	22	2,248 cases/day
Station 5	30	1,663 cases/day (industrial area, no drive through limits distribution)

Logistic Requirements

Warehouse

- Drivers

- Trucks 9- 20' or longer, 1 electric pallet jack, lift gate
- Trucks 16' Penske for Rapid Response Calls, lift gate
- 5 electric pallet jacks
- 6 manual pallet jacks
- 3 forklifts
- 1 laptop, 1 phone, 1 printer, office supplies
- Packing tape, shrink wrap, dispensers, cardboard pallet boxes to stabilize stacks of water
- 23 staff/100,000 sq. ft. warehouse
- Drivers for vehicles over 26k lbs require CDL
- Forklift operators must be certified.
- Pallet sizes 40x48
- Box cutters, side snips, etc to break down pallets and packing material
- Disposal arrangements

PODs

- Loading dock or level sidewalk with smooth transition to storage area for pallet jack operation
- Manual and/or electric pallet jack
- If storage areas are not indoors, an outdoor forklift or skyjack would be required.

Requests for Water

- The Hub point of contact is Lt. B.J. Roach
- Hubs will call at least 24 hours in advance to provide the quantity of water needed, and schedule a delivery time.

Deliveries

- Deliveries will be conducted by a MI DTMB driver, and truck.
- They have a pallet jack and the capability to move pallets from the truck to the staging area.
- If the water needs to be transported to an upper or lower level, Hub staff or volunteers will need to be available to help off-load.
- MTA has committed to assisting with distribution.

Church Distributions

- Hubs will network with and recruit surrounding churches and organizations to support as neighborhood PODs.
- Hubs will work with PODs to establish distribution schedules, including amounts of water needed.

Michigan State Police Points of Contact

Lt. B.J. Roach [redacted], Roachb@michigan.gov Lt. Mark A. Russo [redacted] Russom2@michigan.gov

EXISTING CITY DISTRIBUTION POINTS

Existing distribution points are listed on the attached spreadsheet

CHURCH DISTRIBUTION HUBS

NORTH
Foss Avenue Baptist Church
1159 East Foss Avenue, Flint MI
Pastor Flynn 810-965-1515
Point of Contact: Jackie Scott 810-787-9019
Delivery: 4 pallets starting 2-2-2016 @ 12:30 pm

NORTH WEST
St. Mark Baptist Church
3020 DuPont NE, Flint MI
Pastor Thompson 810-280-9985
Point of Contact: Angie George 810-955-6297/810-234-6609
Delivery: 25 pallets starting 1-29-2016 @ 11:00 am

SOUTH CENTRAL
El-Shaddai Church of God in Christ
920 Walnut, Flint MI
Pastor Steve Hawkins
Point of Contact: Elder Eddie Kennedy 810-513-6762
Delivery: 20 pallets starting 1-29-2016 @ 9:00 am

SOUTH EAST
Grace Emmanuel Baptist Church
3502 Lapeer Road, Flint MI
Pastor Jennings 810-743-3900
Point of Contact: Glenna Gates 810-449-7853
Delivery: 8 pallets starting 1-30-2015 @ 10:00 am

SOUTH
Divine Revelations
902 Huron Street, Flint MI
Pastor Williams 810-931-0310
Delivery: 25 pallets starting 1-30-2016 @ 11:00 am

Neighborhood PODs
Neighborhood PODs are listed on the attached spreadsheet.

Filter Distribution Plan

Consider a plan of installing whole house filters in each customer household to alleviate questions about bathing and to reduce the time frame between cartridge replacements.
Consider a plan with City to eliminate billing for a pre-determined period to encourage flushing of the system and reduction of latency.

The community would like to be able to continue to make all resources available at all PODs.
Continue Rapid Response/home delivery for Functional Needs households and individuals.
Provide stock in bulk to Catholic Charities and Food Bank (and other partners as identified).
Maintain the Fire Station PODs until community hubs and PODs are running adequately or when demand no longer supports the need.
Investigate possibility of a debit card or voucher system for people to obtain commodities at area stores.
- Planning Consideration – MOUs needed with vendors to supply the appropriate cartridges and maintain minimum stock.
- Same stores would have "gift" card. Card is loaded periodically with specific commodity codes.

As demand wanes, maintain availability and Rapid Response until resources are depleted/no longer requested.

Subject: Update on HUD Mandatory Water Testing

Harvey,

Pursuant to emails with Mel Brown, I wanted to update you with regard to what we know about mandatory HUD water testing of HUD financed apartments in the City of Flint:

- Attached is correspondence that HUD sent to HUD financed apartment complex properties requiring property managers to install water filters.
- In addition to this letter, HUD staff informed MSHDA staff yesterday that water testing was mandatory for HUD properties. We're seeking written clarification on mandatory water testing from HUD and will share this information when received.
- MSHDA will be reaching out this week to MSHDA financed rental properties and following suit. MSP has provided us with locations of where testing material can be obtained and we'll be communicating with property managers as to where they can attain these materials and required testing. If you have any concerns or issues with us taking this direction, please let us know.
- NOTE: The HUD properties that Pastor Woods has contacted you about are properties administered through the Flint Housing Commission with HUD related resources. These are not MSHDA properties.

I have copied our Chief Housing Investment Officer, Michele Wildman as well as Daphne Wells from MSHDA who recently communicated with HUD about water testing. If you need any further information or have more questions, don't hesitate to contact me, Michele or Daphne.

Knowing that you were heading to a meeting with Pastor Woods, I wanted to get you the most recent information available. Updates will follow as more information is gathered.

Brian.

Subject: RE: Lead / Copper Data

Wendy,

Just to clarify, HUD and its relationship with the Flint County Housing Commission for HUD financed properties is unrelated/separate from the MSHDA's properties that we finance and or manage directly.

As a team this morning, we discussed whether or not MSHDA should be taking similar actions (water quality testing for the tenants and homeowners residing in single homes and apartment complexes financed or managed by MSHDA) and the consensus was that we should.

Therefore, I would like ask if there is a point of contact or information sharing we should use/provide when directing our landlords, home-owners and tenants to test their water.

Is testing of water being centralized by ways of logistics like filters are now? Or, should we direct our landlords, property managers or residents to pick up water testing materials at any of the five stations in the city?

Thank you,

Brian.

Brian Mills

Subject: RE: Lead / Copper Data

I haven't heard anything from HUD on this either though it might be that public housing units are overseen by the Public and Indian Housing part of HUD whereas our PBCA and Section 8 contracts are overseen by the Multifamily part of HUD. I think having testing done would be a good idea to at least see how the filters are working now that they are in place.

Mike

Hi Brian,

Please see the email chain below. Do you know anything about this?

Thanks,
Wendy Galbreath

Who is coordinating housing stuff for SEOC? Can you please tell us who is working on testing in public housing units?
Thanks
Mel

Subject: RE: Lead / Copper Data

Thank you, Mel.

I received a call and email today from Pastor Frank Woods who was in the meeting yesterday. He also works for the Flint Housing Commission and they are being asked

by HUD about testing for the public housing units. Pastor Woods said it has not been done. Do you have any information on when/if this will be scheduled?

Pastor Woods has requested a meeting with the Flint Public Housing Executive Director and Harvey and I want to have an answer for him prior to the meeting.

Thank you,
~Stacie

Thanks Jeannie,

Not to throw too much of a wrench in. I forgot to add the Flint PD service centers. They are on the attached revised spreadsheet.

No addresses, no map – clear.
If there's any way I could have it by 11am tomorrow that would be great (for the 1pm meeting)
Socio-economic... since I'm not sure what's available...any thoughts or ideas? I don't want the map too busy, but we might take a look at poverty rates, but that may make the map too busy. Any other ideas that would allow it to maintain easy reading?

Thanks Tom,
We can do this. Just so we're clear:

- You don't want to overlay any socio-economic info? There was chatter about that last meeting.
- When do you need this by?
- Those without address (there's 7) won't be mapped

Thanks,
Jeannie

"A PROUD tradition of SERVICE through EXCELLENCE, INTEGRITY, and COURTESY"

Filter Distribution Plan

- Consider a plan of installing whole house filters in each customer household to alleviate questions about bathing and to reduce the time frame between cartridge replacements.

- Consider a plan with City to eliminate billing for a pre-determined period to encourage flushing of the system and reduction of latency.

- The community would like to be able to continue to make all resources available at all PODs.

    - Source: Mayor's office; Catholic Charities; United Way; Concerned Pastors; and Food Bank of Eastern Michigan

- Continue Rapid Response/home delivery for Functional Needs households and individuals.

    - 2-1-1, Local EOC, American Red Cross, and UPS
    - UPS has indicated they would like to assist with this. They are coordinating a conference call with their local operations to facilitate this.

- Provide stock in bulk to Catholic Charities and Food Bank (and other partners as identified).

    - CC and FBEM coordinating with SOM warehouse
    - The state would continue to distribute filters, with the assistance of UPS (conference call pending), to Rapid Response calls. This eliminates the need for Food Bank or Catholic Charities to track addresses.

- Maintain Fire Station PODs until community hubs and PODs are running adequately or demand at each POD is below 250 cases per day.

- Investigate possibility of a debit card or voucher system for people to obtain commodities at area stores.

    - MDHHS will identify costs with DTMB.
    - Planning Consideration – MOUs needed with vendors to supply the appropriate cartridges and maintain minimum stock.
    - Same stores would have "gift" card. Card is loaded periodically with specific commodity codes.

- Maintain availability of resources at PODs until daily burn rates are below 250 cases per day, and devolve operation to next higher POD/Hub.

- Once demand is below 250 cases per day, maintain availability of commodities in the Hubs and Rapid Response teams until the EPA, DEQ, and independent monitoring indicate the water is safe in all areas and any addresses that are an exception have an intervention/repair of infrastructure in place.

Tom,

I'm not sure if this helps, but I think it should give a little understanding to who is doing what and how I understand it. I do need to work in the VOAD piece, so if you think this is your role as the VAL, let me know and I will specify that here separately as well. I do need to talk to Chad about some of Ginna's comments today. It sounded like they would be handing some other things over to the VRC (ARC/United Way) going forward. I'll try to fine tune that piece.

I have also put a template plan together for the Recovery Branch. I will talk to Carly/Mike about this tomorrow.

I'm hoping to hear from Maggie in the morning and get something set up with her. I'll have to sit in the GLHS Conference Meeting at 10, unless that's the only time she's available. I do have my MIL's retirement party tomorrow, so I will be unable to attend the meetings tomorrow in Flint. Let me know if you need anything while you're out. I can be in the office late tomorrow if needed. I will need to work in some time to unpack my tyga boxes though! :)

Let me know if something doesn't make sense.

Thanks,
Bri

Volunteer Communications

Volunteer Reception Center

- POC: Justin Bays/Dave Gutierrez
- Coordination of priorities for water response teams/door-to-door distribution will be provided by the SEOC through the Recovery Branch, unless determined otherwise (could transition to LEOC/Chris DeVriendt in the future)
- Event based volunteers will be filtered out to water response teams when available
- Additional tasks will be assigned based on need and request from other NGOs
- Submit assignments to Recovery Branch at SEOC for overall tracking and needs (currently done for teams only; assess the need to track all missions ARC currently provides service for or just those who require commodities/resources?)

LEOC – Volunteer Management

- POC: Chad Veeser
- Track "organic" groups within the plan
- All special requests for volunteers will be sent to Chad for assistance if the VRC is not the appropriate avenue
- Connect specialty groups with requesting NGOs, as appropriate
- Submit known groups/fulfilled special requests to Recovery Branch at SEOC for inclusion in the plan

LEOC – Operations

- POC: Chris DeVriendt
- Ensure staffing for delivery of commodities to Access and Functional Needs population
- Ensure Rapid Response Teams have logistics to support long-term operations
- Request volunteer groups through Chad based on specific needs (i.e., Group of volunteers that will go into homes and install filters for the Access and Functional Needs population and 211 requests)
- Submit groups working through the LEOC with any commodity/resource needs to the Recovery Branch at the SEOC for inclusion in the plan

SEOC Operations

- POC: Recovery Branch Director, MSP-SEOC5@michigan.gov
- Ensure ARC Teams have priority assignments

- Assess the need for continued operations
- Assist LEOC Operations with any needs to support Rapid Response Teams and 211 Response Teams
- Complete full plan of volunteers daily (or a combined plan for multiple days, if available) to include as many efforts as are known based on the submitted information from the VRC and LEOC (Chris/Chad)
- Plan at least a few days ahead, having assignments or tasks that could be provided to groups showing up to help (i.e., Stage a loaded box truck at the warehouse for pick up by a group wanting to distribute water and provide a specific location to distribute)
- Work with GIS to map 211 requests (self-referred) and Access and Functional Needs population together to determine overlap and need to continued long-term service (to assist with long-term recovery planning)

Subject: New Plan Template
Attachments: Flint Water Response Team New Plan DRAFT.docx; Volunteer Communications.docx

Let's chat about this tomorrow. It should be pretty straight forward, but we'll need to make sure we can collect all the elements we need. It should be as easy as a phone call in most instances, or picking up the info during the Distribution Process Meetings, but we may need to be a little more forward-reaching with some elements. Let me know if something doesn't make sense or if you completely disagree with this.

The one piece not built into the this yet is the "planning ahead" piece.

Also, notes from my Monday meeting are attached. Take a look and let me know if I'm off base or we need to take action to correct anything on this.

I'll be around most of the day tomorrow. I'm sure you'll find me! :)

Flint Water Response Team Plan
Sunday, 01.31.16 - DRAFT

Key

WRT	Water Response Team
OIC	Officer In Charge
ARC	American Red Cross
HH	Household
LEOC	Local Emergency Operations Center

SEOC Operations

Key Leaders

ARC OIC	Kristy Gallagher		Kristy.gallagher@redcross.org
Recovery Branch	SEOC	PHONE	MSP-SEOC5@michigan.gov

Distribution Kit	1000	1000		1/31/16	8:00 am

Team Assignment – Target Areas

Team Priority Visited Today: Franchise Customers

Priority – City Sections 27, 29, 30, 31, 22, 33, 4

Secondary – City Sections 7, 1, 13

Map Support

Maps will be provided as needed to provide detailed information on city sections. Teams will target specific homes not originally reached during the first two rounds of canvassing.

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and

copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunch will be provided by the ARC.

LEOC Operations

Key Leaders

LEOC EM	Chris DeVriendt		CDeVriendt@co.genesee.mi.us

Resource Status

Group	# of volunteers	Commodities Needed	Resources Needed	Operational Dates	Mission Details
EX: Islamic Relief	*200*	*Water*	*5 Box Trucks*	*2/6-7/16*	*Distribute Water*
Team Rubicon		Water, filters, replacement cartridges, water test kits	# Box trucks	1/??-2/5/16	211 Access and Functional Needs

VRC Operations

Key Leaders

VRC Lead	Justin Bays	Phone?	Email

Resource Status

Group	# of volunteers	Commodities Needed	Resources Needed	Operational Dates	Mission Details
EX: Islamic Relief	*200*	*Water*	*5 Box Trucks*	*2/6-7/16*	*Distribute Water*
Event Based Volunteers				Daily	Added to WRT supported by SEOC Operations daily based on number of volunteers arriving at the VRC for missions

Organic Groups

Key Leaders

LEOC Volunteer Management	Chad Veeser	Phone?	VeeserC@michigan.gov

Resource Status

Group	# of volunteers	Commodities Needed	Resources Needed	Operational Dates	Mission Details
EX: Islamic Relief	*200*	*Water*	*5 Box Trucks*	*2/6-7/16*	*Distribute Water*

Execution:

Key Locations

ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
LEOC	Genesee County Administration Building 1101 Beach Street, Flint	0700-2100
Warehouse 1	4315 North Clio Road, Flint	0700-1900
Warehouse 2	New Kroger Address	

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method.
2. The WRT Distribution Tracking Tool is a secondary method if iPads fail.

Volunteer Communications

- Event based volunteers will be filtered out to water response teams when available
- Additional tasks will be assigned based on need and request from other NGOs
- Submit assignments to Recovery Branch at SEOC for overall tracking and needs (currently done for teams only; assess the need to track all missions ARC currently provides service for or just those who require commodities/resources?)

LEOC – Volunteer Management

- POC: Chad Veeser
- Track "organic" groups within the plan
- All special requests for volunteers will be sent to Chad for assistance if the VRC is not the appropriate avenue
- Connect specialty groups with requesting NGOs, as appropriate
- Submit known groups/fulfilled special requests to Recovery Branch at SEOC for inclusion in the plan

LEOC – Operations

- POC: Chris DeVriendt
- Ensure staffing for delivery of commodities to Access and Functional Needs population
- Ensure Rapid Response Teams have logistics to support long-term operations
- Request volunteer groups through Chad based on specific needs (i.e., Group of volunteers that will go into homes and install filters for the Access and Functional Needs population and 211 requests)
- Submit groups working through the LEOC with any commodity/resource needs to the Recovery Branch at the SEOC for inclusion in the plan

SEOC Operations

- POC: Recovery Branch Director, MSP-SEOC5@michigan.gov
- Ensure ARC Teams have priority assignments

- Assess the need for continued operations
- Assist LEOC Operations with any needs to support Rapid Response Teams and 211 Response Teams
- Complete full plan of volunteers daily (or a combined plan for multiple days, if available) to include as many efforts as are known based on the submitted information from the VRC and LEOC (Chris/Chad)
- Plan at least a few days ahead, having assignments or tasks that could be provided to groups showing up to help (i.e., Stage a loaded box truck at the warehouse for pick up by a group wanting to distribute water and provide a specific location to distribute)
- Work with GIS to map 211 requests (self-referred) and Access and Functional Needs population together to determine overlap and need to continued long-term service (to assist with long-term recovery planning)

Subject: Child Care Facilities Needing Water Resources

Dear Brianna/OPS,

Team Rubicon attempted to make contact on all agencies listed in Task Assignment SEOC – 2152092. I removed the Hurley Hospital reference due to the impracticality of providing assistance to an agency that already far exceeds any standard of relief that we can offer. The attached list should be added to the AFN list that ARC services and supplies should be distributed as indicated on the list and at the direction of the State.

Please keep me in the loop as to supplies being authorized for 'for profit' agencies as this will have a huge impact on my operations at the local level.

I'm not sure of the best way to 'close out' this Req so I will pass it on to one of the State gurus down here for action on the actual ticket.

Good afternoon all,

This is your reminder to send me your daily activity bullet points.

ACTIONS:

1. Compile a short list (5-7) of bullet pointed major activities for today.
2. Email the completed bullet points to **msp-seocda1@michigan.gov**.

Bullet points are due by 5p.m.

Thank you,

Zach Baker, PEM
Situation/Documentation Unit Leader, State Emergency Operations Center
Michigan State Police/Emergency Management and Homeland Security
(This email is monitored only when the SEOC is activated)

Long-term Recovery Bullets – 2/4/16

- Facilitated Community Partners Workgroup Meeting at 1:30 p.m. at the Food Bank of Eastern Michigan
- Attended Community Partners Meeting at 3 p.m. at the Food Bank of Eastern Michigan
- Met with Maggie Sayles, MTED, reference a potential local hire program to sustain operations
- Followed up on items for the White House's Office of Public Engagement

Subject: DRAFT Proposed Local Hire Program
Attachments: Potential Local Hire Program 02.04.16 DRAFT.docx

Importance: High

Draft attached of the local hire program. I added the Recycling Operations, but I think we'll need to talk to the local EOC to see what this looks like, unless either of you have a better idea. Let me know if I'm way off base here. I tried to encompass all the needs we might have. I included trucks for handling of distribution to the church hubs from the warehouse.

I'm leaving for the night, but feel free to share comments. I'd like to get this to Maggie by 9ish tomorrow morning. I'll be in first thing tomorrow.

Thanks,
Brianna

Flint Water – Proposal
Local Hire Program

TOTAL STAFF REQUESTED: 124

Assumed Period of Operations: 1 year (at a minimum)

Church Distribution Hubs

- 5 total hubs
- Each hub requires:
  - 10 Loaders
  - 2 Admin Staff
  - 2 Recycling Staff
  - 1-2 Manual and/or electric pallet jacks
- **Total Staff Requested:** 70 personnel
- **Total Equipment Requested:**
  - 5-10 Manual and/or electric pallet jacks

Warehouses

- 2 warehouses currently
- Each warehouse requires:
  - 1 warehouse manager
  - 13 warehouse staff (at least 3 forklift certified)
  - 9 truck drivers
  - 1 overnight security personnel
  - 9 Trucks – 20' or longer with lift gate and electric pallet jack (trucks over 26k lbs require CDL)
  - 2 electric pallet jacks
  - 3 forklifts (operators must be certified)
  - 1 laptop
  - 1 phone
  - 1 printer
  - Office Supplies
  - Packing tape
  - Shrink wrap
  - Dispensers
  - Cardboard pallet boxes to stabilize stacks of water
  - Box cutters
  - Side snips
  - Disposal arrangements – 40yd dumpster
- **Total Staff Requested:** 48 personnel
- **Total Equipment Requested:**
  - 18 Trucks – 20' or longer with lift gate
  - 11 Electric pallet jacks (9 for trucks; 2 for warehouse)
  - 3 forklifts
  - 1 laptop
  - 1 phone

    - 1 printer
    - Office supplies
    - Packing tape
    - Shrink wrap
    - Dispensers
    - Cardboard pallet boxes to stabilize stacks of water
    - Box cutters
    - Side snips
    - 40yd dumpster
- **Leases:** 2 warehouse spaces

Rapid Response Deliveries

- 5 box trucks – 16' with lift gate
- 2 staff per truck
- **Total Staff Requested:** 10 personnel
- **Total Equipment Requested:**
    - 5 box trucks – 16' with lift gate

Emergency Operations Center Staffing

- 4 Data entry personnel
- 2 Planners
- **Total Staff Requested:** 6 personnel

Recycling Operations

- Is this something we could work on? This is still being developed at the local level.

Subject: draft of Volunteer report

I am sending you the draft version of the volunteer report. I listed the teams for this week - as Chris described them, but they can be changed - it is just a draft for how it could look.

The big question for tomorrow is what will Red Cross teams be doing - if there are needs for vulnerable population they could start on that list or do you want them to go to the apartments tomorrow. If you choose the apartments for tomorrow and if there are vulnerable populations you find are beyond the ones Team Rubicon have done, you can let Chris know Red Cross will start on them on Tuesday. That allows him to report that out to the County tomorrow. Team Rubicon can be split between the two options - rapid response and vulnerable populations. It also allows you to tell the captain that you have started on the apartments.

Another Idea - the weekends could be the apartments with Red Cross and Islamic Relief - they could then increase the number of volunteers they add to teams because the trucks could be parked in the parking lot and they could increase their volunteers who go in to provide the support. More people could be engaged in volunteering that way. (in fact tomorrow let's brainstorm some ideas like that - how we can get more done with volunteers by being strategic)

Your choice in what plan works best for tomorrow.

Ginna Holmes

Subject: RE: Urgent Request: Flint water/jobs

Brianna, Jason, and Tom.

My turn to virtually introduce.
Stephanie Comai has assigned Maggie Sayles to be your contact at TIA. (She is included on this message). Please feel free to connect with Maggie directly.

Best,
Lynne

Subject: RE: Urgent Request: Flint water/jobs
Importance: High

Lynne: Maggie Sayles (copied here) is our TIA point of contact on Flint. She can coordinate with the SEOC and the local MWA.

Maggie: I would also like to be included in the initial conversation with the SEOC/FEMA and MWA officials. But don't hold up to accommodate my schedule.

Thanks,
Stephanie

Flint Water – Proposal
Local Hire Program

TOTAL STAFF REQUESTED: 190

Assumed Period of Operations: 1 year (at a minimum)

Church Distribution Hubs

- 5 total hubs
- Each hub requires:

Maggie,

We're working on your question and will be reaching out to the various state agencies involved. When would you want this information back to you? Just want to give them a deadline that works for you.

Thanks,
Brianna

Subject: Question on Flint project

Our call with USDOL went well this morning. We will be starting to write a proposal after we align a few more things on our end. WDA will meet with the local Michigan Works as they will become the grant recipient and so we need their input as to what can and cannot be accomplished.

A question was asked n the call about other agencies that may need the temporary worker, like EPA for testing and collecting. Do any of you have insight on that piece?

I am waiting for a connection (through USDOL) to California as they were awarded a large grant ($18M) that set up temporary workers to assist with the impact of the drought.

Tuesday by 10am.

And just as a reminder....this grant would be able to support humanitarian operations through temporary jobs that would be filled by Dislocated workers (those who have been laid off and some other eligibility). So it is not hiring people for/from other agencies (deferring the cost).
(Sometimes agencies get all excited that their costs will be covered)

Subject: Bullet Reminder
Importance: High

Good afternoon all,

This is your reminder to send me your daily activity bullet points.

ACTIONS:

1. Compile a short list (5-7) of bullet pointed major activities for today.
2. Email the completed bullet points to **msp-seocda1@michigan.gov**.

Bullet points are due by 5p.m.

Thank you,

Kari Day
Situation/Documentation Unit Leader, State Emergency Operations Center
Michigan State Police/Emergency Management and Homeland Security
(This email is monitored only when the SEOC is activated)

Long-term Recovery Bullets – 2/7/16

- Working with State Agencies to determine if a need exists for their activities on the ground in Flint that could benefit from the potential local hire program

Tom,
I just got back in from Flint. I think we should have another meeting so that I can share what has progressed and get questions from you. Our Talent Team has many questions too, but we are putting plans in place.

Are you (all of you) available Thursday after 1pm?

Subject: FW: Tomorrow's meeting

Tomorrow I am meeting with GST Works, our boots on the ground in workforce development/talent enhancement. The message below gives an outline of what we will cover. We are moving forward with a grant proposal, but do not have specific amount yet. We are looking at your outline and hope to incorporate most if not all. I'm sure the question will be asked about your involvement.

I think that tomorrow's meeting will not be beneficial for any of you to attend. But, as we

move forward (and I believe it will be fast paced), your presence and expertise will be needed.

Would you please forward to Jeannie Moran. I do not have her contact info.

Subject: Tomorrow's meeting

- The plan for tomorrow will include
    - review of NDWG, and how it fits into what is happening today in Flint.
        - TEGL 2-15, attached
        - Roles of WDA, GST Works
        - Role of others (MSP/FEMA)
    - Strategies to expend other WIOA funds for this purpose (Formula and NEG)
        - Youth work experience
        - Identifying DW, especially LTU
            - Barriers to identifying
        - how can WDA support GST
    - Outreach activities to highlight GST involvement

- Moving forward.

I have attached documents that will be helpful throughout the discussion. Please share with your staff. The morning should be interactive discussion that will produce strategies for immediate action. (and I am sure you will be seeing more of me in the near future)

Thank you! I look forward to working with you.

To:
Subject: URGENT - Records Request

The department has been directed to provide copies of all records in our possession related to the Flint water matter to the Governor's office. You are receiving this email because you have been identified as an individual who may have records that must be produced. If there are any department members who you think may be in possession of records related to Flint water, please forward this message to those members.

Records include memos, handwritten notes, emails and attachments, and text messages in your possession, regardless of who produced the record. Be sure when you search your email messages that you look in your inbox, sent box, and trash. In preparation for the production, you must estimate the number of records you have in your possession and provide that estimate to Ms. Lori Hinkley no later than **2:00 PM on Friday, February 12, 2016.**

You must then provide a copy of each record in your possession to the Legislative and Legal Resources Section no later than close of business on **Thursday, February 18, 2016.**

Members who work at Headquarters must provide paper copies to F/Lt. Chris Hawkins in the Office of the Director. Members who work at the State Secondary Complex must provide a paper copies Ms. Lori Hinkley. Ms. Hinkley is located on the second floor of the new Headquarters building. Department members who work outside of these worksites may send copies of records in their possession via e-mail to MSP-FOIAProject@michigan.gov.

In addition to this initial production of records, the department is required to provide copies of newly created records on an ongoing basis. Until further notice, copies of all newly created records shall be forwarded to MSP-FOIAProject@michigan.gov.

REMINDER: Public records can only be disposed of consistent with an approved retention schedule. As it applies to emails and text messages related to the Flint water matter, please use the retention schedule in place for general correspondence which is **two years**. Please save all emails and text messages for at least two years. Prior to expiration of the two year period you will have an opportunity to re-evaluate the content of the messages to determine if an additional retention period is necessary. If you have issues with accommodating emails based on your mailbox size, please archive them. Do not print and file them as the metadata must be retained as well.

If you have any questions with these instructions, please contact Ms. Lori Hinkley.

"A PROUD tradition of SERVICE through EXCELLENCE, INTEGRITY, and COURTESY"

Flint Water – Proposal
Local Hire Program

TOTAL STAFF REQUESTED: 190

Assumed Period of Operations: 1 year (at a minimum)

Church Distribution Hubs

- 5 total hubs
- Each hub requires:
  - 10 Loaders
  - 2 Admin Staff
  - 2 Recycling Staff
  - 1-2 Manual and/or electric pallet jacks
- **Total Staff Requested:** 70 personnel
- **Total Equipment Requested:**
  - 5-10 Manual and/or electric pallet jacks

Warehouses

- 2 warehouses currently
- Each warehouse requires:
  - 1 warehouse manager
  - 13 warehouse staff (at least 3 forklift certified)
  - 9 truck drivers
  - 1 overnight security personnel
  - 9 Trucks – 20' or longer with lift gate and electric pallet jack (trucks over 26k lbs require CDL)
  - 2 electric pallet jacks
  - 3 forklifts (operators must be certified)
  - 1 laptop
  - 1 phone
  - 1 printer
  - Office Supplies
  - Packing tape
  - Shrink wrap
  - Dispensers
  - Cardboard pallet boxes to stabilize stacks of water
  - Box cutters
  - Side snips
  - Disposal arrangements – 40yd dumpster
- **Total Staff Requested:** 48 personnel
- **Total Equipment Requested (lease or buy):**
  - 18 Trucks – 20' or longer with lift gate
  - 11 Electric pallet jacks (9 for trucks; 2 for warehouse)
  - 3 forklifts
  - 1 laptop
  - 1 phone

    - 1 printer
    - Office supplies
    - Packing tape
    - Shrink wrap
    - Dispensers
    - Cardboard pallet boxes to stabilize stacks of water
    - Box cutters
    - Side snips
    - 40yd dumpster
- **Leases:** 2 warehouse spaces

Rapid Response Deliveries

- 5 box trucks – 16' with lift gate
- 2 staff per truck
- **Total Staff Requested:** 10 personnel
- **Total Equipment Requested:**
    - 5 box trucks – 16' with lift gate

Emergency Operations Center Staffing

- 4 Data entry personnel
- 2 Planners
- 2 Geographic Information System (GIS) Technicians
- **Total Staff Requested:** 8 personnel

Miscellaneous Operations

- 2 Translators (1 Spanish; 1 Arabic)
- 20 Plumber Apprenticeships for Local Contractors
- 20 Social and medical case worker training
- 10 Bus drivers
- 10 Mechanics
- 2 Building Inspectors

Recycling Operations

- Is this something we could work on? This is still being developed at the local level.

Potential Local Hire Program
Meeting Notes – 2/12/16

Participants
Alisha Tate-Nadeau, FEMA
Jeannie Moran, FEMA
Tom Weber, MSP/EMHSD
Zach Baker, MSP/EMHSD
Brianna Briggs, MSP/EMHSD
LTC Seely, National Guard
Jason Gamble, FEMA
Maggie Sayles, MTED

Notes

Workforce Innovation and Opportunity Act (WIOA)
National Dislocated Worker Grant/National Emergency Grants

- Handles the humanitarian effort to include training, workforce money for unemployed, temporary work assignments
- Grant funding could be used to support attire, equipment leases, etc.
- Should be thinking about apprenticeships and training for positions that could turn into long-term hiring
- Timeline - USDOL has indicated, with the Presidential Declaration, turnaround could be as quick as 48 hours
- TEGL 2-15 is the guidance document
- Training and background checks could be paid under this grant
- Maximum award? – No indications there is a maximum
    - Estimates put us around at least $12 million, potentially $15 million

Who can be the employer of record?

- It can be a governmental entity (city or county)
- Employer of record would write paychecks
- MI Works would provide case management to employees

Need to identify employer of record **(very important next step)

- Maggie to provide a list of criteria we could use when approaching potential employers to provide details on what this would entail (would be based on the Fair Labor Standards Act)
- No matter who the employer of record is, the employee should be working closely with MI Works
- Could have multiple employers of record, if needed

General MI Works Information

- Often Workforce Development Agency has a work/school based employment
    - 35 hours works, 5 hours school (training/work enhancement opportunities), generally
- LTC Seely will provide Maggie with information for the Youth Conservation Corps
    - Could potentially fit as one employer of record
    - Focuses on youth hires (16-24 years of age)

**-Action items for MSP/EMHSD

    - Would hire locally in Flint
- Other grants currently being used by MI Works could be realigned to assist in the short term in getting people out there doing some of this work
- MI Works (GST Works – locally) has space in their facility that could be used for training or meeting space for these operations

**Need to work on list of jobs with descriptions
- MI Works could help determine appropriate pay scale for jobs

Maggie – Research
- Reached out to California (received $18 million previously) and received information
- Reached out to Missouri on Joplin tornado response and received some information from them

**-Action items for MSP/EMHSD

"A PROUD tradition of SERVICE through EXCELLENCE, INTEGRITY, and COURTESY"

Bullet Points on Long Term Distribution Course of Action

Direct Delivery and PODs Approach

Scope

- Direct delivery of filters, cartridges, and pitchers to residences.
- DTMB will go through an RFP process to secure contractor for direct deliveries.
- Utilize PODs for primarily water distribution and recycling, will have all supplies in stock initially.
- Designated officials will coordinate pickup for franchise customers.

Assumption

- Faith and community based members are not involved directly but may supplement through community based distribution centers (POD locations, volunteers).

Strengths

- Tracking and protection of personally identifiable information is the contractors responsibility.
- Places tracking and accounting aspects in the hands of the contractor.
- Provides a convenient and citizen/survivor centric solution.
- This COA may be supplemented by faith and community based distribution centers at their discretion (account for undocumented workers).
- Allows a phased approach transition to community pods for water distribution.
- Scalable PODs operations based on the overall demand for water.
- Follows FEMA approved guidelines for operation a POD.
- PODs are Ward based, giving local government more visibility or the operation.

Weaknesses

- Increases the cost of the response at least initially.
- Burn rates and other data will not be readily available.
- May require an MOU for the PODs locations.
- Increased possibility for retail fraud.
- Initial setup time will be more extensive.

Subject: Bullets - Draft Long Term Recovery Plan
Attachments: Bullet Points on Long Term Distribution Course of Action.docx

Ken,

Attached is a draft of the bullets of what was discussed on the direct delivery/POD course of action. Please take a look and let us know if you see anything we missed. We provided some strengths and weaknesses, as well as some items to note on the faith based courses of action.

Thanks,
Bri, Jay & Zach

Bullet Points on Long Term Distribution Course of Action
Direct Delivery and PODs Approach

Scope

- Direct delivery of filters, cartridges, and pitchers to residences.
- DTMB will go through an RFP process to secure contractor for direct deliveries.
- Utilize PODs primarily for water distribution and recycling.
    - 1 POD per Ward = 9 total PODs
    - Fixed Location: Parking lot next to bus route and/or transportation route based on FEMA IS26 compliant checklist
    - Box truck with just in time commodities
    - Staffing would be provided all or in part by workforce development grants
    - 9 per POD for a total of 81 personnel
- Rapid Response Teams for Access and Functional Needs (AFN)
    - *1 Rapid Response Team per Ward = 9 total Rapid Response Teams*
    - 1 Rapid Response Team = 1 Box Truck and 2 personnel
    - Staffing would be provided all or in part by workforce development grants
    - Approximately 3,000 AFN in affected area
- Designated officials will coordinate pickup for franchise customers.

Strengths

- Tracking and protection of personally identifiable information is the contractor's responsibility.
- Places tracking and accounting aspects in the hands of the contractor.
- Provides a convenient and citizen/survivor centric solution.
- This COA may be supplemented by faith and community based distribution centers at their discretion (account for undocumented workers).
- Allows a phased approach transition to community pods for water distribution.
- Scalable PODs operations based on the overall demand for water.
- Follows FEMA approved guidelines for operation of a POD.
- PODs are Ward based, giving local government more visibility of the operation.

Weaknesses

- Increases the cost of the response, at least initially.
- Burn rates and other data will not be readily available.
- May require an MOU for the PODs locations.
- Increased possibility for retail fraud.
- Initial setup time will be more extensive.

Other COA Weaknesses

- Faith based courses of action
    - Require excessive number of volunteers to sustain operations
    - Unmanageable number of distribution points
    - Religious sensitivities

"A PROUD tradition of SERVICE through EXCELLENCE, INTEGRITY, and COURTESY"

9 Points of Distribution (POD) Concept – 1 POD per City Ward. Physical location to be determined after site visits by MSP/EMHSD and FEMA.

1. Location
    a. One centralized warehouse would be optimal for this process. Until that time the current warehouses would support all POD and Rapid Response Team (RRT) operations.
    b. One POD would be located in each of the existing city wards.
        i. Site selection would be completed by a MSP/EMHSD liaison officer with technical assistance by FEMA.
        ii. PODs would be located in a paved parking lot with ample ingress and egress for vehicular and pedestrian traffic.
            1. At a minimum two curb cuts from the public roadway would be needed to allow for in and out traffic.
            2. Sites should be near an established Mass Transit Authority (MTA) bus stop.
                a. MTA could add these into the existing transportation routes as they have for the Flint Fire Department PODs.
        iii. Memorandums of Understanding (MOUs) may be needed with any of the POD locations.
            1. Site locations would require unrestricted access to the area and be allowed to erect non-permanent structures and stage equipment long term.
            2. Sites would also need to be maintained parking surfaces that would withstand the use and staging of equipment (box trucks, dumpsters, heavy traffic).
        iv. Minimum size of potential PODs is defined by the FEMA Independent Study course 26 (IS26).
            1. All sites should meet the minimum qualifications.
2. Hours of Operation
    a. Operational period for the PODs would be Monday through Saturday.
        i. Church distribution would be supplementing the Sunday distribution.
    b. Uniform hours across all PODs would be essential for clear and concise messaging.
        i. Suggested hours are 12:00PM to 6:00PM Monday through Friday.
        ii. Saturday hours will be 12:00PM till 8:00PM.
3. Staffing
    a. See Attachment A: *Staffing of POD* for POD staffing.
    b. Supply Truck Drivers, see Attachment B: *Warehouse Equipment Needs*
    c. Local hires program workers would be restricted to 35 hours of work with five hours of training.
        i. Training may be Incident Command System (ICS) training, Occupational Safety and Health Administration (OSHA) training, or computer literacy courses.
4. Equipment for POD Operations

a. For large supply trucks see Attachment B: *Warehouse Equipment Needs*
b. Equipment for each POD.
    i. One pallet jack, can be staged on the delivery truck.
    ii. One easy folding canopy tent.
    iii. Two 8 foot banquet tables.
    iv. 10 folding chairs.
    v. Portable heat source during winter months.
    vi. AC lights for parking lot is none are permanently installed in the lot.
    vii. One portable generator for lights in tent and technology recharging.
    viii. One portable restroom facility with hand washing station.
    ix. Dumpster for refuse from unpalletizing the supplies.
    x. One large recycle bin.
        1. To be coordinated with the established recycling program.
    xi. One fire extinguisher.
    xii. 4 foot tall grabber traffic cones to establish vehicular and pedestrian traffic flow.
    xiii. Reflective safety vests for all workers at the POD.
    xiv. First-Aid kit.
    xv. 800 mhz radio.
    xvi. Three IPads for recording outgoing commodities.
c. Inventory for the PODs
    i. All PODs will be full service offering water, water filtration systems, water filtration system replacement cartridges, and water testing kits.
        1. A maximum of 15 pallets of water may be expected to distribute at each POD daily.
        2. Each PODs inventory would be controlled by the POD Manager.
            a. When supplies are low they will be responsible for contacting the warehouse to order a shipment from the resupply trucks that are on stand-by.
    ii. All water, water filtration systems, water filtration system replacement cartridges, and water testing kits will be supplied from the state warehouse(s).
    iii. Inventory will be tracked at the state warehouse(s)
        1. Incoming shipments will be recorded by the warehouse.
        2. Outgoing shipments will be recorded by the warehouse.
        3. Commodities given out to Flint Water System residents will be recorded at the PODs.

5. Rapid Response
    a. Nine Rapid Response Teams would be staged at the state warehouse(s).
    b. Rapid Response Teams would be assigned a Ward.
    c. Teams would operate off a set route within their Ward that is designed to maximize output with minimizing drive time.
    d. 2-1-1 calls for assistance would be assigned to a Rapid Response Team based on the Ward of the calls origin and be placed in que for the team to respond to within 24 hours.

e. Rapid Response Team Equipment
    i. A total of nine heavy duty cargo vans, or heavy duty truck, or 16 foot box truck for the transportation of Rapid Response Team members.
    ii. Only water and water testing kits would be delivered by the Rapid Response Teams.
        1. Water filtration systems, water filtration system replacement cartridges would be delivered by a third party vendor.
    iii. Rapid Response Team vehicles would be loaded with the maximum allowable cargo weight.
    iv. Each Rapid Response Team would be assigned one IPad for documenting all direct water deliveries to Access and Functional Needs (AFNs) populations.
    v. Each Rapid Response Team would be assigned one 800 mhz radio for direct communications with the warehouse.

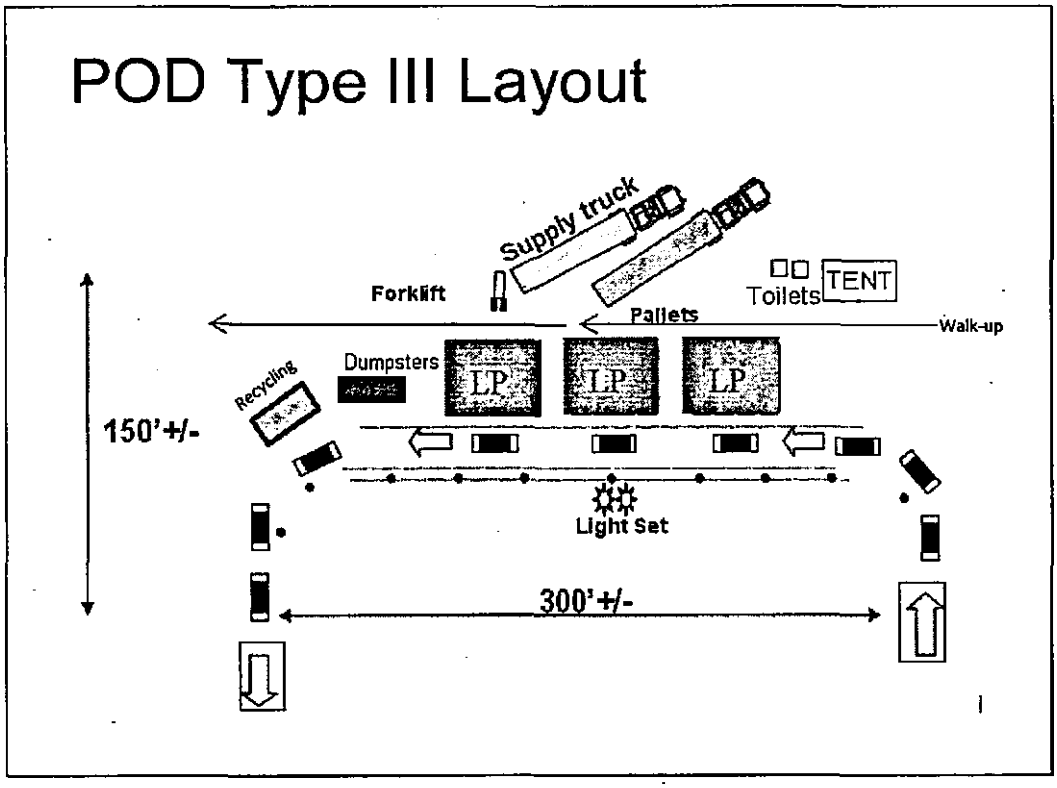
                a. MTA could add these into the existing transportation routes as they have for the Flint Fire Department PODs.
        iii. Memorandums of Understanding (MOUs) may be needed with any of the POD locations.
            1. Site locations would require unrestricted access to the area and be allowed to erect non-permanent structures and stage equipment long term.
            2. Sites would also need to be maintained parking surfaces that would withstand the use and staging of equipment (box trucks, dumpsters, heavy traffic).
        iv. Minimum size of potential PODs is defined by the FEMA Independent Study course 26 (IS26).
            1. All sites should meet the minimum qualifications.
                a. 150 feet by 300 feet and requires a staff
                    i. Vehicle Line – 20 feet wide
                    ii. Loading Point – 80 feet by 40 feet each
                    iii. Supply Line – 50 feet wide
                b. All PODs will have a separate walk-up line that is placed between the supply trucks and the loading points.
                    i. Marked with cones and separated from vehicle traffic.



2. Hours of Operation
    a. *Operational period for the PODs would be Monday through Saturday.*
        i. Church distribution would be supplementing the Sunday distribution.
    b. Uniform hours across all PODs would be essential for clear and concise messaging.
        i. Suggested hours are 12:00PM to 6:00PM Monday through Friday.
        ii. Saturday hours will be 12:00PM till 8:00PM.
3. Staffing
    a. See Attachment A: *Staffing of POD* for POD staffing.
    b. Supply Truck Drivers, see Attachment B: *Warehouse Equipment and Staffing*
    c. Local hires program workers would be restricted to 35 hours of work with five hours of training.
        i. Training may be Incident Command System (ICS) training, Occupational Safety and Health Administration (OSHA) training, or computer literacy courses.
    d. All POD workers would be required to complete a beginner training for safe work practices and be briefed on any standard operating procedures.
4. POD Operational Overview
    a. Support Team Leader is responsible for the overall management of the POD *see Attachment A Staffing/ Equipment Needs: POD for more details.*
        i. This position will be the link between the POD and warehouse(s) for all inventory and shipment requests.
        ii. Will be responsible for the management of the daily set-up and take down of equipment.

iii. Will be the responsible position for signing out and signing in of all handheld equipment.

b. Administrative Support Specialist is responsible for the tracking of outgoing commodities.
   i. Position will be proficient in the data management system.
   ii. Position will be responsible for ensuring households that come to the POD are on the Flint Water System by verifying their unique identifier or address is no unique identifier is present.
   iii. Position will communicate with POD Loaders on what items each household should receive.

c. Recycling Support Specialist is responsible for the collection of filled recycling bags and distribution of new bags and assisting with curbside recycling sign-up.
   i. Position will collect filled recycling bags from the household at the POD and deposit them into the recycling collection point.
   ii. Position will hand out prepackaged recycling bags.

d. Traffic Controller
   i. Position will setup the traffic lanes daily to comply with the established POD layout.
   ii. Direct incoming deliveries as to not impact the pedestrian and vehicle traffic.
   iii. Position will ensure all foot and vehicle traffic stays within the marked lanes.

e. POD Loaders
   i. Positions will handout commodities as directed by the Administrative Support Specialists.
   ii. Loaders will be required to assist with keeping the loading points organized and depositing any refuse in the proper locations.

5. Equipment for POD Operations
   a. For large supply trucks see Attachment B: *Warehouse Equipment Needs*
   b. Equipment for each POD.
      i. One pallet jack *may be staged on the delivery truck.*
      ii. One easy folding canopy tent.
      iii. Two 8 foot banquet tables.
      iv. 10 folding chairs.
      v. Portable heat source during winter months.
      vi. Portable lights or light towers for parking lot where none are permanently installed in the lot.
      vii. One portable generator for lights in tent and technology recharging.
      viii. One portable restroom facility with hand washing station.
      ix. Dumpster for refuse from unpalletizing the supplies.
      x. One large recycle bin, *located next to the dumpster.*
         1. To be coordinated with the established recycling program.
      xi. One fire extinguisher.
      xii. 4 foot tall grabber traffic cones to establish vehicular and pedestrian traffic flow.

xiii. Reflective safety vests for all workers at the POD.
xiv. First-Aid kit.
xv. 800 mhz radio.
xvi. Three IPads for recording outgoing commodities.

c. Inventory for the PODs
    i. All PODs will be full service offering water, water filtration systems, water filtration system replacement cartridges, and water testing kits.
        1. A maximum of 15 pallets of water may be expected to distribute at each POD daily.
        2. Each PODs inventory would be controlled by the POD Manager.
            a. When supplies are low they will be responsible for contacting the warehouse to order a shipment from the resupply trucks that are on stand-by.
    ii. All water, water filtration systems, water filtration system replacement cartridges, and water testing kits will be supplied from the state warehouse(s).
d. Site Security
    i. All PODs will be required to notify the warehouse of any safety concerns.
        1. Utilizing 800 mhz radios workers will relay all necessary information to the warehouse.
        2. Warehouse personnel will send law enforcement, EMS, or fire representatives to the POD as needed.
            a. In the event of a life threatening situation call 9-1-1.
    ii. Reflective safety vests must be worn at all times by POD workers.

6. Household consumption monitoring
    a. Utilizing a mobile electronic/web based tracking system each POD would record the commodities given to each household.
    b. Each household would be given a unique identifier card.
        i. Each card would track in real time what commodities were picked up and at what time, except for water.
            1. Water inventory and output would be monitored by the POD by the overall quantity that is given out, not on a specific household basis.
        ii. When presented at each POD the card or unique identifier would be scanned by the POD worker assigned to data entry.
            1. Once scanned the POD worker would confirm the household is eligible to receive commodities from the POD.
            2. POD loaders would distribute the desired items into the appropriate vehicle.
    c. If the customer on the Flint Water System does not have their unique identifier information card with them, they may present any form of identification that lists the address for the individual.
        i. The POD worker would be able to manually input the address and search for the correct household that is on the Flint Water System.

d. The database system is capable of monitoring abuse of the system.
e. *The database system would allow for real time data computation.*
f. The warehouse(s) would be able to monitor inventory of each POD.

7. Inventory tracked at the state warehouse(s)
    a. The state warehouse(s) would continue to track using existing inventory management tools.
        i. Incoming shipments will be recorded by the warehouse.
        ii. Outgoing shipments will be recorded by the warehouse.
    b. Commodities given out to Flint Water System residents will be recorded at the PODs (§ 4.c.ii).

Rapid Response

8. Rapid Response Team makeup
    a. Nine Rapid Response Teams would be staged at the state warehouse(s).
    b. Each Rapid Response Team would be comprised of:
        i. Lead driver
        ii. Data entry analyst
        iii. Cargo manager
    c. Each Rapid Response Team would be assigned a Ward.
    d. Teams would operate off a set route within their Ward that is designed to maximize output with minimizing drive time.
    e. 2-1-1 calls for assistance would be assigned to a Rapid Response Team based on the Ward of the calls origin and be placed in que for the team to respond to within 24 hours.
        i. These incoming requests will be worked into the route to not affect the momentum of the team.
    f. Rapid Response Team Equipment
        i. A total of nine heavy duty cargo vans, or heavy duty truck, or 16 foot box truck for the transportation of Rapid Response Team members.
        ii. Only water and water testing kits would be delivered by the Rapid Response Teams.
            1. Water filtration systems, water filtration system replacement cartridges would be delivered by a third party vendor.
        iii. Rapid Response Team vehicles would be loaded with the maximum allowable cargo weight.
        iv. Each Rapid Response Team would be assigned one IPad for documenting all direct water deliveries to Access and Functional Needs (AFNs) populations.
        v. Each Rapid Response Team would be assigned one 800 mhz radio for direct communications with the warehouse.
        vi. Trucks would need to return to the state warehouse(s) for restocking if supplies ran low.

Staffing List

Suggested Daily Staffing for Warehouse 1 (4315 Clio Road, Flint, MI)

(1) General Warehouse Manager

Some heavy lifting may be required. Responsibility for all Warehouse Operations.
Supervises the Shipping/Receiving and Yard Manager, Fleet Coordinator, Floor Workers, Security and Forklift Drivers.

(1) Receiving Manager

Heavy lifting may be required. Responsible for all receiving logs and reconciliations.
Provides daily/weekly report to the General Manager. Supervises the Warehouse Coordinator.

(1) Shipping Manager

Some Heavy lifting may be required. Recieves all requests for distribution of commodities.
Records all shipments and reconciles balances. Reports to General Warehouse Manager.

(1) Warehouse coordinator

Heavy lifting may be required.
Picks orders from warehouse for shipping and coordinates all recievables storage. Reports to Receiving/Shipping Manager.

(1) Yard Manager

Heavy lifting may be required.
Directs all traffic in shipping yard. Reports to General Manager.

(1) Security

Heavy lifting may be required.
Monitor door for unauthorized personnel-based on physical security (fence, alarm, etc...). Reports to General Manager.

(10) Inventory/Receiving/ Floor workers

Heavy lifting may be required.
Staff dedicated to receiving inventory, daily inventory and prepping of orders for shipping.
Reports to General Manager but may take direction from any Manager/Coordinator.

(10) POD Drivers with 26' Box Trucks

Heavy lifting may be required.

(5) Rapid Response Drivers with 20' Box Trucks

Heavy lifting may be required.

(4) Forklift Drivers

Heavy lifting may be required.
Reports to General Manager, takes additional direction from Receiving/Shipping Manager and Warehouse Coordinator.
Must be certified Forklift Operator.

This staffing structure makes the following assumptions:
Technical advisors are not on site
No volunteers
No prisoners from DOC

REQUIRED EQUIPMENT

- 10 26' Non CDL Box Trucks (26,000 GVW or less)
  - Power Ramp/Lift Gate with 2,500-3,000 capacity
- 5 20' Non CDL Box Trucks (26,000 GVW or less)
- 4 Forklifts (Propane)
- 8 Manual Pallet Jacks
- 2 Electric Pallet Jacks
- 10 Electric Pallet Jacks (One assigned to each POD Truck)
- 2 pair of safety wheel chocks
- 1 Pallet puller with chain
- 2 Office Desks
- 1 Laptop Computer
- 1 Internet Connection
- 1 Cell phone
- 1 Multi-function printer/copier/fax
- 25 Folding chairs
- 1 40 yard dumpster
- 1 First Aid & CPR kit
- 1 AED
- 25 Safety Vests
- 100 Pallets
- 40 Gaylord boxes
- 24 Shrinkwrap
- 4 Packaging Tape Dispensors
- 4 Case of packing tape
- 20 Box Cutters
- 40 Extra box cutter blades
- 4 30 gallon trash containers
- 4 Push brooms
- 2 Mop
- 4 Dust pans
- 2 Mop bucket
- 24 Black permanent markers
- 2 box of pens
- other Office Supplies as needed

Suggested Daily Staffing for Warehouse 2 (2629 W. Pierson Rd, Flint, MI)

(1) General Warehouse Manager

Some heavy lifting may be required. Responsibility for all Warehouse Operations.
Supervises the Shipping/Receiving and Yard Manager, Fleet Coordinator, Floor Workers, Security and Forklift Drivers.

(1) Receiving/Shipping Manager

Some heavy lifting may be required. Responsible for all receiving logs and reconciliations.
Provides daily/weekly report to the General Manager. Supervises the Warehouse Coordinator.
Recieves all requests for distribution of commodities.
Records all shipments and reconciles balances. Reports to General Warehouse Manager.

(1) Warehouse coordinator

Some heavy lifting may be required.
Picks orders from warehouse for shipping and coordinates all recievables storage. Reports to Receiving/Shipping Manager.

(1) Yard Manager

Some heavy lifting may be required.
Directs all traffic in shipping yard. Reports to General Manager.

(1) Security

Some heavy lifting may be required.
Monitor door for unauthorized personnel-based on physical security (fence, alarm, etc...). Reports to General Manager.

(6) Inventory/Receiving/ Floor workers

Some heavy lifting may be required.
Staff dedicated to receiving inventory, daily inventory and prepping of orders for shipping.
Reports to General Manager but may take direction from any Manager/Coordinator.

(2) Forklift Drivers

Some heavy lifting may be required.
Reports to General Manager, takes additional direction from Receiving/Shipping Manager and Warehouse Coordinator.
Must be certified Forklift Operator.

This staffing structure makes the following assumptions:
This warehouse will be used for pick-up only from non-governmental and faith-based organizations with proper credentials.
Technical advisors are not on site
No volunteers
No prisoners from DOC
No vehicle deliveries from this location

REQUIRED EQUIPMENT

2	Forklifts (Electric)
6	Manual Pallet Jacks
2	Electric Pallet Jacks
2	pair of safety wheel chocks
1	Pallet puller with chain
2	Office Desks
1	Laptop Computer
1	Internet Connection
1	Cell phone
1	Multi-function printer/copier/fax
15	Folding chairs
1	6-8 yard dumpster
1	First Aid kit
1	AED
15	Safety Vests
100	Pallets
40	Gaylord boxes
12	Shrinkwrap
2	Packaging Tape Dispensors
1	Case of packing tape
10	Box Cutters
20	Extra box cutter blades
3	30 gallon trash containers
2	Push brooms
1	Mop
2	Dust pans
1	Mop bucket
12	Black permanent markers
1	box of pens
other	Office Supplies as needed

Attachments: SEOC EMHSD Staff Schedule February 2016.xlsx

Good afternoon,

Attached is the SEOC staffing schedule for next week, February 22-28.

Again, if you cannot work a shift you have been assigned, it is your responsibility to work with your team and the Logistics Section Chief in advance to determine a replacement.

NOTE: I am sending this to the entire division recognizing that a few of you will not be reflected on this list. Please find your usual position to determine if you are scheduled for next week.

Thank you,
Wendy

Mailing Address:
PO Box #30634,
Lansing, MI 48909

"A PROUD tradition of SERVICE through EXCELLENCE, INTEGRITY, and COURTESY"

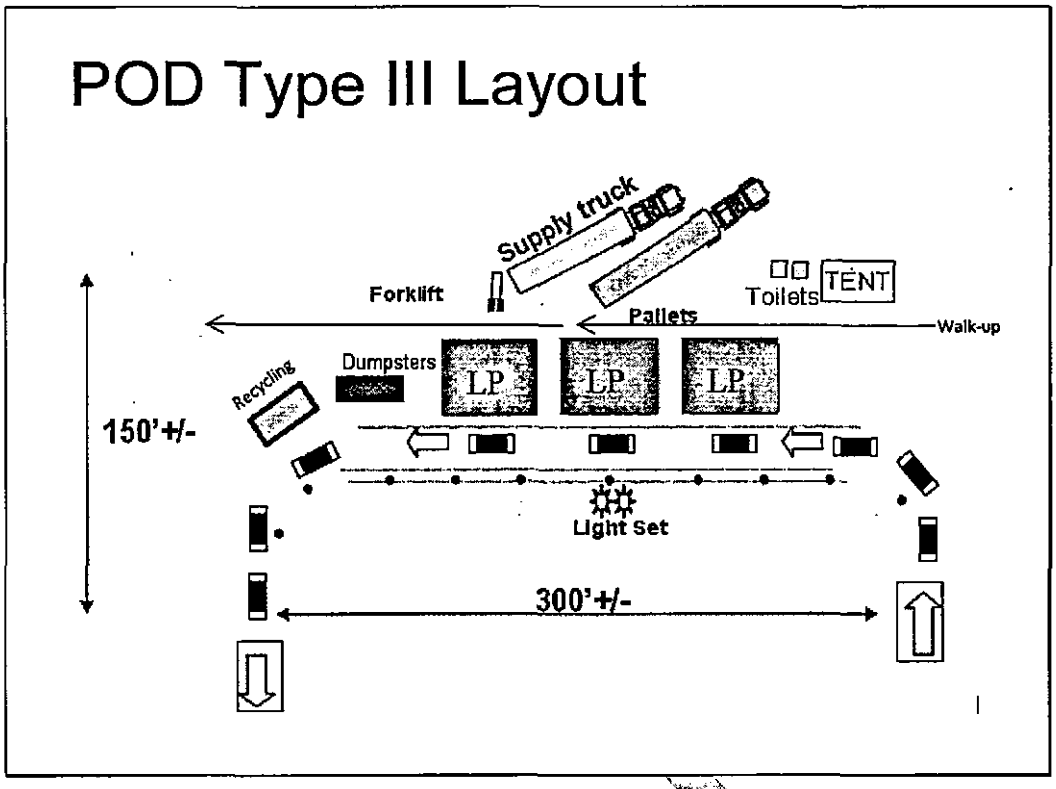
Long-term Distribution Plan

9 PODs Concept

9 Points of Distribution (POD) Concept – 1 POD per City Ward. Physical location to be determined after site visits by MSP/EMHSD and FEMA.

<u>POD Operations</u>

1. Location
    a. One centralized warehouse would be optimal for this process. Until that time the current warehouses would support all POD and Rapid Response Team (RRT) operations.
    b. One POD would be located in each of the existing city Wards.
        i. Site selection would be completed by a MSP/EMHSD liaison officer with technical assistance by FEMA, *completed by February 22, 2016*
        ii. PODs would be located in a paved parking lot with ample ingress and egress for vehicular and pedestrian traffic.
            1. At a minimum two curb cuts from the public roadway would be needed to allow for incoming and outgoing traffic.
            2. Sites should be near an established Mass Transit Authority (MTA) bus stop.
                a. MTA could add these into the existing transportation routes as they have for the Flint Fire Department PODs.
        iii. Memorandums of Understanding (MOUs) may be needed with any of the POD locations, *completed and signed by March 1, 2016.*
            1. Site locations would require unrestricted access to the area and be allowed to erect non-permanent structures and stage equipment long term.
            2. Sites would also need to be maintained parking surfaces that would withstand the use and staging of equipment (box trucks, dumpsters, heavy traffic).
        iv. Minimum size of potential PODs is defined by the FEMA Independent Study course 26 (IS26).
            1. All sites should meet the minimum qualifications.
                a. 150 feet by 300 feet and requires a staff
                    i. Vehicle Line – 20 feet wide
                    ii. Loading Point – 80 feet by 40 feet each
                    iii. Supply Line – 50 feet wide
                b. All PODs will have a separate walk-up line that is placed between the supply trucks and the loading points.
                    i. Marked with cones and separated from vehicle traffic.



2. Hours of Operation
    a. *Operational period for the PODs would be Monday through Saturday.*
        i. Church distribution would be supplementing the Sunday distribution.
    b. Uniform hours across all PODs would be essential for clear and concise messaging.
        i. Hours of operation are 12:00PM to 6:00PM Monday, Tuesday, Thursday and Friday.
        ii. Wednesday and Saturday hours of operation will be 12:00PM till 8:00PM.
3. Staffing
    a. For detailed position specific parameters see *Attachment A: Staffing/Equipment Needs: POD.*
    b. Supply Truck Drivers, see *Attachment B: Staffing/Equipment Needs: Warehouse*
    c. Local hires program workers would be restricted to 35 hours of work with five hours of training.
        i. All local hires would be required to complete basic 800 mhz radio training.
        ii. Training may be Incident Command System (ICS) training, Occupational Safety and Health Administration (OSHA) training, or computer literacy courses.
    d. All POD workers would be required to complete a beginner training for safe work practices and be briefed on any standard operating procedures.
4. POD Operational Overview
    a. Support Team Leader is responsible for the overall management of the POD *see Attachment A: Staffing/ Equipment Needs: POD, for more details.*

i. This position will be the link between the POD and warehouse(s) for all inventory and shipment requests.
ii. Will be responsible for the management of the daily set-up and take down of equipment.
iii. Will be the responsible position for signing out and signing in of all handheld equipment.

b. Administrative Support Specialist is responsible for the tracking of outgoing commodities.
i. Position will be proficient in the data management system.
ii. Position will be responsible for ensuring households that come to the POD are on the Flint Water System by verifying their unique identifier or address is no unique identifier is present.
iii. Position will communicate with POD Loaders on what items each household should receive.

c. Recycling Support Specialist is responsible for the collection of filled recycling bags and distribution of new bags and assisting with curbside recycling sign-up.
i. Position will collect filled recycling bags from the household at the POD and deposit them into the recycling collection point.
ii. Position will hand out prepackaged recycling bags.

d. Traffic Controller
i. Position will setup the traffic lanes daily to comply with the established POD layout.
ii. Direct incoming deliveries as to not impact the pedestrian and vehicle traffic.
iii. Position will ensure all foot and vehicle traffic stays within the marked lanes.

e. POD Loaders
i. Positions will handout commodities as directed by the Administrative Support Specialists.
ii. Loaders will be required to assist with keeping the loading points organized and depositing any refuse in the proper locations.

5. Equipment for POD Operations
a. Supply truck needs are detailed in *Attachment B: Warehouse Equipment Needs*
b. Equipment for each POD is detailed in *Attachment A: Staffing/Equipment Needs: POD.*
c. Inventory for the PODs
i. All PODs will be full service offering water, water filtration systems, water filtration system replacement cartridges, and water testing kits.
1. A maximum of 15 pallets of water may be expected to distribute at each POD daily.
2. Each PODs inventory would be controlled by the POD Manager.
a. When supplies are low they will be responsible for contacting the warehouse to order a shipment from the resupply trucks.
ii. All water, water filtration systems, water filtration system replacement cartridges, and water testing kits will be supplied from the state warehouse(s).

d. Site Safety and Security
    i. All PODs will be required to notify the warehouse of any safety concerns.
        1. Utilizing 800 mhz radios workers will relay all necessary information to the warehouse.
        2. Warehouse personnel will send law enforcement, EMS, or fire representatives to the POD as needed.
            a. In the event of a life threatening situation call 9-1-1.
    ii. Reflective safety vests must be worn at all times by POD workers.

6. Household commodity consumption monitoring.
    a. Utilizing a mobile electronic/web based tracking system each POD would record the commodities given to each household.
    b. Each household would be given a unique identifier card (or similar).
        i. Each card would track in real time what commodities were picked up and at what time, except for water.
            1. Water inventory and output would be monitored at the POD by the overall quantity that is given out, not on a specific household basis.
        ii. When presented at each POD the card or unique identifier would be scanned by the POD worker assigned to data entry.
            1. Once scanned the POD worker would confirm the household is eligible to receive commodities from the POD.
            2. POD loaders would distribute the desired items into the appropriate vehicle.
    c. If the customer on the Flint Water System does not have their unique identifier information card with them, they may present any form of identification that lists the address for the individual.
        i. The POD worker would be able to manually input the address and search for the correct household that is on the Flint Water System.
    d. The database system is capable of monitoring abuse of the system.
    e. The database system would allow for real time data computation.
    f. The warehouse(s) would be able to monitor inventory of each POD.
7. Inventory tracked at the state warehouse(s)
    a. The state warehouse(s) would continue to track using existing inventory management tools.
        i. Incoming shipments will be recorded by the warehouse.
        ii. Outgoing shipments will be recorded by the warehouse.
            1. To the PODs
            2. To Rapid Response Teams
    b. Commodities given out to Flint Water System households will be recorded at the PODs (§ 6.b).
8. Transition from Flint Fire Station PODs
    a. Michigan National Guard (MING) will continue to staff the Flint Fire Station PODs until March 16.

i. Starting Wednesday, February 24 nine local hires will be embedded with the MING to observe how to operate a POD.
    1. These nine local hires will become the Support Team Leaders for each POD.
    2. The Support Team Leaders will be in the fire station PODs until the time that the new PODs are established.
ii. MING may be used at the new PODs as POD Loaders, Traffic Controllers if the current mission is extended.

Rapid Response

9. Rapid Response Team makeup
    a. Nine Rapid Response Teams would be staged at the state warehouse(s).
    b. Each Rapid Response Team would be comprised of (detailed description is in *Attachment C: Staffing/Equipment Needs: Rapid Response)*:
        i. Driver
        ii. Plumbing Apprentice
        iii. Direct Delivery Specialist
    c. Each Rapid Response Team would be assigned a Ward.
    d. Teams would operate off a set route within their Ward that is designed to maximize output with minimizing drive time.
    e. Rapid Response Teams would only be needed to deliver water to Access and Functional Needs households.
    f. 2-1-1 calls for assistance would be assigned to a Rapid Response Team based on the Ward of the calls origin and be placed in que for the team to respond to within 24 hours.
        i. These incoming requests will be worked into the route to not affect the momentum of the team.
    g. Rapid Response Teams would restock their vehicles at the state warehouse(s).
10. Access and Functional Needs (AFN) Populations
    a. AFN populations will be receiving direct mailed water filtration systems and water filtration system replacement cartridges.
        i. United Parcel Service (UPS) donated the resources to ship these filters to the AFN households on the Flint Water System.
    b. Water would be delivered to this population by the Rapid Response Teams.

Subject: DRAFT: Long-Term Distribution Plan
Attachments: Long term Plan Timeline.docx; Long Term Plan Attachments.docx; 9 PODs Concept.docx

Capt,

Attached is where we are as of 4:30 p.m. today.

I received a call today from the GST MI Works office reference the jobs program and hiring the staff next week to shadow the NG. I provided information based on discussions with NG staff in the SEOC. They are working to make this happen, but it may not be Wednesday. I will be attending the meeting in Flint on Monday regarding the jobs program and I hope to be able to have a better date on this. We may need to bring in another agency (Civil Service?) to assist with job descriptions, qualifications, and pay ranges.

We started on a timeline this afternoon, but it's still missing items. I have attached the draft. We will expand on this over the weekend/early next week.

DTMB is assisting with research for timelines and costs to implement a tracking mechanism for the commodities, as well as a direct delivery model for filters/cartridges.

MDOC has provided the staffing and equipment requirements for the two warehouses, and we're currently working them into the plan.

Lt. Roach is planning to work on site selection early next week. GIS is currently developing a rough list for her. FEMA GIS provided a map layer that GIS is working from.

FEMA provided a list of IS training courses that will be worked into the plan.

Let us know if you have any questions or concerns with anything.

Thanks,
Bri/Jay

Long-term Distribution Plan
Timeline of Events

February 23 – POD Site Selection Completed

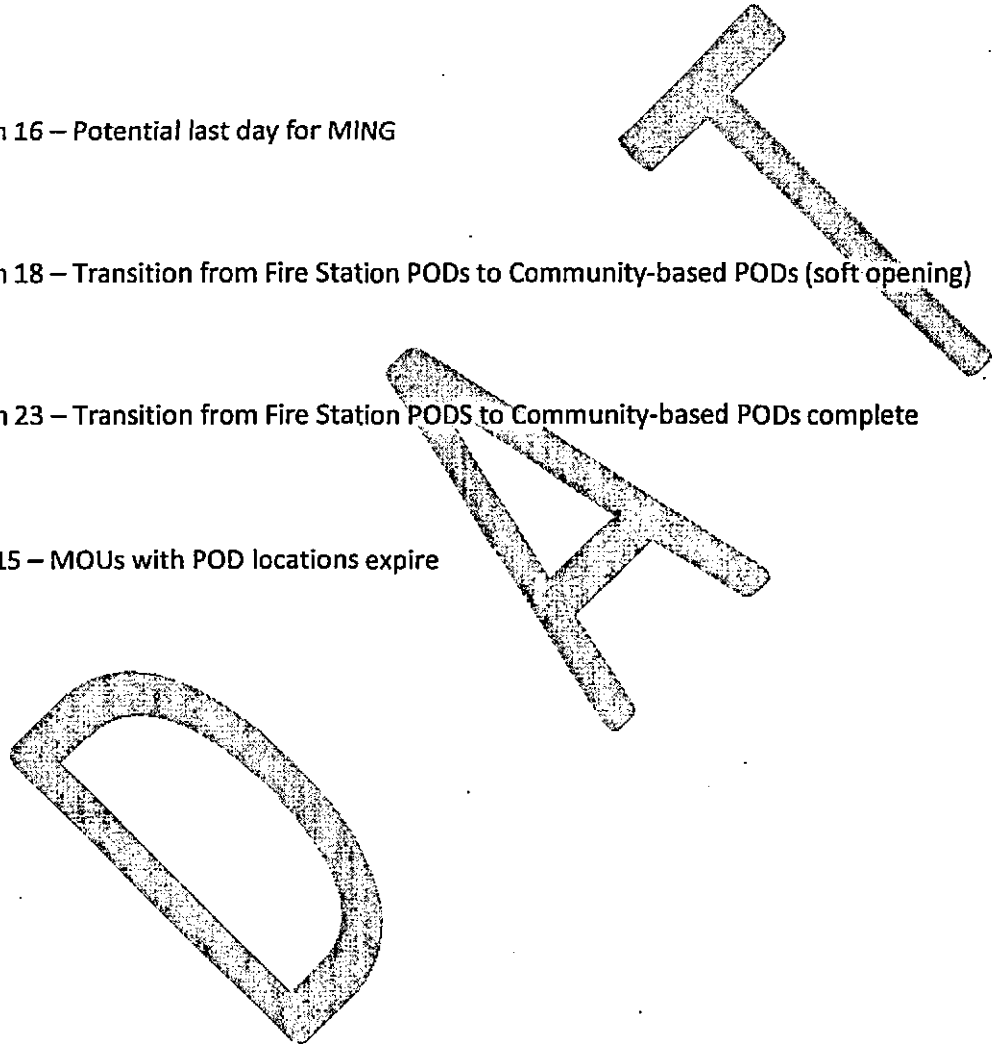
March 1 – POD Site MOUs Signed (90 day life span)

March 16 – Potential last day for MING

March 18 – Transition from Fire Station PODs to Community-based PODs (soft opening)

March 23 – Transition from Fire Station PODS to Community-based PODs complete

June 15 – MOUs with POD locations expire



Attachment A
Staffing/Equipment Needs: POD

STAFF

Total Staff Needed: 83 personnel

Overall POD Management

1 POD Manager: responsible for the daily operations of the PODs. This includes all staff and resources on the ground throughout the activation (all PODs). Ensure/maintain good order of the PODs.

1 Administrative Support Specialist: works alongside of the POD Manager to support daily operational needs for maintaining the PODs.

POD (per POD)

1 Support Team Leader: supervises ground level support operations including: ensuring equipment used onsite has been inspected, maintained, and used in a safe manner, coordinating supply truck movement onsite, conducting resupply operations including offloading commodities and resupplying the loading line, maintaining accountability of all commodities received, on hand, and distributed from the site, maintaining all paperwork relating to resource accountability and providing daily resource reports

2 Administrative Support Specialist: ensure tracking and accountability of commodities distributed at the PODs utilizing the selected method of tracking (still being determined)

1 Recycling Support Specialist: works with a team of individuals who would properly recycle water bottles and other supplies.

1 Traffic Controller: manages the movement of vehicles through the POD

4 Loaders: responsible for loading set quantities of supplies into customer vehicles; coordinate with the Support Team for resupply of the loading line; responsible for the movement of pallets to and from the loading line and removing empty pallets

EQUIPMENT

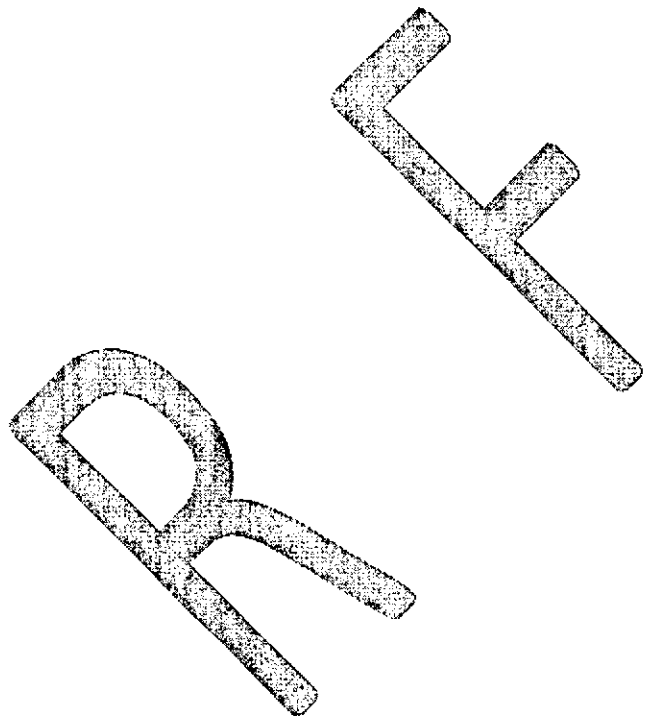
Required (per POD)

- 1 – Pallet jack (*may be staged on the delivery truck*)
- 1 – Easy folding canopy tent
- 2 – Eight (8) foot banquet tables
- 10 – Folding chairs
- 1 – Portable heat source during winter months
- 1 – Portable restroom facility with hand washing station
- 1 – Dumpster for refuse from unpalletizing the supplies

- 1 – Large recycle bin (*located next to the dumpster; to be coordinated with established recycling program*)
- 1 – Fire extinguisher
- 9 – Reflective safety vests for all workers
- 1 – First aid kit
- 1 – 800 mHz radio
- 3 – Mobile devices for tracking commodities, with car and/or portable chargers
- Four (4) foot tall grabber traffic cones to establish vehicular and pedestrian traffic flow (*number will be site specific*)

Optional – Dependent on Location (per POD)

- Portable lights or light towers for parking lot where none are permanently installed in the lot
- 1 – Portable generator for lights in tent and technology recharging



Attachment B
Staffing/Equipment Needs: Warehouses

STAFF

Total Staff Needed: XX personnel

Warehouse 1

1 – General Warehouse Manager: responsible for all warehouse operations; supervises the Shipping/Receiving and Yard Manager, Fleet Coordinator, Floor Workers, Security, and Forklift Drivers; some heavy lifting may be required

1 – Receiving Manager: responsible for all receiving logs and reconciliations; provides daily/weekly report to the General Warehouse Manager; supervises Warehouse Coordinator; heavy lifting may be required

1 – Shipping Manager: receives all requests for distribution of commodities; records all shipments and reconciles balances; reports to General Warehouse Manager; some heavy lifting may be required

1 – Warehouse Coordinator: responsible for rotation of inventory; coordinates all receivables storage; reports to Receiving/Shipping Managers; heavy lifting may be required

1 – Yard Manager: directs all traffic in shipping yard; reports to General Warehouse Manager; heavy lifting may be required

1 – Security: Monitor door for unauthorized personnel-based on physical security (fence, alarm, etc.); reports to General Warehouse Manager; heavy lifting may be required

10 – Inventory/Receiving/Floor Workers: responsible for receiving inventory, tracking inventory, and preparing orders for shipping; reports to General Warehouse Manager, but may take direction from any manager/coordinator; heavy lifting may be required

12 – Drivers: responsible for driving 26 foot box truck to POD locations for distribution of commodities; ensure POD locations maintain adequate supply throughout operational hours; heavy lifting may be required

4 – Forklift Drivers: must be certified Forklift Operator; offload incoming inventory and load outgoing trucks; reports to General Warehouse Manager, but would take direction from the Receiving/Shipping Managers and Warehouse Coordinator; heavy lifting may be required

Warehouse 2

Attachment C
Staffing/Equipment Needs: Rapid Response Teams

STAFF

Total Staff Needed: 27 personnel

Per Team Staffing (9 total teams/1 team per Ward)

1 Direct Delivery Specialist: responsible for direct delivery of supplies into the community

1 Plumbing Apprentice: will work alongside a local plumber to assist in changing out filters in affected homes

1 Driver: delivers supplies within the community; individuals could be asked to drive large vehicles in all weather conditions throughout the city

EQUIPMENT

Required (per team)

- 1 – Heavy duty cargo van or truck, or 16' box truck (*dependent on number of Access and Functional Needs residents in specific Ward*)
- 1 – Mobile device for tracking commodities, with car and/or portable chargers
- 1 – 800 mHz radio

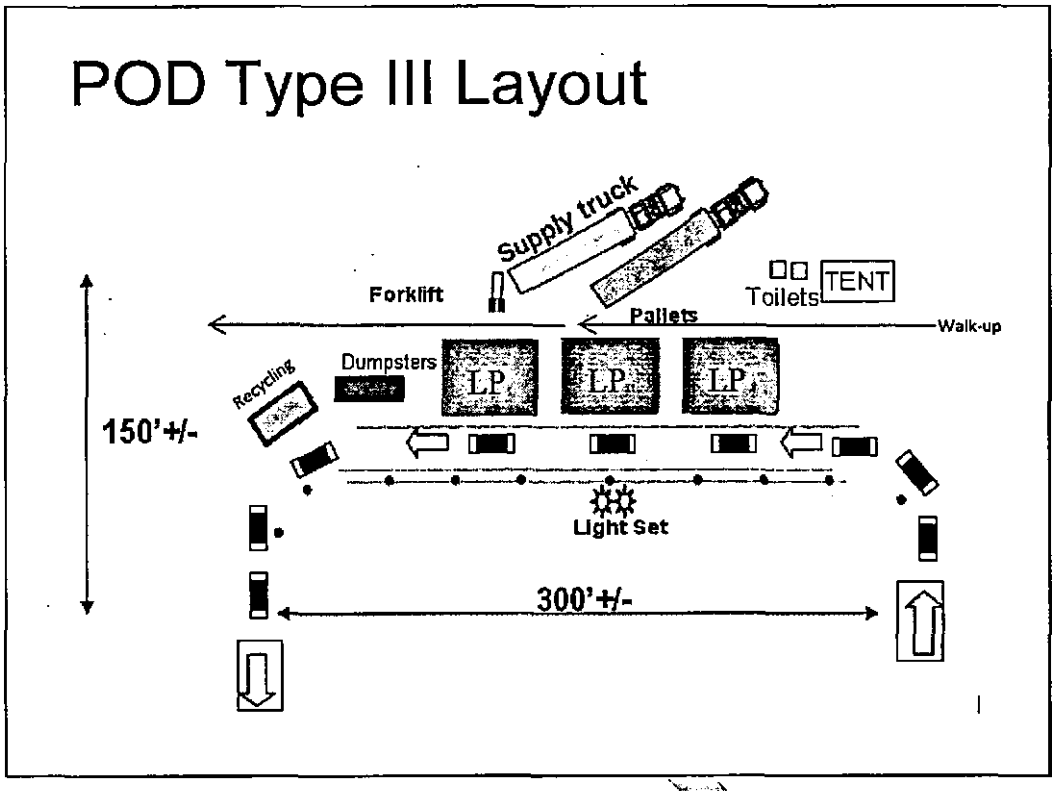
Long-term Distribution Plan

9 PODs Concept

9 Points of Distribution (POD) Concept – 1 POD per City Ward. Physical location to be determined after site visits by MSP/EMHSD and FEMA.

POD Operations

1. Location
    a. One centralized warehouse would be optimal for this process. Until that time the current warehouses would support all POD and Rapid Response Team (RRT) operations.
    b. One POD would be located in each of the existing city Wards.
        i. Site selection would be completed by a MSP/EMHSD liaison officer with technical assistance by FEMA, *completed by February 22, 2016*
        ii. PODs would be located in a paved parking lot with ample ingress and egress for vehicular and pedestrian traffic.
            1. At a minimum two curb cuts from the public roadway would be needed to allow for incoming and outgoing traffic.
            2. Sites should be near an established Mass Transit Authority (MTA) bus stop.
                a. MTA could add these into the existing transportation routes as they have for the Flint Fire Department PODs.
        iii. Memorandums of Understanding (MOUs) may be needed with any of the POD locations, *completed and signed by March 1, 2016.*
            1. Site locations would require unrestricted access to the area and be allowed to erect non-permanent structures and stage equipment long term.
            2. Sites would also need to be maintained parking surfaces that would withstand the use and staging of equipment (box trucks, dumpsters, heavy traffic).
        iv. Minimum size of potential PODs is defined by the FEMA Independent Study course 26 (IS26).
            1. All sites should meet the minimum qualifications.
                a. 150 feet by 300 feet and requires a staff
                    i. Vehicle Line – 20 feet wide
                    ii. Loading Point – 80 feet by 40 feet each
                    iii. Supply Line – 50 feet wide
                b. All PODs will have a separate walk-up line that is placed between the supply trucks and the loading points.
                    i. Marked with cones and separated from vehicle traffic.



2. Hours of Operation
    a. Operational period for the PODs would be Monday through Saturday.
        i. Church distribution would be supplementing the Sunday distribution.
    b. Uniform hours across all PODs would be essential for clear and concise messaging.
        i. Hours of operation are 12:00PM to 6:00PM Monday, Tuesday, Thursday and Friday.
        ii. Wednesday and Saturday hours of operation will be 12:00PM till 8:00PM.
3. Staffing
    a. For detailed position specific parameters see *Attachment A: Staffing/Equipment Needs: POD.*
    b. Supply Truck Drivers, see *Attachment B: Staffing/Equipment Needs: Warehouse*
    c. Local hires program workers would be restricted to 35 hours of work with five hours of training.
        i. All local hires would be required to complete basic 800 mhz radio training.
        ii. Training may be Incident Command System (ICS) training, Occupational Safety and Health Administration (OSHA) training, or computer literacy courses.
    d. All POD workers would be required to complete a beginner training for safe work practices and be briefed on any standard operating procedures.
4. POD Operational Overview
    a. Support Team Leader is responsible for the overall management of the POD *see Attachment A: Staffing/ Equipment Needs: POD, for more details.*

i. This position will be the link between the POD and warehouse(s) for all inventory and shipment requests.
ii. Will be responsible for the management of the daily set-up and take down of equipment.
iii. Will be the responsible position for signing out and signing in of all handheld equipment.

b. Administrative Support Specialist is responsible for the tracking of outgoing commodities.
i. Position will be proficient in the data management system.
ii. Position will be responsible for ensuring households that come to the POD are on the Flint Water System by verifying their unique identifier or address is no unique identifier is present.
iii. Position will communicate with POD Loaders on what items each household *should receive.*

c. Recycling Support Specialist is responsible for the collection of filled recycling bags and distribution of new bags and assisting with curbside recycling sign-up.
i. Position will collect filled recycling bags from the household at the POD and deposit them into the recycling collection point.
ii. Position will hand out prepackaged recycling bags.

d. Traffic Controller
i. Position will setup the traffic lanes daily to comply with the established POD layout.
ii. Direct incoming deliveries as to not impact the pedestrian and vehicle traffic.
iii. Position will ensure all foot and vehicle traffic stays within the marked lanes.

e. POD Loaders
i. Positions will handout commodities as directed by the Administrative Support Specialists.
ii. Loaders will be required to assist with keeping the loading points organized and depositing any refuse in the proper locations.

5. Equipment for POD Operations
a. Supply truck needs are detailed in *Attachment B: Warehouse Equipment Needs*
b. Equipment for each POD is detailed in *Attachment A: Staffing/Equipment Needs: POD.*
c. Inventory for the PODs
i. All PODs will be full service offering water, water filtration systems, water filtration system replacement cartridges, and water testing kits.
1. A maximum of 15 pallets of water may be expected to distribute at each POD daily.
2. Each PODs inventory would be controlled by the POD Manager.
a. When supplies are low they will be responsible for contacting the warehouse to order a shipment from the resupply trucks.
ii. All water, water filtration systems, water filtration system replacement cartridges, and water testing kits will be supplied from the state warehouse(s).

d. Site Safety and Security
    i. All PODs will be required to notify the warehouse of any safety concerns.
        1. Utilizing 800 mhz radios workers will relay all necessary information to the warehouse.
        2. Warehouse personnel will send law enforcement, EMS, or fire representatives to the POD as needed.
            a. In the event of a life threatening situation call 9-1-1.
    ii. Reflective safety vests must be worn at all times by POD workers.

6. Household commodity consumption monitoring.
    a. Utilizing a mobile electronic/web based tracking system each POD would record the commodities given to each household.
    b. Each household would be given a unique identifier card (or similar).
        i. Each card would track in real time what commodities were picked up and at what time, except for water.
            1. Water inventory and output would be monitored at the POD by the overall quantity that is given out, not on a specific household basis.
        ii. When presented at each POD the card or unique identifier would be scanned by the POD worker assigned to data entry.
            1. Once scanned the POD worker would confirm the household is eligible to receive commodities from the POD.
            2. POD loaders would distribute the desired items into the appropriate vehicle.
    c. If the customer on the Flint Water System does not have their unique identifier information card with them, they may present any form of identification that lists the address for the individual.
        i. The POD worker would be able to manually input the address and search for the correct household that is on the Flint Water System.
    d. The database system is capable of monitoring abuse of the system.
    e. The database system would allow for real time data computation.
    f. The warehouse(s) would be able to monitor inventory of each POD.
7. Inventory tracked at the state warehouse(s)
    a. The state warehouse(s) would continue to track using existing inventory management tools.
        i. Incoming shipments will be recorded by the warehouse.
        ii. Outgoing shipments will be recorded by the warehouse.
            1. To the PODs
            2. To Rapid Response Teams
    b. Commodities given out to Flint Water System households will be recorded at the PODs (§ 6.b).
8. Transition from Flint Fire Station PODs
    a. Michigan National Guard (MING) will continue to staff the Flint Fire Station PODs until March 16.

i. Starting Wednesday, February 24 nine local hires will be embedded with the MING to observe how to operate a POD.
    1. These nine local hires will become the Support Team Leaders for each POD.
    2. The Support Team Leaders will be in the fire station PODs until the time that the new PODs are established.
ii. MING may be used at the new PODs as POD Loaders, Traffic Controllers if the current mission is extended.

Rapid Response

9. Rapid Response Team makeup
    a. Nine Rapid Response Teams would be staged at the state warehouse(s).
    b. Each Rapid Response Team would be comprised of (detailed description is in *Attachment C: Staffing/Equipment Needs: Rapid Response)*:
        i. Driver
        ii. Plumbing Apprentice
        iii. Direct Delivery Specialist
    c. Each Rapid Response Team would be assigned a Ward.
    d. Teams would operate off a set route within their Ward that is designed to maximize output with minimizing drive time.
    e. Rapid Response Teams would only be needed to deliver water to Access and Functional Needs households.
    f. 2-1-1 calls for assistance would be assigned to a Rapid Response Team based on the Ward of the calls origin and be placed in que for the team to respond to within 24 hours.
        i. These incoming requests will be worked into the route to not affect the momentum of the team.
    g. Rapid Response Teams would restock their vehicles at the state warehouse(s).
10. Access and Functional Needs (AFN) Populations
    a. AFN populations will be receiving direct mailed water filtration systems and water filtration system replacement cartridges.
        i. United Parcel Service (UPS) donated the resources to ship these filters to the AFN households on the Flint Water System.
    b. Water would be delivered to this population by the Rapid Response Teams.

Subject: RE: Coding for City of Flint Water Contamination incident
Attachments: DCDS Hours Entry by Coding Block.docx

Good Morning,

Attached are the guidelines for entering your time in DCDS by coding block for those of you that are working **overtime** for the City of Flint Contamination/Shortage event. Please use **Index 28900 with PCA 28670** for overtime worked for this event. Do not use these codes for your regular hours.

Please contact one of the division timekeepers if you need additional guidance in entering the special codes for recording your overtime worked on this special event. Division timekeepers are Michelle Gilsdorf, Richard Sheaffer, and Nancy Downs.

Thank you,
Nancy

Subject: Coding for City of Flint Water Contamination incident

Good Afternoon:

For any **overtime hours** spent working in the SEOC with the City of Flint Water Contamination/Shortage event, please use the following coding:

Index 28900 with PCA 28670

Any **non-payroll** costs (travel, SEOC meals during activation, etc.) should be coded to:

Index 28900 with PCA 28671.

These codes are not yet active in DCDS but will be by the end of the week. Please let me know if you have any questions.

Thanks,
Penny

Subject: Additional DCDS Coding - City of Flint
Attachments: Activity Tab DCDS.png

Good Afternoon:

The State Budget Office (SBO) has requested some additional coding in DCDS for staff that work on the City of Flint Water Emergency. We will still be coding all overtime costs to PCA 28670. But at their request, we will also be utilizing the "Activity" code in DCDS.

To enter Activity Code

- Open Employee Data Collection
- Click on **Activity Tab** of DCDS timesheet
- On the Unit Entry tab, under Activity column at left, enter F in drop down box and select **FDWP** when it appears.
- Enter total of "**regular and overtime hours**" related to the Flint Water emergency in cell for each date worked.
- These hours should match the total hours for each day you have entered into your timesheet.
- Save when you have entered your activity hours.

Again, this is only for hours spent working on the City of Flint Emergency and should begin with this current pay period. Please let me know if you have questions.

Thanks,
Penny

Hi Tom-

Thanks for the update. As you move forward with the committee and long-term planning, please let us know if there are specific product needs that we can assist in procuring, either through donation or deep discount.

Also, I have not been contacted by the Food Bank. I had reached out to them a couple of weeks ago, though it was a "cold" email, and never received a response. If you would be willing to make an introduction, we would be happy to see if there is anything we can do to help.

Thanks,
Lindsay

Hi Lindsay,

Yes, I've been letting them know. I'll be sitting on that subcommittee too. I believe they'll be meeting on Tuesday mornings, but that hasn't been confirmed yet. I also copied Brianna Briggs and Zach Baker here who are also assisting with long term planning and VAL activities.

Had you been contacted by the Food Bank yet? I have mentioned you to her a few times because their equipment has really been strained with all the additional water shipments.

Thanks Jeannie!

Appreciate the update. We are currently working with Catholic Charities and have had a few conversations with American Red Cross.

Tom - I know that the Community Partners were going to start to break into different committees and just want to make sure any committee working on distribution is aware of Good360 as we work to provide the right needs at the right time. We have a number of partners interested in assisting with donated or deeply discounted goods and hope to work with the players on the ground to get them what they need. We are also very conscious of not sending in unneeded or unwanted goods, which is why we work to be the conduit between nonprofits and our corporate partners.

I'd be happy to jump on a call sometime if you have any questions.

Best regards,

Hi Regina-

I believe Katie said you were taking over from her as FEMA VAL this week. I just wanted to reach out to say that Good360 would like to be connected and do whatever we can to assist in the ongoing efforts. We would also like to connect some local partners we are working with that have not connected yet with the 'Community Partners' group, if you can give me any information on the date, time and place. One of our partners, Mission of Hope has been working diligently in an area with mostly Section 8 housing and because of an appearance on the Rachel Maddow Show, he has received a bunch of support of both water and cash. I think it would be great if he Pastor Bobby's team could join the group.

We have also connected with the 2-1-1 center and are currently looking at options for a few of their needs.

Thanks,

I asked them to take a look at the list I sent you the other day and identify additional partners that they know of that I may have missed. I was informed that this list consists of agencies the MI Dept of Civil Rights has read about that have contributed to relief efforts, or who have considerable inroads to segments of the community. I have not scrubbed it to very that all are nonprofits, but wanted to send along to you. I will also be sharing this with the local partners to conduct outreach and bring these folks to the table. I'm not sure if anyone has reached out to them yet, so just an fyi that they

won't necessarily be familiar with coordinated partner efforts when you do your outreach. We'll work on this over the next few days!

Thanks,
Katie

Subject: Community Partners Meeting Tomorrow

Hi Katie-

I know we had previously mentioned some of our partners on the ground and you mentioned them not being a part of the LTRG. We definitely want to get them involved, so there is more collaboration. Could you send me any details of location/contact/etc that we could forward on?

Thanks so much!

Best,

Lindsay Jones

Subject: Community Partners Meeting - Thursday, February 11th, 3:00 p.m.
Attachments: Community Meeting Attendees.xlsx; Comm Partners Feb 4.docx; Flint MI Master Recovery Plan-1.docx

Hello everyone,

Just a quick reminder...the Community Partners group is meeting, again, this Thursday, 3:00 p.m., in the large community room at the Food Bank of Eastern Michigan's Hunger Solution Center (1938 Howard Ave.).

Attached, please find minutes from last Thursday's meeting, along with an updated list of partners and the most recent draft of the recovery model. There are a lot of names to add each week, as this group continues to grow. If anyone was left out, it was completely inadvertent. These meetings are meant to be completely inclusive to any group (large or small) that is working on the issues facing the community due the water crisis...so, PLEASE invite ANYONE you think we are not reaching.

I am aware that last week's meeting went quite long, however we felt it was important that all attendees have the chance to outline what they are working on.

Having said that, this week's meeting will be structured differently. There will be quick introductions, followed by "report outs" from each of the six community workgroups that have been developed around the recovery model...mental health, physical health, education, communication, recovery resources and control. Following these reports, we will quickly break into our workgroups for additional strategic discussions.

I look forward to seeing everyone on Thursday!

Let me know if you have any questions.

Tony Lasher
Executive Director
American Red Cross of East Central Bay - Michigan
(serving the counties of Arenac, Bay, Genesee, Gladwin, Huron, Lapeer, Midland, Saginaw, Sanilac and Tuscola)
tony.lasher@redcross.org

Flint Water Crisis Recovery Workgroup Notes
Date: February 4, 2016
Time: 3:00 p.m.

Welcome

- Kara Ross, Food Bank
  - Hunger Solution Center
  - Newly renovated
  - Built by community for this purpose (bringing groups together to collaborate and create solutions)

Introductions & Partner Updates

- Tom Webber MSP/EHMSO, state/volunteer emergency liaison
- Jason Gauble, FEMA
- Barbara Horna, St. Vincent de Paul
- Dwayne Clemons, Hamilton Community Health Network
- *Desiree Duell*
  - Community artist and activist
  - Works with Woodside Church, Hispanic Collective, works on covering cracks where people haven't been served, canvassing
- Lauren Tomkins, GHS, Chief Clinical Officer, and Elizabeth Burtch, GHS
  - Behavioral health work group forming, met on Tuesday, from that meeting developed four workgroups, lots of signups, public health partners are facilitating future meetings for those groups, good momentum
- Jeannie Moran
  - FEMA liaison, supporting Tom Webber, working to develop long term solutions, making sure right agencies are at the table
- Monica Day, MSU extension
  - Water resources educator
  - Working on grant proposal on environmental justice with WOW outreach
  - Purpose of grant to get critical information to people about what their water resources are, starting Sept 1 running for 2 years
  - Seeking partners, sign up sheets available

- Anthony Sitko and Eileen Tomasi, Flint Community Schools
    - Working with deparment agencies, state EOC, Walmart, other donors, making sure we get fresh bottled water to all students in all schools
    - Working on fixture faucet/infrastructure issues as well
- Isaiah Oliver, Community Foundation of Greater Flint
    - Scoping out resources for long short term
- Allan Wachendorfer, National Association of Social Workers Michigan
    - Social workers signed up to plug themselves in wherever needed
- Michael Hood, Crossing Water
    - NGO frontline relief agency, going door to door, have social workers, RNs, teams going in to help homes with filters and education about how to use filters
    - Also creating PSA billboards in buses, schools, rolling vehicle with message, currently have 7-8 industrial water filters for schools, clinics, hoping to get more
    - Working on a medical clinic on the Eastside, goal is to find holes in system and fill them
- Carol Thompson Health and Human Services
    - Working from day one on filter distribution
    - Connecting resources, looking at gaps and services, nutrition, behavioral health
    - Looking to connect with partners, looking at transportation needs for parents and children who need testing
    - Works with GCCARD and weatherization services, looking for opportunities to help
- Matt Purcell, GCCARD
    - Involved from day one with distributions
- Vicki Sacharski, Disability Network
    - Advocacy organization, here to make sure people with physical, mental, emotional disabilities getting resources they need, here for long haul for future disabilities
- Carol Beauchamp, disaster mental health chairperson for Red Cross
- Linda Dintenfass, Red Cross and UM Flint
    - UM Flint hosted first water distribution in October
    - Free series of courses at university, also available online

    - UM Flint committed to vitality and vibrancy of city of Flint, to supporting all efforts
    - UM Flint Public Health department cooperating with Genesee Health Department to distribute water and testing, talking about Hispanic populations, underserved populations
    - UM Flint public health looking at social factors that impact chronic health outcomes
    - Public health program here to help support organizations' efforts in community
- Yvonne Lewis, director of outreach for Genesee Health Plan
    - Engaging and educating communities
    - Health plan offers gap coverage for individuals without insurance for a myriad of reasons
    - Engaging faith communities, partnering with Hispanic community, coordinating events to provide access and education
    - Continuing to provide, develop, and plan these outreach activities,
    - Working with UM Flint on water course, facilitate dialogue, answer questions, community based participatory teaching
- Genesee Health Department
    - Blood clinics, nurse case management, notify individuals who have high lead results, education and outreach, working with partners
- Diana Kelly, Flint resident, Red cross volunteer
    - Here to leverage resources, increase communication, get information to community residents
- Rob Kelly, Region 3 Healthcare
    - Regional coordinator for healthcare coalition, goal to support hospitals and providers of long term care in emergency preparedness
- Captain Jamal Gwathney, HHS
    - Out in community trying to get community's opinion on what is needed, here to listen, gather information, and make sure thoughts and needs are brought to federal level
- Mary Lorah-Hammond, GST Michigan Works
    - Hoping to partner to reach out to residents, to work with families with children who are on cash assistance
    - Over 900 families with Flint address currently served, also have employment services, serve about 3500 people a month from zip codes 04 and 03

    - Best to take services to where people already are
- Chris DeVriendt, EOC
    - Guide and oversee this process from beginning to end
- Jamie-Lee Venable, United Way,
    - Helping to secure water, filters, fill gaps
    - Work closely with Red Cross and VRC
- Mary Jo Herbig, Community Foundation of Greater Flint
    - Child health and development fund, fundraisers, special events across nation
- Chrissy Cooper and Vicky Schultz, Catholic Charities
    - Working with Red Cross and Food Bank
    - Main donation site for city, sending water donations out
    - 3000 cases a day through facilities
    - Working with area churches to distribute water that is not palletized,
    - Hosting Michigan state extension class on healthy cooking and healthy eating
    - Hosting a crisis support group to do different health checks and mental health support every Tuesday 1-3
    - Continuing to do meals, incorporating healthy foods as much as possible, 1000 meals a day, student nurses doing testing
    - Need volunteers! 2 or 3 semis a week that need to be unloaded
- Rick Carter, executive director, Michigan Faith in Action
    - Flint area congregations working together
    - Been in community one decade, now statewide, present in Flint & Detroit, Lapeer county and Saginaw
    - Organizing from the perspective of the residents, last few days 6 or 7 national organizations, working with them
    - Doing a lot of canvassing to learn from residents what their needs and gaps are
    - Residents want to see infrastructure change, water bills change
    - Continuing to focus on every single ward in the community then distill information
    - Goal to get a good statement of what people of Flint want done and what's important to them
    - Lots of support and interest, community meeting Saturday 12:30 at St. Michaels Church
    - Planning a major benefit concert on February 28

- Jocelyn Hagerman and Becky Foerster, Hagerman Foundation
  - Want to create website: flintforward.org
  - Purpose is to portray positive stories, short videos of people helping people
  - A resource for people having these issues directly affecting them that can give them a voice, looking for positive stories, hoping to have an ongoing storybook toward resolution
  - If you have any input please get in touch
- Steven Smith, filmmaker
  - Looking to tell the story of Flint and the positive things being done to help community
  - Counteract focus on negativity outside of Flint
- Jennifer Acree, C.S. Mott Foundation
  - Important to hear about needs and gaps
  - Flintwater.com a scam, if you find valid information let us know but spread the word that this site can't be trusted
- David Merot, Chamber of Commerce
  - Data analyst consultant
  - Trying to create a map to locate all resources
  - Working with UM Flint, here to coordinate the ways we can visually interact with each other
  - Also working on launching an app, limitation is that not all residents may have access to phone or data for app
  - App is currently a prototype, for Android first, then Apple and iPad
- Kristina Johnston, Chamber of Commerce
  - Water distributed to businesses
  - Working on some economic development initiatives for impacted businesses
  - Continuing to let people know businesses are still open, that Flint is a good place to work
- Izzi Joseph, Chamber of Commerce
  - Getting information to local business owners, working with schools, working on frequently asked questions
- Anjan Banerjee, Mott Children's Health Center
  - Working with United Way, Hurley

- Qiana Towns
    - Community outreach coordinator working on bottles for babies, focused on water distribution
    - Also began working on distributing educational materials (how to get a recycling bin, water information, etc.)
- Gilberto Guevarra, Hispanic Latino Commission of Michigan
    - Appointed by governor to help serve Hispanic population
    - Good to see information in different languages
    - Need to work with undocumented
    - Important to have fluent Spanish speakers in the field, not just translators
- Hernando Fernandez, Hispanic Latino Commission of Michigan
    - Appointed by governor to deal with issues impact on Hispanic community
    - First organization to raise alarm about lack of translations of documents
    - Eastside is the area of focus where most Latinos are
    - Currently four distribution centers for water, liquid formula, wet wipes
    - Fortunate to be partnered locally with United Way, Red Cross, and also getting help outside of area
    - Have mailing list, go to homes, reach people who don't open to national guard or police
    - Working with license and regulation department
    - Convene all Spanish language documents and make them available,
    - Working on multiple language translations, not just Spanish
- Ed Burger, MTA
    - Helping move volunteers, distribute filters and water, here for long haul
- Bill Goodwill and Jack Huffman, Salvation Army
    - Working with all partners
    - One function is to be a secondary or tertiary feeding group for volunteers, through United Way and donations
    - Also helping people pay their water bills
- Patti Kerns and Cherylynn Kreider, Valley Area Agency on Aging
    - Advocate for seniors and disabled people
    - Distributing water since last year to homebound seniors

    - Coordinate with United Way and GCCARD
    - Have social workers, nurses, nutrition program, wherever a fit will enter
- Christine Healey, Elder Care Senior Placement
- Diana McKittrick, Center for Deaf Communication Access
    - Just got into picture, deaf individuals have not been informed adequately
    - Hoping to work with other agencies to make information accessible
    - Hoping to build more relationships in community
- Luke Zelley, Disability Network
    - Working on getting word out to 10,000 people with disabilities, participating in meetings, making sure communication is available to those with disabilities
    - Can do outreach with trust, hope to organize and share information
- Joel Nelson, Tricia Booker, and Sara Pulliam, USPHS
    - Working with community resilience group
    - Augmenting efforts of four work groups: stress management for providers, psych first aid training, community resource recovery planning, and data and gap analysis
    - Working to focus specifically on underserved populations: children, elderly, people with disabilities, people who do not speak English
    - Need for trust building and accountability, figure out how to leverage partnerships to reach every individual
    - Can contact at jnelson3@hrsa.gov
    - Goal to put together behavioral health response plan that is community-driven. Tricia, Sarah
- Erin Powell, Dietician, MSU Extension
    - Created lead & nutrition resources
    - 24,000 delivered to extension office tomorrow, also available online
    - Working on Spanish and Arabic translations
    - Working on education community on nutrition
    - Also working on organizing different universities, athletes who want to volunteer, trying to place them where most needed
    - Contact number: 244-8500
- Cathy Newkirk, MSU Extension
    - Works on chronic disease prevention
    - Liaisons between university and community

    - Have nutrition, emotional health, classes for parents and children, wealth of resources for community
    - For last 9 months coordinating panel of 30 individuals who report monthly observations about behavioral health in community through survey funded by grant
    - Seen increase in adult anxiety, depression, and stress in last few months
    - Website being created by MSU extension where all resources will be housed: msue.msu.edu/lead
- Charles Tommasuco, Executive Director, Family Service Agency
    - Provide in home care to about 2000 seniors
    - Some feedback is that everyone knocks on their door with the same thing
    - Need a database to document what is distributed, as opposed to four or five organizations all going to the same place
    - After last meeting we got information of all people outside of city limits who get water from city of Flint (available on city website)
- Kara Ross, Food Bank
    - Working in city with partners and with state, EOC, Red Cross, to distribute water
    - 30 sites, 25 semis a week, working to have points in every ward, to make larger sites, looking to up lead-mitigating items in food distribution, want to be part of network
- Quincy Murphy, Urban Transformation
    - Working on incorporating emergency policy
    - Fighting to reduce water rates
    - Pay minimum wage for individuals to distribute water?
    - Training opportunities?
    - Service lines need to be replaced, need training for local jobs
    - Funding to reimburse residents for contaminated water
    - Recruit local residents to go door to door, do assessments of abandoned houses
    - Grassroots organizers feel neglected, need to make place for them at the table
    - Need whole house filters, not just kitchen sink
- Deane Olive, Unitarian Universalist Congregation of Flint
    - Gathering and disseminating information

    - Looking at accountability
    - Interested in collaboration between different services
    - Need to get beyond random initiatives so that there is not duplication or redundancy in reaching households
    - Interested in collective accountability and collective coordination
- Todd Lamb, First Presbyterian Church of Flint
    - Just begun ramping up response
    - In last ten days have gotten volunteers to reach out to 200 addresses within Flint in congregation
    - Want to reach out to other churches to help their own congregations
    - Want to find out what the long term response is going to be
    - Need for emotional and spiritual care important to restoring trust and dealing with concerns, church can offer resources in this area
- Amy Krug, Rotary Club of Flint
    - Water a primary area of focus of club
- Lonnie Thomas and Eddie Blackmon, Southern Baptist Disaster Relief
    - Here to support county emergency management
    - Here to support distribution of water and filters
- Mike Moorman, interim director of countywide programs for GISD
    - Focused on vulnerable populations and their families
    - Early childhood, focused on trying to get best information out to parents
    - Grateful for collaboration with GCCARD, Flint schools
    - Leverage additional programs and services for early childhood, focused on long term impact and future educational needs
    - Want to have special services and special education available as needed
- Danielle DeSimone, Genesys Health Systems
    - Working to support United Way, Red Cross, Catholic Charities, prioritizing programming to focus on these issues
    - Here to support clinical and educational initiatives
- Mary Musquerda, Our Lady of Guadalupe
    - Only Spanish speaking church in Flint area
    - Concern for undocumented, received many donations
    - Concern is to receive materials in Spanish

    - In process of distributing to homebound, don't have transportation, or are afraid because undocumented—they know church is safe haven
- Charles Schoder, Michigan Department of Civil Rights
    - This department can help ensure brochures can be processed by those with disabilities or limited English proficiency
    - Adopted resolution to hold public hearings in city of Flint, will get sign in list from this meeting to provide more information
- Jenna Holmes, Michigan Community Service Commission
    - Supporting donations, finding warehousing space

Recovery Plan

- *Previous meeting goal: need to bring work together*
- Targeted maps are created, inputting data on mobile app
- These meetings are open to any and all grassroots organizations, no matter how small, all assets need to be in the room
- *Volunteer Reception Center is for the community,* not a Red Cross program (center is simply hosted at Red Cross building)
    - Contact us with volunteer request forms
    - See flintvolunteer.com
    - Looking for people to provide volunteers who can help us run it
    - Eventually this center will be handed over to United Way

Identify Workgroup Partners

- All agencies can focus time on a certain group
    - Water Resource (Kara Ross, Chrissy Cooper)
    - Education (Mike Moorman)
    - Communication (Jamie-Lee Venable)
    - Mental Health
    - Physical Health

Executive Summary & Value Statement

[Insert executive summary & Value Statement here]

Event Overview: Background and Context

Purpose

The purpose of this overarching recovery plan is to provide a common planning model including the community objectives, activities, and success criteria to enable the affected community to recover from the water crisis. This plan will be supplemented by plans produced by each partner agency based on the objectives and activities agreed upon by each partner organization. This plan is also intended to provide a common view among all participating organizations into the objectives, activities, responsibilities, and resources required to reach *destination recovery*.

Long-Term Impact Statement

[Insert-long term impact statement here]

Prolonged Community Impact Recovery Planning Assumptions

[Insert-long term planning and plan execution assumptions here]

Recovery Plan Development Framework

Destination Recovery Model

Organization	Lead	E-mail	Phone

Recovery Plan Implementation First 30 Days

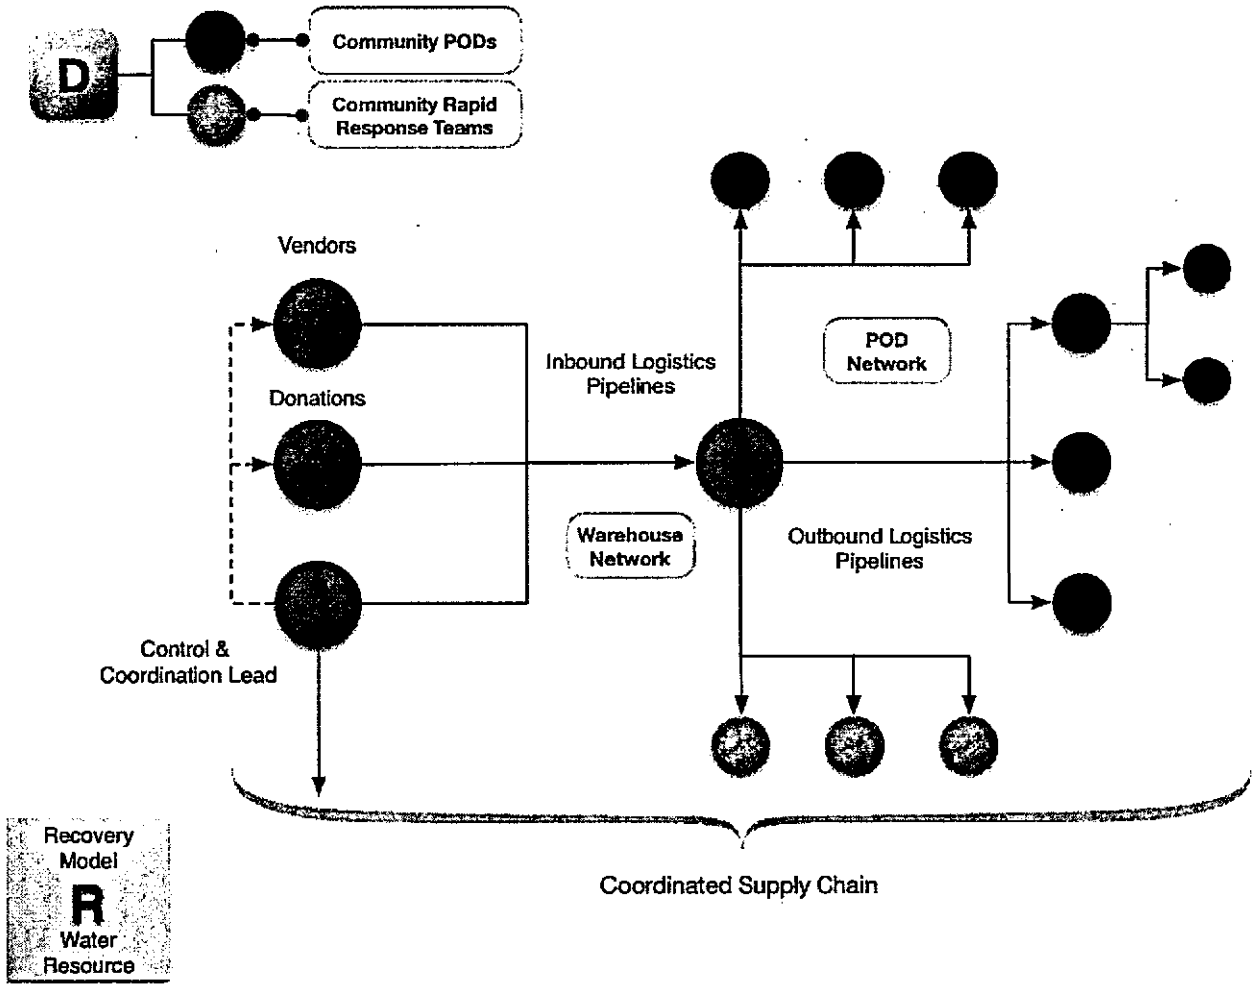
[Insert First 30 days overview narrative here]

Point 1: Accessible Recovery Resources View Dimension

[Insert narrative here]

#	Objective	Partners
	Stabilize and transition recovery resource distribution including water, filters, test kits, etc. using a 2 method/mode of distribution mode (PODs and rapid response)	•
Success Criteria	• Uninterrupted macro-distribution continues • Uninterrupted rapid response continues • Authoritative list of high risk population (by address) is collected and finalized • Recovery resource distribution is collapsed to a two mode model (PODs and rapid response)	

Figure 2. Micro-Recovery Resource Distribution Model



Key Activities with Assignments

Activity	Responsible Organization/s
Continue rapid response coordination	
Continue rapid response for known high risk population	
Continue rapid response for call-ins	
Assess and collect additional addresses for high risk population and coordinate with ARC for continued rapid response	
Continue to operate PODs	
Continue to operate distribution warehouse	
Continue to coordinate inbound and outbound logistics	
Collapse existing water resource methods to a two method approach	

#	Objective	Partners
	Finalize recovery resource micro-distribution plan with a defined cutover date	•
Success Criteria	• Actionable, implementable, and resourced micro-distribution plan is finalized • All partners have required resources defined including budgets and additional resource requests	

Key Activities

Activity	Responsible Organization/s
Develop and finalize community micro-distribution plan	
Participating organizations develop and finalize forward leaning internal organizational micro-distribution support plans per time block (R+30, R+60, etc.)	
Participating organizations identify required resources including have/need resources, budget requirements, and additional resource request	
Resource requests are evaluated, sources identified and resources developed/procured/distributed by and to participating organizations	

#	Objective	Partners
	Implement support and supply chain structure for full transition to micro-distribution from State and county EMA to community control and coordination lead prior to cutover date	•
Success Criteria	• Supply chain is finalized including coordination and control lead • Community inbound logistics pipeline is established/transitioned from the state • Community outbound logistics pipeline is established • Supply chain is fully resourced and implemented	

Key Activities

Activity	Responsible Organization/s
Transition vendor contacts and contracts to local coordination and control lead	
Establish and resource inbound logistics pipeline for recovery resources	
Establish and resource outbound logistics pipeline for recovery resources	
Develop and implement donation guidelines and acceptance structure	
Establish, resource, and transition warehouse/s	

Micro-Distribution Hubs

HUB churches will network with surrounding churches and establish agreed upon distribution schedules.

HUB churches will provide the list of churches that will obtain their water from the HUB church. This list will be sent to Lt. Roach at Roachb@michigan.gov.

Each ward will have one central church to be the Hub for water distribution for that area/ward. Within that ward will be the 3 sub-Hubs that will provide services to that area. Each hub will have the following:

- Loaders (National Guard/Sheriff work detail)
- Admin (Address look-up to direct you to your nearest hub)
- Water
- Water filters/replacement cartridges
- Home water test kits
- Provide mobile lead testing clinic, twice a week for individuals without insurance. The mobile clinics will ONLY be at the ward hubs. There will be no door to door clinics. Once tested, residents will receive a lead awareness nutrition booklet which will provide education on lead prevention tips for families.

- Recycling center for the empty water bottles will be placed at all 9 ward hubs.

Micro Distribution Hubs (PODs)			
Church Name	**Address**	**POC**	**Phone**
North: Foss Avenue Baptist Church	1159 East Foss Avenue, Flint MI	Jackie Scott	810-787-9019
North West: St. Mark Baptist Church	3020 DuPont NE, Flint MI	Angie George	810-955-6297/810-234-6609
South Central: El-Shaddai Church of God in Christ	920 Walnut, Flint MI	Elder Eddie Kennedy	810-513-6762
South East: Grace Emmanuel Baptist Church	3502 Lapeer Road, Flint MI	Glenna Gates	810-449-7853
Divine Revelations	902 Huron Street, Flint MI	Pastor Williams	810-931-0310

Micro-distribution PODs

Micro Distribution Points (PODS)			
Church Name	**Address**	**POC**	**Phone**
Saints of God	2200 Forest Hill, Flint MI	Rev. Alfred Harris	810.394.6787
Mt. Zion Baptist Church	2109 M.L.King, Flint MI	Pastor Rodney Ellison	810.309.6543
Metropolitan Baptist Church	930 E. Mrytle Street, Flint mi	Pastor Herbert Miller	336.240.1634
Mt. Carmel Baptist Church	1610 W. Pierson Road, Flint Mi	Pastor James Kennefy	810.691.5347
Mt. Calvary Baptist Church	4805 N. Saginaw, Flint MI	Pastor Henry Fuller	810.787.2563
Grace Emmanuel Bapist Church	3502 Lapeer Road, Flint Mi 48503	Pastor Marvin Jennings	810.743.3900
Asbury United Methodist Church	1653 Davidson Road, Flint Mi	Pastor Tommy McDoniel	248.705.4401
Christ Fellowship Baptist Church	317 E. Hamilton Ave., Flint Mi	Dea Gilcrest	810.238.9605
Gospel Temple Baptist Church	735 Wager, Flint, MI	Pastor Lewis	810.814.0045
New israel Missionary Baptist Church	3417 N. Saginaw St., Flint, MI	Pastor Daniel Bridges	810.516.0478
St. Paul Baptist Church	2115 W. Coldwater Rd, Flint, MI	Pastor Pettigrew	810.964.3755
Mt. Sinia Missionary Church	1215 E. Downing Ave., Flint, MI	Pastor Collins	810.394.4772
Mt. Pisgah	6415 N. Clio Rd	Pastor Hill	810.938.6672
Joy Tabernacle Church	2505 N. Chevrolet, Flint,	Pastor Denard	313.258.8967

Micro Distribution Points (PODs)			
	MI	Robinson	
FairHaven Baptist Church	1379 Louis Ave, Flint, MI	Cassandra	810.813.5702
Vernon Chapel	5802 DuPont St, Flint, MI	Rev. Helen Williams	810.814.0243
Galilean Baptist Church	109 W. Holbrook Ave	Pastor Sean Payne	810.814.5974
Triumph Church	1657 Broadway Blvd., Flint, MI	Cedric Scott	810.610.9590
New Life Missionary Baptist Church	931 E. Hamilton Ave	Pastor Campbell	810.240.1337
Macedonia Missionary Baptist Church	G5443 Saginaw St	Decon Lever	810.875.7650
Gethsemane Missionary Baptist Church	1258 E. Humphrey St	Pastor Randolph	989-695-9880

#	Objective	Partners
	Continue rapid response distribution while collecting high risk and functional and access needs population data for sustained rapid response	•
Success Criteria	• Uninterrupted rapid response continues • Situational awareness and comprehensive list of individuals requiring accessible rapid response support as related to recovery resource distribution is developed	

Key Activities

Activity	Responsible Organization/s

Point 2: Physical Health View Dimension

[Insert narrative here]

#	Objective	Partners
	Implement aggressive neurodevelopment screening and provide education for primary care providers regarding toxic stress	•
Success Criteria	•	

Key Activities

Activity	Responsible Organization/s

#	Objective	Partners
	Expand school nursing capacity	•
Success Criteria	• School nursing capacity reaches a ratio of 1 nurse per 750 well students	

Key Activities

Activity	Responsible Organization/s

Point 3: Mental Health View Dimension

[Insert narrative here]

#	Objective	Partners
	Implement aggressive and routine (yearly) neuropsych assessments of executive function	•
Success Criteria	•	

Key Activities

Activity	Responsible Organization/s

Point 4: Education View Dimension

[Insert narrative here]

#	Objective	Partners
	Every member of the community understand how to test their water and interpret the results	•
Success Criteria	•	

Key Activities

Activity	Responsible Organization/s

#	Objective	Partners
	Every member of the community *understands how to filter water and when* to change filters based on the level of contaminates in their home	•
Success Criteria	•	

Key Activities

Activity	Responsible Organization/s

#	Objective	Partners
	The community is educated and understands the consequences/effect of short and long term lead exposure	•
Success Criteria	•	

Key Activities

Activity	Responsible Organization/s

#	Objective	Partners
	Provide universal early education: Flint Pre-Promise to mitigate toxic stress, buffer potential cognitive impact of lead exposure, and promote school readiness	•
Success Criteria	•	

Key Activities

Activity	Responsible Organization/s

#	Objective	Partners
	Expand libraries in elementary schools as well as pre-post school programming	•
Success Criteria	•	

Key Activities

Activity	Responsible Organization/s

#	Objective	Partners
	Educate school staff regarding the consequences of lead exposure	•
Success Criteria	•	

Key Activities

Activity	Responsible Organization/s

Point 5: Communication View Dimension

[Insert narrative here]

#	Objective	Partners
	Every member of the community understands where and how to receive recovery resources	•
Success Criteria	•	

Key Activities

Activity	Responsible Organization/s

Point 6: Control and Coordination View Dimension

[Insert narrative here]

#	Objective	Partners
	Transition recovery resource control and coordination from state to community lead	•
Success Criteria	• Micro-distribution control and coordination is fully transitioned to local lead organization	

Key Activities

Activity	Responsible Organization/s
Assume operational control and coordination for micro distribution	

#	Objective	Partners
	Identify and track exposed children/cohort	•
Success Criteria	•	

Key Activities

Activity	Responsible Organization/s

Recovery Plan Implementation 30-60 Days

[Insert narrative here]

Point 1: Accessible Recovery Resources View Dimension

Point 2: Physical Health View Dimension

#	Objective	Partners
	Expand WIC eligibility requirements and the number of WIC sites	•
Success Criteria	•	

Key Activities

Activity	Responsible Organization/s

#	Objective	Partners
	Promote breastfeeding education and support services	•
Success Criteria	•	

Key Activities

Activity	Responsible Organization/s

#	Objective	Partners
	Expand SNAP eligibility, increase DUFB enrollment, and increase the number of DUFB sites	•
Success Criteria	•	

Key Activities

Activity	Responsible Organization/s

#	Objective	Partners
	Address food insecurity and increase the availability of accessible nutrition options	•
Success Criteria	•	

Key Activities

Activity	Responsible Organization/s

#	Objective	Partners
	Increase caregiver capacity and the capacity of maternal infant support services	•
Success Criteria	•	

Key Activities

Activity	Responsible Organization/s

#	Objective	Partners
	Increase pediatric healthcare access to patient centered medical home and encourage initiatives between Medicaid, HMOs, and city/county medical homes	•
Success Criteria	•	

Key Activities

Activity	Responsible Organization/s

#	Objective	Partners
	Create the Flint Children's Health and Development Fund	•
Success Criteria	•	

Key Activities

Activity	Responsible Organization/s

Point 3: Mental Health View Dimension

#	Objective	Partners
	Increase social-emotional and behavioral health school counselors	•
Success Criteria	•	

Key Activities

Activity	Responsible Organization/s

#	Objective	Partners
	Increase workforce capacity of mental health specialists including developmental and behavioral pediatricians (DBP), pediatric psychologists, and pediatric psychiatrists	•
Success Criteria	•	

Key Activities

Activity	Responsible Organization/s

#	Objective	Partners
	Expand state-funded county mental health (Genesee Health System) services	•
Success Criteria	•	

Key Activities

Activity	Responsible Organization/s

Point 4: Education View Dimension

#	Objective	Partners
	Promote early literacy	•
Success Criteria	•	

Key Activities

Activity	Responsible Organization/s

#	Objective	Partners
	Increase funding for early intervention and enroll all children in early intervention	•
Success Criteria	•	

Key Activities

Activity	Responsible Organization/S

#	Objective	Partners
	Increase special education capacity	•
Success Criteria	•	

Key Activities

Activity	Responsible Organization/s

#	Objective	Partners
	Provide education for primary care providers regarding toxic XXXXXXXXX	•
Success *Criteria*	•	

Key Activities

Activity	Responsible Organization/s

#	Objective	Partners
	Educate and promote lead exposure dietary mitigation	•
Success Criteria	•	

Key Activities

Activity	Responsible Organization/s

Subject: Community Partners Meeting - Thursday, February 11th, 3:00 p.m.

Hello everyone,

Just a quick reminder...the Community Partners group is meeting, again, this Thursday, 3:00 p.m., in the large community room at the Food Bank of Eastern Michigan's Hunger Solution Center (1938 Howard Ave.).

Attached, please find minutes from last Thursday's meeting, along with an updated list of partners and the most recent draft of the recovery model. There are a lot of names to add each week, as this group continues to grow. If anyone was left out, it was completely inadvertent. These meetings are meant to be completely inclusive to any group (large or small) that is working on the issues facing the community due the water crisis...so, PLEASE invite ANYONE you think we are not reaching.

I am aware that last week's meeting went quite long, however we felt it was important that all attendees have the chance to outline what they are working on.

Having said that, this week's meeting will be structured differently. There will be quick introductions, followed by "report outs" from each of the six community workgroups that have been developed around the recovery model...mental health, physical health, education, communication, recovery resources and control. Following these reports, we will quickly break into our workgroups for additional strategic discussions.

I look forward to seeing everyone on Thursday!

Let me know if you have any questions.

Tony Lasher
Executive Director
American Red Cross of East Central Bay - Michigan
(serving the counties of Arenac, Bay, Genesee, Gladwin, Huron, Lapeer, Midland, Saginaw, Sanilac and Tuscola)

DHHS - Steven Betterly - 1/15/16	Disaster Loans	Small Business Administration	SBA Michigan Dist. Office 477 Michigan Ave., Suite 515 McNamara Building, Detroit, MI Ph. 313-226-6075	Low-interest loans for Individuals and Business who need to replace lead service lines to homes and businesses or replace / repair	You must be in an SBA declared disaster area to be eligible for SBA disaster assistance.	SBA provides low-interest disaster loans to businesses of all sizes, private non-profit organizations, homeowners, and renters. SBA disaster loans can be used to repair or replace the following items damaged or destroyed in a declared disaster: real estate, personal property, machinery and equipment, and inventory and business assets.	Go to: www.sba.gov/loans-grants	Flint not yet eligible as a Federally Declared Disaster.
DHHS - Steven Betterly - 1/15/16	Congregate Meal for Seniors	Valley Area Agency on Aging	Contact VAAA at 810-239-7671 or www.valleyareaaging.org	Individuals age 60 and older	Any individual age 60 or older.	Provides nutritious meals at no cost for individuals age 60 and older.	None	
DHHS - Steven Betterly - 1/15/16	Home Delivered Meals	Valley Area Agency on Aging	Contact VAAA at 810-239-7671 or www.valleyareaaging.org	Individuals age 60 and older	Any individual age 60 or older who are unable to leave their home to obtain food or cannot prepare meals for themselves in their home.	Delivers to the home nutritious meals at no cost for individuals age 60 and older who are unable to leave their home to obtain food or cannot prepare meals for themselves in their home.	Individual assessment by Valley Area Agency on Aging staff.	HDM program may use a waitlist when demand exceeds funding.
DHHS - Steven Betterly - 1/15/16	Water Pipe Polymer Lining	Hobas Pipe USA	U.S Corporate Headquarters 1413 Richey Road, Houston, TX 77073-3508 Ph. 800-856-7473 Email: info@hobaspipe.com	Government - Example companies that retrofit corroded pipe typically for less cost than replacement.	None	HOBAS (CCFRPM) Pipes are centrifugally cast, glass-fiber-reinforced, polymer mortar. These large diameter *pipes are ideally suited for nearly all corrosive piping* applications. HOBAS pipes may be installed by a variety of installation methods. HOBAS pipes can be economically designed for non-pressure and pressure service by varying the quantity, placement, and orientation of the glass-fiber reinforcements.	Sales Office	An example of one possible solution using pipe lining sleeves in the worst *lead leaching areas* instead of digging up and replaceing transmission mains and services lines.
DEQ - Sonya Butler - 1/11/16	Drinking Water Revolving Fund Loans	DEQ	Office of Drinking Water and Municipal Assistance, Revolving Loan Section, Sonya Butler, Chief, 517-284-5433 http://www.michigan.gov/deq/0,4561,7-135-	To assist water suppliers in providing safe/high quality drinking water. Community or non-community (if operated as a non-profit entity)	Any water supplier who owns and operates a community or non-community (if operated as a non-profit entity) water supply.	Dollar Amount(s) Available (Min or Max): Dependent on federal grant amount. Required Match: No local match is required.	Request for Proposals: Municipalities can apply at any time by submitting a project plan	
MDARD - Brad Deacon - 1/19/16	USDA Rural Development Business & Industry Loan Guarantee	USDA Rural Development	James Turner, Michigan Director, USDA Rural Development	Businesses, Nonprofits, Government loan guarantees	Lenders apply for loan guarantees for borrowers. Though most USDA Rural Development programs are limited to rural areas, this program has the authority to fund local food infrastructure in urban areas as long as the project supports farm and ranch income and expands healthy food access in underserved communities.	Loan guarantees for business development, enlargement, purchase of facilities & upgrades, purchase of equipment.	Rolling applications; contact lender or USDA Rural Development Michigan office for more information.	http://www.rd.usda.gov/files/Local_Food_Fact_Sheet_20150401.pdf
MDARD - Brad Deacon - 1/19/16	USDA Agricultural Marketing Service Farmers Market Promotion Program	USDA Agricultural Marketing Service	FMPP Staff by email at USDAFMPPQuestions@ams.usda.gov or by phone 202-720-0933	Grants to Businesses, Nonprofits, Governments	Entities that are eligible to apply include: Agricultural businesses, Agricultural cooperatives, Community Supported Agriculture (CSA) networks, CSA associations, Economic development corporations, Local governments, Nonprofit corporations, Producer networks, Producer associations, Public benefit corporations, Regional farmers' market authorities, Tribal governments	The minimum FY 2015 award per grant was $15,000 and the maximum $100,000.	2015 grant cycle applications were due May 14, 2015; 2016 cycle not yet announced.	http://www.ams.usda.gov/services/grants/fmpp

MDARD - Brad Deacon - 1/19/16	USDA Agricultural Marketing Service Local Food Promotion Program	USDA Agricultural Marketing Service	LFPP staff by e-mail at USDALFPPQuestions @ams.usda.gov or by phone at 202-720-2731.	Grants to Businesses, Nonprofits, Governments	The Local Food Promotion Program (LFPP) offers grant funds with a 25% match to support the development and expansion of local and regional food business enterprises to increase domestic consumption of, and access to, locally and regionally produced agricultural products, and to develop new market opportunities for farm and ranch operations serving local markets. There are two types of project applications are accepted under LFPP—planning grants and implementation grants. Applicants can apply for either but will receive only one type of grant in the same grant cycle. Eligible entities may apply if they support local and regional food business enterprises that process, distribute, aggregate, or store locally or regionally produced food products. Such entities may include: Agricultural businesses and cooperatives, Producer networks and associations, Community supported agriculture networks and associations, Other agricultural business entities (for-profit groups), Nonprofit and public benefit corporations, Economic development corporations, Regional farmers' market authorities, Local and tribal governments	The minimum FY 2015 award per grant was $15,000 and the maximum $100,000.	2015 grant cycle applications were due May 14, 2015; 2016 cycle not yet announced.	http://www.ams.usda.gov/services/grants/lfpp
MDARD - Brad Deacon - 1/19/16	USDA Agricultural Marketing Service Federal State Marketing Improvement Program	USDA Agricultural Marketing Service	Federal-State Marketing Improvement Program, Transportation and Marketing Programs, Agricultural Marketing Service, USDA, 1400 Independence Ave SW, Room 4549-S, Washington, DC 20250, Tel: 202-720-5024, Fax: 202-690-1144, E-mail: janise.zygmont@ams.usda.gov	Grants to state agencies & universities	FSMIP provides matching grant funds to conduct applied research projects that explore new market opportunities for U.S. food and agricultural products and improve the efficiency and performance of the U.S. agricultural marketing system. These grants are awarded on a competitive basis to State departments of agriculture, forestry, natural resources, or energy, as well as other State agencies such as experiment stations, universities, and colleges. Projects can focus on a wide variety of agricultural research goals, including increased sales of value added meat products, aquaculture, fresh and processed products, local and regional food systems, forestry, bioenergy, and horticulture. Proposals that benefit one business or individual will not be considered. Proposals that address issues of importance at the State, multi-State, or national level are encouraged.	2015 FSMIP Projects: Total Funding: $1,005,906; Average Grant: $67,060; 15 projects in 14 States.	2015 grant cycle applications were due May 14, 2015; 2016 cycle not yet announced.	http://www.ams.usda.gov/services/grants/fsmip/apply
MDARD - Brad Deacon - 1/19/16	Specialty Crop Block Grant Program	Nancy Nyquist, Michigan Department of Agriculture and Rural Development	Nancy Nyquist, Michigan Department of Agriculture and Rural Development Agriculture Development Division, P.O. Box 30017, Lansing, Michigan 48909, Phone: (517) 284-5735, EMail: nyquistn@michigan.gov	Government	Examples of "enhancing the competitiveness" of specialty crops includes, but is not limited to: research, promotion, marketing, nutrition, trade enhancement, food safety, food security, plant health programs, education, increased knowledge and consumption, increased innovation, improved efficiency and reduced costs of distribution systems, environmental concerns and conservation, product development, good agricultural practices, good handling practices, and good manufacturing practices. Increasing competitiveness may include developing local and rural agricultural economies, and improving food access in underserved communities.	The Michigan Department of Agriculture and Rural Development (MDARD) offers the Specialty Crop Block Grant Program-Farm Bill (SCBGP-FB) through the United States Department of Agriculture/Ag Marketing Service (USDA/AMS); the funding is from the federal allocations. Specialty crops are defined as "fruits and vegetables, tree nuts, dried fruits, and horticulture and nursery crops, including floriculture." Included are listings of plants commonly considered as fruits and tree nuts; vegetables; culinary herbs and spices; medicinal herbs; and nursery, floriculture, and horticulture crops.	MDARD will release a request for proposals in early February 2016 for funding consideration. Applicants may request up to $100,000 in funding and approved projects cannot begin work until after October 1, 2016.	

MDARD - Brad Deacon - 1/19/16	Value Added Grant Program (State funding)	Nancy Nyquist, Michigan Department of Agriculture and Rural Development	Nancy Nyquist, Michigan Department of Agriculture and Rural Development Agriculture Development Division, P.O. Box 30017, Lansing, Michigan 48909, Phone: (517) 284-5735, EMail: nyquistn@michigan.gov	Government				This grant program is currently under review by the Michigan Department of Agriculture and Rural Development. It is anticipated that a late winter/early spring 2016 request for proposals will be available with funding of projects up to $150,000 with a 25% (minimum) match requirement of total project costs. Proposals should be focused on the *following areas: Technical assistance*, Feasibility studies, increasing the economic value of a commodity through production processes, export market opportunities, and projects that intend to establish, retain, expand, attract and/or develop value added agricultural processing in the
TED - Lynne A. Feldpausch - 1-15-16	Redevelopment Ready Communities	Agency Responsible for program: MEDC	Jennifer Rigterink	Government Support	Eligibility Guidelines: Flint is in the program and is an eligible applicant	Benefits Available: Technical Assistance dollars that could be used for training on planning/marketing/crisis *management, etc.*	Application Process: Request from community	
TED - Lynne A. Feldpausch - 1-15-16	Core Communities Fund	Agency Responsible for program: MEDC	Katharine Czamecki	Government Support	Eligibility Guidelines: Flint is an eligible applicant as a Core Community	Benefits Available: Up to $250,000 is available to be used for economic development activities, infrastructure is eligible.	Application Process: Form for community to complete, but should work directly with MEDC staff	
TED - Lynne A. Feldpausch - 1-15-16	Collateral Support Program	Agency Responsible for program: MEDC	Chris Cook	Individual	Eligibility Guidelines: A federally regulated bank or credit union willing to provide new debt to a qualified for profit operating company. Borrower must be primarily operating in one of the following industries: manufacturing, wholesale & *trade, research & development, mining, film & digital media* productions, HQ office operations, or businesses that are qualified high technology businesses. Support limited to the lesser of 49.9% of the loan amount or $5,000,000. Fees of 1-3% of MSF support amount at closing and annually thereafter.	Benefits Available: Provide access to capital to companies that would otherwise not be able to access that capital due to a lack of collateral.	Application Process: The lender provides its underwriting document, along with an application form and company background check form, to MEDC Capital Access for evaluation and due diligence.	
TED - Lynne A. Feldpausch - 1-15-16	Loan Participation Program	Agency Responsible for program: MEDC	Chris Cook	Individual	Eligibility Guidelines: A federally regulated bank or credit union or certified development financial institution willing to provide new debt to a qualified for profit operating company. Borrower must be primarily operating in one of the following industries: manufacturing, wholesale & trade, research & development, mining, film & digital media productions, HQ office operations, or businesses that are qualified high technology businesses. Support limited to the lesser of 49.9% of the loan amount or $5,000,000. Fees of 1-3% of MSF support amount at closing and annually thereafter.	Benefits Available: Provide access to capital to companies that would otherwise not be able to access that capital due to a lack of cash flow in the near term.	Application Process: The lender provides its underwriting document, along with an application form and company background check form, to MEDC Capital Access for *evaluation and due diligence.*	
TED - Lynne A. *Feldpausch* - 1-15-16	Loan Guaranty *Program*	Agency Responsible for *program: MEDC*	Chris Cook	Individual	Eligibility Guidelines: A federally regulated bank or credit union or certified development financial institution willing to provide new debt to a qualified for profit operating company. Support limited to not more than of 80% of the loan amount. Fees of 1-3% of MSF support amount at closing and annually thereafter.	Benefits Available: Provide access to capital to companies that would otherwise not be able to access that capital due to increased risk as determined by the senior lender.	Application Process: The lender provides its underwriting document, along with an application form and company background check form, to MEDC Capital Access for evaluation and due diligence.	
TED - Lynne A. Feldpausch - 1-15-16	Private Activity Bond	Agency Responsible for program: MEDC	Chris Cook	Individual	Eligibility Guidelines: Borrower must be primarily involved in manufacturing, be a not-for-profit corporation, or be a solid or hazardous waste disposal facility. Maximum bond amount is $1 million free of any restrictions on capital expenditures or $10 million subject to the condition that the company's total capital expenditure in the locality over the three years *before and three years after the date of the issuance* does not exceed $20 million. There is no size limit for bonds issued to finance solid or hazardous waste disposal facilities. Fees apply based on the amount of the bond	Benefits Available: Provide firms with capital cost savings stemming from the difference between taxable and tax-exempt interest rates.	Application Process: Applicant prepares an application for the bond and submits it to MSF staff. MSF considers an inducement resolution at its public meeting recognizing the public purpose of the project. Applicant structures the financing and bond counsel begins to prepare documents. MSF considers adoption of authorizing resolution.	

TED - Lynne A. Feldpausch - 1-15-16	Michigan Business Development Program	Agency Responsible for program: MEDC	Josh Hundt	Government	Eligibility Guidelines – job creation and private investment by expanding or relocating business	Benefits Available – cash grant	Application Process – submission of application to MEDC staff, Michigan Strategic Fund review and approval, execution of incentive agreement, milestones and disbursements, reporting and compliance.	
TED - Lynne A. Feldpausch - 1-15-16	United States Department of Agriculture –	Agency Responsible for program – USDA	Jennifer Tebedo	Government	Eligibility Guidelines – Rural areas outside the boundaries of a city of $50,000 or more and its immediately adjacent urbanized area to improve housing, community facilities, and community and economic development projects	Benefits Available – cash grant	Application Process – Applications are accepted on an annual basis through a Notice of Funding Availability (NOFA) in the Federal Register.	
TED - Lynne A. Feldpausch - 1-15-16	United States Department of Agriculture – Rural Business Development Initiative Grants	Agency Responsible for program – USDA	Jennifer Tebedo	Government	Eligibility Guidelines – Rural areas outside the boundaries of a city of $50,000 or more and its immediately adjacent urbanized area to support community economic development.	Benefits Available – cash grant	Application Process – Applications are accepted through the USDA Rural Development's local or State Office once per year.	
TED - Lynne A. Feldpausch - 1-15-16	United States Department of Commerce – Planning Program and Local Technical Assistance Program	Agency Responsible for program – US EDA	Jennifer Tebedo	Government	Eligibility Guidelines – assists eligible recipients in developing economic development plans and studies designed to build capacity and guide the economic prosperity and resiliency of an area or region. The Planning program helps support organizations, including District Organizations, Indian Tribes, and other eligible recipients, with Short Term and State Planning investments designed *to guide the eventual creation and retention of high-quality* jobs, particularly for the unemployed and underemployed in the Nation's most economically distressed regions.	Benefits Available – cash grant	Application Process – Applications are accepted on a continuous basis through the regional or State Office.	
TED - Lynne A. Feldpausch - 1-15-16	United States Department of Commerce – Public	Agency Responsible for program – US EDA	Jennifer Tebedo	Government	Eligibility Guidelines – EDAP makes construction, non-construction, and revolving loan fund investments to support the implementation of regional economic development strategies designed to create jobs, leverage private capital, and encourage economic resilience.	Benefits Available – cash grant	Application Process – Applications are accepted on a continuous basis through the regional or State Office.	
TED - Lynne A. Feldpausch - 1-15-16	Program Names: Community *Development* Block Grant Program (CDBG) and HOME	Michigan Strategic Fund/Collaborative *Community* Development and Michigan State Housing Development Authority	CDBG: Michigan Strategic Fund/Collaborative *Community* Development Contact Person: Katherine Czarnecki Phone Number: 517.241.4950 and HOME: Michigan State Housing Development Authority Contact Person: Michelle Wildman Phone Number: 517.373.4383	Type of Support: CDBG and HOME Federal *Assistance*	Eligibility Guidelines – There is a lot of flexibility overall within CDBG. Note: activities identified in the City of Flint's Consolidated Plan include: "Community Development and *Infrastructure* - The City has 540 miles of water distribution lines, 570 miles of sanitary lines, and 350 miles of storm rain water lines. Much of this infrastructure is over 100 years old and in need of reconstruction or replacement. Insufficient funds are the major obstacle to addressing this need. CDBG and municipal financing represent a fraction of what is needed to address the problem. Additional funds from state and federal sources are needed and are being sought. CDBG will help fill the gap of inadequate resources to maintain community facilities and increase services." For additional details go to the attached hyperlink City of Flint Consolidated Plan Link.	Overall CDBG can be used for: Acquisition of Real Property; Disposition; Public Facilities and Improvements; Clearance; Public Services; Interim Assistance; Relocation; Loss of Rental Income; Privately-Owned Utilities; Rehabilitation; Construction of Housing; Code Enforcement; Special Economic Development Activities; Microenterprise Assistance; Special Activities by CBDOs; Homeownership Assistance; Planning and Capacity Building; Program Administration Costs and Miscellaneous Other Activities. CDBG can be qualified based on Urgent Need: An activity designated to alleviate existing conditions and the grantee certifies that those conditions are a serious and immediate threat to the health or welfare of the community, they are of recent origin or recently became urgent, the grantee is unable to finance the activity on its own, and other sources of funds are not available. CDBG can be qualified based L/M Income Area Benefit: Can be used for an activity the benefits of which are available to all the residents in a particular area that is primarily residential, and at least 51% of those residents (or fewer if the exception criteria apply) are L/M income persons. **See hyperlink page 37 for a list of eligible census tracts.	Benefits Available/Application Process: Undetermined – contact with the City of Flint regarding current allocation balances for FY15 and prior years is recommended.	

TED - Lynne A. Feldpausch - 1-15-16	Housing Choice Vouchers (HCV)	HUD, MSDHA	Kelly Rose	Individual, Rental Assistance	80% of applicants must be below 30% AMI, 20% below 50% AMI. Applicants must pass criminal screening that they do not have any violent crime in the past 24 months or drug offenses in last 12 months.	HCV program pays a portion of the participants rent and utilities. It does not have any home repair funding component.	MSHDA has a Homeless preference—homeless service agencies across the state can enter homeless person's application on waiting list. Non-homeless individuals/families must apply when the County resident waiting list is open for applications. This happens periodically when waiting lists get low on applicants. When vouchers are available names are pulled off the waiting list and applicants are contacted to fill out an application so their eligibility can be determined. Once eligibility is determined, they are issued a voucher and search for a rental unit. The unit is then inspected for HUD's HQS standards (does not have a water quality component) and if the unit passes a contract with the landlord is done and the family moves into the unit.	This program is not able to directly help with the Flint water issue. We are formulating a plan in consultation with HUD as to notifying individuals of their ability to get free water filters, etc. as well as their options for moving if they would like to relocate. We are also considering inspecting all homes with children 6 and under for proper installation of water filters.
TED - Lynne A. Feldpausch - 1-15-16	Section 8 Project Based *Rental* Assistance (Subsidized and Public Housing)	HUD, MSHDA	Daphne Wells	Individual. It provides rental assistance to *tenants who* reside at a property that has a project based rental assistance Section 8 contract with HUD. MSHDA administers this subsidy as a HUD subcontractor and in some *instances has* provided financing to build/rehab some	Housing is available to income eligible individuals at these specific properties. Eligible applicants must apply individually at each property in which they are interested in *living at and each property has a tenant selection criteria* that is adhered to for prospective applicants. Each individual property maintains its own waiting list for applicants wishing to reside there.	This program wouldn't have any benefits available to the Flint Water Issue in that the Section 8 housing is tied to a specific property and only offers rent *assistance.*	Applicants can apply at each individual rental property	The only thing that really fits this category (Subsidized and Public Housing) is the Section 8 program as it provides rental assistance to tenants. Nothing in the program can help as it relates to the water issue as the assistance is tied to the building itself. There isn't anything in the program that would help in this situation except using our contacts with agents and owners in Flint to provide them information as we have talked about.
TED - Lynne A. Feldpausch - 1-15-16	MSHDA Housing Developmen t Fund	MSHDA	Brian Mills	Individual. It provides rental assistance to tenants who reside at a property that has a project based rental assistance Section 8 *contract with* HUD. MSHDA administers this subsidy as a HUD subcontractor and in some instances has provided financing to build/rehab some of these properties.	In order for a proposal to be eligible for MSHDA's Statewide Partnership Grant program, the proposed activities must fit within one of five categories (Demolition, Land Acquisition & Development, Neighborhood Service Centers, Capital Improvements, or Community Development).	Grants are limited discretionary budget dollars generated from interest from MSHDA earning on loan proceeds. Grants under $250,000 do not require formal board approval.	Application is attached	Pursuant to communications with Mel Brown a few months ago, we suggested a number of different potential ideas for grant use in Flint. Those are detailed below: Pay for the costs of water quality analysis of all MSHDA backed mortgages in Flint. Evidently FHA is now conditioning all appraisals in Flint on a water quality analysis – and depending on the results won't put the mortgage through without the addition of a water infiltration system of some kind. Cost estimates are around $3,000 per home which is apparently having a negative impact on an already difficult real estate market. Pay for the replacement of water lines owned by residents with MSHDA mortgages within the city that need to be replaced or lines to homes with MSHDA backed mortgages or *incomes less than 50% AMI. Pay for* a percentage of the reconnection fee to acquire water from Detroit up to an amount not to exceed the % of MSHDA financed homes or low income households in the city (50% AMI). Pay for the replacing the city's

TED - Lynne A. Feldpausch - 1-15-16	Self-help Homeowner ship Opportunity Program (SHOP)	The SHOP program is not administered by MSHDA. Mary Townley has calls into HUD to find out who in the state offers this product.			National and regional nonprofit organizations or consortia with experience in using homebuyer and volunteer labor to build housing may apply for SHOP grants. Applicants must have completed at least 30 units of self-help homeownership housing within the last 24 months. Eligible homebuyers must apply to participate in the SHOP program through a current SHOP grantee or one of their affiliates.	SHOP grant funds can only be used for land acquisition, infrastructure improvements, and administrative costs. Total land acquisition and infrastructure improvement costs cannot exceed an average of $15,000 in SHOP assistance per unit. Administrative costs cannot exceed 20% of the SHOP grant amount. SHOP grantees must leverage other funds for the new construction or rehabilitation of their SHOP units.	SHOP grant funds are made available through HUD's annual SHOP NOFA competition. The SHOP NOFA is published on HUD's e-grant portal. Once the NOFA is published, eligible applicants may apply through this e-grant portal.	We have one Counseling agency in Flint right now (Metro Community Development) and they are not involved with water/filter distribution nor are they a site for people to get these items. More information regarding program information can be obtained from Mary Townley at 517.373.6864

TED - Lynne A. Feldpausch - 1-15-16	Community Ventures	Workforce Development Agency (WDA)	James Durian, Manager, Community Ventures	Government	Flint residents who are DHHS clients, PATH participants, ex-offenders, and persons with disabilities.	Connection to employment and comprehensive 24 months of wraparound services after job placement. Community Ventures (CV) can assist Flint residents negatively impacted by contaminated drinking water by providing employment and wraparound services to those effected. CV can also help recruit and retain companies in Flint by partnering with companies and bringing companies together in coordinated community development efforts to help Flint residents. We have done this through promoting social enterprise partnerships like New Life Enterprises, through the formation of an Employer Resource Network (ERN), in *Flint, and by partnering with United Way and local* financial institutions in providing hard ship loans and financial literacy to Flint residents. CV could expand upon these efforts with a special focus on helping those most negatively impacted by the water crisis.	Participants are referred from Mott Community College, Genesee-Shiawassee MWA (MWA), Mid-Michigan Goodwill, New Life Enterprises or DHHS.	
TED - Lynne A. Feldpausch - 1-15-16	Job's for America's Graduates	Workforce Development Agency (WDA)	Krista Johnson, Manager, WIOA Title I Section	Government	Students from middle school to 21 years of age. The JAG Flint program targeted at-risk students at two Flint-area high schools (Flint Northwestern and Flint Southwestern) to help them earn a high school diploma and prepare for *college/careers following high school.*	JAG-Flint's mission focuses on the following: Deliver a unique set of services to at-risk and disadvantaged youth in high school; Provided follow-up services which will result in the graduate's pursuing a postsecondary *education; and Ensured* the participants entered the workforce in a quality job leading to a career. The primary objectives of The JAG Model program are: Keep program participants in school through graduation. Extend program services to participants for 12 months after graduation. Assist graduates or completers in pursuit of a postsecondary education and/or an entry-level job that leads to a career. Deliver services to non-graduates and non-completers during the 12-month follow-up period to attain a GED certificate or a high school diploma.	Individuals should contact their local Michigan Works! Agency to apply by calling 1-800-285-9675 to locate the nearest Michigan Works! One-Stop Center. Or they may visit www.michiganworks.org.	
TED - Lynne A. Feldpausch - *1-15-16*	Partnership Accountabilit y Training *Hope* (PATH)	Workforce Development Agency (WDA)	Brian Marcotte, Manager, Welfare Reform Section	Government	Individuals receiving Family Independence Program cash assistance (TANF)	PATH is the work participation program required for families receiving cash assistance through the Family Independence Program administered by the Michigan Department of Health and Human Services. The Primary goals of PATH are two-fold. First, PATH will identify barriers and help participants connect to the resources they need to obtain employment. Second, the program helps Michigan reach the federally mandated 50% work participation requirement. Work participation is defined by the total number of participants fully engaged in job preparedness training, job search activities, and employment as a percentage of the states work eligible individuals receiving cash assistance. The program is designed to assist eligible individuals in obtaining employment by offering job search assistance and work skills enhancement. The program offers vocational/occupational training, high school completion or GED attainment and a full range of supportive services that may be required to meet the job search and retention needs of the participants.	Individuals should contact their local Michigan Works! Agency to apply by calling 1-800-285-9675 to locate the nearest Michigan Works! One-Stop Center. Or they may visit www.michiganworks.org.	

TED - Lynne A. Feldpausch - 1-15-16	Trade Adjustment Assistance (TAA) Program	Workforce Development Agency (WDA)	Tammy Flynn, Manager, TAA Section	Government	Individuals are eligible for the TAA program who have a qualifying separation from a company with a certified petition by the US Department of Labor (USDOL). A petition identifies a worker group at a specific firm or subdivision and covers all individuals in that group. Generally, if a worker is laid off, a petition must be submitted within one year of the layoff for that worker to be covered by the petition and the certification, if USDOL grants the petition. A group of workers may be eligible for TAA if their jobs are lost or threatened due to trade-related circumstances as determined by the USDOL investigation. After the investigation, USDOL determines group eligibility to apply for TAA benefits and services. Workers in a certified group will be notified by their local Michigan Works! Agency, at which time they may apply for individual eligibility for benefits and services.	Employment and case management services: Assessments, career guidance, pre-vocational services, labor market information, supportive services, information on financial aid, employment planning, and information on training. Training: Up to 130 weeks of training including: Classroom training, On-the-job training, Customized training, Registered Apprenticeships. Trade Readjustment Allowances (TRA): Up to 130 weeks of wage subsidies for workers enrolled in fulltime training within 26 weeks of their trade-related layoff or certification, whichever is later. Re-employment Trade Adjustment Assistance: A wage subsidy for workers age 50 or over who are re-employed at annual wages of $50,000 or less. Job Search Allowance: Reimbursement for job search costs outside the worker's local area. Relocation Allowance: Reimbursement for relocation costs for a job outside the worker's local area.	Individuals should contact their local Michigan Works! Agency to apply by calling 1-800-285-9675 to locate the nearest Michigan Works! One-Stop Center. Or they may visit www.michiganworks.org. To learn more about how to file a petition, check on the status of a petition, or to obtain more information on benefits and services, please visit www.doleta.gov/tradeact or contact Tammy Flynn at flynnt@michigan.gov.	
TED - Lynne A. Feldpausch - 1-15-16	GED To School	Workforce Development Agency (WDA)	Keenan Wade	Government	Must Pass Official Practice Test or Complete Adult Education GED Preparation Course.	$150 per candidate to pay the cost of GED testing fees. TED - Lynne A. Feldpausch - 1-15-16	Adult Education Program	Workforce Development Agency (WDA)	Cliff Akujobi, State Administrative Manager	Government	Adults Age 16 and Older	Adult Education provides an opportunity for students to *improve or achieve education levels equivalent to those* of high school graduates each year. Instruction is tailored to meet the individual needs of adult students. Standardized tests identify existing skill levels, appropriate instruction, and academic gains due to instruction. Adult Education consists of five components: High School Completion: Instruction designed to fulfill the requirements for a high school diploma. GED Test Preparation: Instruction in language arts, math, social studies, science, and writing, to enable successful completion of a GED test. Adult Literacy: Instruction in reading, English, language arts, math, and civics for adults without a high school diploma. The most basic literacy courses teach adults to read. English as a Second Language: Instruction in reading, speaking, writing, and understanding the English language. Labor Employment Related/Employer Workforce Readiness: Instruction in job- or employment-related mathematics, reading, and communication skills. Instruction may be "applied," which means that the *academic material is directly related to specific job* requirements.	Individuals should contact the Office of Adult *Education at 517-373-8800 or visit the Adult* Education website at http://www.michigan.gov/wda/0,5303,7-304-64362---,00.html

If the family is enrolled in the program, Head Start will : • Determine if the family has been tested for lead. • If they have not been tested, they will be referred to their local health department to obtain the testing. • If they have been tested and the blood lead levels are above 5 parts per billion, Head Start will recommend further testing through the local health department or the family's healthcare provider. If the family is not enrolled in the program, Head Start will: • Refer the family to the local health department for lead testing and other services. • Refer the family to WIC.	Contact Head Start for information	
MDHHS - Jennifer Terrill - 1/21/16	Community Development Grants	Michigan Strategic Fund Michigan Economic Development Authority (MEDC)	CDDmailbox@michigan.gov or via the CDD Office main telephone line at 517.373.1974.	Local governments and non-profit agencies.	Refer to individual programs for eligibility information	Effective January 19, 2016, the majority of the MSHDA and MEDC Community Development staff and Downtown & Community Services staff will merge together under the Michigan Strategic Fund (MSF) in a new group called the Collaborative Community Development (CCD) team. This division oversees the following grants: BLIGHT ELIMINATION PROGRAM • The program is designed to provide financial assistance to communities to make physical improvements to residential neighborhoods through blight removal of vacant residential structures that are publically owned. HOMEBUYER ACQUISITION AND REHAB PROGRAM • Homebuyer assistance is used to expand homeownership opportunities for income-eligible homebuyers through the acquisition, rehabilitation or new construction of single-family units. Funds may be used to help buyers qualify for conventional financing or to rehabilitate existing units offered for sale in the local market. HOMEOWNER REHAB ASSISTANCE PROGRAM • Homeowner assistance is used to improve the principal residence of income-eligible homeowners. Repayment for assistance other than emergency repair is required upon sale or transfer of the property to a new owner or if the property is no longer occupied by the borrower, which is ensured through a lien on the property. PRE-DEVELOPMENT LOAN PROGRAM • The Pre-Development Loan Program (PDL) provides interest-free capital for costs incurred prior to the development of certain housing projects. MDHHS - Jennifer Terrill - 1/21/16	Economic Adjustment Assistance Program	US Department of Commerce (DOC) Economic Development Administration (EDA)	Michigan, Minnesota and Wisconsin Lee J. Shirey 230 South Dearborn Street, Suite 3280 Chicago, IL, 60604-1512 P: 312-789-9751 E: lshirey@eda.gov	State and local governments, economic development organizations, etc.	Declaration of a disaster by the President or other Federal declarations An eligible applicant may be a state, city, or other political subdivisions of a state; or a consortium of political subdivisions, an economic development district, or a public or private nonprofit organization or association acting in cooperation with officials of a political subdivision; an institution of higher education, or a consortium of institutions of higher education; or an Indian tribe.	Through the EAA program, EDA provides investments that support a wide range of construction and non-construction activities (including infrastructure, design and engineering, technical assistance, economic recovery strategies, and capitalization or re-capitalization of Revolving Loan Funds (RLF)) in regions experiencing severe economic dislocations that may occur suddenly or over time. EDA utilizes EAA investments to provide resources that help communities experiencing or anticipating economic dislocations to plan and implement specific solutions to leverage their existing regional economic advantages to support economic development and job creation. Like Public Works investments, EAA investments are designed to help communities catalyze public-private partnerships to foster collaboration, attract investment, create jobs, and foster economic resiliency and prosperity.	An applicant may obtain the appropriate proposal or application package electronically at www.grants.gov (Grants.gov). Applicants may search for this funding opportunity on Grants.gov using Funding Opportunity Number "EDAP2016". All components of the appropriate application package may be accessed and downloaded (in a screen-fillable format) at http://www.grants.gov/applicants/apply_for_grants.jsp. The preferred electronic file format for attachments is Adobe portable document format (PDF); however, EDA will accept electronic files in Microsoft Word, WordPerfect, or Microsoft Excel.	

MDHHS - Jennifer Terrill - 1/21/16	The Flint Child Health and Development Fund	Community Foundation of Greater Flint (CFGF)	Community Foundation of Greater Flint 500 S. Saginaw Street, Suite 200 Flint, MI 48502 810-767-8270 Kathi Horton, President khorton@cfgf.org Ann Marie Van Duyne Vice President of Philanthropic Services avanduyne@cfgf.org	Charitable organizations that provide aid to children and families.	Grant requests must have direct relevance to the residents of Genesee County. If a request includes activity outside of Genesee County, then the clear preponderance of activity must be within Genesee County. Grants for sectarian religious purposes or any religious activities are not eligible. Grants will not be made for loans, debt reduction or annual appeals.	The Flint Child Health & Development Fund supports the delivery of critical public health, medical, and community-based services and interventions that address and mitigate the short and long term impacts experienced by Flint, Michigan families exposed to lead as the result of the 2014-2016 Flint Water Crisis. The Flint Child Health & Development Fund supports charitable organizations that provide aid to children and families with interventions that support positive health outcomes. • Immediate response • Optimal child health & development • Early childhood education • Continuous access to a pediatric medical home • Access to infant and child behavioral health services • Nutrition education • Healthy food access • Safe & healthy home environments • Integrated social services • Research	1. Subject: Job Titles
Attachments: 3375 Local Hire Program Job Titles DRAFT.docx

Follow Up Flag: Follow up
Flag Status: Flagged

Tom and Brianna-

Attached is a list of job titles that could be included for the local hires program, along with a short description. Helen and I did a crosswalk of the proposal sent along to Maggie and the logistics requirements in IS26 (POD training) in the hopes of being as comprehensive as possible. There were a few job ideas on the proposal that I wasn't sure of, so we left off their description for your input.

Give it a look through and let us know if you need anything else.

Have a great weekend,
Jeannie

Predecisional; not for further distribution

Deployed to EM 3375: Flint, Michigan Water Operation

Jeannie Moran
Voluntary Agency Liaison
FEMA Region V
Regina.Moran@fema.dhs.gov

Subject:	Community Partners Meeting - Thursday, February 18th, 3:00 p.m. (Food Bank of Eastern Michigan's Hunger Solution Center - 1938 Howard Ave.)
Attachments:	Overview Community Volunteer Reception Center_1-13-16.pdf; Minutes_2-11-16 _Community_Partners_Meeting.pdf; Community Meeting Attendees.xlsx; flint Insurance Scam.pdf

Good evening everyone,

Follow up from Thursday's community partnership meeting:

1. REMINDER: Community Partners Meeting this Thursday, February 18th, 3:00 p.m., at the Food Bank.
2. The most current workgroup roster is attached. If you any changes, corrections or questions, please email David.Gutierrez@redcross.org
3. Please email minutes or notes from your smaller workgroup meetings to Robert.Gaskill-Clemons@redcross.org please include the date, time and location of your next workgroup meeting.
4. Minutes are attached, if you have any corrections or additions please email them to Elena at elena.sobrino@redcross.org
5. Please email what your organization is doing to david.gutierrez@redcross.org by close of business each Monday so they can be compiled and shared at the Thursday's community partners meeting. (Include any pictures that captures relief activities or logos).
6. Information Website: Contains the most current water testing results as well as educational materials: www.michigan.gov/flintwater Includes education materials, donations guidelines and testing results
7. To register as a group or volunteer visit www.flint.volunteer.com (See the attached information sheet on the volunteer reception center)
8. E-mail current list of planning assumptions, priorities, objectives for each priority and activities (with a lead organization for each activity) to robert.gaskill-clemons@redcross.org every Friday. Robert will coordinate with each point of recovery group to facilitate the development of the recovery plan and supporting documents.
9. PLEASE see the attached PDF file regarding a local insurance scam and distributed through your networks.

NOTE: Any mistakes or missing information on the attached rosters or minutes are not intentional. Corrections and additions will be made promptly once the correct information is received.

Flint Water Crisis
Community Volunteer Resource Center (VRC)
Event-Based Volunteer Engagement

Overview:

Damaged infrastructure and the leaching of lead into the city's water caused damage to public and private water infrastructure and has caused or threatened to cause elevated blood lead levels especially in the population of children and pregnant women. The water situation has resulted in an immediate threat to public health and safety and disrupted vital community services. The city, county and state have all declared a state of emergency and have begun distributing required resources on a city-wide level. Stakeholders, (ex. NGOs, faith-based organizations, businesses and government agencies), acknowledge that a critical component of the Flint Water Crisis response and recovery is a sustainable community volunteer staffing solution.

Purpose:

The purpose of the Volunteer Reception Center (VRC) is to leverage the community partner agencies' expertise recruiting and managing event based volunteers to address the staffing needs of government agencies, community partners, and stakeholders.

The VRC will:

- Expand the existing workforce to meet urgent staffing needs and encourage long term planning of EBV staffed: events, work sites, activities, etc...
- Help set the strategic direction for building, sustaining and delivering the response and recovery programs to facilitate individual, family and community recovery.
- Serve as a mechanism/tool to recognize, capture and focus the good will of the local, regional and national communities and their interest in supporting the city of Flint and its citizens.
- Acknowledge, capture and focus the good will of the local, regional and national communities to support the response and recovery of the city of Flint and its citizens.

Audience:

- Individuals or groups of event-based volunteers (EVBs).
- Community partners and stakeholders, (i.e. non-profit and faith-based organizations, businesses and government agencies).

Volunteer Expectations:

- Match the need of the assignment with the skill set and ability of the volunteer.
- Orientation, education, training, safety briefing and job assignment.
- Providing an efficient and effective volunteer intake process and satisfying work assignment experience.

VRC Operations
Hours: 9 a.m. to 7p.m.
Location: American Red Cross
1401 South Grand Traverse
Flint, Michigan 48503
Dial 2-1-1

Community Partners Water Response Meeting Notes
Date: February 11, 2016

Welcome & Introduction: Tony Lasher & Dave Gutierrez- American Red Cross

- Going to spend a lot of time in break out groups
- Safe environment
- What is discussed in this room should not be shared outside room
  - ✓ Don't want to report to community until plans are in place
  - ✓ This will reduce spread of misinformation

Update from Chris DeVriendt, Emergency Manager for Genesee County

- ✓ Came on as assistant manager mid-October
- ✓ Given job as EM the day emergency was declared
  - Hasn't been able to personally meet everyone yet in the community
- ✓ Progress being made
- ✓ People are getting commodities they need
- ✓ Rapid response teams comprised of Red Cross & NCCC AmeriCorps are at work
  - Use 211
  - Important for 211 to be a centralized, efficient source for service
- ✓ Working on long term distribution plans
- ✓ Transitioning into Phase 2
- ✓ Don't have fully staffed EO team yet
- ✓ State supplementing help
- ✓ Trying to transition to a more locally-based operation

Questions

- ✓ Have we increased number of 211 lines?
  - Trying to expand—work in progress
- ✓ How are we doing distributions through Food Bank?
  - Food Bank taking on as many sites as possible
  - Deliver food and water
  - State helping with drivers
  - Issue is having enough trucks and drivers—working on hiring more
- ✓ What group is in charge of making a non-random distribution grid?
  - Current distribution is not random, except outside of system
  - Unless people funnel through VRC, we can't assign areas to work throughout entire city
  - Grids are established by address
  - Only vulnerable populations or those who call 211 are getting door-to-door distribution
  - No capacity to go to every single address door to door
- ✓ Outside of fire stations, how many places are delivering water?
  - Red Cross and AmeriCorps are servicing vulnerable populations
  - Several groups working outside of VRC
    - No formal tracking can be kept of groups working outside of system
  - Numerous churches (published list)
    - See website

- United Methodist churches also offering water
- Resource workgroup is working on creating a list of water distribution locations
- Safe Water app also provides information
- *All distribution should be funneled through VRC in order to be* coordinated

✓ What happens to results of water test kits?
- Kits go to collection sites
- If there is a high result (above 150 ppb), HHS or county health takes over from there, increases structured monitoring
- Database with addresses and test results available on public website
  - Privacy concerns?
- EPA and DEQ can get involved
- More information available in JIC statement on process and home visit details
- See michigan.gov/flintwater

Review of Workgroups
- Recovery Control and Coordination Group
- Recovery Resources Group
- Physical Health Group
- Mental Health Group
- Education Group
- Communication Group

Agenda for Future Meetings
✓ Future meetings will involve workgroups reporting out
✓ Integrating new members
✓ Workgroups can meet as often as necessary throughout the week outside of Thursday meeting
✓ Workgroups can set their own schedules for meeting
- Important for groups to meet as often as possible for maximum productivity

✓ Anyone not signed up for a group:
- Identify yourself & your resources
- Find best fit in group

✓ In breakout sessions:
- Identify planning assumption
- Identify priorities
- Identify activities to support objectives

Workgroup Reports
- Resource Group
  - ✓ Moving forward on where distribution sites need to be
  - ✓ Priority to choose hubs in each ward, identifying who can do that
  - ✓ Planning to meet next week

- Physical Health Group
  - ✓ Been doing a lot of work already
  - ✓ Information sharing
  - ✓ Identify what we are already doing, where gaps are
  - ✓ Creating google doc to summarize activities and continue conversation
- Mental Health Group
  - ✓ Reviewed what has been done so far
  - ✓ Psychological first aid discussed
  - ✓ Discussed communication barriers
  - ✓ Next meeting: Tuesday 11-1, location TBD
- Education Group
  - ✓ Discussed what information we know is or isn't out there
  - ✓ Conflicted, outdated, or inaccurate information out there
  - ✓ Priorities:
    - Let people know what is happening
    - Identify most important messages
  - ✓ Goal to make messages as concise and accessible as possible
  - ✓ Next meeting: Thursday 11, location TBD
- Communication Group
  - ✓ Plan to create an inventory of main sites and platforms of communication
    - E.g. websites, etc.
  - ✓ Work on getting a centralized communication hub
    - Initially can be a website?
    - Which can turn into educational materials that can be handed out
  - ✓ Next meeting TBD

Closing

- Please invite any partners to the Thursday 3:00 pm meetings who should be present
- Email david.gutierrez@redcross.org by Sunday with name of group/organization, 3-5 bullet points of what your group is doing for Flint Water response
  - ✓ This information will go in minutes and be sent out to all attendees

Response Requested Within:
30 Days

HOMESERVE SM
Protecting homeowners in Michigan

Peel and affix this label

326

[redacted]	1/12/16
[redacted]	Not Covered

** Important Information Regarding Your Water Service Line **

Dear Paul T. Igram,

This letter is to inform you that as a homeowner you are responsible for the full cost of repairing your exterior water line. We have found that your property at 1725 Lincoln Dr. is not covered with Exterior Water Service Line Coverage from HomeServe.

The water service line buried underground on your property could fail without warning, leaving you responsible for the cost of repair or replacement. Replacement of this line can be expensive—costing you thousands of dollars in unforeseen expenses—which could burden finances.

This protection is available for eligible Flint homeowners.

Benefit Amount:	$6,000 annually with multiple service calls for covered repairs 30-day wait period with a money-back guarantee
Available For:	City water and Private well lines
Monthly Rate:	~~$5.49~~ $2.74
Property Address:	1725 Lincoln Dr.
City:	Flint

* * * Important * * *

You can now receive 50% off the regular monthly price shown above for the *first year*. Take action to help protect the buried water line on your property. Complete and return the enclosed form—remember to affix your address label—or call 1-877-444-7750 to accept this *optional* coverage. For fastest processing, please visit CoveragePlans50.com.

Please respond within 30 days.

HomeServe USA Repair Management Corp. ("HomeServe"), with corporate offices located at 601 Merritt 7, 6th Floor, Norwalk, CT 06851, is an *independent company separate from your local utility or community* and offers this optional service plan as an authorized representative of the contract issuer, AMT Warranty Corp., 59 Maiden Lane, 43rd Floor, New York, NY 10038.

Important Questions & Answers

What am I responsible for?
As a homeowner, you are responsible for the exterior water service line on your property. In some towns, the service line beyond the property boundary to the main connection may remain the homeowner's responsibility, but it is not included in this coverage.

Does this coverage include well lines?
Yes, coverage provides for repair or replacement of the water service line on your property regardless of whether you are connected to a city water main or private well.

Does my homeowners insurance or local utility company cover this?
Most basic homeowners insurance policies and local utility companies do not cover repair or replacement of the water service line. If you find you have similar coverage, you can contact HomeServe to cancel and you will receive a refund of your service agreement fee, less any claims paid (where applicable).

Who is eligible for coverage?
A residential homeowner with sole responsibility for the exterior water service line may be eligible. Residences not affixed to a permanent foundation, recreational vehicles and properties used for commercial purposes are not eligible for coverage. If you live in a development community with a condominium, co-op or homeowners association, your exterior water service line may not be an individual homeowner's responsibility, so please check with your association before accepting this coverage.

What should I know about this coverage?
What's covered: Coverage provides, up to the benefit amount, for the covered cost to repair or replace a leaking or permanently blocked exterior water service line from your property boundary or well casing to the external wall of your home that is damaged due to normal wear and tear, not accident or negligence.
Not covered: Repair to any exterior water service line that branches off the main line, accidents and damage or negligence caused by you or others. Additional exclusions apply. To see full Terms and Conditions with complete coverage and exclusion details prior to enrolling call 1-877-444-7750 or go to CoveragePlans50.com.

When can I make a service call?
Your plan starts the day your form is processed, and there is an initial 30-day waiting period before you can make a service call, giving you 11 months of coverage during the first year. This prevents service calls on pre-existing conditions and helps keep the coverage affordable.

What is the cancellation policy?
You may cancel within 30 days of your start date for a full refund; cancellations after the first 30 days will result in a pro-rata refund less any claims paid (where applicable).

What is the term of my service agreement?
Your coverage is based on an annual contract. For E-Z Pay, credit card or debit card customers: regardless of the payment frequency you select, your service agreement will be automatically renewed annually on the same payment terms selected, at the then-current renewal price. Your coverage will remain in effect unless you call to discontinue.

What is E-Z Pay?
E-Z Pay is a paperless and stress-free way to pay for your coverage. Payments are automatically debited from the bank/checking account of your choice as your payment becomes due, at no additional cost.

What quality of repair can I expect?
Local, licensed and insured plumbers perform all covered repairs, which are guaranteed against defects in materials and workmanship for one year.

Who is HomeServe?
HomeServe is an independent company providing emergency home repair services and protection solutions to homeowners across the U.S. If you have questions about this mailing or to be removed from our mailing list, call 1-855-321-9871.

Subject:	RE: Community Partners Meeting - Thursday, February 18th, 3:00 p.m. (Food Bank of Eastern Michigan's Hunger Solution Center - 1938 Howard Ave.)

Hello everyone,

We have managed to compile the dates/times/locations of all the "next" meetings for each of the workgroups under the recovery model...and, the "points of contacts."

If you are not already "plugged in" to one of these groups, please reach out immediately to the POC's.

REMINDER...this Thursday will be our next Community Partners Meeting, 3:00 p.m., at the Food Bank of Eastern Michigan.

Let me know if you have any questions!

1.
2.
3. **COMMUNICATION**
4. **NEXT MEETING:** Wednesday, 02/17/16 from 10:00 until 11:30 a.m. at Family Service Agency of Mid - Michigan (1422 W Court Street, Flint)
    a. Jamie-Lee Venable (United Way of Genesee County), 810-762-5826, jvenable@unitedwaygenesee.org
    b. Jennifer Acree (C. S. Mott Foundation), 810-766-1725, jacree@mott.org

5. **EDUCATION**
6. **NEXT MEETING:** Thursday, 02/18/16 at 11:00 a.m. Location Genesee Intermediate School District
    a. Evilia Jankowski (Genesee Intermediate School District), ejankows@geneseeisd.org
    b. Nayyirah Shariff (Flint Rising), 810-493-5946, nayyirah.shariff@gmail.com
    c. Kasey Cronin (Genesee County Catholic Schools), 810-235-1812, kcronin@powerscatholic.org

3. **MENTAL HEALTH**
   NEXT MEETING: Tuesday, 02/16/16 from 11:00 a.m. until 1:00 p.m. Location TBD
    a. Lauren Tompkins (Genesee Health System), 810-496-5730, ltompkins@genhs.org
    b. Elizabeth Burtch (Genesee Health System), 810-730-7865, eburtch@genhs.org

7. **PHYSICAL HEALTH**
8. **NEXT MEETING:** Tuesday, 02/16/16 at 8:30 a.m. at MSU Extension
    a. Kirk Smith (Greater Flint Health Coalition), 810-232-2228, ksmith@flint.org
    b. Tamara Brickley (Genesee County Health Department), 810-257-3202, tbrickey@gchd.us
    c. Tim McCarron (Hamilton Community Health Network), 810-406-4912, tmccarron@hamiltonchn.org

9. **RECOVERY RESOURCES**
10. **NEXT MEETING:** : Tuesday, 02/16/16 at 9:00 a.m. at the Food Bank of Eastern Michigan

a. Kara Ross (Food Bank of Eastern Michigan), 810-396-0213, kross@feedingamerica.org
b. Chrissy Cooper (Catholic Charities), 810-232-9950 (ext. 325), ccooper@ccsgc.org

COORDINATION Workgroup

NEXT MEETING: Tuesday (02/16/16) at 2:00 p.m.

a. Vicky Schultz , Catholic Charities
b. Chrissy Cooper, Catholic Charities 810-232-9950 (ext. 325) ccooper@ccsgc.org

From: Sayles, Margaret (WDA)
Sent: Monday, February 15, 2016 4:29 PM
To: Gamble, Jason; Briggs, Brianna (MSP); Weber, Thomas (MSP)
Subject: Next steps

I am reviewing notes and putting my list of action items together. I will be speaking with Bill Watson regarding how we might be able to collaborate and use the program he has in place.

I would like to work with GST Michigan Works to create job descriptions for immediate needs. At our Friday meeting some additional parameters (passing drug test, background check, etc) that will need to be in place. Any information that would help in outreach and recruitment would be helpful.

I would like to get GST and Bill together this week, and then meet with the "people on the ground" in Flint. My job is to develop the grant, assist the Michigan Works and other partners, but they will do the work. GST and partners will need to understand the process and their role in supplying talent.

I certainly appreciate your assistance. I am working closely with USDOL so that they understand the need and can guide me to make the grant application go through quickly.

Dear All,

Yes, I spoke with Ken last week and explained that the community is organizing into specialized work groups making this an ideal time for MI-VOAD and NVOAD engagement.

Can I propose a 4:00 pm Tuesday or Wednesday MI-VOAD and NVOAD call? Tom, at this time I think you have the best optics into Flint Response/Recovery, would you mind leading the call? I can lend support as needed.

Additionally, I will be sending out the minutes from the last several Community Recovery meetings. Mary, would you mind disseminating them to the members?

Lastly, the Community Recovery Group meets every Thursday from 3 to 5pm at:
Food Bank of Eastern Michigan
1938 Howard Ave
Flint, MI
Please encourage MI-VOAD members to attend to discover how they may best support and enhance the community's recovery efforts.

Thanks!

Best regards,

Justin R. Bays

Subject: RE: VOAD calls

Ken,

We've been getting a steady volume of calls for national partners and a regular call facilitated by Michigan VOAD would be a good way to keep them connected to information without overwhelming those on the ground (state and NGO, alike).

Traditionally, in an event this size (and even smaller), a weekly or biweekly call is led by the State VOAD. I think it would be very helpful in this instance.

You're absolutely invited to use my conference call pin:

Just let me know when it's scheduled so I make sure not to give it out to any others! ☺

Take care,
Jeannie

Subject: VOAD calls
Hi Ken, Hi Mary,

Good360 had tried to call in to the VOAD conference call last week and no one was on the line. Has the MIVOAD call changed day/time/call in number? We really should be having those on a weekly basis. I know Red Cross initiated a couple of them, but I know too they're pretty swamped with the VRC and Rapid Response calls. Please let me or Zach know if there's anything we can do to help.

Thanks!

Overview

This handbook provides guidance for administering the Disaster Recovery Jobs Program (DRJP) as authorized under the Dislocated Worker Grant (DWG) which is awarded by the US Department of Labor (DOL).

Grant Request

The Division of Workforce Development (DWD) applies for a DWG upon FEMA declaration for public assistance in Missouri counties. The US DOL approves the application based upon regulations, project scope and funding availability. Work under the program is only allowable in the counties declared for public assistance that are included within the grant.

Purpose

The purpose of the DRJP is to restore public infrastructure and services so that "normal" business and employment activities can be resumed through temporary employment of unemployed persons.

Determining Grant Request

The DWD requests funding from the US DOL for natural disasters based on previous requests. The US DOL may or may not approve the fully requested amount. Applications must be submitted within 15 calendar days of the FEMA declaration. After the grant is awarded, the DWD, the National Guard, local Workforce Development Boards (WDB) and FEMA hold meetings with various potential worksites (depending on the disaster) including: cities, counties, road and bridge districts, levee districts, state parks, city parks, non-profits, etc.

The worksite's summarized needs must be outlined in the "Worksite Worksheet" (DRJP Form 1) which must be given to the Grant Coordinator before funding may become available. No worksite will receive funds without this form that clearly shows equipment needs, timeframe for completion, projects to be completed, and labor needs. The "Worksite Worksheet" (DRJP Form 1) must also show coordination with FEMA to ensure non-duplication and maintenance of effort. The local Workforce Development Boards (WDB) calculates the total need for labor and participants for all projects and submits these amounts to the Grant Coordinator. The Grant Coordinator allocates funding based on project completion dates and region needs. Since the DWD must request the grant prior to these meetings, the total funding needed will often exceed the grant amount. The DWD will request additional funding from the US DOL once the statewide grant expenditures reach 70%. This additional funding is contingent upon availability and project scope.

After the region(s) are allocated funding, the region(s) must decide which projects will begin first or what portion of the projects will be complete by DRJP participants. The Grant Coordinator will assist the regions as necessary in making these determinations. When completing this analysis, the overall cost-per-participant and local economic impacts must be considered. The "Worksite Listing" (DRJP Form 2) and "Budget" (DRJP Form 3) forms are submitted to the Grant Coordinator.

County Opt-Out

FEMA declares public assistance to counties that have sustained a substantial amount of damage to public properties. The intent of the program is to provide temporary labor and equipment so normal business can resume. If a county chooses not to participate, the local WDB will need to obtain an 'Opt Out' letter from the county stating either the county does not need assistance as all clean-up has occurred or the county chooses not to accept assistance under this program. The region must make every effort to ensure the counties understand how valuable the program is in restoring the community; however, if the county will not provide an 'Opt Out' letter, the region maintains correspondence in the file.

Position Classifications

All temporary work positions must be disaster-related and classified as "debris" or "humanitarian" depending on the type of work performed.

Debris positions provide labor in the devastated area or conduct oversight of such work and include:

1. Operating equipment
2. Cleaning out and repairing culverts
3. Performing rake/shovel/wheelbarrow work
4. Repairing roads and levees
5. Removing sandbags
6. Restoring playgrounds and trails
7. Monitoring Debris
8. Supervising crews

"Humanitarian" positions perform work to provide direct aid to victims of the disaster or work in the DRJP processes and include:

1. Handing out food and water
2. Managing emergency supplies
3. Answering and routing disaster-related calls
4. Providing case management services to victims
5. Tracking DRJP equipment and supplies
6. Entering participant information in Toolbox
7. Working at warehouses to manage intake of supplies for victims

Adhering to DWG Policies

All policies outlined within this "DRJP Handbook" must be adhered to by the region(s) within the DWG even if local policies contradict certain portions. These policies were defined with local input and ensure the DWG is consistent statewide. This consistency will assist in US DOL, State, and local monitoring processes.

Participants

Eligible Workers

DRJP gives first priority to workers who are laid off as a result of the disaster to work on disaster related projects at public and non-profit worksites and, in certain situations, work is allowable on private property if all of the conditions are met. If additional workers are needed, other dislocated workers and long-term unemployed persons can also work on the projects. After the DRJP participant has completed the work assignment, (s)he may need training services. However, training services cannot be paid out of this funding until written in a grant; the US DOL approves the modification and the region is notified by the DWD.

Priority of Eligible Workers:

1. Temporarily or permanently dislocated workers as a result of the disaster
2. Eligible Dislocated Workers as defined in the WIOA
3. Long-term* unemployed enrolled in WIOA Adult Job Center

*Missouri defines long-term unemployed as any individual who is unemployed at the time of eligibility determination and has been unemployed for fifteen (15) or more of the twenty-six (26) weeks (30 hours or more constitutes a week) immediately prior to such determination, has made specific efforts to find a job throughout the period of unemployment, and is not classified as "Not in the Labor Force".

Recruiting Unemployed Persons

Central Office DWD has access to services through OneCall, a system that provides mass automated phone calls and texts. Phone calls and texts can be sent to unemployed persons based on selected criteria in Toolbox. Automated calls have been very successful in recruiting for temporary job placement. These calls can be generic for positions such as debris removal or tailored to meet specific position needs and matched to skill sets in Toolbox for positions such as a heavy equipment operator. If the region determines the need for mass automated phone calls and texts, the local WDB will send the Grant Coordinator the criteria for the calls (i.e. all unemployed persons within a 50 mile radius a certain zip code, unemployed persons on weeks 19 and 20 of UI within 10 miles of a certain zip code, etc.); the number of unemployed persons that need to be contacted (i.e. 500), and the script. The Grant Coordinator and local WDB will work together on the script and once complete, email it along with the call criteria to dwdcommunications@ded.mo.gov.

Call Script Examples:

> "Your Missouri Job Center has a temporary job for you to help rebuild Holt County. Call (123) 456-7890 between 9 am and 4 pm, Monday through Friday. Thank you."

> "If you want a temporary outdoor labor job in Duquesne paying $10 an hour and you have not worked in the DRJP, visit the Missouri Job Center at 123 S. Wall St. You must pass background check, physicals and drug screening."

If public outreach is needed for recruitment, the DWD's Communications Staff will procure newspaper ads, radio ads, etc. on an as-needed basis. DWD Communications will also make outreach materials available. The DRJP and Missouri Job Center (MJC) logos (various formats available) must be used on all local outreach and presentation materials. A repository of DRJP photographs is also available.

Email dwdcommunications@ded.mo.gov to request logos, photographs, materials, and other public outreach assistance. Local DRJP representatives are encouraged to coordinate with DWD Communications on DRJP outreach campaigns to ensure standard messaging, high quality materials, and consistency with state outreach efforts. (Please also reference and promote the DRJP write-up in the Annual Report, available on jobs.mo.gov, and feel free to borrow this verbiage for consistency of messaging, modifying/updating outcome data as necessary.)

Requirements

All DJRP participants must have the following:

- "Participant Orientation" form (DRJP Form 5)
- Properly Executed Membership Screens and WIOA Adult Career Enrollment
- Completed jobs.mo.gov Registration
- Priority of Eligible Worker Documentation
- Tetanus Shot, Physical Exam, and Safety Course for Potential Debris Workers
- Other worksite requirements (i.e. drug testing, background checks, etc.)
- Service Notes on each Participant's File including:
    - Any testing with the item received including: tetanus shots, drug testing, background checks, physicals and transportation reimbursement
    - Any Supportive Service payments received including: transportation to safety training, clothing for debris workers, etc.
- Match and Referral to a Disaster Job Order
- DWG (and Dislocated Worker if Eligible) Enrollments Properly Executed in Toolbox
- Accurate Posting of DRJP Services in Toolbox
- "Worksite Orientation" form (DRJP Form 6)

Initial Job Center Process

Potential participants will go through the normal Job Center process; however, (s)he will not be required to complete the initial career services - as the DRJP is designed to provide immediate recovery through a jobs first approach. (Potential participants can be screened for program eligibility using the optional "Jobs Interest" (DRJP Form 7)). After the temporary employment ends and the participant needs assistance with employment and training activities, these services will be funded through Dislocated Worker funding (or 25% pool funds if that funding is exhausted) or through the grant. The regions will be notified of the funding of retraining services.

The "Missouri Job Center Checklist" form (DRJP Form 8) may be used through the process of determining if the individual is eligible to participate in the DRJP.

Prior to any next steps (i.e. checking eligibility, etc.), it is imperative the individual be told and understand the type of work (s)he is expressing interest in. (I.e. Debris worker position will work in 100 degrees plus temperatures and below freezing; lift 20 pounds, etc.) DRJP staff will then verify program eligibility based on the 'Priority of Eligible Workers'.

Eligibility Documentation

1. **Guidance for Disaster DWG Dislocated Worker Eligibility Documentation:**

While the WIOA does not give a classification to the DWG activity of Disaster Recovery Assistance (DRJP Employment), DWD interprets this activity to be substantially equivalent to the Work Experience, and therefore requires full eligibility documentation.

Previous guidance allowed a Dislocated Worker Career enrollment to suffice as full documentation for the Disaster DWG. This rule changed in April of 2013.

DWD Issuance 22-2012, Change 1, Streamlined Documentation Allowable for Service Delivery Beyond the Automatic Career Enrollment Level contains the following rule:

> WIOA Dislocated Worker Documentation Requirements
>
> Dislocated Worker program participants who enroll into the DRJP level must have their Dislocated Worker status fully documented in either an electronic or hard copy file. This rule replaces previous guidance allowing less detailed documentation. For those who meet the category A criteria defined at WIOA, required eligibility documentation includes proof of layoff or termination, Unemployment Insurance (UI) eligibility status, and evidence that the participant is "unlikely to return to a previous industry or occupation".
>
> Eligibility for UI is adequate proof that the individual was "terminated or laid off".
>
> A Dislocated Worker with a Missouri UI claim can print a copy of the Letter of Benefit Proof (B201) from the Division of Employment Security's Online Claims Filing System to serve as documentation of Dislocated Worker status. Termination/layoff and eligibility for Unemployment Insurance is documented if there are payments in the "Gross Amount" column. If it also shows a zero dollar amount in the "Balance" field, this is proof of an exhausted claim and satisfies documentation for "unlikely to return".
>
> If the Letter of Benefit Proof is not available, or does not indicate a zero balance to document "unlikely to return", refer to the current DWD Issuances regarding the Eligibility Technical Assistance Guide – WIOA for complete eligibility criteria and acceptable documentation.

2. **Documentation for Employment Ended Due to the Disaster**

In order to give priority to an individual who can't work because the employer was affected by the disaster, staff must collect documentation. A signed "Self –Attestation" (DRJP Form 9) from the applicant stating they are unemployed due to the disaster is sufficient initially, but staff must then attempt to secure valid documentation.

For documentation, individuals with a Disaster Unemployment Assistance (DUA) claim have the most solid documentation possible. This is ideal, and no other documentation of layoff from the disaster affected

employer is required. If there is no DUA, but there is a regular Unemployment Compensation claim, staff must collect a signed attestation from the individual attesting to the fact that the layoff was due to the disaster. This is considered strong documentation and no other documentation of layoff from the disaster affected employer is required.

If there is no Unemployment Compensation claim, staff must secure documentation to support the fact that the applicant worked for the affected company. Ideally, this would be in the form of paystubs or other payroll records. A bank statement indicating direct deposit from the employer is also acceptable. A letter from the employer or a Toolbox Service note documenting phone verification of employment and layoff would also be acceptable. Any of these records must be accompanied by a signed statement from the individual attesting to the fact that the layoff was due to the disaster.

If the individual is unable to provide identification or other required documentation due to the disaster, self-attestation is acceptable and the "Self –Attestation" (DRJP Form 9) must be completed. If the individual is hired at a worksite, (s)he must provide proper identification within 30 days. If this documentation is not provided at that time, the participant will be granted an additional 20 days. If such documentation is still not provided, the participant will be terminated from the DRJP. In extenuating circumstances, the participant can be granted an additional 10 days. If the documentation cannot be secured within 60 days, no further DWG-funded services are allowed. Staff should use the "Task" function in Toolbox or other reliable means to track the timing of self-attestation back-up documentation. (Note: If the participant completed a "Self – Attestation" (DRJP Form 9) and then was terminated from the program due to lack of identification or not qualifying for the program, these are NOT disallowed costs.)

If the individual cannot do this work or does not meet program eligibility requirements, (s)he will go through "normal" Job Center processes.

3. Long-Term Unemployed & Documentation

An individual is long-term unemployed if at the time of eligibility determination (s)he has been unemployed for fifteen (15) or more of the twenty-six (26) weeks (30 hours or more constitutes a week) immediately prior to such determination, has made specific efforts to find a job throughout the period of unemployment, and is not classified as "Not in the Labor Force." A participant can attest on the "Self –Attestation" (DRJP Form 9) that (s)he has been long-term unemployed. This definition must be explained to the participant and the weeks calculated by a staff person. In all cases, the participant must print off MOClaims (if there is a claim within the last 3 years) and the Toolbox record should be reviewed. DUA claims and individuals not required to 4-week report will not be in Toolbox.

In rare cases, an individual can meet the definition of a Dislocated Worker and Long-Term unemployed. If the individual is Dislocated Worker, (s)he qualifies for the DRJP and no additional eligibility criteria should be pursued. In this situation, long-term unemployed <u>should not</u> be noted in Toolbox and this must lined through on the "Self –Attestation" (DRJP Form 9).

Examples:

1. Curtis indicates he has not worked for 5 years and will not have a claim in the system. The Staff person reviews Toolbox and finds no 4-week reporting. He qualifies as long-term unemployed.

2. Liz indicates she has not worked for 7 months (or the last 30 weeks). She prints out MOClaims and the staff person verifies this is correct. She qualifies for long-term unemployed.

3. Mary attests she has not worked for 6 months. She prints MOClaims and the staff person counts the weeks to verify there is no employment for 15 out of the last 26 weeks.

4. Bill marks the box for long-term unemployed, but he just lost his job. The staff person marks through that line on the form.

5. Jill marks the box for long-term unemployed, but the Dislocated Worker Career Enrollment is already in Toolbox. The staff person marks through this line on the form.

If someone is long-term unemployed and not Dislocated Worker, (s)he cannot be enrolled in the Dislocated Worker Program.

Applicant Process

The participant must be given a "Participant Orientation" (DRJP Form 5) which explains the program. A copy of the "Participant Orientation" form (DRJP Form 5) is given to the participant and the original form is placed in the file. It is possible during this orientation process that the individual may decide s(he) do not want to participate in the program. During this process, it is imperative to explain to the participant the job will end after 2,080 hours, and s(he) need to continue to seek other employment while in the position.

The individual must complete the "Membership Screens" including staff verification of Date of Birth. Upon completion of these screens, the WIOA Adult Career enrollment populates in Toolbox. The customer must have a jobs.mo.gov registration that includes the required fields and the Work History sections. If the individual is eligible to participate in the program, (s)he will be matched up with a Job Order in Toolbox. If (s)he doesn't match a Job Order, 'normal' Job Center services will be provided.

During the Toolbox Job Order matching process, the worksite may or may not be involved in the participant selection process. Depending on the number of DRJP potential participants and the worksite's capacity, there may not be time for traditional interviews. Some worksites may just ask for a certain number of workers and the Job Center will make appropriate matches.

Pre-employment steps are to be followed in this order:

1. Background checks: If required of regular employees at the worksite.
2. Drug testing: If required of regular employees at the worksite.
3. Physical: Required for all debris positions.
4. Tetanus shot: Required for all debris positions.
5. Safety training: Required for all debris positions prior to any work on the worksite

A worksite might require a background check of the participant to determine if (s)he will be able to work at the worksite. If a participant fails a background check, (s)he may be able to be placed elsewhere. If another position is available, it is appropriate to go to the next step and if another position is not available, (s)he should be referred back to the Job Center. If drug testing is required by the worksite, this will follow the same protocol as the background checks, and the participant can only move to the next step if there is another position is available. If (s)he fails the drug test, the individual will be referred to the Job Center for services. A physical will determine if s(he) can work in debris cleanup and/or restoration. If the physical indicates (s)he is unable to do this type of work, the individual will be referred back to the Missouri Job Center and may be able to be matched with a humanitarian position or receive other Job Center services. If the physical indicates (s)he is able to do this type of work, then the individual will be given a tetanus shot unless (s)he has a record that indicates a tetanus shot was given recently. Next the participant will attend safety training. If (s)he is unable to successfully complete safety training, the individual will be referred back to the Missouri Job Center.

If the participant is matched with a humanitarian position, (s)he will not be required to get a physical, a tetanus shot or safety training, unless some of the work is in the "field" (i.e. collecting timesheets) or the region has other reason to believe this is necessary or the worksite requires it. If the humanitarian worksite has additional requirements (i.e. background checks, drug testing, etc.), these must be successfully completed prior to the individual being hired. The bottom portion of the "Missouri Job Center Checklist" (DRJP Form 8) does not have to be completed for these positions unless one or more of those items are required by the worksite.

Enrolling

All costs prior to employment being obtained are considered 'Project Operating' costs by the US DOL and are categorized as 'Pre-Employment' costs on the local and state budgets. Each of these items must be service noted on each individual record including: background checks, drug testing, physicals, tetanus shots, and costs for the participant to attend pre-employment activities (i.e. transportation reimbursement). These service notes must include the date the participant was sent for the pre-employment activity and the date (s)he completed the activity. None of these are considered supportive or any other service.

A participant cannot be enrolled in the DRJP until employment has been obtained. For debris positions, safety training is the first day of employment, and this is when the participant must be enrolled. If the region hired supervisors who are planning with the counties prior to field work, the safety training may be postponed until there is a large enough group to save funding. If this occurs, service notes must indicate the reason that safety training has not occurred. For humanitarian positions, the first day of employment is the first day at the worksite.

Length of Time

All participants will not work less than a "normal week" which is generally 40 hours, unless there are unforeseen circumstances (i.e. weather) that prohibits working a specific day. Part-time positions are acceptable only if this is needed by the worksite. No participant shall work more than 2,080 hours, throughout the duration of their work experience. Participants in DRJP may work overtime provided that

regular employees of the employer are also working overtime. A Toolbox report is generated with the information from the "Payroll" tab in Toolbox for Regions to track participants reaching their limitations.

All participants should get as close to 2,080 hours as possible if these hours are available at the worksite; however, if (s)he has completed 2,050 hours, this is deemed as successfully completing the DRJP. Some Regions may find it necessary to make 2,050 hours the cutoff to ensure the timesheets are correct and the hours are not exceeded. If a participant exceeds the hours due to internal tracking processes, the Region must put processes in place to ensure this does not occur again.

Wages and/or Promotions

Participants in DRJP will be paid the same wages as other employees in like positions at the worksite that commensurate with experience and skills. Raises that are extended to regular employees must also be extended to DRJP participants who are working within the same job class. State Prevailing Wage Law does not apply to the DRJP.

If a worksite supervisor position comes open during the DRJP, a fair and competitive process must be in place to ensure all DRJP participants have the same opportunity. The process and decision should be provided in a service note along with the participant's worksite performance information. An "Evaluation" (DRJP Form 10) must be used to track progress and promotion possibilities.

Media Release

All participants must sign a "Media Consent" (DRJP Form 11) prior to their first day at the worksite. This is a condition of employment and (s)he must sign it to be employed in the DRJP. This will allow permission to use participants' words, photographs, or recorded information for public awareness of the Workforce Innovation and Opportunity Act and its functions, activities and programs. The participant's signature is a waiver of any claim asserted against any official, employee, agent, or unit of the Workforce Innovation and Opportunity Act under the local service provider, arising from the release.

Emergency Contact

Each participant will be required to complete an updated "Emergency Contact" form (DRJP Form 12) that will be retained at the Worksite for the purpose of designating a person of their choosing to call in case of an emergency. If the worksite does not generally have employees complete this form, the "DRJP Emergency Contact" form is used.

Medical Disclaimer

All participants must sign a "Medical Disclaimer" (DRJP Form 13) prior to the first day of employment (including Safety Training). This is a condition of employment and (s)he must sign it to be employed in the DRJP.

Transportation

Transportation from a central location to and from the worksite may be necessary due to safety and parking issues. Any other transportation needed by participants must meet all of the criteria of Supportive Services.

Worksite Orientation & Policies

The worksite must give the participant an orientation on policies contingent to the worksite such as absences, supervisor, expectations, etc. just as the worksite would do for any other employee. In addition, if the worksite requires any training beyond the safety training, this must also provided. If the DRJP participant is unable to successfully complete any worksite training requirements or adhere to worksite rules, (s)he is terminated and referred back to the Job Center for services. At a minimum, the worksite orientation must include the elements listed on the "Worksite Orientation" form (DRJP Form 6).

In cases where the worksite does not have policies to address certain situations (i.e. sexual harassment or drug-free workplace), then the Employer of Record's policies must be followed. All Employers of Record under the DWG must have policies in place to address these situations.

The worksite must also provide information on the participant's performance at the worksite – both positive and negative. This information must be documented in service notes throughout the Temporary Employment phase of the DWG. The "Evaluation" (DRJP Form 10) may also be used to document this performance.

Complaint & Grievance Procedure

The Complaint and Grievance Procedure follows the WIOA policy.

Reenrolling

DRJP participants terminated from the program are not allowed to be reenrolled in the same DRJP. It may be acceptable to reenroll participants (back into the same DRJP) who were successful in the program and obtained other employment or had a temporary break due to medical reasons; however, (s)he must have provided appropriate notification. However, as a general rule, previous participants should not be reenrolled unless there are no other participants to fill the positions. In all cases, if the original enrollment was closed in Toolbox, a Change Request must be sent to remove the end date. More than one enrollment in the same DWG is not allowable as all services will not be reported to the US DOL.

DRJP participants may be enrolled into a different DWG after successful completion of the DRJP. This includes participating in a second DRJP. However, this should be a case by case decision based on the need of the worksite and if no other participants are available to fill the position. If the participant is enrolled into another DRJP, a service note must explain the situation and show that other participants were not available.

Supportive Services

The Workforce Innovation and Opportunity Act (WIOA) defines Supportive Services as those services necessary to enable an individual to participate in activities authorized under WIOA, Title I. This Policy provides guidelines for administering Supportive Services to DRJP participants based on the WIOA. Supportive Services should be made available to assist customers in removing or reducing barriers to participate in WIOA activities.

Supportive Services may include transportation, child care, dependent care, needs-related payments and emergency housing. Assistive technology/equipment may be included in this definition if staff document the customer needs this technology/equipment in order to participate in the WIOA activity and are unable to obtain it from other resources. The extent of Supportive Services provided will vary based on the customer's needs and the Region's availability of funds and resources.

Supportive Services are only to be provided to DRJP participants who meet all of the following:

- Are in a temporary job assignment or have successfully completed the temporary job assignment and are receiving other services through the grant (if the grant allows training services);
- Are unable to obtain Supportive Services themselves or via their support network;
- Are unable to obtain Supportive Services through other programs including community agencies that provide these services; and
- Demonstrate a need for assistance to enable him/her to participate in Title I activities.

Supportive Service payments are authorized based on available funding and are limited to $1,800 per participant. If a DRJP participant's need is above the maximum limit, an additional amount must be approved by the DWD. These requests are first reviewed by the Region to verify it is acceptable and then emailed to the State DWG Coordinator. **No Supportive Services can be authorized until (s)he has obtained DRJP employment and each Supportive Service payment must be individually documented in Toolbox. This must include justification, reason, date, and amount of the payment.**

Needs-Based Analysis

Supportive Service payments are requested individually for specific needs. Because WIOA programs are not an entitlement, Supportive Service payments are made on a case-by-case basis only when determined necessary and reasonable. Payments must not be made for non-WIOA activities or for items that are not necessary for participation in the WIOA activity. A statement that a customer "needs" a Supportive Service will not justify the payment of these expenses. (I.e. Customer states he needs transportation reimbursement. The payment cannot be authorized on this statement alone; but instead, must be related to the WIOA activity; based on customer need and other resources must be sought first.). The determination of financial need must be documented at a minimum through Toolbox Service Notes.

The 'Financial Needs' tab in Toolbox is a good tool in determining customer need. This tab has a 'List of Values' for the types of "Monthly Household Resources" and "Monthly Household Expenditure". These resources and expenditures are automatically calculated and the "Net Difference" between the two displays. After completion of this information, the form can be printed and given to the customer. (Note: This tab will only help determine customer need, but all other resources must still be considered.)

Due to funding limitations, WIOA Supportive Services are the last resort. All other sources of funding must be sought first. All attempts to find other Supportive Service funding and the reasons for needing WIOA funding must be documented in Toolbox Service Notes. The availability of community resources will vary by region. The region should keep an up-to-date listing of these resources to make referrals to prior to paying Supportive Services.

Examples of possible community resources:

- Faith-based organizations;
- Non-profit organizations;
- Women's shelters;
- Clothes closets;
- Pro bono medical, dental, and legal services (may or may not need to be accessed through an organization);
- Government assistance such as: local health departments, WIC, assistive technology reimbursement programs, MO HealthNet, etc.;
- Local transportation programs; and
- Statewide and nationwide organizations such as: United Way, Goodwill, Salvation Army, etc.

When there is a concentrated workforce in one area and the same Community organizations will need to be contacted multiple times, the region must obtain a statement once a quarter that the organization is unable to provide the requested assistance.

Expendable vs. Non-Expendable

Supportive Services that are expendable to work on debris removal positions do not count toward the participant's $1,800 limit. These items must still be tracked per participant and service noted as expendable. (These are not entered on the Supportive Service tab in Toolbox.)

Examples:

- Jeans are provided to participants in debris removal positions and after a short time they will be torn and of no value. These would be considered expendable.
- Overalls are provided to warehouse workers sorting out donated items. These will likely still be in good condition after the temporary employment ends and could be considered non-expandable. Therefore, these would require a needs-based analysis and justification.
- Pam is unemployed due to the disaster. She states she needs work attire for a humanitarian position at City Hall. She has no resources to pay for this and there are no other community resources, so it may be appropriate to pay this expense.
- Mark states he needs mileage reimbursement to get to the DRJP worksite. Staff reviewed his need and determined he currently rides with a family member who does not ask for reimbursement; therefore, it is not appropriate to pay this expense.
- Tony, Marie and Scott completed safety training and will begin a position for DRJP debris removal at the City. To work in these positions, they will need work boots, jeans and shirts. These items are expendable due to the nature of the work and do not require justification or a needs based analysis. (Service notes must indicate these are expendable.)
- Bill finished the DRJP position and obtained employment. Bill states he needs new tires for his truck to travel to the employer. Staff reviewed his need and determined that Bill's budget allows for him to pay these expenses himself as he is currently employed and has discretionary income; therefore, it is not appropriate to pay this expense. (In addition, this falls under "Emergency Aid" and all criteria would have to be met.)
- Tom successfully completed the DRJP position and obtained employment. He states he needs mileage reimbursement to travel to employer. Staff reviewed his need and determined there are other community resources to pay for this expense; therefore, it is not appropriate to pay this expense.
- John finished the DRJP position and obtained employment. He states he needs childcare while he is working. Staff reviewed his need and determined a portion of childcare is not paid for through federally funded childcare; therefore, it may be appropriate to pay this expense.
- Jane states she needs new brakes for her car to travel to the DRJP position. Staff reviewed her need and determined that Jane's budget does not allow for her to pay these expenses and there are no other community resources; therefore, it may be appropriate to pay this expense after budget counseling and the Region ensures this will resolve her transportation issue. (See Emergency Aid criteria.)
- Mary states she needs childcare to participate in a DRJP position. Staff reviewed her need and determined the childcare is completely paid for through federally funded childcare; therefore, it is not appropriate to pay this remaining portion of the expense.

Individual Employment Plan (IEP)

The IEP is an ongoing strategy jointly developed by the customer and staff that identifies the customer's employment goals; the appropriate achievement objective(s); and the appropriate combination of services to achieve the employment goals. The Supportive Service(s) must be necessary for the customer to achieve the goals outlined in the IEP. Therefore, the goals listed on the IEP must be consistent with what the customer intends to achieve. The IEP must have both short-term and long-term goals.

During the temporary jobs component only, it is acceptable to list "To obtain DRJP employment" on the Employment Plan goal and justification. During training services, these goals must be updated appropriately.

Supplies vs. Fitted Clothing

Supplies provided during debris cleanup and restoration for the participant to complete the disaster-related temporary job assignment are not considered Supportive Services and are not tracked per DRJP participant, but the overall quantity per worksite. Items that are fitted to the individual such as boots, shirts, and pants are considered Supportive Services and are tracked per individual and recorded in Toolbox.

Transportation

Transportation reimbursement of $0.35 per mile is permissible for DRJP participants after the needs-based analysis and justification is completed. Mileage is determined using Map Quest or other standardized programs from the participant home address to the WIOA activity. A copy of the documentation for the initial determination of the ongoing need is placed in the participant's file. Upon changing WIOA activities or a change in the participant's financial circumstances, a needs-based analysis is completed again. (Any transportation reimbursement to attend pre-employment activities is not considered a Supportive Service, but all criteria must still be met and this must be service noted.)

Child Care

Childcare is permissible for DRJP participants after a needs-based analysis and justification is completed. This Supportive Service is only available for participants **not eligible for assistance** through the Family Support Division (FSD). Childcare must be provided from a State Approved Day Care. If a family member wishes to provide childcare for a participant, this individual must obtain FSD approval. The DRJP participant must provide documentation that FSD would not pay the childcare expenses.

If FSD requires a co-payment, Supportive Services may be used to pay this expense. Child care referrals and payments are available to WIOA participants with children under thirteen (13) years of age, children incapable of self-care, and/or children under court order who need care while participant is attending his/her authorized WIOA activity. Verification of emotional, mental or physical incapacity or court order must be provided if child is over 13 years of age. This verification must be kept in a separate secure location.

WIOA payment for child care is based on the Regional Market Rates (RMR) provided by Department of Social Services (DSS) found at https://dssapp.dss.mo.gov/ccrate/report.asp?county=049 .

Emergency Aid

Emergency Aid is a one time or rare expense paid to allow a DRJP participant to participate in WIOA allowable activities. If the customer is having extreme financial difficulty, staff must be assisting him/her with needed financial information (development of a budget, credit counseling, debt management, etc.) and the assistance must be service noted in Toolbox. Emergency aid payments must be well documented in Service Notes.

Examples include:

- Payment of utility bills (electric, water, heating, etc.);
- A car insurance payment;
- A rent payment; and
- Vehicle repairs.

Rent can only be provided if the address is used as the primary residence and allows for the participant to take part in the allowable WIOA activities. The participant must provide appropriate documentation for proof of residency and proof of ownership by the landlord. A service note must be entered in Toolbox documenting approval. Any and all documentation must be kept in participant's file and must provide proof that the participant lives at the address, proof that the landlord owns the property, and the amount that is past due. The landlord is to be paid directly for the rent, not the participant. Allowable documentation to show proof of residency may include a lease, a phone bill, cable bill, voting registration card, driver's license, etc. Allowable documentation to show proof of ownership by the landlord may include a lease, a property tax receipt, a title, a trash or sewer receipt, etc.

Vehicle repairs can only be provided on the vehicle used as the primary transportation for the participant to take part in the allowable WIOA activities. The participant must provide appropriate documentation for proof of ownership or a service note must be entered in Toolbox documenting approval. Any and all documentation must be kept in participant's file. Repair costs must be directly linked to an authorized activity. The vendor is to be paid directly for the repair, not the participant.

As with all other WIOA funding, all other options must be sought first. For example, heating and cooling assistance could be pursued through resources such as: Low Income Home Energy Assistance Program (LIHEAP), Salvation Army's "Heat Share", local programs (e.g., Ameren UE's "Dollar More," Kansas City Power & Light's "Dollar Aide," etc.), and faith-based organizations. Rent assistance could possibly be obtained through the U.S. Department of Housing and Urban Development (HUD). The resources available for assistance will vary depending on the region.

Needs-Related Payments

Needs-related payments (NRP) are a type of Supportive Service and must meet all Supportive Service criteria. However, the number of participants receiving these payments and the amount of payments are tracked separately from Supportive Service. These payments are equal to $175 a week or the previous amount of unemployment compensation, whichever is less. If there is no previous unemployment compensation, the amount is equal to the $175 as this is below the poverty level analysis. These payments do not count toward the participant's $1,800 Supportive Service limit and are not entered on the Supportive Service tab. A $3 processing fee per NRP payment is tracked by the Region for each payment and charged to the grant.
All participants who need these payments must file for unemployment compensation and print out the MO-Claims showing $0. Participants, who have an unresolved claim, do not qualify for these payments until it is confirmed they do not qualify for unemployment compensation. In addition, if the training is not being paid for through the grant, the participant does not qualify for these payments.

Needs-related payments are not allowable during the temporary employment phase of the grant. Needs-related payments are only available to DRJP participants who have successfully completed the work assignment and are in DWG-funded training. These payments will enable the participant to start or continue training; and may also be provided to a participant who will begin a training program within (30) calendar days.

Eligibility requirements for Adults:

- Must be unemployed;
- Not qualify for, or ceased qualifying for Unemployment Insurance (UI) compensation; and
- Be enrolled in an eligible WIOA training service.

Eligibility requirements for Dislocated Workers:

- Must be unemployed;
- Not qualify for, or ceased qualifying for UI compensation or Trade Readjustment Allowance under Trade Adjustment Assistance; and
- Be enrolled in an eligible WIOA training service by:
    1. The end of the thirteenth (13^{th}) week after the most recent layoff that resulted in unemployment; or
    2. After the thirteenth (13^{th}) week, but by the end of the eighth (8^{th}) week after being informed the short-term layoff will exceed six (6) month.

When paying needs-related payments, the Region needs to verify the participant is currently attending classes. This can be in a variety of ways including: online grade printouts, emails between the instructor and student, a grade on a recent project or test, a signed statement from the instructor, etc.

Examples:

- John successfully completed the temporary employment in the DRJP. He was determined to be eligible for a training program per guidelines. He began a six (6) month training program. During the training program, his UI was exhausted and he meets all other Supportive Service criteria. It may be appropriate to pay needs-related payments based on the weekly UI rate as needed.
- Bev successfully completed the temporary employment in the DRJP. She filed for UI and her MOClaims show $0. She meets all other Supportive Service criteria. It may be appropriate to pay needs-related payments based on the weekly UI rate as needed.
- Sharon successfully completed the temporary employment in the DRJP. She filed for UI and her claim is currently being disputed. Until this is resolved, it is not appropriate to pay needs-related payments.

Post-Employment

Participants may be paid Supportive Services for up to 30 days beginning the first day of employment with a non-DRJP position. The participant does not need to complete the program to get paid this expense as the intent is to move participants to full-time employment. However, the participant must have been successfully working in the DRJP and notified program Staff of obtaining other employment. All other Supportive Service guidelines of being reasonable, necessary and justified must be met.

Post-Employment supportive services can only be paid if the DRJP allows for the Workforce portion of the grant. The Temporary Employment and the Workforce portion are applied for separately.

Toolbox Service Notes

All Supportive Services must be documented in Toolbox and include at a minimum all of the following:

- The type of Supportive Service paid (e.g., transportation, childcare, etc.);
- The amount of Supportive Service paid;
- The timeframe the Supportive Service was paid for;
- The justification of need for the Supportive Service (not required for expendable items); and
- Lack of other community resources.

In all cases, staff must review Service Notes prior to making any Supportive Service payments to avoid duplicate payments.

Responsibilities

It is the responsibility of staff to provide accurate information to the customer including:

- If Supportive Services are requested or determined necessary, if he/she is eligible;
- If he/she is no longer eligible to receive the Supportive Service for any reason (i.e. cap met, no longer has a need, etc.);

- Verifying other region's Supportive Service payments in Toolbox to avoid non-duplication of Supportive Service payments;
- The requirements (e.g., paperwork, employment, etc.) to receive the Supportive Services.

Also, staff is required to maintain a file for each participant to include all required documentation (physical, tetanus shot, drug testing, etc).

Worksites

Eligibility

Each worksite must meet the eligibility requirements for disaster clean up. The work must be related to the damage declared in the DWG application. Each worksite must complete a "Worksite Agreement" (DRJP Form 14). The Agreement indicates the employer name and address, title of positions, and number of positions available. Levee Districts are local units of government with taxing authority. Therefore, if there are projects with these districts, they must supervise the work.
Each worksite must have completed and submitted a "Worksite Worksheet" (DRJP Form 1) before funds can be spent.

Unions

A "Union Concurrence Statement" (DRJP Form 15) must be signed before any worksite can be activated where labor unions are represented.

Private Property

If a worksite requires passing through privately owned property, a "Private Property Access" form (DRJP Form 16) which gives permission to pass through private property must be signed prior to the work beginning by the property owner and kept in the worksite's files. If the worksite already has a form with this information, then this is not required.

DRJP participants must be placed in temporary jobs in public or private non-profit agencies. DRJP must be located only where regular employees of the employing unit or state employees have the authority to do such work.

DRJP participants can only work on private property if:

- Workers from units of local governments are authorized to conduct such work and are performing such work; OR

- The private property of Economically Disadvantaged Individuals and meets all of the following:
  - ✓ Homes of economically disadvantaged are eligible for federally funded weatherization programs; and
  - ✓ Non-WIOA employees of the employing unit/state/local government workers are authorized to do the same work and are performing the work using non-WIOA funds; and

- ✓ Health and safety hazards need to be removed for the larger community; and
- ✓ Work is limited to returning a home to a safe and habitable level and this work is not to make home improvements; and
- ✓ There is a priority of service to elderly and individuals with disabilities; and
- ✓ The WIOA funds are not used for the cost of materials to do repairs; and
- ✓ The work must be disaster related; and,
- ✓ The work is coordinated with and supervised by the local federal weatherization program.

The DRJP worksites, where participants will be entering or impacting natural areas must make the appropriate contact with the Department of Natural Resources to ensure that activities are not negatively affecting endangered species or their habitats.

Job Descriptions / Job Orders

All DRJP participants must be given a job description prior to starting the temporary job assignment. Job descriptions must reflect only the disaster-related work to be completed and no "regular" worksite duties. If Job Descriptions are used from the worksite these must be modified to reflect the actual duties and no "normal worksite duties". When determining position names, there are times these may need to be titles that don't exist with the worksite, but it is rate of pay of other employees must be matched. If this position does not currently exist at the worksite, local LMI data is used.

All DRJP temporary jobs will be Job Orders in Toolbox. These Job Orders will be posted internally only and not on MissouriCareerSource. A Toolbox "Register" with eligible participants and eligible job orders can be created to assist staff in matching the individuals who were temporarily or permanently displaced as a result of the disaster, or are otherwise eligible for DRJP employment.

Worksite Closures

It is possible that during inclement weather or other unforeseen circumstances the worksite could be closed for the day. In that case, the worksite must follow the same protocol as they do with notifying other employees. All participants who are affected by the closure must record the day on their "Timesheet" (DRJP Form 17) as 'Worksite Closed'.

There are two events which will cause a worksite to be closed:

1. The project has been completed at the worksite. OR
2. Upon the DRJP staff visit to the worksite, it is found to be an invalid worksite and participants have been found to be performing work beyond the guidelines of this grant and outside the worksite agreement.

Disciplinary Action

Any required disciplinary action or termination of a DRJP participant will follow the same rules and guidelines of the worksite as these participants are to be treated as other employees. Termination of DRJP participants by the worksite are reported to the "Employer of Record".

All disciplinary action should also be documented on the "Evaluation" form (DRJP Form 10) and a copy given to the Local Workforce Development Board. A copy of that should be kept in the participant's file.

First Aid Kits

It is a requirement that all First Aid Kits be on site. This means that the kit needs to be within reach of the participants, not stored in an office located away from the actual worksite. If a worksite does not have a First Aid Kit that is transportable, Regions may provide such kits under this grant.

Supplies, Equipment & Sensitive Items

The purpose of purchasing supplies and equipment is to complete the disaster projected. It is expected the majority of these items will have no useful life after the project ends. While supplies are generally not inventoried, the Region must maintain lists per worksite to ensure that only the necessary items are purchased for the participants to use in the program and these items are in a secure location. It is the WDB's responsibility to have processes and procedures in place to verify all supplies and equipment are necessary and required for the participant to complete the temporary job assignment in disaster-related work.

Equipment is defined as the fair market value over $5,000 per US DOL guidelines; however, local policies may define equipment as a different amount (i.e. $1,000). When purchasing equipment, the rental versus purchasing cost must be documented and the need justified. All equipment purchases must first be approved by the DWD and the US DOL and requested in the same format as the "Heavy Equipment Request". Treatment and disposal of equipment and supplies must comply with the requirements of the Uniform Administrative Requirements as defined at 29 CFR, Part 95 or Part 97, as applicable.

Sensitive items are items considered attractive or easily pilfered that have a value over $250 (i.e. audiovisual equipment, televisions, calculators, etc.). Sensitive items purchased by the grant must be returned to the WDB after completion of the worksite project(s) and tracked as a fixed asset. Computers are sensitive items, regardless of the cost, and cannot be retained by the worksite.
In all cases, until the grant ends, the title for all equipment vests with the WDB and must follow local inventory/fixed asset policies.

Contracts

All contracts entered into by the WDB and subcontractors must include exit clauses and indemnifications to protect the Regions. In addition, all contracts should only be through the grant timeframe or when the funding will be expended, whichever is first.

Accident Reports

In the event that injuries are sustained on the job, the law requires that a claim report of the injury be filed. Accidents or injuries should be reported immediately or within 24 hours to the worksite Supervisor. The worksite supervisor must report the accident or injury to the DRJP staff so necessary paperwork can be completed.

Timesheets

"Timesheet" (DRJP Form 17) is used to record the days and number of hours worked in each two-week period. The timesheet must be signed in ink by the participant and supervisor. It is the responsibility of both the participant and the supervisor to make sure the time sheet is submitted to the worksite office by the designated time. Payroll cannot be processed until the signed time sheet is received.

Each and every paycheck must be documented in Toolbox on the "Payroll" tab. This must include payroll period, number of hours and gross wages. The "Payroll Date" is the last day on the timesheet OR the last date the participant worked on the timesheet.

Worksite Supervisor Orientations

To ensure the DRJP guidelines are followed, the worksite supervisors must be given a program orientation delivered in the most efficient manner possible which may include going to the worksite. At a minimum, the information outlined in the "Worksite Supervisor Orientation" (DRJP Form 18) must be covered. Depending on the worksite and as the program evolves, it may be necessary to cover additional topics. The worksite supervisor is required to sign this form and it must be kept in the worksite file.

Participant Worksite Orientations

To ensure the DRJP guidelines are followed, the worksite Supervisors must given a program orientation delivered in the most efficient manner possible which may include going to the worksite. At a minimum, the information outlined in the "Worksite Orientation" (DRJP Form 6) must be covered. Depending on the worksite and as the program evolves, it may be necessary to cover additional topics. The worksite supervisor is required to sign this form and it must be kept in the worksite file.

Toolbox

Completing Toolbox accurately and in "real-time" is necessary for successful local, State and Federal monitoring reviews. In addition, the information contained in this database is essential for the participant's success. Various Toolbox Desk Aids have been created by DWD Tech Support.

Following are some Toolbox reminders some are DWG-only and others are overall program:

- Real-time data entry must be completed.
- Long-term unemployed (which is allowable under this DWG) does not meet the definition of Dislocated Worker and therefore, an Eligibility for Dislocated Worker needs to be created in order to enroll the participant in the DWG, but the participant should not be enrolled in this (however, (s)he may qualify for Dislocated Worker upon the successful completion of the temporary job).
- Transportation provided prior to employment is not considered a Supportive Service and the Supportive Service should not be entered (however must still meet the criteria for Supportive Services and entered in Service Notes).
- A Supportive Service should not be entered in Toolbox until employment has been obtained.
- Transportation provided to safety training (which is employment) is a Supportive Service.
- Any Supportive Service for debris removal that is classified as expendable must be recorded as such in Service Notes.
- If a participant is enrolled in the DWG and then determined ineligible due to lack of documentation, this should not be closed as "Enrolled in Error" and the Outcome should be "Did Not Complete". ("Enrolled in Error" will completely remove this person from reports.)
- "Outcomes" must be entered.
- The "Safety Training" service should be opened and closed the same day (when it was provided).
- "Supportive Services" should only be left open as appropriate (i.e. a one-time payment for clothing would be open and closed the same day as provided; transportation reimbursement that spans a couple of weeks would be left open during that timeframe; etc.).
- The "Did Not Enroll" button must be checked for individuals that didn't pass certain pre-employment services or chose not to participate prior to employment and if this button is not checked, it will be automatically checked and closed in 30 days.
- "Enrolled in Error" is only used when there are no pre-employment costs.
- When the participant will no longer receive DRJP services (i.e. obtained full-time employment and is not getting post-employment Supportive Services; was terminated from the program; finished training; etc.), the DWG enrollment and all DRJP services must be closed after the final payroll has been entered.
- The "Payroll Tab" must be completed as this is the tracking system for hours and wages. This tab is only available while the Employment Service and Enrollment is open; therefore, these cannot be closed/ended until the final paycheck has been entered.
- Services entries must match the Toolbox Service Note entries.

- If an enrollment was closed in error or needs to be reopened due to reemployment in the program, a second enrollment must not be created. The first enrollment must be reopened with a Change Request. (Only one file must be created per participant.)
- DRJP Supportive Services for Expendable Items:
    - Service notes must include each item purchased, cost and date participant received item(s).
    - The Supportive Service must be opened during the timeframe the participant received item(s).
    - If a voucher was used, the service note must indicate the voucher amount; the date the items would be purchased and the items to be purchased. After invoiced, the cost per item must be entered and reference the previous.
- The Eligibility Record tied to the DWG Enrollment must be correct and cannot be "fixed" by adding another Eligibility record. If there is an error with the Eligibility record tied to the DWG Enrollment, this requires a change request.
- If a Service Note was not entered on time, "LATE" must be in the note with the date referenced. (I.e. Supportive services paid to the participant on 1/1/12.)
- Service notes and service dates must match.
- Job Orders in Toolbox can be searched from other Regions.
- Service Notes must indicate worksite observations or evaluations to ensure the participant is receiving regular contact and assistance from the case manager and the worksite supervisor.
- Change Requests:
    - The person who signs the form is responsible for verifying it is accurate and (s)he needs to review the form and the entire record prior to submission.
    - A duplicate form should not be sent, but instead an email requesting the status should be sent.

Employer of Record

The "Employer of Record" will depend on the contractual agreement within the region. The I-9 and W-4 must be completed. In addition, all participants must be checked through E-Verify before starting work (or within 3 days of the start date). All of these forms must be retained by the Employer of Record.

Fringe Benefits

At minimum, each participant in DRJP will be covered by Workers' Compensation in accordance with State law through the program funding. All participants shall be provided fringe benefits according to the Employer of Record's temporary employee policy.

Unemployment Insurance

Participants in DRJP will be covered by unemployment insurance compensation.

US DOL Requests

The DWG Coordinator sends requests to the US DOL for approval per regulatory guidelines. The forms created for the requests must be used at the local level as this is the process that has been approved by the US DOL for submissions.

Heavy Equipment and Transportation

FEMA has extensive experience in obtaining and/or leasing heavy equipment in the aftermath of disasters , and provides such equipment for a limited period of time to permit clean-up, reconstruction and other allowable activities following a disaster. State and local governments may also lease or obtain heavy equipment for worksites where Disaster Grant participants are employed. Generally, Disaster Grant funds will not be authorized for the purchase or lease of heavy equipment for disaster relief work.

In certain situations, the worksite may need heavy equipment they do not have and cannot afford to complete certain work (i.e. Grader to repair County Roads washed out from the flood in the affected County). These requests are not guaranteed to be approved, but are sent to the US DOL. This heavy equipment is procured through the WDB and/or its subcontractors and not by the City/County and reimbursed. The "Heavy Equipment" (DRJP Form 19) Excel document (a sample form is attached) which is available from the DWG Coordinator must be completed.

This form must include justification of the equipment including: needed to do necessary projects; the City/County does not have the equipment available; the City/County cannot pay for the equipment themselves even with FEMA reimbursement and this equipment was not requested to be reimbursed through FEMA. The form must also include the local procurement process. The form must also include the worksite; the work that will be completed by the project; the item needed and the item cost with estimated fuel and maintenance. (This form must match the "Budget" (DRJP Form 3.)) All Regions must ensure they have adequate insurance.

This equipment can only be used by the DRJP participant to do the job they were hired for. The initial requests are sent to the US DOL for approval and no heavy equipment can be leased unless and until the US DOL approves the request. All modification requests are sent to the State DWG Coordinator for review. Modifications to this request where the Region's total Heavy Equipment budget will not be increased including: changing items (i.e. bobcat for excavator); deleting items and increasing the cost per item must be approved by the State DWG Coordinator. Modifications to the request where the total budget amount will increase may require approval by the US DOL depending on the overall grant impact to this budget line item. In addition, it is recommended that equipment be leased where the leasing company can quickly repair so progress and employment is minimally impacted.

Many worksites will also require transportation from a Central location or the need for leased vehicles to haul equipment. This is only allowable when needed by the worksite due to parking availability; hauling equipment; etc. Due to the immediate need, the Regions can procure this transportation prior to approval, but this must be included in the request.

Any equipment purchases (defined locally or when there is not a local policy, defined as over $5,000) must be approved prior to the purchase by the US DOL.

Regions have listed other items on the requests (i.e. portable toilets, purchases not defined as equipment, etc.). If these were previously on the form, they must be left on the form. Any "new" requests should not include these items.

Wages over $12,000

Under the proposed WIOA regulations, there is no longer a $12,000 cap on participant wages. DRJP participants are now allowed to work up to 2,080 hours, so the $12,000 wage cap no longer applies.

FEMA Coordination

Meetings

Per DWG requirements, FEMA coordination is required to ensure non-duplication of efforts. If possible, local WDBs should be at the initial FEMA meetings after public assistance is declared. In addition, FEMA must be invited to the DRJP meetings when determining worksites as this coordination will ensure projects have the best possible outcomes. If a Region needs a local FEMA contact, the State DWG Coordinator can be contacted. If FEMA coordination has not occurred prior to the DRJP project determinations, FEMA must be sent the Project Scope to ensure there has not been payment for the DRJP requested items (i.e. labor).

Expenses

DRJP expenses are generally paid directly by the WDB or its subcontractor which means the City/County will not have an invoice to submit to FEMA for reimbursement and there cannot be payment duplication. On heavy equipment, this cost is paid directly to the vendor and the heavy equipment listings have been sent to FEMA who then distributes the lists to local FEMA representatives. On wages, this is paid directly by the Employer of Record to the participant. Due to the immediate need of fuel, some WDB Regions are reimbursing the City/County for this expense. DWG funds cannot pay the FEMA match.

In all instances, any expenses incurred that are reimbursed to the City/County must be coordinated with FEMA. The City/County procuring items and being reimbursed by the WDB should be avoided if at all possible. Following is the protocol for those expenses:

- The City/County must release the original invoices to the WDB upon payment
- A tracking system must be in place to verify these expenses were DRJP only (i.e. fuel is only for heavy equipment, leased vehicles, etc. and not any City/County vehicles)
- The City/County must sign a statement that these expenses will not be reimbursed by FEMA and these costs are only for the DRJP and not any City/County equipment, personnel, etc.
- The local FEMA representative must be contacted to determine if the entity needs copies of the receipts/invoices.

Responsibilities

Local Workforce Development Board (LWDB)

The LWDB and/or its subcontractor are responsible for administering the grant at the local level. This includes, but is not limited to the following:

- Verifying staff are enrolling participants in the DWG in Toolbox
- Verifying staff are entering appropriate services in Toolbox
- Retaining "Worksite Agreements" (DRJP Form 14)
- Internal monitoring of 100% of files
- Verifying state and local policies are adhered to
- Reconciling local records and Toolbox records
- Verifying only eligible expenses are paid
- Verifying Supportive Services are paid according to policy
- Providing information to the DWD for daily, bi-weekly (DRJP Form 27), monthly, and quarterly reports
- Assessing the need for additional worksites and workers and reporting this to the DWD on the "Worksite Listing" (DRJP Form 2)
- Directing any programmatic questions not addressed in policy to the DWD
- Verifying workers are following the required processes
- Entering Job Orders
- Provide DRJP "Participant Orientation" (DRJP Form 5) and Employer Orientations
- Provide photographs of worksites before and after work is completed
- Recruiting worksites and workers
- Procuring physicals, tetanus shots, and safety training

Missouri National Guard (MONG)

The Missouri National Guard is involved in various DRJP processes depending on the need of the WDB. The DWD may contract with the MONG to provide certain services after State Emergency Duty (SED) has expired. The MONG can provide valuable insight on inventory processes, routing participants through processes, safety training, etc.

Monitoring & Oversight

Monitoring must be conducted by the WDB to ensure that the participants, worksites, and related activities are consistent with the provisions of applicable Federal statutes, regulations, and the terms and conditions of this grant award letter.

The monitoring must include a review of all of the WDB responsibilities listed above. In addition, the on-site monitoring process must include questionnaires and procedures for interviewing participants, Employer of Record, and worksite supervisors, and must include on-site visits to worksites. At each review, it must be verified that every worksite is conducting disaster-related work only. It is recommended the "Debris worksite On-Site Monitoring" (DRJP Form 21) and "Humanitarian Worksite On-Site Monitoring" (DRJP Form 22) forms be used. (These forms are to be retained locally and not sent to the DWD.) The worksite monitoring must be

conducted monthly and the first review must begin within two weeks of the first participant beginning employment at the job.

After each review cycle where all worksites have been monitored, a report must be compiled and maintained locally. This report must include:

1. Name of Reviewer(s)
2. Date(s) of Visit
3. Listing of Counties and City/Town's Monitored
4. Worksite Locations Monitored and Number of Participants at Each Site
5. Verification all Worksite Agreements are in place and understood by the worksite
6. Verification all work is disaster-related only
7. Success stories and program progress
8. Any items found not in compliance with the DRJP (i.e. no worksite orientation, no supervision on-site, lack of safety equipment, etc.) by worksite
9. Corrective action necessary
10. Follow-up necessary

If there are any items not in compliance at the worksite (#8 from above), the region must forward this report to the State DWG Coordinator and QA Unit.

It is imperative the regions maintain regular contact with the State DWG Coordinator. At the beginning of the project and during the planning phase, this contact may be daily. At any point there are changes to the project (i.e. number of worksites/participants changed), a new "Worksite Listing" must be emailed.

The "DRJP Participant File Review - Employed" (DRJP Form 23)or "DRJP Participant File Review – Not Employed" (DRJP Form 24) is required to be in each new participant file with the first 30 days of the temporary employment.

Fish and Wildlife Service (FWS)

In order to ensure compliance with the National Environmental Policy Act (NEPA) and the Endangered Species Act (ESA) and to protect valuable habitats and endangered species, all disaster projects where participants will be entering or impacting natural areas must ensure that activities are not negatively affecting endangered species or their habitats. NEPA and ESA require DWG projects to either affirm to FWS that there are no endangered species or habitats within the project area, or to consult with FWS to mitigate negative impacts where there are endangered species or protected habitats before beginning any work in those areas. For more information, contact a local FWS field office visit www.fws.gov/offices/.

Financial

Budgets are developed and updated on the "Budget" (DJRP Form 3). The initial budgets are often underestimated as the work is just developing. The local budgets are rolled into the total State budget. In addition, all line items on this form are reported on the CPR to the DWD Financial Unit. The DWD uses this budget form to complete all of the required items in the grant modifications (including requests for additional

funding)and contract with local WDBs. Therefore, it is imperative these kept up-to-date as the worksite's needs develop.

Accruals must be reported on the CPR. Calculating accruals will include contacting vendors who have not submitted invoices to verify what the costs are and/or extrapolating the costs based on the agreement. In addition, the payroll costs must be reported each time. Accrual reporting is required by US DOL and failure to report accruals could result in the DWD not requesting additional funding in a timely manner.

The DWD will conduct monitoring visits at least quarterly. Prior to the visit, the Region will be requested to produce payroll and other records. If costs that are not associated with DRJP are identified at that time, these will have to be reallocated to the appropriate funding source and/or repaid to the grant.

US DOL Reports & Grant Modifications

The US DOL requires bi-weekly, monthly and quarterly reports. The Regions within the DWG are required to compile and report information for these reports.
Regions will provide the "Bi-Weekly Reports" (DRJP Form 27) to the State DWG Coordinator beginning from the time the grant is awarded through the first three months of the project. After the completion of three months, the regions will then provide monthly reports through the end of the temporary job component of this grant. Regions will provide accrued expenditures to DWD Financial on a bi-weekly basis until notified differently.

For quarterly reports, the DWD must report Fiscal expenditures and participants. For Fiscal expenditures, all information required is reported on the CPR and the DWG Coordinator will use this information.

The US DOL requires grant modifications for a variety of reasons including: changing the number of participants; adding a Workforce Development component (Career and Training Services); requesting additional time; requesting additional funding; adding a Project Operator; etc. The modifications are very detailed to the participant level. The Regions are requested to provide information very quickly to the DWD as the DWD must review, edit and compile multiple Regions information and submit in the modification according to US DOL requests.

Workforce Development Component

This grant is funded through Workforce Innovation and Opportunity Act (WIOA) funding; therefore, WIOA criteria apply to training services. These services may be paid through the grant or Dislocated Worker funding depending on the grant. If these services were written into the grant for the entire population and there is adequate funding, this grant is the funding source that must be utilized. If these services were only written for the long-term unemployed in the grant, then Dislocated Worker funding (or 25% pool funds which are requested in writing) must be utilized. The long-term unemployed do not qualify for Dislocated Worker funding, unless (s)he meets the definition after the temporary employment ends. If a participant will not receive training services through the grant, the DWG enrollment is ended when the final payroll has been entered.

Training Services paid through the grant are allowable during the temporary employment phase of the grant only after the US DOL approves the Workforce component and the Regions are notified. To be eligible for

Career Services

Career Services are available to unemployed persons who are unable to obtain employment. Allowable Services as defined in DWD Issuance 03-2000, Change 1 includes: Comprehensive Assessment, Full Development of an Individual Employment Plan, Group Counseling, Individual Counseling, Short-Term Prevocational Services and Internships. DRJP employment is not defined as Work Experience.

It is highly recommended that a Career Center Services are provided for participants prior to them moving to training which includes: a resume with the most recent temporary employment; interview preparation and the basics of online job searching.

Because the goal of Workforce Development is to move participants into self-sufficient employment, the Career Center Services can be provided during the Temporary Jobs portion of the grant.

Training Services

Training Services are allowable after (s)he has met the eligibility requirements for Career Services and is unable to obtain or retain employment through such services and after an interview, evaluation, or assessment, and case management it has been determined (s)he is in need of Training Services and has the skills and qualifications to successfully participate in the selected program. Allowable Training Services as defined in DWD Issuance 03-2000, Change 1 includes: Occupational Skills Training, On-the-Job Training, Workplace Training and Cooperative Education, Entrepreneurial Training, Job Readiness Training, Adult Education and Literacy, private Sector Training Programs and Customized Training. The Program must be directly linked to employment opportunities in the local area or in another area in which the Adults or Dislocated Workers receiving such services are willing to relocate. Employment opportunities in the area are determined using local (not State) Labor Market Information (LMI). If an employer agrees to hire the participant, a letter to this affect is acceptable.

The training provided to DRJP participants should be short-term in nature as the grant is only "guaranteed" through the date on the approval letter from the US DOL. All participants must be assessed to verify (s)he can sustain their household while in the program. In addition, whenever possible, the skills learned in the program should be "built on" in this training program. All training for DRJP participants paid through DWG funding is capped at $10,000 per participant as this is in-line with the grant application and US DOL guidance.

Reminders on specific services:

- HiSET Classes are eligible under Adult Education and Literacy. Classes cannot be paid for through the grant as this is paid for through another agency; however, supportive services including needs-related payments can be paid if all criteria are met.

- Having a degree does not mean (s)he cannot obtain training through the grant as this depends on employment available in the area (can be determined through LMI) and all other criteria must be met.

- OJT follows the same rules as WIOA

There is no timeframe restriction on when the participant must begin a training program, but it should be as quickly as possible to ensure it is completed prior to the end of the grant, and to engage as many participants as possible. In addition, the long-term unemployed do not have other funding sources for retraining services.

Education-Related Expenses

Education-related expenses to enable DRJP participants to participate in training after (s)he has successfully completed the temporary job are permissible after a needs-based analysis is completed. This could include testing fees, items required for the training program (i.e. stethoscope), etc. (This is not allowable until the Regions have been notified by the DWD that the US DOL approved the training component.)

Pell Grant

DWD Issuance 12-1999 addresses the "Coordination of all Workforce Innovation and Opportunity Act (WIOA) Title I-B programs with programs under Title IV of the Higher Education Act including the Pell Grant Program". This Issuance must be adhered to when determining funding including Supportive Services.

Highlights of the Issuance include:

- Duplicate payments must be avoided when the customer is eligible for both WIOA and other assistance.
- The mix of funds should meet the needs of the customer and be determined based on the availability of funding for either training costs or Supportive Services so that the training can be completed successfully.
- Simply reducing the amount of WIOA funds by the amount of Pell Grant funds is not permitted.

Plan

Pastor Ellison, Harris, and Overton,

Below is a list of churches that have volunteered to be Church Distribution Hubs. I had direct contact with the pastors and their point of contacts. I have also conducted site assessments at their facilities.

It was conveyed to them that this initial plan was a collaborative effort, and may change with input from all parties involved.

It was discussed, and agreed that the HUB churches would network with the surrounding churches, and set up their own agreed upon distribution schedule. It was requested that the HUB church provide a list of churches that are obtaining their water from the HUB church. This list can be sent via email to Lt. Roach at Roachb@michigan.gov.

Hopefully this plan will further assist and augment our initiative of getting water to our residents more efficiently.

Request for Water

At this time the Church HUB point of contact is Lt. Roach . The Church HUB will call and provide the quantity of water, and schedule the delivery time. This should be scheduled at least 24 hours in advance.

Deliveries

The deliveries will be conducted by a Mi DTMB driver, and truck. They have a pallet jack and the capability of moving pallets from their truck to a staging area. If the water needs to be transported to an upper or lower level, there needs to be people to assist off-loading.

Church Distributions

The Church Distribution HUB would be responsible to network with the surrounding churches, and set up a distribution schedule, along with amounts of water needed.

Facts

1) Move from State to ??? distribution method
2) EM expires 14 Apr 16
3) Distro plan included faith based
4) DEQ 3rd party H2O safe
5) FEMA provide H2O 90 day
6) FEMA 3 commodities
7) One filter in ever residence
8) State engaged – high level
9) Stewardship {reports, oversight}
10) Restore Confidence in Govt F S L

Assumptions

1) Move to long term distribution plan in 2-4 weeks
2) Move State Distribution
3) Distro command defined as
    a. H2O filters
    b. H2O Cartridges
    c. Pitchers
    d. H2O Pods
4) ***State will maintain commodities past 90 days?**
    a. **Does state want to prepurchase commodities other than water?**

  - Rapid response pop 5 penskes 16'
- source

Hours of Operation

- Days 7
- Hours 0900 – 2100 (vary per POD) 8 per day within
- Look at ops
- Hours number equal but can times can be adjusted

Location

- Agreement:
  - Parking Loc
  - Accept Mobile POD
  - Meets IC26

Policy and Procedures

- ADA Compliant
- Bus add POD Loc to Rt
- Tracking mechanism
  - Card tied to address/utility bill
- (Potential transition plan to Donated commodities?
- Use of semi trailers would require review of CDL and some site considerations

FEMA is limited to proving commodities for 90 days ending 14 Apr

- *undocumented personnel

Distribution Model: COA 5

Staffing

Manager of contractor

Unknown number to increase food bank capacity

reponsibilities

Equipment

Unknown- Food Bank and Pantries responsibility but priced into contract source

Hours of Operation

Days & hours vary from location to location

Location

Minimum of one per ward

Policy and Procedures (P&P)

FB has its own P&P for volunteers, operational business ops

Distribution Model:

Staffing
- Numbers
- Type
  - reponsibilities

Hours of Operation
- Days
- hours

Location
- Agreement

Policy and Procedures

COA# 3 Food Banks

- 86 total stops
    - Pantries
    - Once per week
    - 4 routes per week, 21 stops per week
        - Route 1 Monday
        - Route 2 Tuesday
        - Route 3 Tuesday
        - Route 4 Friday
    - Each route has different pantries
    - Food bank would deliver commodities to 86 stops

Data still needed (variables)

- Where are the 86 Pantries
- Size of pantries
- Willingness to do other commodities other than water
- Ability to hold water, filers and cartridges
- Ability to deliver to all 86 pantries
- Do we reduce # of 86
- Accessibility of pantries
- Hours of pantries
- What trucks will be needed to deliver
- What equipment will be needed
- Funding need to support
- How often are deliveries need per pantry
- Would we just fund them to increase their equipment or would we supplement
- Need supply chain management or would we use and track ourselves or use food bank.
- Assign neighborhoods to pantries

Subject: Concept
Attachments: NDWG Proposed Narrative.docx

Attached is the concept paper. (please do not share as it is not real at this point, but fell free to make comments/suggestions and send back)) Monday's meeting will be to get the two agencies (GST and SEEDS to agree) on the concept, then I can submit to USDOL (by the end of next week). There will be plenty of discussion on how we make this work. Please note I have entered 400 as a jobs number. I anticipate there will be plenty of turnover due to the nature of the participant.

I have not heard back from GST today regarding ability to place into the jobs by mid-week. I do not see this happening by next week. My strategic mind is swirling with a plan B where SEEDS can staff those positions with their staff who will become a more permanent fixture for supervision of all participants. Concerns for this include immediate funds available (as these are not WIOA participants, but rather an administrative entity) and SEEDS internal structure. And again, not definitive answer, sorry.

As we continue to move forward (and at the pace of bureaucracy), GST is working out their internal process for outreach to eligible participants so they are ready to funnel them to SEEDS to start work.

Subject: RE: Flint Local Hire - Start Next Wednesday?

Maggie,

For this first portion, if the difficulty is matching them to a specific Ward, this may wouldn't necessarily have to apply as they will be shadowing National Guard in the fire stations. I was just putting out the long-term staffing idea. We can discuss further on Monday, if you want.

Just a quick question – can you provide some info on the hours for local hires? It is my understanding they could work 35 hours per week, and would be required to complete 5 hours of "training" each week. I just want to verify, as this might result in the need to hire additional staff to ensure they stay within their hour limits.

Thanks,
Bri

Subject: RE: Flint Local Hire - Start Next Wednesday?

Good Morning,

I am working with the GST WORKS on this. I will know more later today, but am not feeling too confident on locating quality participants fill such a position. This may be another week out.

Brianne, our meeting Monday will be at the GST administrative office located at 711 N. Saginaw St., Flint 48503. 10am.

Subject: Flint Local Hire - Start Next Wednesday?
Importance: High

Maggie,

Per our conversation, below is the description for what we expect of a Support Team Leader at the PODs. **We'd like to get 9 staffed in the current PODs by next Wednesday to shadow the National Guard.** If you are able to confirm this is possible, please let me know as I will need to update our command at the SEOC. When filling these jobs, we're looking to hire locally in the affected area of Flint and try to keep them located in the Flint Ward in which they live, if at all possible.

> Support Team Leader: supervises all support operations including: ensuring equipment used onsite has been inspected, maintained, and used in a safe manner, coordinating supply truck movement onsite, conducting resupply operations including downloading commodities and resupplying the loading line, maintaining accountability of all commodities received, on hand, and distributed from the site, maintaining all paperwork relating to resource accountability and providing daily resource reports

I'm going to review the full list of jobs and descriptions and will provide soon.

If you can provide the details for the Monday meeting, I will plan to attend. We just want to ensure we're meeting the mission for water distribution.

Let me know if you have any questions on this. My cell phone is the best way to reach me

Thanks,

"A PROUD tradition of SERVICE through EXCELLENCE, INTEGRITY, and COURTESY"

NDWG Proposed Narrative. 2.19.16

Elevated lead levels have been detected in the water supply in a number of areas in the City of Flint. The State of Michigan officially declared a state of emergency in flint on January 6, 2016, and the Federal Government followed on January 16, 2016. Federal, state and local officials have now engaged and are taking more aggressive corrective action to address this situation and the public health crisis that has resulted from it.

On January 16, 2016 and at the request of the State of Michigan, President Obama signed an emergency declaration the purpose of which is to make Federal aid available to the city in support of current filter and water distribution efforts to impacted persons in the city. This declaration mobilizes FEMA to assist in the efforts and also makes certain federal funds available to the city for the purpose of supporting those activities.

This NDWG will support the activities set in place by the State of Michigan Emergency Management Team, which has established a State Emergency Operations Center (SECO) in Flint. The Michigan State Police, Michigan National Guard, FEMA and other agencies are operating the center to ensure water and filters are distributed to Flint residents.

The project's primary goal will be to: 1) develop temporary jobs that benefit the residents of Flint affected by the Flint Water Crisis by employing workers on projects that provide emergency water, water filters, lead testing kits and replacement cartridges, 2) provide support services to the persons placed into the temporary jobs, 3) provide support for temporary job through warehousing water and other commodities, and recycling the bottles and filters as needed during the crisis. While the overriding emphasis will be to support the local recovery effort through temporary jobs for humanitarian purposes, there will also be a range of broader workface services directly connected to the temporary jobs programs to assist participants the workers in finding permanent employment. The structured temporary jobs program will allow workers to spend time on learning reemployment skills. When appropriate, the following reemployment activities may be included to support the temporary jobs program:

- Connect temporary workers with local employers
- Implement structured skill building activities (equipment use and safety)
- Offer soft skills activities at worksite to build job readiness

- Use any available down-time to provide career planning assistance

The project plans to serve 400 Dislocated Workers and Long Term Unemployed (those who have been out of work more than 20 nonconsecutive weeks in the past five years, enrolled as adult) who reside in Flint.

The WDA will partner with Genesee Shiawassee Thumb Michigan Works (GST) as the project operator. GST will provide WIAO services for all participants who are found eligible and enrolled in the project. SEEDS (operates the largest Conservation Corps in the State) will serve as the employer of record and provided services in conjunction with GST.

The temporary workers will perform specific water crisis related work along with the other work consistent with the core mission of the SEOC to provide allowable humanitarian relief employment on projects that provide assistance to residents of Flint affected by the water crisis. Other allowable activities may include clean-up (recycling), repairing, renovating and reconstructing damaged water lines as it relates to the crisis.

The temporary jobs created would pay an average of $11 per hour. Participants will be provided support services deemed necessary to complete the assignment (including, but not limited to work clothes and tools). These temporary jobs will not be provided unemployment insurance benefits.

Subject: Staffing Final
Attachments: Warehouse_1_Proposed_Staffing_FINAL_02182016.xlsx; Warehouse_2 _Proposed_Staffing_FINAL_02182016.xlsx

Staffing List

Suggested Daily Staffing for Warehouse 1 (4315 Clio Road, Flint, MI)

(1) General Warehouse Manager

Some heavy lifting may be required. Responsibility for all Warehouse Operations.
Supervises the Shipping/Receiving and Yard Manager, Fleet Coordinator, Floor Workers, Security and Forklift Drivers.

(1) Receiving Manager

Heavy lifting may be required. Responsible for all receiving logs and reconciliations.
Provides daily/weekly report to the General Manager. Supervises the Warehouse Coordinator.

(1) Shipping Manager

Some Heavy lifting may be required. Recieves all requests for distribution of commodities.
Records all shipments and reconciles balances. Reports to General Warehouse Manager.

(1) Warehouse coordinator

Heavy lifting may be required.
Picks orders from warehouse for shipping and coordinates all recievables storage. Reports to Receiving/Shipping Manager.

(1) Yard Manager

Heavy lifting may be required.
Directs all traffic in shipping yard. Reports to General Manager.

(1) Security

Heavy lifting may be required.
Monitor door for unauthorized personnel-based on physical security (fence, alarm, etc...). Reports to General Manager.

(10) Inventory/Receiving/ Floor workers

Heavy lifting may be required.
Staff dedicated to receiving inventory, daily inventory and prepping of orders for shipping.
Reports to General Manager but may take direction from any Manager/Coordinator.

(10) POD Drivers with 26' Box Trucks

Heavy lifting may be required.

(5) Rapid Response Drivers with 20' Box Trucks

Heavy lifting may be required.

(4) Forklift Drivers

Heavy lifting may be required.
Reports to General Manager, takes additional direction from Receiving/Shipping Manager and Warehouse Coordinator.
Must be certified Forklift Operator.

This staffing structure makes the following assumptions:
Technical advisors are not on site
No volunteers
No prisoners from DOC

REQUIRED EQUIPMENT

- 10 26' Non CDL Box Trucks (26,000 GVW or less)
  - Power Ramp/Lift Gate with 2,500-3,000 capacity
- 5 20' Non CDL Box Trucks (26,000 GVW or less)
- 4 Forklifts (Propane)
- 8 Manual Pallet Jacks
- 2 Electric Pallet Jacks
- 10 Electric Pallet Jacks (One assigned to each POD Truck)
- 2 pair of safety wheel chocks
- 1 Pallet puller with chain
- 2 Office Desks
- 1 Laptop Computer
- 1 Internet Connection
- 1 Cell phone
- 1 Multi-function printer/copier/fax
- 25 Folding chairs
- 1 40 yard dumpster
- 1 First Aid & CPR kit
- 1 AED
- 25 Safety Vests
- 100 Pallets
- 40 Gaylord boxes
- 24 Shrinkwrap
- 4 Packaging Tape Dispensors
- 4 Case of packing tape
- 20 Box Cutters
- 40 Extra box cutter blades
- 4 30 gallon trash containers
- 4 Push brooms
- 2 Mop
- 4 Dust pans
- 2 Mop bucket
- 24 Black permanent markers
- 2 box of pens
- other Office Supplies as needed

Subject: DCDS Coding

Effective this current pay period, for any REGULAR AND OVERTIME hours worked on the Flint Water Emergency, please use Index 28900 and PCA 28670 and on the activity tab enter hours for the activity FNTWTR. This will help us to report more consistently with other state agencies and assist the State Budget Office with their tracking.

I know it adds a little extra time when inputting your time, but we really need to monitor time as accurately as possible. If you have problems with DCDS, please contact Nancy and she can walk you through the process.

Thanks so much. Appreciate your efforts.

Subject: Portfolio of FEMA Independent Study Trainings

Brianna and Tom,

Below is a list of trainings that are available to the public that might be good for a larger training portfolio for the local hires. Some of them included are more relevant to a Detroit Crew (Intro to IA and PA), but I figured you'd want more rather than less. One thing to note is that each student will need to register for a Student ID number... it's simple and free. I'm copying Kendal in case he has any more to add, besides IS 26 and IS 27.

1. IS-100.B Introduction to Incident Command System (ICS-100)

"A PROUD tradition of SERVICE through EXCELLENCE, INTEGRITY, and COURTESY"

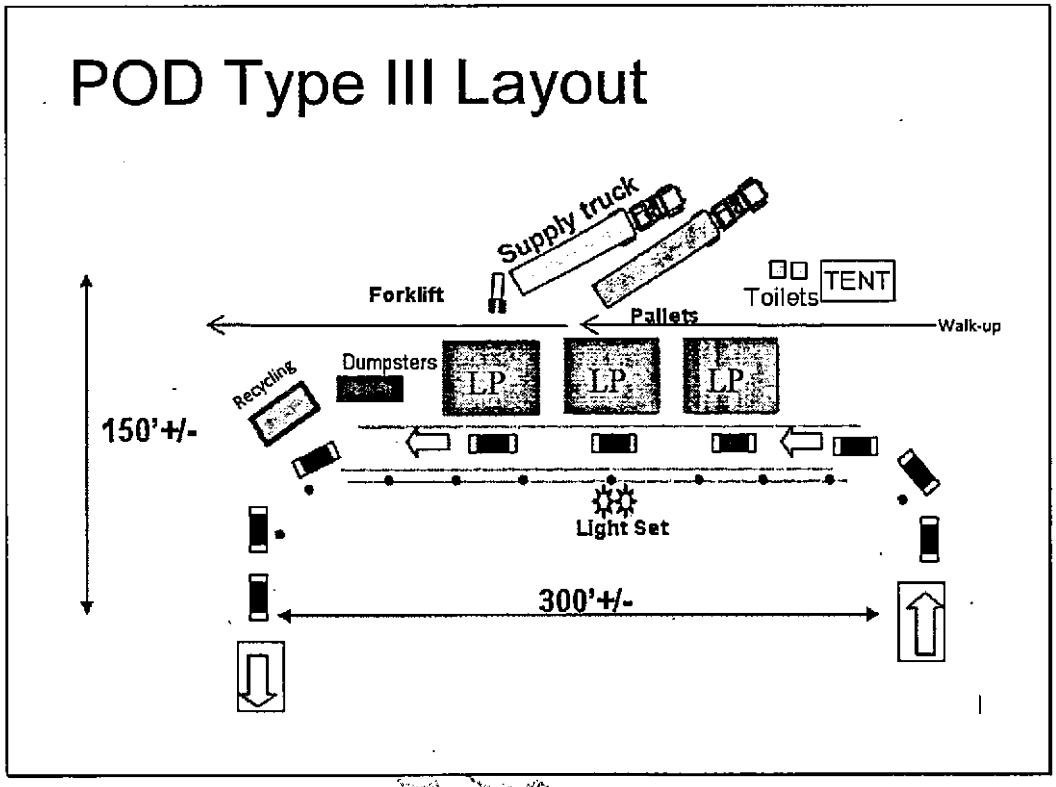
Long-term Distribution Plan

9 PODs Concept

9 Points of Distribution (POD) Concept – 1 POD per City Ward. Physical location to be determined after site visits by MSP/EMHSD and FEMA.

<u>POD Operations</u>

1. Location
    a. One centralized warehouse would be optimal for this process. Until that time the current warehouses would support all POD and Rapid Response Team (RRT) operations.
    b. One POD would be located in each of the existing city Wards.
        i. Site selection would be completed by a MSP/EMHSD liaison officer with technical assistance by FEMA, *completed by February 22, 2016*
        ii. PODs would be located in a paved parking lot with ample ingress and egress for vehicular and pedestrian traffic.
            1. At a minimum two curb cuts from the public roadway would be needed to allow for incoming and outgoing traffic.
            2. Sites should be near an established Mass Transit Authority (MTA) bus stop.
                a. MTA could add these into the existing transportation routes as they have for the Flint Fire Department PODs.
        iii. Memorandums of Understanding (MOUs) may be needed with any of the POD locations, *completed and signed by March 1, 2016.*
            1. Site locations would require unrestricted access to the area and be allowed to erect non-permanent structures and stage equipment long term.
            2. Sites would also need to be maintained parking surfaces that would withstand the use and staging of equipment (box trucks, dumpsters, heavy traffic).
        iv. Minimum size of potential PODs is defined by the FEMA Independent Study course 26 (IS26).
            1. All sites should meet the minimum qualifications.
                a. 150 feet by 300 feet and requires a staff
                    i. Vehicle Line – 20 feet wide
                    ii. Loading Point – 80 feet by 40 feet each
                    iii. Supply Line – 50 feet wide
                b. All PODs will have a separate walk-up line that is placed between the supply trucks and the loading points.
                    i. Marked with cones and separated from vehicle traffic.



2. Hours of Operation
    a. Operational period for the PODs would be Monday through Saturday.
        i. Church distribution would be supplementing the Sunday distribution.
    b. Uniform hours across all PODs would be essential for clear and concise messaging.
        i. Hours of operation are 12:00PM to 6:00PM Monday, Tuesday, Thursday and Friday.
        ii. Wednesday and Saturday hours of operation will be 12:00PM till 8:00PM.
3. Staffing
    a. For detailed position specific parameters see *Attachment A: Staffing/Equipment Needs: POD.*
    b. Supply Truck Drivers, see *Attachment B: Staffing/Equipment Needs: Warehouse*
    c. Local hires program workers would be restricted to 35 hours of work with five hours of training.
        i. All local hires would be required to complete basic 800 mhz radio training.
        ii. Training may be Incident Command System (ICS) training, Occupational Safety and Health Administration (OSHA) training, or computer literacy courses.
            1. IS-100.B Introduction to Incident Command System (ICS-100)
            2. IS-700.A National Incident Management System (NIMS): An Introduction
            3. IS-230.D Fundamentals of Emergency Management
            4. IS 26 Guide to Points of Distribution
            5. IS-27 Introduction to FEMA Logistics
            6. IS-632.A Introduction to Debris Operations

7. IS-393.A Introduction to Hazard Mitigation
8. IS-403 Introduction to Individual Assistance
9. IS-643 Introduction to FEMA's Public Assistance Program
10. IS-241.B Decision Making and Problem Solving
11. IS-242.B Effective Communication
12. IS-552 The Public Works Role in Emergency Management
13. IS-558 Public Works and Disaster Recovery

d. All POD workers would be required to complete a beginner training for safe work practices and be briefed on any standard operating procedures.

4. POD Operational Overview
   a. Support Team Leader is responsible for the overall management of the POD *see Attachment A: Staffing/ Equipment Needs: POD, for more details.*
      i. This position will be the link between the POD and warehouse(s) for all inventory and shipment requests.
      ii. Will be responsible for the management of the daily set-up and take down of equipment.
      iii. Will be the responsible position for signing out and signing in of all handheld equipment.
   b. Administrative Support Specialist is responsible for the tracking of outgoing commodities.
      i. Position will be proficient in the data management system.
      ii. Position will be responsible for ensuring households that come to the POD are on the Flint Water System by verifying their unique identifier or address is no unique identifier is present.
      iii. Position will communicate with POD Loaders on what items each household should receive.
   c. Recycling Support Specialist is responsible for the collection of filled recycling bags and distribution of new bags and assisting with curbside recycling sign-up.
      i. Position will collect filled recycling bags from the household at the POD and deposit them into the recycling collection point.
      ii. Position will hand out prepackaged recycling bags.
   d. Traffic Controller
      i. Position will setup the traffic lanes daily to comply with the established POD layout.
      ii. Direct incoming deliveries as to not impact the pedestrian and vehicle traffic.
      iii. Position will ensure all foot and vehicle traffic stays within the marked lanes.
   e. POD Loaders
      i. Positions will handout commodities as directed by the Administrative Support Specialists.
      ii. Loaders will be required to assist with keeping the loading points organized and depositing any refuse in the proper locations.

5. Equipment for POD Operations

a. Supply truck needs are detailed in *Attachment B: Warehouse Equipment Needs*
b. Equipment for each POD is detailed in *Attachment A: Staffing/Equipment Needs: POD.*
c. Inventory for the PODs
    i. All PODs will be full service offering water, water filtration systems, water filtration system replacement cartridges, and water testing kits.
        1. A maximum of 15 pallets of water may be expected to distribute at each POD daily.
        2. Each PODs inventory would be controlled by the POD Manager.
            a. When supplies are low they will be responsible for contacting the warehouse to order a shipment from the resupply trucks.
    ii. All water, water filtration systems, water filtration system replacement cartridges, and water testing kits will be supplied from the state warehouse(s).
d. Site Safety and Security
    i. All PODs will be required to notify the warehouse of any safety concerns.
        1. Utilizing 800 mhz radios workers will relay all necessary information to the warehouse.
        2. Warehouse personnel will send law enforcement, EMS, or fire representatives to the POD as needed.
            a. In the event of a life threatening situation call 9-1-1.
    ii. Reflective safety vests must be worn at all times by POD workers.

6. Household commodity consumption monitoring.
    a. Utilizing a mobile electronic/web based tracking system each POD would record the commodities given to each household.
    b. Each household would be given a unique identifier card (or similar).
        i. Each card would track in real time what commodities were picked up and at what time, except for water.
            1. Water inventory and output would be monitored at the POD by the overall quantity that is given out, not on a specific household basis.
        ii. When presented at each POD the card or unique identifier would be scanned by the POD worker assigned to data entry.
            1. Once scanned the POD worker would confirm the household is eligible to receive commodities from the POD.
            2. POD loaders would distribute the desired items into the appropriate vehicle.
    c. If the customer on the Flint Water System does not have their unique identifier information card with them, they may present any form of identification that lists the address for the individual.
        i. The POD worker would be able to manually input the address and search for the correct household that is on the Flint Water System.
    d. The database system is capable of monitoring abuse of the system.
    e. The database system would allow for real time data computation.
    f. The warehouse(s) would be able to monitor inventory of each POD.

7. Inventory tracked at the state warehouse(s)
    a. The state warehouse(s) would continue to track using existing inventory management tools.
        i. Incoming shipments will be recorded by the warehouse.
        ii. Outgoing shipments will be recorded by the warehouse.
            1. To the PODs
            2. To Rapid Response Teams
    b. Commodities given out to Flint Water System households will be recorded at the PODs (§ 6.b).
8. Transition from Flint Fire Station PODs
    a. Michigan National Guard (MING) will continue to staff the Flint Fire Station PODs until March 16.
        i. Starting Wednesday, February 24 nine local hires will be embedded with the MING to observe how to operate a POD.
            1. These nine local hires will become the Support Team Leaders for each POD.
            2. The Support Team Leaders will be in the fire station PODs until the time that the new PODs are established.
        ii. MING may be used at the new PODs as POD Loaders, Traffic Controllers if the current mission is extended.

<u>Rapid Response</u>

9. Rapid Response Team makeup
    a. Nine Rapid Response Teams would be staged at the state warehouse(s).
    b. Each Rapid Response Team would be comprised of (detailed description is in *Attachment C: Staffing/Equipment Needs: Rapid Response)*:
        i. Driver
        ii. Plumbing Apprentice
        iii. Direct Delivery Specialist
    c. Each Rapid Response Team would be assigned a Ward.
    d. Teams would operate off a set route within their Ward that is designed to maximize output with minimizing drive time.
    e. Rapid Response Teams would only be needed to deliver water to Access and Functional Needs households.
    f. 2-1-1 calls for assistance would be assigned to a Rapid Response Team based on the Ward of the calls origin and be placed in que for the team to respond to within 24 hours.
        i. These incoming requests will be worked into the route to not affect the momentum of the team.
    g. Rapid Response Teams would restock their vehicles at the state warehouse(s).
10. Access and Functional Needs (AFN) Populations

a. AFN populations will be receiving direct mailed water filtration systems and water filtration system replacement cartridges.
    i. United Parcel Service (UPS) donated the resources to ship these filters to the AFN households on the Flint Water System.
b. Water would be delivered to this population by the Rapid Response Teams.

Subject: RE: DRAFT: Long-Term Distribution Plan

Bri,

I think things look good...I noted we might want to ensure portable water coolers (to hold lunches, drinks, etc) and what about office supplies? Anything need to be listed for that? Will they utilize their own cell phones for communications (I may have missed something there)

Subject: DRAFT: Long-Term Distribution Plan

Capt,

Attached is where we are as of 4:30 p.m. today.

I received a call today from the GST MI Works office reference the jobs program and hiring the staff next week to shadow the NG. I provided information based on discussions with NG staff in the SEOC. They are working to make this happen, but it may not be Wednesday. I will be attending the meeting in Flint on Monday regarding the jobs program and I hope to be able to have a better date on this. We may need to bring in another agency (Civil Service?) to assist with job descriptions, qualifications, and pay ranges.

We started on a timeline this afternoon, but it's still missing items. I have attached the draft. We will expand on this over the weekend/early next week.

DTMB is assisting with research for timelines and costs to implement a tracking mechanism for the commodities, as well as a direct delivery model for filters/cartridges.

MDOC has provided the staffing and equipment requirements for the two warehouses, and we're currently working them into the plan.

Lt. Roach is planning to work on site selection early next week. GIS is currently developing a rough list for her. FEMA GIS provided a map layer that GIS is working from.

FEMA provided a list of IS training courses that will be worked into the plan.

Let us know if you have any questions or concerns with anything.

Thanks,
Bri/Jay

Brianna Briggs

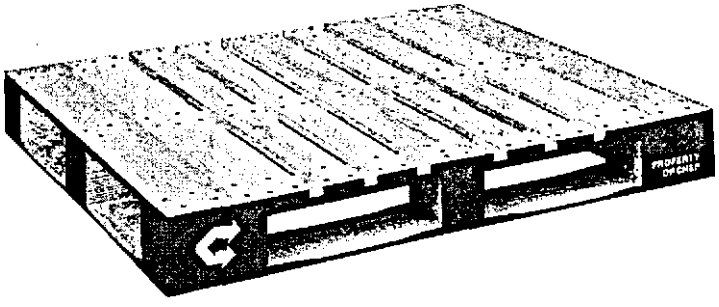
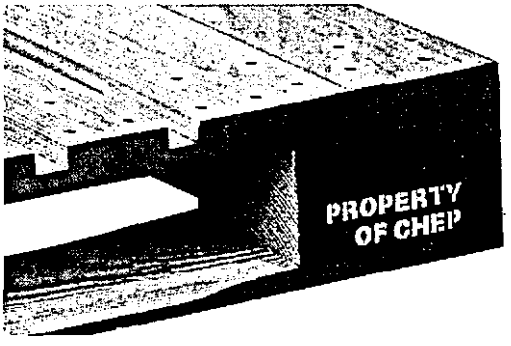
CHEP Asset Identification & Ownership

CHEP
A Brambles Company



Block Pallet



Pallet Identification:

CHEP marks its proprietary pallets with distinctive blue paint on all vertical edges along with its trademark/logo and the statement "Property of CHEP." If you come into possession of CHEP pallets, please promptly call 877-362-2437 to arrange for collection at CHEP's expense.

Chep's Business and Pallet Ownership:

CHEP is in the pallet pooling business and rents its proprietary wooden block pallets to businesses throughout the United States. CHEP does not sell its pallets. CHEP retains exclusive ownership rights in all of its pallets at all times, and they may never be legally bought, sold, used, disposed of or otherwise dealt with (e.g. exchanged for white wood) in a way that is inconsistent with CHEP's ownership rights. Violators will be prosecuted to the fullest extent of the law.

The CHEP logo and words:

Property of CHEP

Please return all CHEP assets, call 877-362-2437 for pick up

FLINT WATER RESPONSE
DAILY STRATEGIC MESSAGING
Feb. 3, 2016

Key Messages

- We are concerned about levels of lead found in the Flint, Michigan water supply and its impact on the health and safety of the community.
- Have your water tested as soon as possible using the official, free water testing kit or by EPA.
- Filters capture lead up to 150 parts per billion. People whose water has higher levels of lead should use bottled water until water tests show lead levels have dropped to less than 150 parts per billion.
- Clean your faucet aerator every couple of weeks
- Over the past few weeks the federal government has ramped up support for the people of Flint, bringing in technical experts from the Federal Family.
- We're looking across the federal government at ways we can use our programs and our expertise to help the city and the state ensure immediate access to safe water and a safe water supply.
- Residents may contact the newly established EPA hotline **(800-426-4791)** or email address **(flintwater@epa.gov)** for information about EPA's water sampling efforts. The hotline will provide immediate, telephonic translation in multiple languages.

Products for Release

- *News Releases:*
  - Results from EPA's sampling efforts **Time to TBD pending development and approval**
  - **HHS:** Letter to Gov. Snyder on Federal Government progress on State requests
  - **HHS:** US Public Health Officers Corps Activities
  - **EPA:** may offer a quote for the Whaley Children's Center news release highlighting water sample results.

Operational Communication Events

- *News Interviews*
  - **HHS: Michigan Radio** re: Federal Government Command Structure, Don Boyce
- *News Conferences*
  - **None**
- *VIP Visits*
  - **None**

Stakeholder Calls/Briefings/Meetings

- **Congressional Hearing:** US HOR, Committee on Oversight & Gov't Reform: Examining Federal Administration of the Safe Drinking Water Act in MI @ 9 a.m. (https://oversight.house.gov/hearing/examining-federal-administration-of-the-safe-drinking-water-act-in-flint-michigan/

Speakers Bureau (Community) Outreach Events

- **Rotary Club of Greater Flint Sunrise, Monthly Meeting** @ 7 a.m., Baker College Academic Resource Center Library 1050 W. Bristol Rd, Flint, MI 48507, Charles Rodriguez, EPA Community Involvement Coordinator

LOOKING AHEAD

UPCOMING EVENTS/ACTIVITIES

- **HHS**: Thursday/Friday, Feb. 4-5, ASPR **Dr. Nicole Lurie** will be in Flint
- **CDC**:
  - Thursday, Feb. 4, Dr. Barbara Reynolds and other CDC risk communications experts will provide Crisis and Emergency Risk Communications training in Flint. The session will be web-streamed.
  - Date TBD, a COCA (Clinician Outreach and Communication Activity) [national audience] call to provide information to health care providers about the health impacts of lead consumption and interventions, such as nutrition.
- **USDA**: 2-3 weeks from now. Planning a school visit/school cafeteria tour in Flint with the Food and Nutrition Service undersecretary or deputy undersecretary.

EMERGING ISSUES THAT MAY AFFECT MESSAGING

- **Flint Mayor calling** for the **removal of lead pipes** from the city's water distribution system.
- **Flint residents headed to Washington, D.C.**, for hearing on water crisis. There will be a prayer vigil and news conference after the hearing.
- **Rash complaints** and possible causes (possible targeted sampling)
- Hearing about **some residents/communities are not being assisted/provided resources** for water quality in home
- We are hearing in the field that there are salesmen trying to reach residents about **reverse osmosis or other filtering options** for their homes.
- CIC's are hearing that **canned food made last summer** that is currently being **sold at farmers markets** were **made with unfiltered water.**
- **WIC request** and explanation of why it can't be accomplished
- **Pets** and water quality

OPERATIONAL TASKS FOR MESSAGING OPPORTUNITIES:

- Possible creation of a Multi-Agency Resource Center (MARC)
- Water filters in HUD property
- Other programs to address nutritional needs of children
- WIC nurses to possibly coordinate blood tests for children

###

Comlabs Vehicles

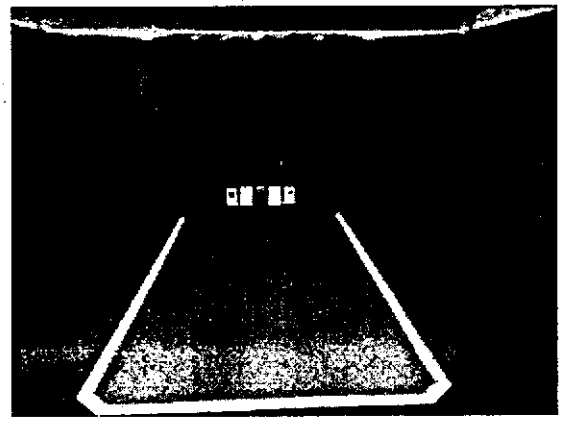
Mobile Emergency Command Center - Current Inventory Unit

Exterior Features

- Full Walk-on Roof
- Customer ladder for roof access
- NMO Mounts on roof for radio antennas
- Undercarriage dry storage – front to rear
- 60 Gallon Fuel Cell
- 60 Gallon Gray Water Storage
- 60 Gallon Black Water Storage
- 60 Gallon Fresh Water Storage
- Outside workstation with phone and internet connections
- Outside I/O Panel

Exterior Equipment

- 1.2 Meter Tracstar auto-acquire satellite dish - iDirect modem - 6 Watt BUC
- Direct TV Satellite Dish
- 30 ft. Telescoping Mast
- Pelco Video Camera
- Outside PA system broadcasting from the phone system
- 20 KW Diesel Generator - Auto-transfer Switch - Surge Suppressors
- Electric over the door awning
- 10' Manual awning
- Emergency warning lights
- 120VAC and 12VDC Scene Lights



Interior Features

- 3 15K Air Conditioner units
- 3 Electric Heaters
- Galley Kitchen – Refrigerator, Microwave, Coffeemaker
- Printer area with storage
- Bathroom
- 1 Equipment Rack – Floor to ceiling
- AC / DC Power
- 6 Work stations - Front
- Conference Table – Rear
- Rack room with locking door
- All over head cabinets with whiteboard fronts
- Locking file cabinets
- Night ops lighting
- Custom Load Center
- Lon Coin rubberized flooring
-

Interior Equipment

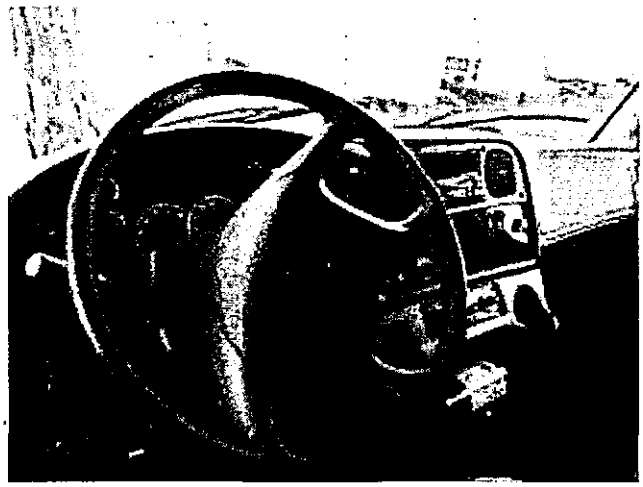
- 42" Inter Active Smart-Board - Front
- 2 – 24" Monitors – Front
- 42" Monitor - Rear
- 2 - 24" Monitors - Rear

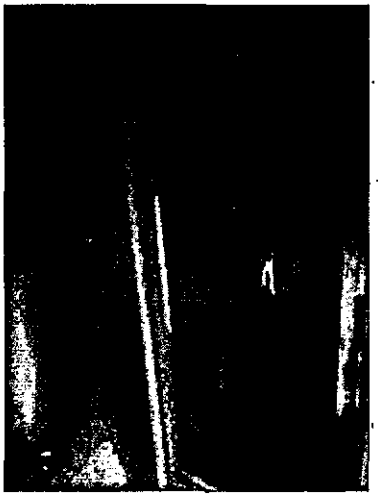
- 16 x 16 Video Switcher with audio
- 2 Direct TV Satellite receivers
- DVD-DVR-TV Tuner -Over-the-air TV antenna
- Windows PC - KVM Switch
- APC3000 UPS
- Cisco UC540 Router
- 2 – 24 port POE Cisco Switches

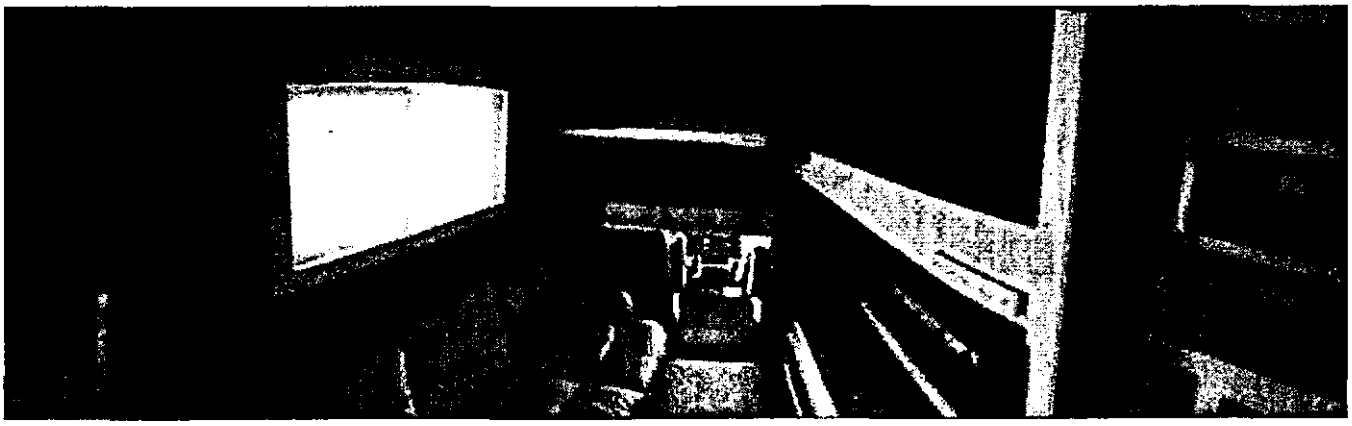
Trailer Specifications:

- 3 – 7000 lb Axles
- Towing weight approximately 18,000 lbs
- Gross Vehicle Weight (GVW) approximately 24,000 lbs
- FRP Body
- All aluminum frame
- 4 Point auto level system
- 2 -12' Slide outs

Tow Vehicle







Tow Vehicle Specifications:

- Freightliner Business Class Chassis
- Year 2013
- 7168 Miles on 2/4/2015
- FRP Body
- Leather Seats – Cab (2)
- 3 Beds
- Leather Sofa – Bed
- Bathroom
- Shower
- FRP Body
- 24" Monitor
- DVD – DVR – Direct TV Receiver – Over-the-air Antenna
- Cisco Phone
- Phone and Satellite TV connect to trailer for bandwidth
- Independent Generator for tow vehicle
- Umbilical connection to trailer power

MDHHS
Michigan Department of Health & Human Services

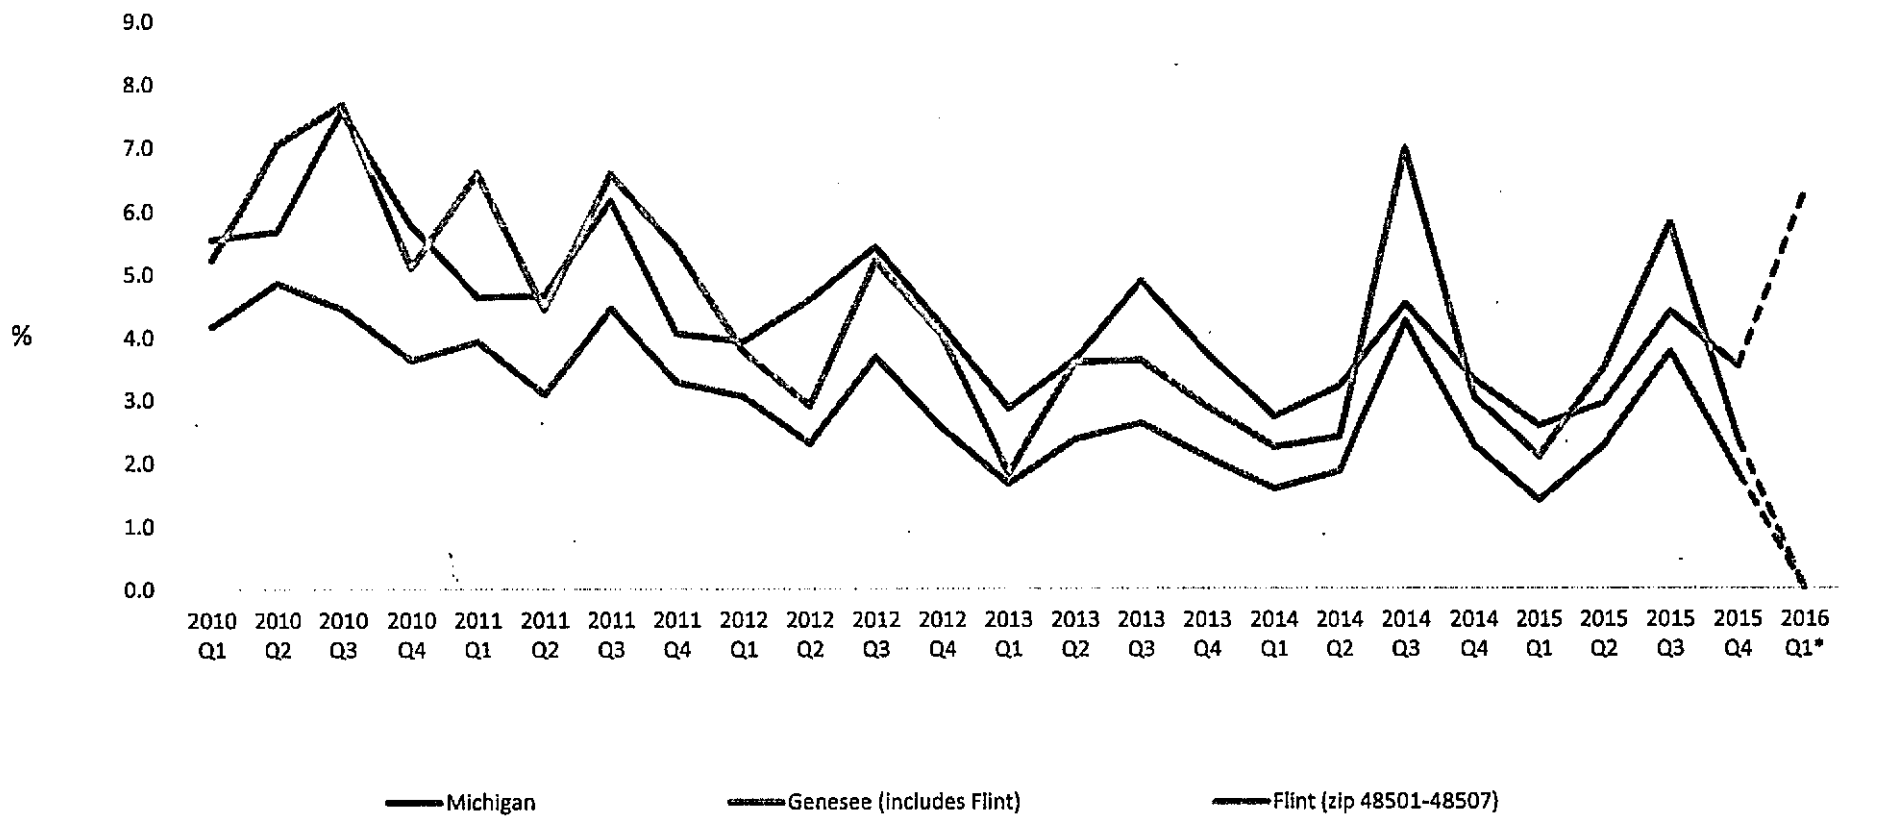
Michigan Department of Health and Human Services (MDHHS) Blood Lead Level Test Results for Flint Zip Codes 48501-48507, Genesee County, and the State of Michigan Summary as of January 8, 2016

Executive Summary

This report is generated by MDHHS to track Blood Lead Level test results in Flint, Michigan.

- Counts on this report include both capillary and venous blood tests.
- People who have had multiple tests are counted only once per year. People counted in 2015 who were tested again after 1/1/2016 are counted in both years.
- Between 10/1/2015 and 1/8/2016, an additional 2,642 people were tested in Flint.
- Continued testing efforts by Genesee County Health Department, MDHHS and local medical personnel have identified 35 children with blood lead levels greater than or equal to 5 mcg/dL (micrograms lead per deciliter of blood) since 10/1/2015.
- Blood lead level testing is an important part of our efforts to identify people who have been harmed by drinking water that contained lead. However, MDHHS recognizes that the full community of Flint must be the focus of the public health response.
- 2.3 percent of Flint children younger than 6 years old tested between 10/1/2015 and 1/8/2016, had blood lead levels greater than or equal to 5 mcg/dL.
- After refining our methods to identify age, some people are now counted in a different age group than on previous reports. The total counts for each year have not changed.

Incidence of elevated blood lead ≥ 5 mcg/dl among children < 6 years of age by quarter, Michigan, 2010- 2016



* Data for Quarter 4 of 2015 and Quarter 1 of 2016 are incomplete and subject to change.

LT. GOVERNOR

EXECUTIVE ORDER
No. 2016 – 02

ACTIVATION OF THE NATIONAL GUARD TO ASSIST IN RESPONDING TO THE EMERGENCY RELATING TO THE CITY OF FLINT'S WATER SYSTEM

WHEREAS, Section 1 of Article V of the Michigan Constitution of 1963 vests the executive power of the State of Michigan in the Governor; and

WHEREAS, Under Section 12 of Article V of the Michigan Constitution of 1963 the Governor is the Commander-in-Chief of the state armed forces and may call them out to execute the laws; and

WHEREAS, Section 151 of the Michigan Military Act, MCL 32.551, authorizes the Governor to order any members of the organized militia to active state service in the aid of the civil authority in times of public danger, disaster, crisis, catastrophe, or other public emergency within the State; and

WHEREAS, municipal water in the City of Flint showed elevated lead levels after the City of Flint changed its water source from the Detroit water system to its own treatment plant drawing from the Flint River; and

WHEREAS, by Executive Proclamation issued on January 5, 2016, the Governor declared a State of Emergency in the City of Flint and Genesee County; and

WHEREAS, lead can be introduced to humans through water, and elevated lead levels can result in significant health impacts, particularly for children, pregnant women, and the elderly; and

WHEREAS, the State's first priority in addressing this emergency is to limit potential exposure to lead in drinking and cooking water by limiting potential exposure to lead in the City's water system; and

WHEREAS, other priorities include: (1) directly informing as many Flint residents as possible that filters, bottled water, information on lead, water testing kits, and other resources are available; and (2) directly providing resources to Flint residents and following up with those residents to ensure that they have access to safe water, are fully informed, and have their water supply tested. These tasks will require that personnel go door-to-door in large areas of the City of Flint; and

WHEREAS, due to the significant level of human and other resources required for these tasks, additional assistance is needed to supplement existing personnel and equipment; and

WHEREAS, by the Executive Proclamation of Emergency issued on January 5, 2016, the Governor directed that the Emergency Management and Homeland Security Division of the Department of State Police, coordinate and maximize all state efforts, and call upon all state departments and agencies to utilize available resources to assist the City of Flint and Genesee County pursuant to the Michigan Emergency Management Plan;

NOW, THEREFORE, in consequence of the above, I, Richard D. Snyder, Governor of the State of Michigan, pursuant to the Michigan Constitution of 1963, the Michigan Military Act, 1967 PA 150, MCL 32.501 et seq., and the Emergency Management Act, 1976 PA 390, MCL 30.401 et seq., order the following:

1. The Adjutant General of the Michigan National Guard is directed to order to active state service units and individuals of the Michigan National Guard that, in his discretion, he deems appropriate to meet general mission assignments as determined by the Director of the Department of State Police, or her designee.

2. The Director of the Department of State Police, or her designee, shall coordinate and maximize all state efforts, including such units and individuals of the Michigan National Guard that may be activated to state service to assist the City of Flint and Genesee County in accordance with the Michigan Emergency Management Plan.

3. The Michigan National Guard is activated until such time as determined by the Adjutant General, after consultation with the Director of Department of State Police, or her designee.

The Executive Order shall become effective upon filing.

Given under my hand and the Great Seal of the state of Michigan this 12th day of January, in the year of our Lord, Two Thousand Sixteen

EXECUTIVE ORDER
No. 2016 – 1

CREATION OF
FLINT WATER INTERAGENCY COORDINATING COMMITTEE

MICHIGAN DEPARTMENT OF STATE POLICE

WHEREAS, Section 1 of Article V of the Michigan Constitution of 1963 vests the executive power of the state of Michigan in the Governor; and

WHEREAS, Section 2 of Article V of the Michigan Constitution of 1963 empowers the Governor to make changes in the organization of the Executive Branch or in the assignment of functions among its units that he considers necessary for efficient administration; and

WHEREAS, municipal water in the City of Flint showed elevated lead levels after the City of Flint switched its water source to the Flint River; and

WHEREAS, the County of Genesee and the City of Flint have taken actions to cope with the situation, including but not limited to, switching back to the Detroit water system on October 16, 2016, declaring local states of emergency, activating the emergency response and recovery aspects of their emergency operations plan, marshaling and distributing required resources on a city-wide level, and issuing emergency public information and bulletins; and

WHEREAS, the Flint Water Advisory Task Force was formed as an independent advisory task force charged with reviewing actions regarding water use and testing in Flint; and

WHEREAS, the Flint Water Advisory Task Force has made an interim recommendation that the state government should coordinate a sustained, public-health focused response to remedy, to the fullest extent possible, the impacts on the Flint community; and

WHEREAS, on January 5, 2016, the Governor issued a proclamation declaring a state of emergency in the County of Genesee and the City of Flint; and

WHEREAS, multiple state departments and local authorities share the responsibility for ensuring safe drinking water and the coordination of efforts to address the consequences resulting from the presence of elevated lead levels in drinking water; and

WHEREAS, ensuring safe drinking water and addressing the consequences of elevated lead levels in drinking water will require collaboration and communication between state departments, local governments, and subject matter experts; and

WHEREAS, the establishment of a Flint Water Interagency Coordinating Committee within the Michigan Department of State Police will facilitate the collaboration and

communication between state departments, local governments, and subject matter experts necessary to effectively coordinate a response and recovery effort;

NOW, THEREFORE, I, Richard D. Snyder, Governor of the state of Michigan, by virtue of the power and authority vested in the Governor by the Michigan Constitution of 1963 and Michigan law, order the following:

I. CREATION OF THE FLINT WATER INTERAGENCY COORDINATING COMMITTEE

A. The Flint Water Interagency Coordinating Committee ("Coordinating Committee") is created as an advisory body within the Michigan Department of State Police (the "Department").

B. The Coordinating Committee shall be composed of the following seventeen (17) members who shall serve an initial term expiring on December 31, 2018.

- The Director of Office of Urban Initiatives within the Executive Office of the Governor;
- The Deputy State Director of Emergency Management and Homeland Security within the Michigan Department of State Police;
- The Director of the Department of Environmental Quality, or his or her designee;
- The Director of the Department of Health and Human Services, or his or her designee;
- The Director of the Department of Licensing and Regulatory Affairs, or his or her designee;
- The State Treasurer, or his or her designee;
- The Superintendent of Public Instruction, or his or her designee;
- The elected Mayor of the City of Flint who shall be appointed to the Coordinating Committee by the Governor;
- Three (3) additional representatives of the City of Flint who shall be submitted by the Mayor of the City of Flint and appointed to the Coordinating Committee by the Governor;
- Three (3) representatives of Genesee County who shall be submitted by the Genesee County Board of Commissioners and appointed to the Coordinating Committee by the Governor; and
- Three (3) subject matter experts who shall be appointed to the Coordinating Committee by the Governor.

After the initial appointments, members of the Coordinating Committee appointed under this subsection shall serve terms of three years.

C. A vacancy on the Coordinating Committee occurring other than by expiration of a term shall be filled in the same manner as the original appointment for the balance of the unexpired term. A member may continue serving until his or her successor is appointed. A member may serve successive terms if reappointed.

II. CHARGE TO THE COORDINATING COMMITTEE

A. The Coordinating Committee shall act in an advisory capacity to the Governor and subject to the Governor's review and approval, shall do all of the following:

1. Create an incident action plan designed to assist state and local authorities in ensuring safe drinking water for the residents of the City of Flint and addressing the consequences of elevated lead levels in drinking water.

2. Review recommendations made by the Flint Water Advisory Task Force and propose statutory, regulatory, or contractual actions necessary for implementation of such recommendations.

3. Identify staff with competencies in emergency planning, operations, logistics, and finance as outlined under the National Incident Management System (NIMS) to work with the Coordinating Committee to track resource requests and document progress on the incident action plan.

4. Establish a standard process for sharing pertinent information between all members including use of the NIMS and Unified/Incident Command as appropriate.

5. Establish routine communications protocols at the local, executive, and legislative levels as appropriate.

6. Establish a public information protocol to effectively inform the community.

7. Make recommendations for acceptable standards for potable water.

8. Make recommendations regarding the health impacts for the affected population.

9. Assess the status of infrastructure and determine feasible actions to upgrade the water system.

10. Establish subcommittees among its members to specifically address, at a minimum, each of the three following topic areas: Water Quality, Community Health, and Education.

11. Assist the Governor and the Department in implementing appropriate operations permitted under the Michigan Emergency Management Act or the federal Stafford Disaster Relief and Emergency Assistance Act, including local emergency operations plans and guides.

12. Explore any avenues of funding for response and recovery efforts including federal grants, legislative appropriations, and private partners.

B. The Coordinating Committee shall provide other information or advice as requested by the Governor or the Department.

III. OPERATIONS OF THE COORDINATING COMMITTEE

A. The Coordinating Committee shall be staffed and assisted by personnel from the Department as directed by the Department Director. Any budgeting, procurement, and related management functions of the Coordinating Committee shall be performed under the direction and supervision of the Department Director.

B. The Director of Office of Urban Initiatives within the Executive Office of the Governor and the Deputy State Director of Emergency Management and Homeland Security shall together serve as the Statewide Coordinators responsible for the administrative functions of the Coordinating Committee.

C. The Coordinating Committee may utilize subcommittees and advisory panels composed of its members to assist in completing the functions of the Coordinating Committee. The Coordinating Committee may request public participation on advisory panels as the Coordinating Committee deems necessary.

D. When making recommendations to the Governor, a majority of the serving members of the Coordinating Committee must concur.

E. The Coordinating Committee shall meet at the call of either of the Statewide Coordinators and as may be provided in procedures adopted by the Coordinating Committee.

F. The Coordinating Committee may, as appropriate to perform its duties, make inquiries, conduct studies, consult with outside experts and federal agencies, and receive comments from the public.

G. Members of the Coordinating Committee shall serve without compensation but may receive reimbursement for necessary travel and expenses according to relevant statutes and the rules and procedures of the Civil Service Commission, and the Department of Technology, Management and Budget, subject to available funding.

H. The Coordinating Committee may accept donations of labor, services, or other items of value from any public or private agency or person. Any donations shall be expended in accordance with applicable laws, rules, and procedures.

I. Members of the Coordinating Committee shall refer all legal, legislative, and media contacts to the Department.

J. A writing prepared, owned, used, in the possession of, or retained by the Coordinating Committee in the performance of an official function is subject to the Freedom of Information Act, 1976 PA 442, as amended, MCL 15.231 to 15.246.

IV. MISCELLANEOUS

A. All departments, committees, commissioners, or officers of this state or of any political subdivision of this state may give to the Coordinating Committee, or to any member or representative of the Coordinating Committee, any necessary assistance required by the

Coordinating Committee, or any member or representative of the Coordinating Committee, in the performance of the duties of the Coordinating Committee so far as is compatible with its, his or her duties.

B. Any suit, action, or other proceeding lawfully commenced by, against, or before any entity affected under this Order shall not abate by reason of the taking effect of this Order.

C. The invalidity of any portion of this Order shall not affect the validity of the remainder of the Order.

The Executive Order shall become effective upon filing.

Given under my hand and the Great Seal of the state of Michigan this 11th day of January, in the year of our Lord, Two Thousand Sixteen

EXECUTIVE ORDER
No. 2016 – 1

CREATION OF
FLINT WATER INTERAGENCY COORDINATING COMMITTEE

MICHIGAN DEPARTMENT OF STATE POLICE

WHEREAS, Section 1 of Article V of the Michigan Constitution of 1963 vests the executive power of the state of Michigan in the Governor; and

WHEREAS, Section 2 of Article V of the Michigan Constitution of 1963 empowers the Governor to make changes in the organization of the Executive Branch or in the assignment of functions among its units that he considers necessary for efficient administration; and

WHEREAS, municipal water in the City of Flint showed elevated lead levels after the City of Flint switched its water source to the Flint River; and

WHEREAS, the County of Genesee and the City of Flint have taken actions to cope with the situation, including but not limited to, switching back to the Detroit water system on October 16, 2016, declaring local states of emergency, activating the emergency response and recovery aspects of their emergency operations plan, marshaling and distributing required resources on a city-wide level, and issuing emergency public information and bulletins; and

WHEREAS, the Flint Water Advisory Task Force was formed as an independent advisory task force charged with reviewing actions regarding water use and testing in Flint; and
